WARD REPORT 2013

INTRODUCTION

This is the eighth annual One Nottingham Ward Report, produced to provide a variety of data at a Ward, Area Committee and Locality level.

The report includes data for a number of indicators, covering the themes of Worklessness; Health; Education; Crime, Housing and Liveability. It also includes data from the 2012 Citizens Survey.

The report concentrates on providing data at a Ward, Area Committee and Locality level - where data are available – but comparisons with the City, Greater Nottingham and England have been given where possible.

Greater Nottingham figures have been included for two reasons. Firstly, it is over this area that many local transport and economic strategies are formulated and delivered. Secondly, the City of Nottingham boundaries are very tightly drawn and Greater Nottingham gives a more complete picture of the urban area.

Data has been provided by a number of Agencies and Partners, including: Department for Work and Pensions; Nottinghamshire Police; Nottinghamshire Fire and Rescue Service; Nottinghamshire Futures; plus Nottingham City Council Children and Families department; Communities department; Public Heath; Housing Benefits; Accident Investigation; Street Scene and the Youth Offending Team.

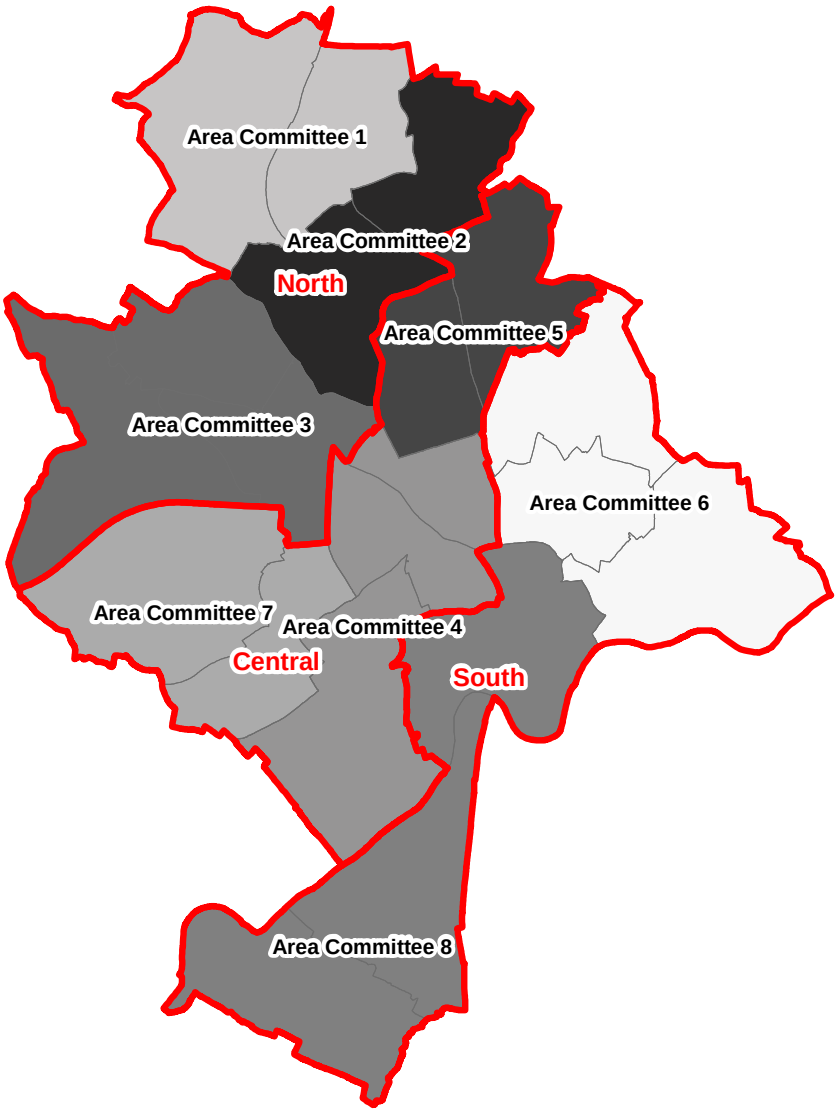

The contextual tables include data from the Office for National Statistics and the Department for Communities and Local Government and much is subject to Crown Copyright. Please quote the source when using the data.

Many of the datasets are available on the Nottingham Insight website (www.nottinghaminsight.org.uk), which also includes further contextual data from the 2011 Census, the 2010 Indices of Deprivation, the 2012 Citizens' survey, plus Ward Reports from the past few years.

If you would like any further information about this report, please contact Nicola Kirk in the Policy and Research team in the City Council, on (0115) 876 3979, or by e-mail, at: nicola.kirk@nottinghamcity.gov.uk

In 2011 a restructure of Area Committees resulted in a decrease from 9 to 8 Area Committees, grouped into 3 Localities.
The table and map below show which wards make up each Area Committee and Locality. Throughout the report, Area Committees are listed with their number for ease.

Locality	Area	Wards
North	1	Bulwell; Bulwell Forest
	2	Basford; Bestwood
	3	Aspley; Leen Valley; Bilborough
Central	4	Arboretum; Radford & Park; Dunkirk & Lenton
	5	Sherwood; Berridge
	7	Wollaton West; Wollaton East & Lenton Abbey
South	6	Mapperley; St Ann's; Dales
	8	Bridge; Clifton North; Clifton South

REGISTERED UNEMPLOYED

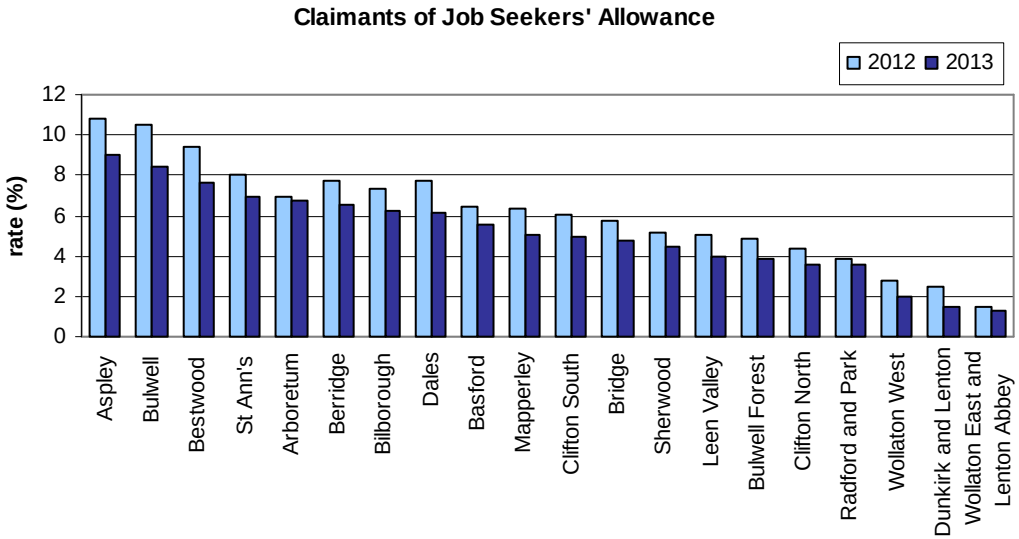

Number of people registered as unemployed (claimants of Job Seekers Allowance) and proportion of resident working age population

