Nottingham Ring Road
Improvement Scheme

Building a better Nottingham

Nottingham Road junction works from Sunday 1 June 2014

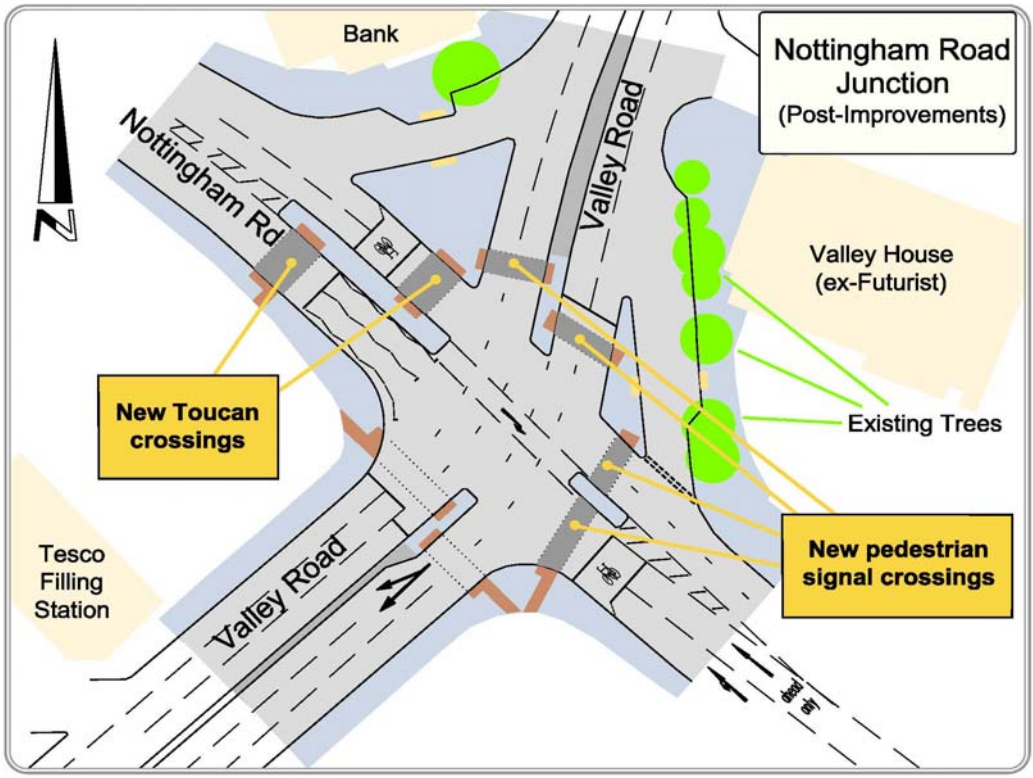

Works are due to start on the junction of Valley Road and Nottingham Road in Old Basford on Sunday 1 June, as part of the Nottingham Ring Road Improvement Scheme.

Construction started on the Ring Road scheme in July 2013, with works to remodel the Ring Road junction with Aspley Lane and the widening of Western Boulevard northbound to three lanes between Aspley Lane and Nuthall Road already completed. The next stage of the scheme focuses on improving pedestrian and cycle facilities at the Nottingham Road junction.

On Sunday 1 June 2014, roadworks will start at the Nottingham Road junction to introduce new crossings for pedestrians and cyclists (see drawing below), and to upgrade the existing traffic signal equipment.

Kerbing and footway works will take approximately three weeks to complete. Off-peak lane restrictions will be in place during this period only.

New traffic light equipment will be installed along with resurfacing works, commencing at the end of July. These works are expected to take two weeks to complete, and significant delays may be experienced during this period, as temporary four-way traffic lights signals will be in operation 24 hours a day.

These works have been planned to take place during the summer school holidays when traffic levels are usually lighter. Motorists are advised to allow extra time for their journeys during these works.

The works will generally take place from 9.30am – 3.30pm off-peak, with some evening and weekend working. We expect all works to be completed by mid-August 2014.

We apologise in advance for any inconvenience that these works may cause you, and would like to assure you that we will do all that we can to keep disruption to a minimum.

For more information about these works please contact us on (0115) 924 24 54, email ringroad@nottinghamcity.gov.uk or visit the website www.nottinghamcity.gov.uk/ringroad
