

New pavements to be laid for pedestrians and cyclists on Western Boulevard

We will be laying brand new pavements on Western Boulevard, between 128 Western Boulevard and Beechdale Bridge (south bound section) from **Friday 4th March 2016** as part of a £16.2m investment in improving Nottingham's Ring Road.

The works will involve full reconstruction of the footpaths, addressing drainage issues and tidying grass verges.

To lay the new pavements on this section of Western Boulevard, pedestrians and cyclists will be diverted onto the northbound section of Western Boulevard via the Toucan crossings. Some lane restrictions will be required however this will be limited to weekends only. Vehicle access to driveways should remain unaffected but if for any reason we do need to temporarily close the access to driveways we will let residents know in advance.

All works will be completed by Thursday 24th March 2016.

We apologise in advance for any inconvenience that these works may cause you, and would like to assure you that we will do all that we can to keep disruption to a minimum.

For more information about these works, please contact us on (0115) 876 5287, email ringroad@nottinghamcity.gov.uk or visit the website www.nottinghamcity.gov.uk/ringroad