Unemployment rate by Ward

		December 2011		December 2012		December 2013	
Key	Ward	Number	%	Number	%	Number	%
1	Arboretum	796	6.9	791	6.9	773	6.7

Caveats: Rates are calculated using the resident working age population from the 2012 Mid Year Estimates. In 2009 the definition of 'working age' changed to 16-64 for both males and females instead of 16-59 for females and 16-64 for males.

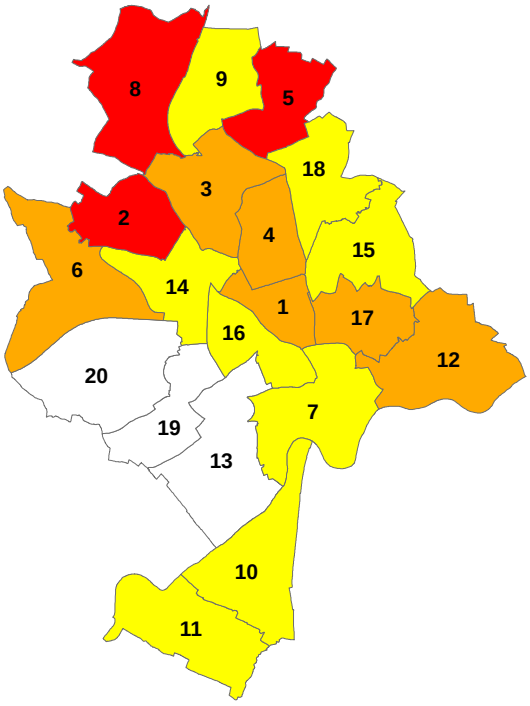

Unemployment rate by Area and Locality

Area	December 2011 Number	%	December 2012 Number	%	December 2013 Number	%

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Job Seekers Allowance, Dec 2013

- 1.3 - 3.2
- 3.3 - 5.1
- 5.2 - 7.1
- 7.2 - 9

- **Please note:** Changes to the benefits system were implemented in 2008 with further changes in October 2009 and 2010 - affecting claimants of Lone Parent Income Support. Also, in April 2011, the process of reassessing Incapacity Benefit claimants began. Some claimants of these two benefits will have transferred to Job Seekers Allowance.
- Unemployment fell by over 2,000 across the City between 2012 and 2013, with all wards seeing decreases.
- The largest decrease was in Bulwell ward – with over 200 fewer people.
- 8 other wards saw falls of more than 100 people.
- Aspley ward has the highest unemployment rate at 9%, and Wollaton East and Lenton Abbey ward has the lowest with 1.3% of the population aged 16-64 claiming JSA, followed by Dunkirk and Lenton and Wollaton West wards with 1.5% and 2.0% - although rates in these wards will be slightly skewed due to the large numbers of students. These are the only City wards with a rate lower than the England average.

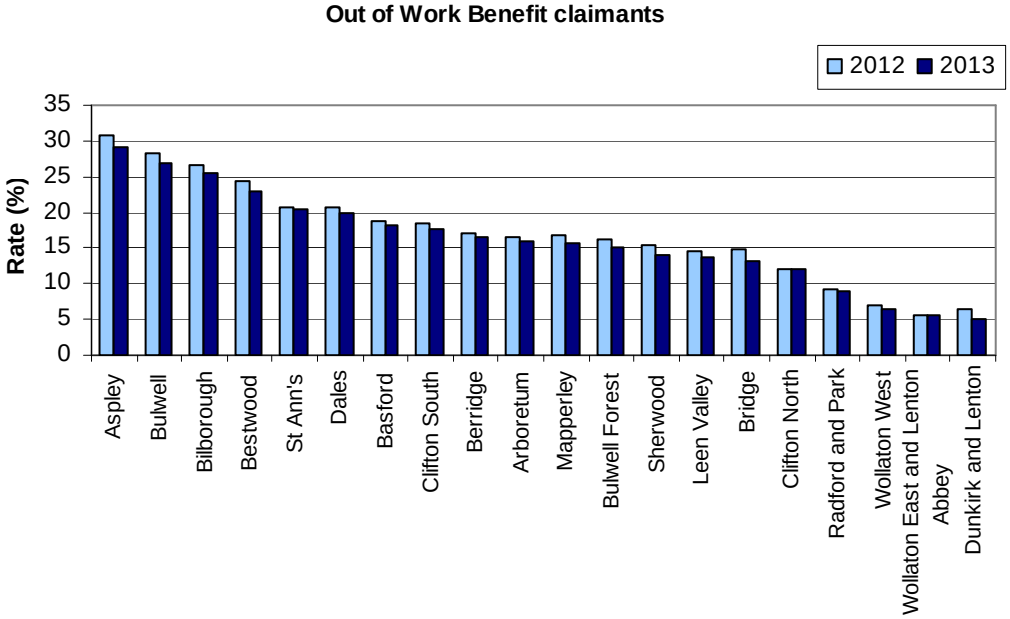

OUT OF WORK BENEFITS

Number of working age people claiming out of work benefits and proportion of resident working age population

Out of Work Benefit claimants by Ward

		May 2011		May 2012		May 2013

- **Definition:** The number of working-age people who are claiming one or more key DWP benefits. To avoid double counting, people are allocated to a 'statistical group' in the following order: Job Seekers Allowance; Incapacity Benefit and Employment Support Allowance; Income Support for Lone Parents and Other Income related benefits.
- **Please note**: Changes to the benefits system have been implemented from 2008, primarily affecting claimants of Lone Parent Income Support and Incapacity Benefit. Some Lone Parents with older children have been transferred to Job Seekers Allowance, and some people unable to work through incapacity, have been reassessed and may have been transferred to another benefit.
- The highest rate of claimants is in Aspley ward – where 29.2% of the population aged 16-64 claim an out of work benefit.
- The lowest rate is in the two Area 7 wards, Dunkirk & Lenton, and Radford & Park, - the only four wards with a claimant rate lower than the average for England.
- All City wards saw a decrease in number and rate of claimants between 2012 and 2013. The greatest decrease was seen in Bridge ward, a decrease of 200, nearly 2 percentage points.

