May 2016

Western Cycle Corridor - Abbey Bridge Roundabout Resurfacing

The roundabout where Castle Boulevard meets Abbey Bridge requires resurfacing as part of the Western Cycle Corridor project. Works are due to start **31 May until 3 June 2016 (7-11pm)**.

The resurfacing work is being done during evenings to reduce disruption to daytime traffic, and it will be done one half at a time to allow Castle Boulevard and Sherwin Road to continuously remain open.

The roundabout is not wide enough for two way traffic therefore traffic lights will be in operation during the works, with traffic restrictions in place on Park Road, Harley Street and Abbey Bridge. There will be no access to or from the roundabout from Harley Street or Park Road whilst the work is being done. Diversion routes will be signposted.

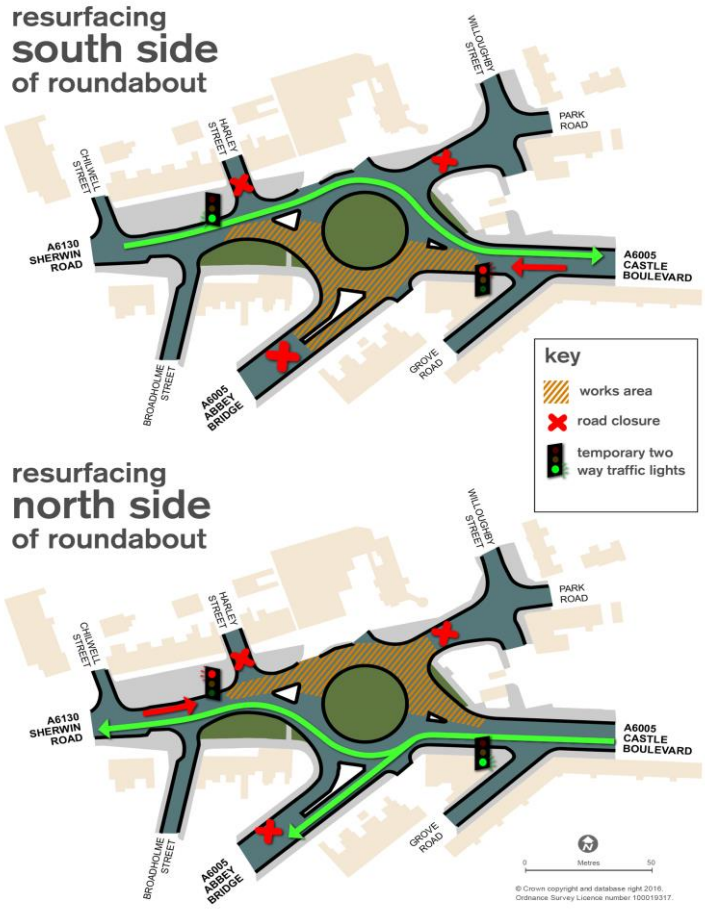

Abbey Bridge will also be closed where it meets the roundabout when works are on the South (Abbey Bridge) side and traffic diversions will be in place.

When work on the North side is underway, traffic will be able to enter Abbey Bridge from Castle Boulevard and Sherwin Road, but it will not be able to get on to the roundabout from Abbey Bridge. Diversion routes will be signposted.

The roundabout and approach roads will all be fully reopened and return to normal at the end of each evening.

We are aiming to keep disruption to a minimum and apologise for any inconvenience the works may cause.

Please see diagrams for further information.
