A453 Widening

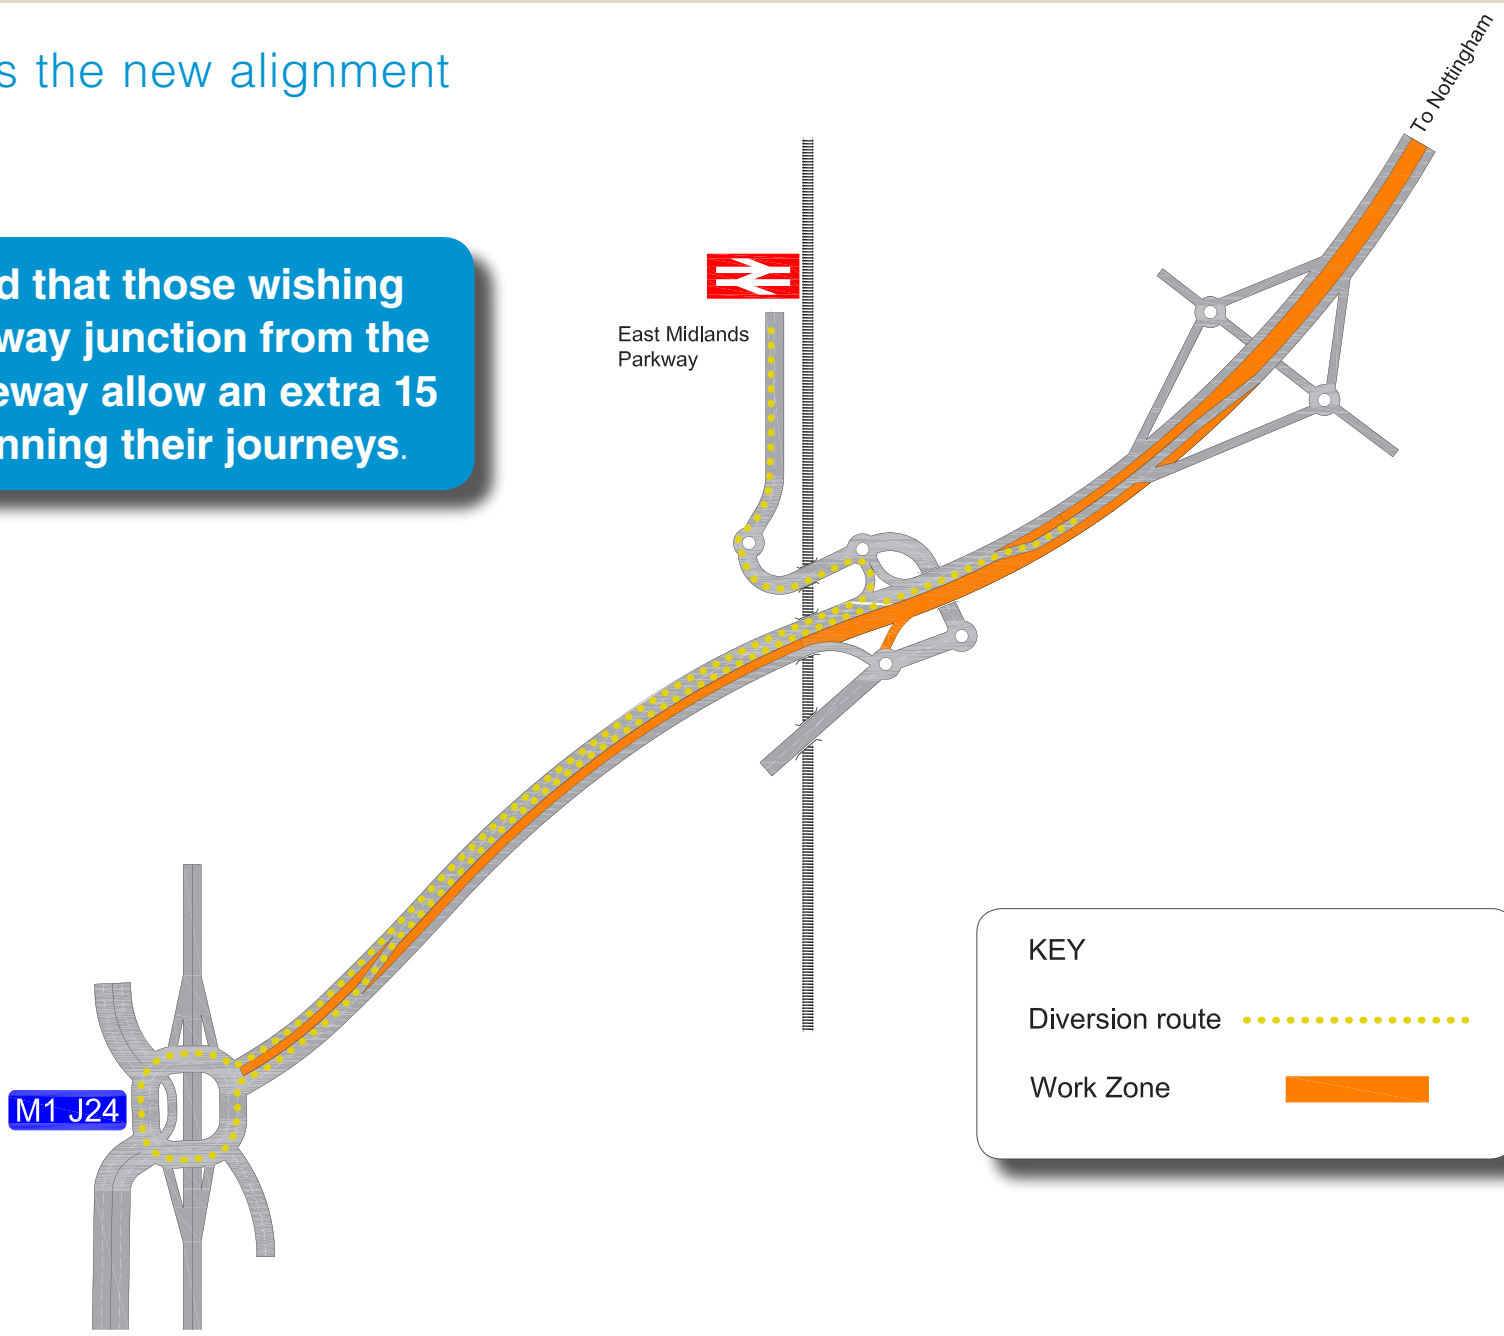

Major traffic alignment switch affecting Parkway junction

From 9pm on 8 May A453 traffic between M1 junction 24 and West Leake will be switched from the current alignment on the westbound carriageway over to the eastbound carriageway. This will affect access to Parkway junction from the westbound carriageway.

- Westbound traffic wishing to access Parkway junction should continue to junction 24 and return along the A453 eastbound, where the newly built slip road to Parkway junction will be open.
- Traffic will be able to exit the junction in both directions as usual.

The diagram shows the new alignment

It is recommended that those wishing to access the Parkway junction from the westbound carriageway allow an extra 15 minutes when planning their journeys.

If you have any enquiries email **ha_info@highways.gsi.gov.uk** or call **0300 123 5000*.**

* Calls to 03 numbers cost no more than a national rate call to an 01 or 02 number and must count towards any inclusive minutes in the same way as 01 and 02 calls. These rules apply to calls from any type of line including mobile, BT, other fixed line or payphone. Calls may be recorded or monitored.

We will keep you updated via the A453 Widening scheme webpage at **www.highways.gov.uk.**