INCAPACITY BENEFITS & EMPLOYMENT SUPPORT ALLOWANCE

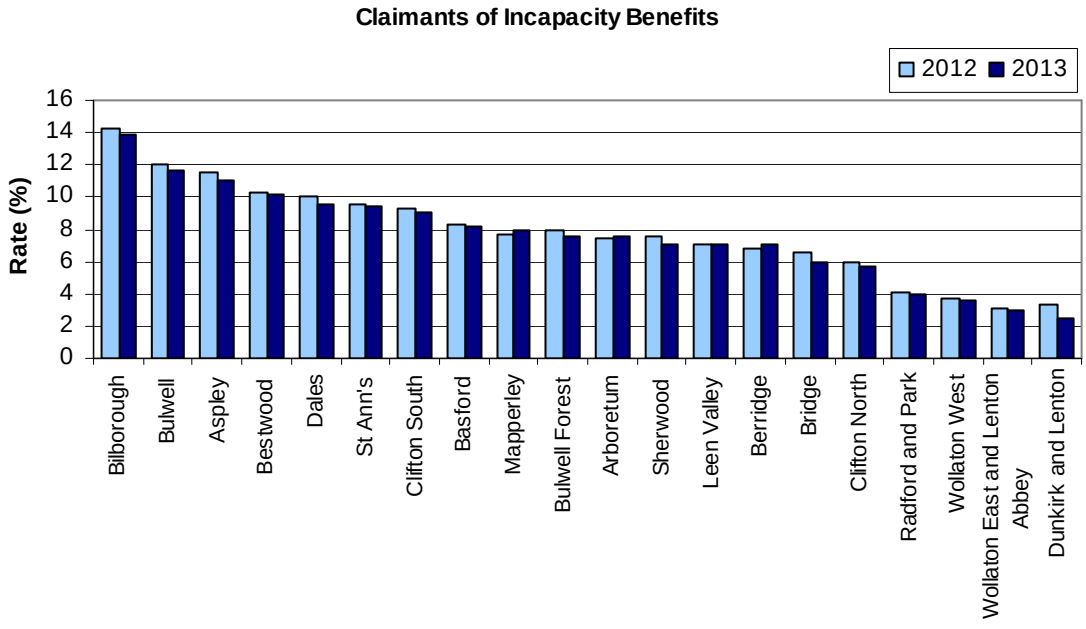

Number of people claiming Employment Support Allowance, Incapacity Benefit or Severe Disablement Allowance and proportion of resident working age population

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Incapacity Benefits, May 2013

- 2.5 - 5.3
- 5.4 - 8.2
- 8.3 - 11.0
- 11.1 - 13.9

- **Definition:** Incapacity Benefit (IB) is paid to people who are incapable of work, mostly due to ill health, and who meet certain contribution conditions. Severe Disablement Allowance (SDA) is paid to those unable to work for 28 weeks in a row or more because of illness or disability. SDA is being phased out. Employment Support Allowance (ESA) replaced new claims for IB from October 2008. A three year process of reassessing IB claimants began in April 2011. Pilot projects suggest that most claimants will transfer to ESA but some claimants will be found to be fit to work and will transfer to Job Seeker's Allowance. This may explain some of the decrease in claimant numbers.
- The highest rate of claims is in Bilborough ward at 13.9% of the resident working age population and nearly double the City average.
- The lowest rate remains in Wollaton East and Lenton Abbey (3.0%) and Dunkirk and Lenton (2.5%)
- 17 wards saw small fall in claimants in the last year, although numbers remained fairly static in all wards, with only Bridge, Dunkirk & Lenton, Dales and Aspley seeing changes of more than 50 people.

PREMATURE DEATHS FROM CANCER

Directly Standardised Rate of Deaths of under-75 year olds from Cancer, per 1,000 population

See over for caveats and definitions.

Directly Standardised Rate of premature deaths from Cancer, 2010-2012

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Premature Mortality from Cancer, 2010-12

- 2.01 - 2.80
- 2.81 - 3.59
- 3.60 - 4.37
- 4.38 - 5.16

- **Definition:** Rates are Directly Standardised to the European Standard Population to allow for the differing age profiles in each area, and are premature (under 75) deaths from all cancers per 1,000 population. The rates are based on three years of pooled data.
- **Caveats:** Please note the upper confidence limit (UCL) and lower confidence limit (LCL) figures in the table, and indicated on the chart above by the error bars. These overlap for many of the wards meaning they are not significantly different to one another.
- The highest rate of premature deaths from Cancer is in Bulwell ward, at 5.16 per 1,000 population. The lowest rate is in Wollaton East & Lenton Abbey, at 2.01 per 1,000. Both are slight increases on the previous period, but the increases are not statistically significant.
- The rate in Bulwell is significantly higher than the rates in Wollaton West, Berridge and Wollaton East & Lenton Abbey.
- Between 2009-11 and 2010-12, 13 wards saw a slight increase in premature mortality from Cancer, but none were statistically significant.

PREMATURE DEATHS FROM CIRCULATORY DISEASE

Directly Standardised Rate of Deaths of under-75 year olds from Circulatory Disease, per 1,000 population

See over for caveats and definitions.

Directly Standardised Rate of premature deaths from Circulatory disease, 2010-2012

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Premature Mortality from Circulatory Disease, 2010-12

- 0.94 - 1.94
- 1.95 - 2.93
- 2.94 - 3.93
- 3.94 - 4.92

- **Definition:** Rates are Directly Standardised to the European Standard Population to allow for the differing age profiles in each area, and are premature (under 75) deaths from cardiovascular disease per 1,000 population. The rates are based on three years of pooled data.
- **Caveats:** Please note the upper confidence limit (UCL) and lower confidence limit (LCL) figures in the table, and indicated on the chart above by the error bars. These overlap for many of the wards meaning they are not significantly different to one another.
- The highest rate of premature deaths from Circulatory disease is in Arboretum, at 4.92 per 1,000 people. This is significantly higher than 8 other wards.
- The lowest rate is in Wollaton West, at less than 1 per 1,000 population, significantly lower than 12 other wards.
- Between 2009-11 and 2010-12, 8 wards saw a slight increase in premature mortality from Circulatory disease, but none were statistically significant.

