

Ring Road works nearing completion

The final stage of Crown Island works are due to **start on Saturday 5 March** as resurfacing begins on Wollaton Road. To reduce the effect of the works on traffic, local residents and businesses, the works will be carried out in phases carefully planned so that all traffic movements around the junction can be maintained during the day. The works will be **completed on Thursday 18 March**. However, some delays are expected and traffic diversions will be in place during the evenings. Nottingham City Council apologises for any inconvenience caused.

Phase 1, 5 – 11 March (including weekends)

There will be a full road closure where Wollaton Road East meets Crown Island between 7pm –11pm, with road restrictions throughout the day. Diversion routes will be in place using Derby Road and Middleton Boulevard, with Ilkeston Road and Lenton Boulevard for local traffic (see plans overleaf).

Phase 2, 12 – 18 March (including weekends)

Wollaton Road West will be closed between 7pm–11pm with diversions in place and off-peak restrictions will also be in place. The diversion route will use Wollaton Drive, Derby Road (A52) and Middleton Boulevard with Wollaton Road and Bramcote Lane for local traffic between Middleton Boulevard and Glaisdale Drive West (see plans overleaf).

Bus diversions

Nottingham City Transport route 30 (City to Wollaton Vale), Your Bus Y28 (City to Bilborough) and Trentbarton two (City to Ilkeston and Cotmanhay) bus services will be diverted during Wollaton Road East and Wollaton Road West closures.

Please contact the relevant public transport company for more details:
