

Improved side-road crossings for pedestrians and cyclists on Western Boulevard

The City Council are proceeding with a programme of works to change side roads to make crossings for cyclists and pedestrians safer on Western Boulevard.

Different types of junction layouts will be built where the existing off-road cycle route crosses the road. One of these will set Give Way markings back from the junction, so that vehicles entering and leaving give way to cyclists and pedestrians crossing the junction. On quieter roads and cul-de-sacs, the junction will be changed to a layout which is similar to that of a private drive, where the motorist gives way to pedestrians and cyclists on the shared path.

From **Tuesday 3rd May 2016** we are building the Give Way side-road layout on Newport Drive at its junction with Western Boulevard.

To help us to complete these improvements quickly and safely, Newport Drive at its junction with Western Boulevard will be closed to all vehicles and off-peak lane restrictions will be in place on Western Boulevard (northbound only) to provide a temporary path for pedestrians and cyclists around the works site. A signed diversion route will be in place for motorists to use Bracknell Crescent, Didcot Drive and Reydon Drive/Nuthall Road for the duration of the works that will be completed by **Sunday 15th May 2016.**

We apologise in advance for any inconvenience that these works may cause and would like to assure you that we will do all that we can to keep disruption to a minimum.

For more information about these works, please contact us on **(0115) 876 5287**, email traffic.management@nottinghamcity.gov.uk or visit the website **www.nottinghamcity.gov.uk/ringroad**