TEENAGE CONCEPTIONS

Under 18 conception rate per 1,000 females aged 15-17

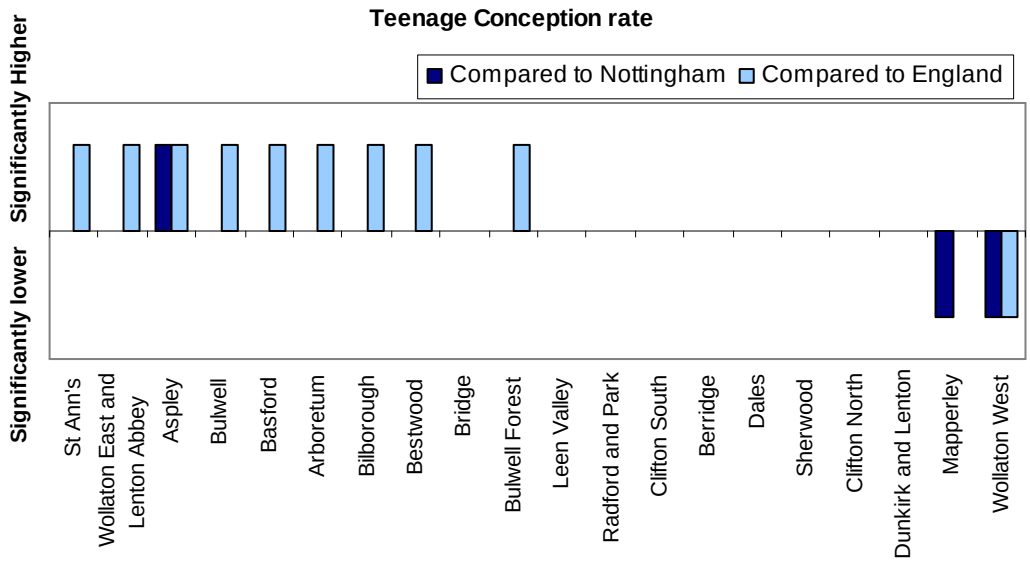

Under 18 Conception Rate by Ward

Source: Office for National Statistics, crown Copyright

Caveats: The ONS state that ward level rates must not be published on the internet, so the table, and the graph and maps below, above just state whether a ward's rate is significantly different to rates for the City or England.

Please note: The graph below shows the wards from highest rate on the left to lowest rate on the right. Some wards may have a higher rate than others but not be significantly different to the City or England due to the large confidence intervals.

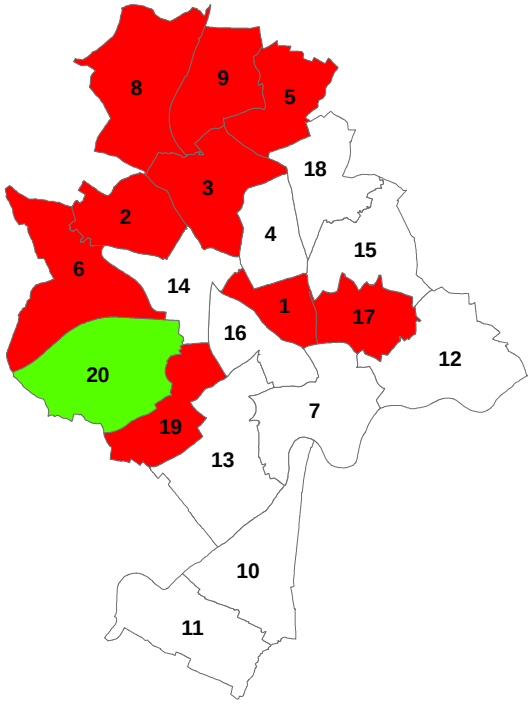

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Teenage conceptions compared to Nottingham, 2009-11

- Significantly higher
- Not significantly different
- Significantly lower

Teenage conception rate compared to England, 2009-11

- Significantly higher
- Not significantly different
- Significantly lower

- Just one City ward has a Teenage Conception rate that is significantly higher than the City rate. 9 wards have rates than are significantly higher than the England rate.
- Wollaton West has a teenage conception rate that is significantly lower than the City and England rates. Mapperley is also lower than the City rate.
- Although the data is not directly comparable, in 2011 Nottingham had a teenage conception rate of 49.5 per 1,000 females aged 15-44. The corresponding rate for England was 30.7 per 1,000.

LIFE EXPECTANCY

Source: Association of Public Heath Observatories

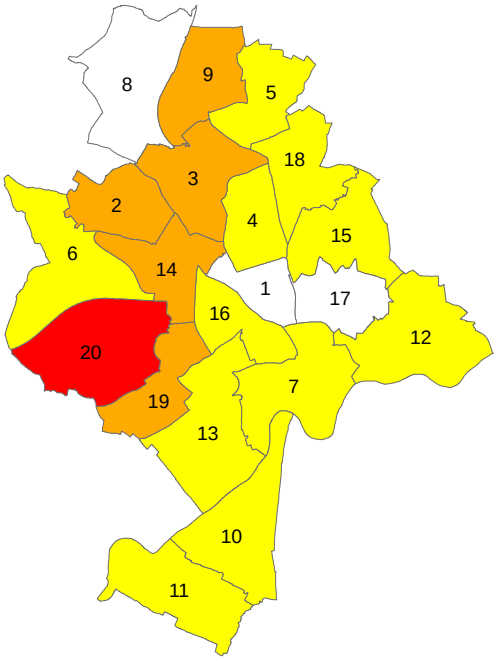

Caveats: Please note that confidence limits overlap, meaning wards may not be significantly different to one another.

Male Life Expectancy at birth, 2006-2010

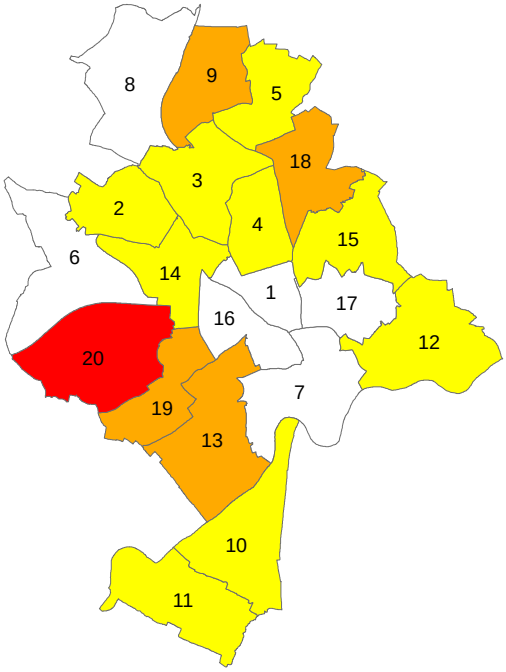

Female Life Expectancy at birth, 2006-2010

Life Expectancy at Birth, males, 2006-10

69.4 - 72.9
73.0 - 76.4
76.5 - 79.8
79.9 - 83.3

Life Expectancy at birth, Females, 2006-10

76.8 - 79.4
79.5 - 82.0
82.1 - 84.6
84.7 - 87.2

- **Please note:** the y-axis on the graphs opposite do not start at 0. Please also note that the range on the maps above differs for Males and for Females.
- The Local Health tool (www.localhealth.org.uk), produced by the Public Health Observatories, uses Middle Super Output Area level data to provide population weighted estimates for wards, but these are not directly compared to the published ward level data for 2005-2009.
- For males and females, the highest life expectancy is in Wollaton West ward. Male life expectancy is lowest in Arboretum ward and in St Ann's for females.
- For males, the gap in life expectancy at birth between the highest and lowest is 13.9 years. For females this is slightly lower, at 10.4 years.

