Plans for the Broadmarsh area

The council's wide-ranging proposal to dramatically transform and regenerate the Broadmarsh area will transform the southern end of the city centre into a top-class destination for retail, leisure and education and is expected to create 2,900 jobs and attract an extra three million people a year to the city.

How to find out more

The improvement works to Wilford Road and Wilford Street have been carefully designed to cause as little disruption as possible, but we apologise in advance for any inconvenience they may cause you. If you have any questions about the works, please email broadmarsh.area@nottinghamcity.gov.uk or call Francis Ashton, Broadmarsh Area Traffic Manager, on 0115 876 5224.

For more information about the **bus diversions** during the first weekend of the improvement works, please contact Nottingham City Transport on 0115 950 6070.

Improvements to Wilford Road and Wilford Street from Friday 22 January until the end of June

As part of Nottingham City Council's £250 million plan to transform and regenerate the Broadmarsh area, work will be taking place on Wilford Road and Wilford Street from Friday 22 January.

The wide-ranging proposals include the pedestrianisation of Collin Street and the northern end of Carrington Street with the removal of vehicles, except buses, from Canal Street.

In order to do this we need to alter some of the surrounding streets to accommodate the rerouted traffic, starting with Wilford Road and Wilford Street. The layout of these roads will be altered to provide two lanes coming out of the city centre and one lane going in. At the same time, we will install better pedestrian and cycle crossings at the junction of Wilford Road, Queen's Drive and Waterway Street West and a better pedestrian crossing at the junction of Wilford Street, Wilford Road and Castle Meadow Road to improve safety for pedestrians and cyclists and access to the city's wider cycle network.

During the improvement work there will be some traffic restrictions and diversions which will be signposted.

From 7pm on Friday 22 January to 5.30am on Monday 25 January there will be:

- No entry to Wilford Road from Wilford Street, meaning drivers cannot leave the city this way (but access to Castle Meadow Road will remain open)
- No right turn from Queen's Drive to Waterway Street West
- No right turn from Waterway Street West to Wilford Road.

During this time, the following diversions will be in place:

- Vehicles from Castle Boulevard and Canal Street will be diverted via Castle Bridge Road
- Vehicles from Queen's Drive will be diverted via Wilford Road, Wilford Street, Castle Boulevard, Greyfriar Gate, Collin Street, Canal Street, London Road, Queen's Road and Sheriffs Way
- Vehicles from Waterway Street West will be diverted via Queen's Drive, Castle Bridge Road and Castle Boulevard.

The Citylink 1 and W4 bus routes will be diverted. For more information contact Nottingham City Transport on 0115 950 6070.

Please see the first map overleaf for the temporary traffic arrangements during this time.

Then, from 5.30am on Monday 25 January until the end of June, there will still be:

- No right turn from Waterway Street West to Wilford Road but the other restrictions will be lifted.

During this time, the diversion for vehicles from Waterway Street West will remain in place.

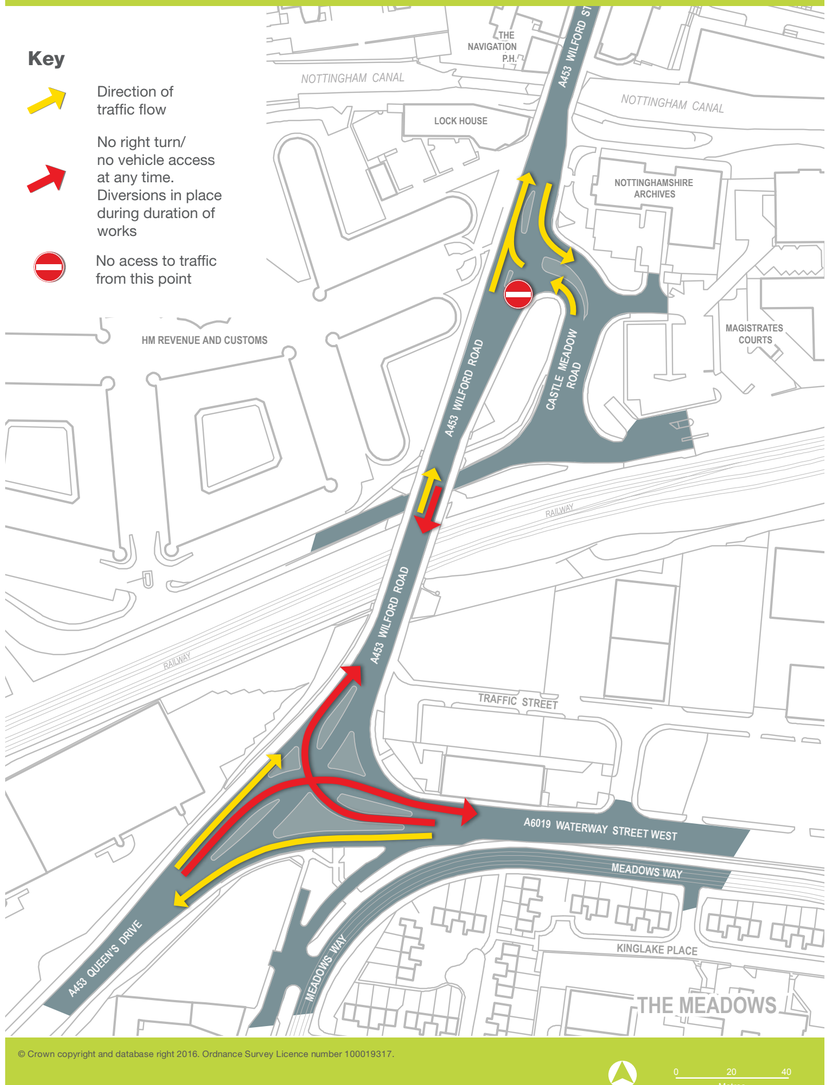

In addition, during this period, from 9.30am to 3.30pm from Monday to Friday and from 9am to 5pm on Saturdays and Sundays various lanes will be restricted on either Wilford Road, Wilford Street, Queen's Drive or Waterway Street West as the work progresses.

Please see the second map overleaf.

Please allow extra time for journeys or, if possible, you may like to consider using one of the following alternative routes during the works:

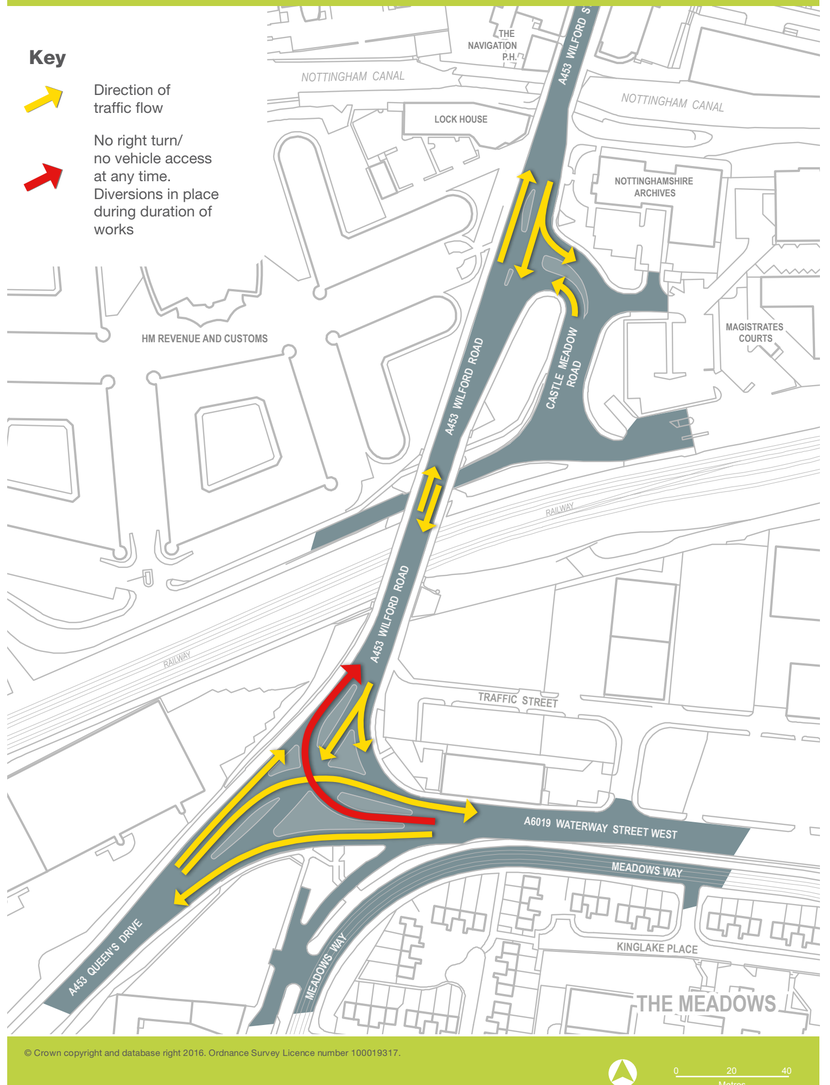

- London Road and Canal Street
- Meadows Way, Crossgate Drive and Queen's Drive
- Meadows Way, Ryehill Street and London Road.
