

New pavements to be laid and better side-road crossings for pedestrians and cyclists being installed on Western Boulevard

We will be laying brand new pavements on Western Boulevard, between Crown Island and Newland Close (southbound section) from **Monday 1st February 2016** as part of a £16.2m investment in improving Nottingham's Ring Road. All works will be completed by Sunday 28th February 2016.

As well as laying the pavements with tarmac, we will install new cycle route crossings to make it easier for pedestrians and cyclists to cross.

Give Way markings will be installed and set back from the junction so that vehicles entering and leaving Newland Close give way to cycles and pedestrians crossing the junction.

As there are two Ring Road entrances / exits on Newland Close, we will create the first side road entry feature, or improved pedestrian and cycle crossing, on the entrance / exit nearest to Crown Island starting on Monday 8th February 2016.

To help us to complete these improvements as quickly and safely as possible for residents, this entrance / exit from Newland Close will be closed to all vehicles. You will, however, still be able to use the other entrance / exit during this time. Once the improved crossing is installed, this entrance / exit on Newland Close will be reopened, and the work to the second entrance / exit (near to the bridge) will be undertaken.

The work to lay the new pavements on this section of Western Boulevard will require off-peak lane restrictions to keep pedestrian and cycle access. Vehicle access to driveways should remain unaffected, but if, for any reason, we do need to temporarily close the access to any driveways to be able to undertake these improvements, we will let residents know in advance.

We apologise in advance for any inconvenience that these works may cause you, and would like to assure you that we will do all that we can to keep disruption to a minimum.

For more information about these works, please contact us on (0115) 876 5287, email ringroad@nottinghamcity.gov.uk or visit the website www.nottinghamcity.gov.uk/ringroad