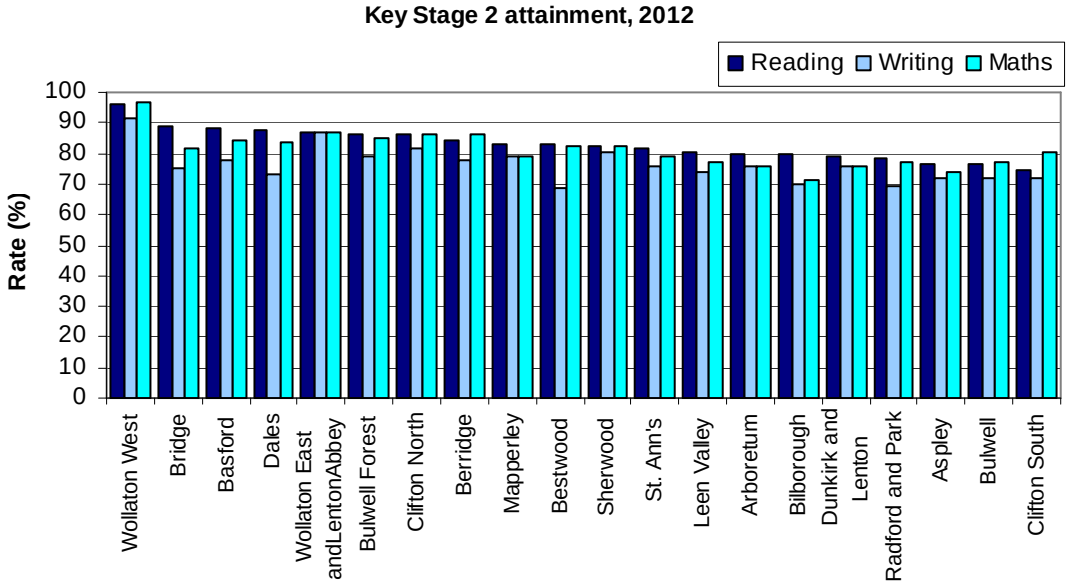

KEY STAGE 2: READING WRITING AND MATHS

Percentage of pupils achieving level 4

- **Definition**: Key Stage 2 attainment is measured at age 11, during the final year of Primary School.
- **Please note**: Due to a change in the Key Stage 2 assessments, the tables above only show data for one year, 2012.
- **Please note:** Figures for wards are given for pupils resident in the City and attending City schools but may exclude a few pupils where their address could not be geo-coded. The Nottingham rate is for all pupils, including those who live outside of the City and those who could not be geo-coded to an area.
- **Please note: The categories on the maps above have been manually adjusted to enable comparisons between the three subjects.**
- The highest rate of attainment in all three elements of Key Stage 2, reading, writing and maths, is in Wollaton West – with 95.8% of pupils achieving level 4 or above in reading, 91.7 % in writing and 96.5% in Maths.
- The lowest rates of attainment for reading is in Clifton South - with 74.3% of pupils achieving level 4 or above, the lowest rate for writing is in Bestwood – with 68.4%, and the lowest rate for maths is in Bilborough ward, where 71.3% of pupils achieved level 4 or above.

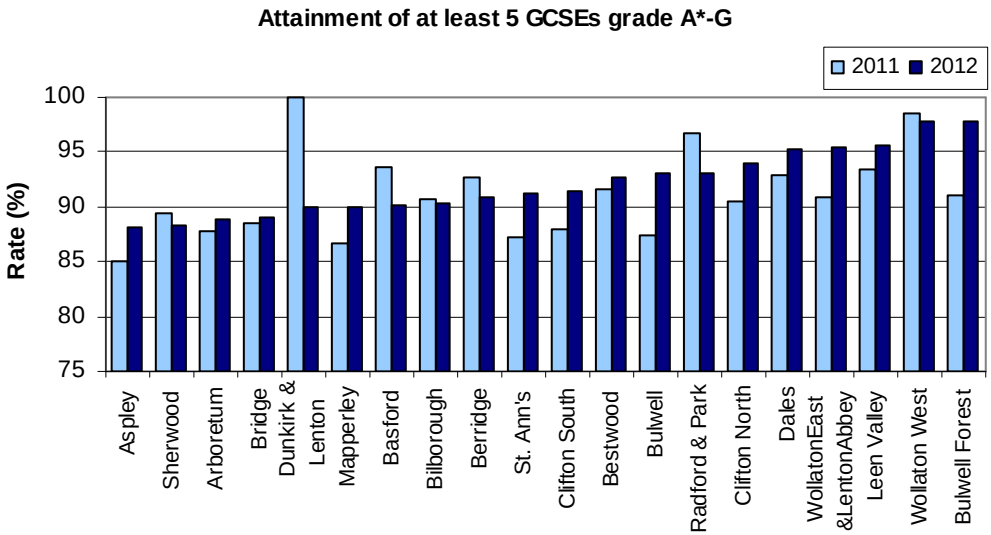

KEY STAGE 4: 5 GCSES GRADE A*-G

- **Please note:** Figures for wards are given for pupils resident in the City and attending City schools but may exclude a few pupils where their address could not be geo-coded. The Nottingham rate is for all pupils, including those who live outside of the City and those who could not be geo-coded to an area.
- **Please note:** Because the number of children in each ward changes year to year, the number of children attaining 5 GCSEs at grade A*-G may show an increase between two years, but the rate may decrease. Conversely the number may decrease but the rate may increase.
- In 16 City wards, over 90% of pupils achieved at least 5 GCSEs of any grade in 2012, an improvement on 2011 of 12 wards.
- The lowest rate of attainment is in Aspley ward where 88.2% of pupils achieved this level, although this represents a 3 percentage point increase on the previous year.
- 7 wards saw a decrease in attainment rates between 2011 and 2012.

