Roadworks News

Sherwin Road area works September 28th 2015

We trust that you have heard about Nottingham's Western Cycle Corridor, if not please find attached a leaflet that was recently delivered within the area.

We are pleased to announce that works on the new route to help transform cycling in Nottingham will start in the Sherwin Road area on Monday 28th September 2015. The plan overleaf shows what the changes to the area will be and the following information details how we will carry out these works. The improvements may take up to 12 weeks to complete and will be carried out in two phases.

Unfortunately it will be necessary to suspend the residents' parking on Sherwin Road at all times for the duration of the works

Phase 1 – north side

The works here are to widen the road to allow for the cycle path to be built. The pedestrian crossing will also be upgraded to allow cyclists to cross safely. The footpath will be resurfaced and the drainage on Chilwell Street will be improved.

To carry out this work some temporary arrangements will be needed:

- The junction of Chilwell Street and Sherwin Road will be closed for approximately 6 weeks; during this closure traffic will be diverted along Harley Street.
- It will be necessary to suspend some parking on Chilwell Street at its junction with Sherwin Road.
- The pedestrian crossing will be switched off while we make the changes to upgrade this.
- Temporary traffic lights may be required at times during the works.

Phase 2 – south side

When the works on the north side of Sherwin Road are complete, we will move onto the south side. The works here are to finish the pedestrian crossing upgrade, build a raised plateau on the Broadholme Street/Sherwin Road junction to allow priority for cyclists and pedestrians and some footway resurfacing and kerbing works. We will also complete the new cycle path here to improve connections to new and existing cycle routes in the area.

To carry out this work some temporary traffic arrangements will be needed:

- The junction of Broadholme Street and Sherwin Road will be closed for approximately 6 weeks; during this closure the traffic will be diverted along Hungerton Street.
- Some parking restrictions will be applied on Broadholme Street as necessary.

Alternative pedestrian routes will always be signed within the area. Nottingham City Council would like to apologise for any inconvenience caused during these works.
