November 2015

Western Cycle Corridor - Phase 2 consultation

(City Road, University Boulevard and Woodside Road)

Work is now underway on the first phase of the Western Cycle Corridor - which will see Nottingham's first Cycle Super Highway built – and we are set to start consultation on phase two of the project.

The Western Cycle Corridor is split into two sections. Section 1 will run from the city centre along Castle Boulevard, over Abbey Bridge to Dunkirk roundabout, connecting to section 2 which will run via City Road to University Boulevard.

This takes the route to the city's western boundary at the Broadgate roundabout and finishes on Woodside Road at the A52 Priory roundabout. The route will connect to major destinations including the QMC and the University of Nottingham.

Consultation on Section 1 of the Western Cycle Corridor route closed on September 4th 2015. Construction works then started on the September 28th, 2015. Work on both sections is due to finish by May 31st 2016.

We are re-opening consultation for phase two of the corridor between Dunkirk Roundabout and Lenton Abbey. The local event gives residents the chance to have their say on the more detailed plans that have been created. Responses will be considered prior to the start of construction.

How to have your say

Consultation will begin on November 23rd 2015 and close on December 13th 2015.

Online

For more information or to add your comments use the online interactive consultation map transport2.nottinghamcity.gov.uk/cycle

In person

A public consultation event will take place on November 30th 2015, held at the Sheila Roper Community Centre, see reverse of leaflet for address and accessibility details. It will take place from 9.30am to 11.30am and from 6pm to 8pm.