KEY STAGE 4: 5 GCSEs GRADE A*-C

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

GCSEs A-C Inc. English and Maths

- 27.3 - 40.1
- 40.2 - 52.9
- 53.0 - 65.6
- 65.7 - 78.4

- **Please note:** Figures for wards are given for pupils resident in the City and attending City schools but may exclude a few pupils where their address could not be geo-coded. The Nottingham rate is for all pupils, including those who live outside of the City and those who could not be geo-coded to an area.
- **Please note:** Because the number of children in each ward changes year to year, the number of children attaining 5 GCSEs at grade A*-C may show an increase between two years but the rate may decrease. Conversely the number may decrease but the rate may increase.
- The highest rate of attainment is in Wollaton West ward, where 78.4% of pupils attained at least 5 GCSEs at grade A*-C including Maths and English in 2012, an increase of 8 percentage points. The ward also has the highest number of pupils, with 109 attaining this level.
- Thirteen wards saw less than half of pupils attaining at least 5 GCSEs at grade A*-C including Maths and English, with the lowest rate in Bridge ward with just over a quarter of pupils - although the ward has low numbers of pupils.
- Fourteen City wards saw increases in attainment since 2011.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- **Definition**: A person is guilty of a dwelling burglary (domestic burglary) if they enter any part of a dwelling (fit for habitation) as a trespasser and steal or attempt to steal anything in the building or attempt to inflict any grievous bodily harm on any person in the building (or intend to carry out any of these acts).
- The highest rate of dwelling burglary is in Arboretum, at 41.1 per 1,000 households.
- The lowest rate is in Bridge ward, with just 4.4 per 1,000 households – a 68% decrease on 2011.
- Overall, there was a decrease of over 200 incidents over the last year, with the largest decrease in Bridge, Dales and St Ann's which all saw more than 50 fewer incidents on the previous year.
- Nine wards saw increases in the number of dwelling burglaries between 2011 and 2012, the largest numerically, being in Bilborough and Clifton South – each with 22 more dwelling burglaries.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Violent Crime rate, 2012

- 2.9 - 17.9
- 18.0 - 32.9
- 33.0 - 47.9
- 48.0 - 62.9

- **Definition**: Violent crime covers a number of offences where physical or verbal assault has taken place on an individual (this includes threats of violence). Offence types range from harassment, to assault, to grievous bodily harm and murder, but the number of serious offences tend to be relatively small. Sexual Offences are also included in this category. Violent crime includes Domestic Violence, which is defined by the Home Office as any violence between current and former partners in an intimate relationship, wherever the violence occurs.
- **Please note:** The figures are based on location of the crime, not residence of the offender or victim.
- The highest rate of violent crime is in Bridge ward which contains much of the City Centre area. This is the most concentrated area of offences due to the night time economy. At 63 per 1,000 population, the rate in Bridge is more than twice that of the next highest ward.
- The lowest rate is in Wollaton West, at 3 per 1,000.
- Nine wards saw an increase in incidents between 2011 and 2012, with the largest increases seen in Arboretum and Clifton North ward – at 53 (+13.8%) and 48 (+41%) more incidents respectively

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Vehicle Crime rate, 2012

- 2.4 - 5.8
- 5.9 - 9.2
- 9.3 - 12.5
- 12.6 - 15.9

- **Definition:** Theft from a vehicle is where the intent is to steal from a vehicle rather than drive it away. Theft of a motor vehicle is committed if, without having the consent of the owner or other lawful authority, the perpetrator takes any vehicle for his own or another's use. This category includes other vehicles such as motorcycles and mopeds.
- **Please note:** Figures are for the location of the theft and not the residence of the offender or victim.
- The highest rates of vehicle crime are in Bridge, Dunkirk & Lenton and Radford & Park wards, all of which have rates of more than 15 per 1,000.
- The lowest rates are in Wollaton East & Lenton Abbey and Bestwood wards, with fewer than 4 per 1,000.
- Across the City the number of vehicle crimes fell by nearly 14% between 2011 and 2012 with decreases in every ward except Berridge, which saw an increase of 39 incidents (+19.7%)
- The largest falls numerically were in St Ann's and Wollaton East & Lenton Abbey wards – with 66 and 50 fewer incidents respectively.

Caveats: Figures show the number of offences, not the number of young people. Figures relate to offences for which a young person has been charged.

The area reported is for the address currently recorded on the YOT database. It is possible that the young person committed the offence or received the outcome before moving to the address that is currently recorded.

Caveats: Figures show numbers of outcomes not numbers of young people – the numbers of outcomes will be greater as a number of young people will have received more than one outcome. Figures are outcomes received by residence of the young person.

Outcomes received by young people, 2012

- **Definition:** A young offender is normally between 10 to 17 years old. Under 10yrs, and the young person cannot legally be charged for an offence. There may be a small number of young people in the figures who are 18 as outcomes are still recorded if the person committed the offence(s) while they were still under 18.
- The greatest number of offences committed by a young person is in Aspley, with 296, of which, 20% of which were are in the category of Violence Against the Person and a further 20% criminal damage. The high number of young people in Area 3 will however contribute to the high number of offences committed.
- The lowest number of offences committed by a young person is in the two Wollaton wards and Dunkirk and Lenton, with just 29.
- The greatest number of outcomes received by young people in 2012 was in Aspley ward, with 116, of which 30% were Police Reprimands.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- The highest number of recorded fly tips was in St Ann's ward, with 1,934, although this was nearly 700 fewer than in the previous year.
- Only three wards had fly tipping rates of more than 100 per 1,000 households – St Ann's, Arboretum and Dales.
- The lowest number of fly tips were in the two Area 7 wards, with 90 in total across Wollaton West and Wollaton East and Lenton Abbey, equating to 10.9 incidents per 1,000 households.
- Five wards saw increases in fly tips between 2011 and 2012, the largest of which was in Radford and Park ward – with 112 more than in the previous year.
- The largest decreases in number were in Dales and St Ann's, with 1,000 and 800 fewer incidents of fly tipping in 2012 than in 2011.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Intentional Fires rate, 2012

- 0.7 - 3.4
- 3.5 - 6.0
- 6.1 - 8.7
- 8.8 - 11.3

- **Definition**: Intentional Secondary Fires: where 'Intentional' refers to deliberate, doubtful or malicious cause of fire and 'Secondary Fire' is a fire with no insurance value or with no casualties involved, such as refuse and grassland fires. Intentional Vehicle Fires: in this context, 'Intentional' basically means arson, and refers to vehicle fires whose causes are deliberate, doubtful or malicious.
- The number of intentional fires fell by more than half between 2011 and 2012, with all wards seeing a decrease.
- The largest number of intentional fires is in Bulwell ward, with 11 per 1,000 households, although the ward saw a decrease of nearly 50% on the previous year.
- The two Area 7 wards and Dunkirk and Lenton have the lowest number of intentional fires, with a total of just 19 across the year.

