

Improved side-road crossings for pedestrians and cyclists on Western Boulevard

The City Council are proceeding with works to make changes to side roads, making crossings for cyclists and pedestrians safer and more convenient on Western Boulevard.

Different types of junction layouts will be built where the existing off-road cycle route crosses the road. One of these will set 'Give Way' markings back from the junction, so that vehicles entering and leaving give way to cyclists and pedestrians crossing the junction. On quieter roads and cul-de-sacs, the junction will be changed to a layout which is similar to that of a private drive, where the motorist gives way to pedestrians and cyclists on the shared path.

From **Monday 16th May 2016** we are building the Give Way side-road layout on Northdown Road, at its junction with Western Boulevard.

To help us to complete these improvements quickly and safely, Northdown Road at its junction with Western Boulevard will be closed to all vehicles and lane restrictions between 9.30am and 3.30pm will be in place on Western Boulevard; this is to provide a temporary path for pedestrians and cyclists around the works site. A signed diversion route will be in place for the L4 Locallink Bus service and motorists to use Western Boulevard, Aspley Lane and Grassington Road for the duration of the works that will be completed by **Sunday 29th May 2016.** No bus stops will be affected.

We apologise in advance for any inconvenience that these works may cause and would like to assure you that we will do all that we can to keep disruption to a minimum.

For more information about these works, please contact us on **(0115) 876 5287**, email traffic.management@nottinghamcity.gov.uk or visit the website **www.nottinghamcity.gov.uk/ringroad**
