Nottingham CYCLE CITY NEWS
April 2016

Castle Boulevard works update

The City Council's 'Western' corridor, phase 1 cycle route construction programme, funded by the Council and a £6.1m investment by the D2N2 local Enterprise Partnership, is proceeding well.

The next phase of this work is set to start on Thursday 28th April and is due to be completed by approximately 17th June 2016.

Palatine Street to Haslam Street

The works to build the 'Western' cycle superhighway continue with parking still suspended on both sides of Castle Boulevard from Palatine Street to Haslam Street The pedestrian crossing at Fishpond Drive has now been renewed and is in use.

Haslam Street to Castle Road

From 28th April until approximately 17th June all parking will be suspended on both sides of Castle Boulevard from Haslam Street to Castle Road. This is to provide a safe working area to build the 'Western' cycle superhighway and to minimise traffic disruption. Alternative parking locations are shown on the plan overleaf.

The pedestrian crossing at Castle Road is to be renewed. Whilst we carry out this work it will have to be closed but an alternative crossing facility will be provided between Peveril Drive and Castle Road and will be clearly signed (see plan).

Bus Stops LE42 will be moved to a new location and LE13 will be in use soon. Temporary bus stops will continue to be provided during the works. Bus Services will not be affected.

Once we have completed works the parking on the north side of Castle Boulevard will be reinstated as dual use resident and Pay & Display. The south side will be the new 'Western' cycle superhighway.

There will be a new footway and road layout built at each of the side roads within the 'Western' cycle superhighway on Castle Boulevard. We will contact affected citizens prior to the start of this work as we will need to suspend some parking on the side roads while we carry out these works. Access will always be maintained.

The next phases of works on the Western Cycle Corridor will be from Castle Bridge Road to Abbey Bridge roundabout and Abbey Bridge/Abbey Street to Coleby Avenue. We will be updating citizens nearer the time about these works.

The artist impression on the plan overleaf shows how the side road entry treatment will look on the 'Western' cycle superhighway when completed.

Please note that we are expecting disruption at times along the route.