Source: Nottingham City Council Accident Investigation

- **Definition**: Figures are for the location where an accident involving someone being killed or seriously injured, took place, not the address of the person involved.
- **Please note:** Due to the small numbers involved, percentage changes can look very large and care should be taken in interpreting the data.
- The number of people killed or seriously injured in traffic accidents has decreased slightly across the City between 2011 and 2012 with the largest decrease in Arboretum ward (-7) and Mapperley ward (-5).
- Eleven wards saw falls in casualties and 6 saw increases – the largest of which was in Sherwood (+6).

NOT IN EMPLOYMENT, EDUCATION OR TRAINING

Not in Employment, Education or Training, Sept 2013

- 1 - 15
- 16 - 28
- 29 - 42
- 43 - 55

- If you require further information about the levels of NEET or EET in a ward, please contact Nottingham and Nottinghamshire Futures 0115 960 1597.
- The highest number of young people who are Not in Employment, Education or Training, is in Aspley ward – with 55 equating to a tenth of the City's total. It should be noted however, that Aspley also has one of the highest numbers of young people of all city wards.
- Three wards have fewer than 10 people who are NEET – including Wollaton East & Lenton Abbey and Dunkirk & Lenton wards, which both have high numbers of students and lower numbers of 16 and 17 year olds.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Housing Benefit / Council Tax Reduction, May 2013

- 12.8 - 22.8
- 22.9 - 32.9
- 33.0 - 42.9
- 43.0 - 52.9

- Note: Due to a change in Government policy, Council Tax Benefit ended of 31/3/2013, and Local Authorities are now responsible for administering Council tax Reduction Schemes.
- All wards except Basford and Dales saw a decrease in the number of claims for Council Tax Reduction and/or Housing Benefit between May 2012 and May 2013. 2 wards – Bridge and Dunkirk & Lenton saw decreases of more than 100 claimants.
- Aspley has the highest rate of claims for Council Tax Reduction and/or Housing benefit, with over half of all households in the ward claiming. Four other wards have rates of more than 40%
- The lowest rate is in Wollaton West with just 12.8% of households receiving one or both.

SOCIAL SERVICES FOR OLDER PEOPLE

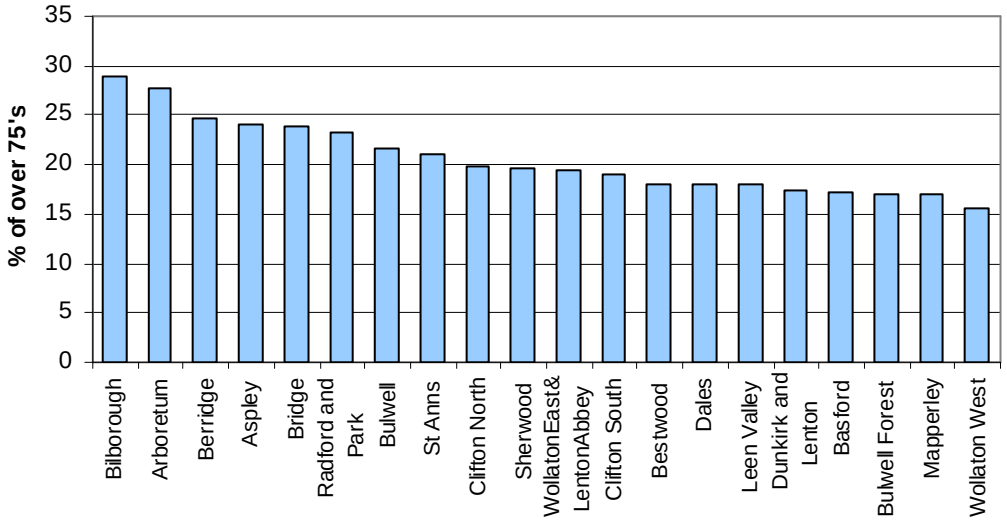

Number of people aged 75 and over who received a Community Based Social Service to enable them to live independently in their own home, plus rate per population aged 75 and over.

Social Services for Older People by Ward, 2012/13

Key	Ward	Number receiving a Social Service	Population 75+ (2012)	% receiving a Social Service
1	Arboretum	72	260	27.7

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- **Definition**: People aged 75 and over who received any Community Based Social Service during the year April 2012-March 2013. The number does not include long term residential or nursing care, although short term care in a residential or nursing home does count as a Community Based Service.
- **Please note**: The location is the client's address at the end of the year. Some individuals may have moved address during this year and may no longer live at the address where the service was accessed.
- The highest rate of older people receiving a service is in Bilborough ward where 29% of over 75's received a service.
- Bilborough also has the highest number of older people receiving a service – at 438, over 100 more than any other ward.
- Twelve wards had less than 20% of over 75's receiving a Community-based service in 2012/13 and two – Arboretum and Bilborough - had more than a quarter.

NEIGHBOURHOOD SATISFACTION

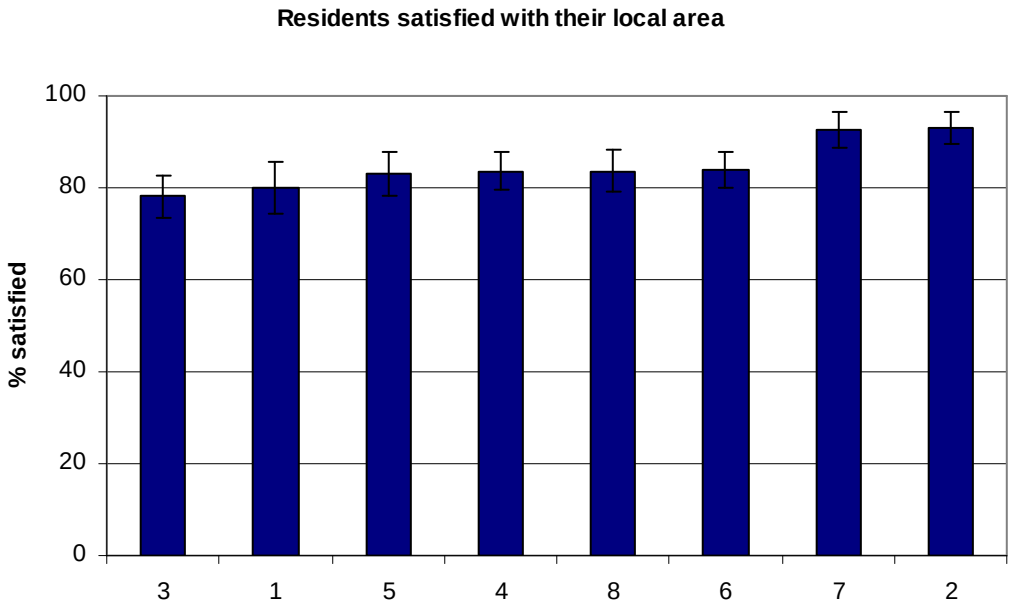

Proportion of residents who are satisfied with their local neighbourhood

Neighbourhood satisfaction by Area and Locality, 2012

Area	Total	% Satisfied	% Dissatisfied
1	195	80.0	11.3
2	214	93.0	1.9
3	292	78.1	12.0
4	299	83.6	6.4
5	224	83.0	8.0
6	341	83.9	7.0
7	163	92.6	1.8
8	269	83.6	8.9
Nottingham	**1,992**	**84.2**	**7.4**

Locality	Total	% Satisfied	% Dissatisfied
North	701	83.2	8.7
Central	686	85.6	5.8
South	610	83.8	7.9
Nottingham	**1,992**	**84.2**	**7.4**

Source: Nottingham Citizens Survey 2012
Caveats: Rates are based on survey data and as such are subject to error. Please note that confidence limits therefore apply to data (95% confidence limits approx. +/- 5%) – as shown by the error bars on the graph below.

- The highest levels of satisfaction are in Area 2 (Bestwood and Basford) where 93% of respondents replied that they were either Very or Fairly Satisfied with their area as a place to live.
- The lowest level of satisfaction was in Area 3 (Aspley, Bilborough and Leen Valley wards) where only 78.1% of people were Very or Fairly Satisfied – significantly lower than Areas 2 and 7.

ABILITY TO INFLUENCE DECISIONS

Proportion of residents who feel they are able to personally influence decisions relating to their neighbourhood

Agreement by Area and Locality, 2012

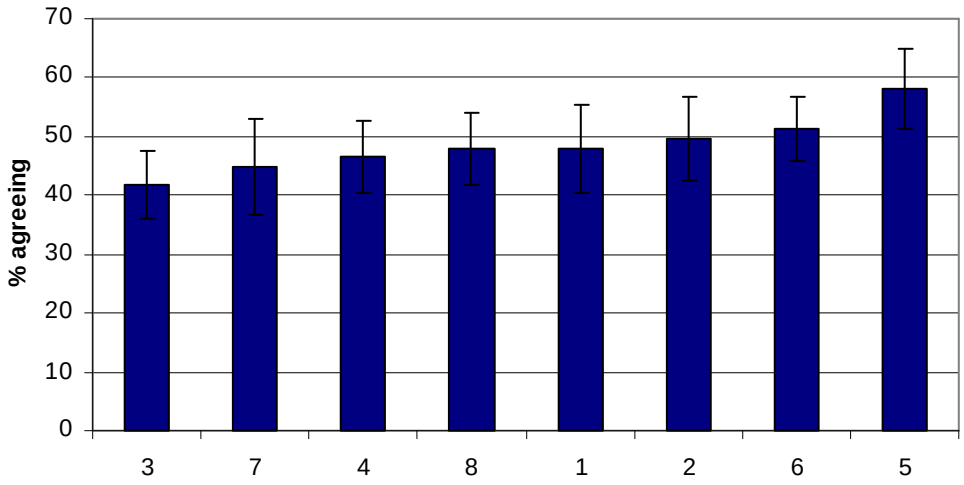

Area	Total	% Agree	% Disagree
1	169	47.9	52.1
2	189	49.7	50.3
3	277	41.9	58.1
4	258	46.5	53.5
5	210	58.1	41.9
6	314	51.3	48.7
7	143	44.8	55.2
8	253	47.8	52.2
Nottingham	**1,813**	**48.5**	**51.5**

Locality	Total	% Agree	% Disagree

South	567	49.7	50.3
Nottingham	**1,813**	**48.5**	**51.5**

Source: Nottingham Citizens Survey 2012

Caveats: Rates are based on survey data and as such are subject to error. Please note that confidence limits therefore apply to data (95% confidence limits approx . +/- 7%) – as shown by the error bars on the graph below.

Residents agreeing they can influence decisions

- In two Area Committees, more than 50% of the population agree that they can influence decisions which affect their local area. The highest is Area 5 (Sherwood and Berridge) where 58% of the residents agree.
- The lowest rate is in Area 3 where under 42% of people agree.

NEIGHBOURHOOD COHESION

Proportion of residents who feel their neighbourhood is a place where people from different backgrounds get on well together

Agreement by Area and Locality, 2012

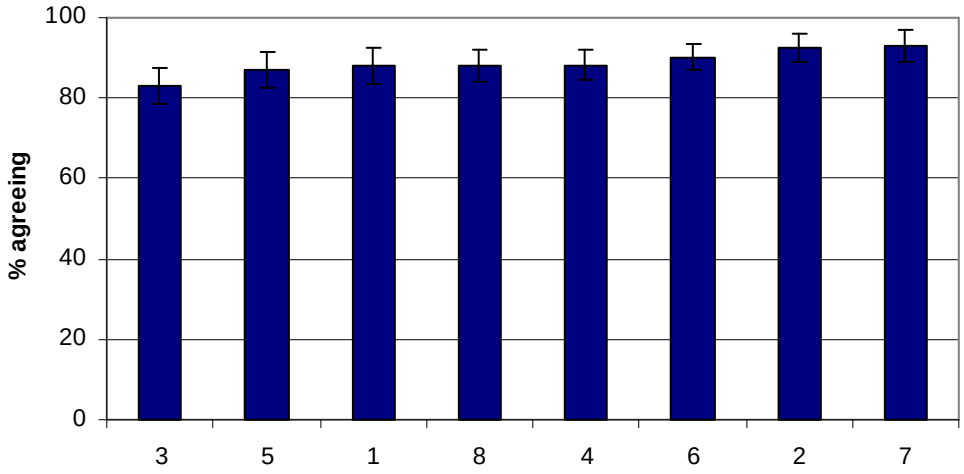

Area	Total	% Agree	% Disagree
1	185	88.1	11.9
2	200	92.5	7.5
3	280	83.2	16.8
4	282	88.3	11.7
5	216	87.0	13.0
6	318	90.3	9.7
7	156	92.9	7.1
8	253	88.1	11.9
Nottingham	**1,890**	**88.5**	**11.5**

Locality	Total	% Agree	% Disagree
North	665	87.4	12.6
Central	654	89.0	11.0
South	571	89.3	10.7
Nottingham	**1,890**	**88.5**	**11.5**

Source: Nottingham Citizens Survey 2012

Caveats: Rates are based on survey data and as such are subject to error. Please note that confidence limits therefore apply to data (95% confidence limits approx +/- 4%) – as shown by the error bars on the graph below.

Residents agreeing that people get on well together

- Area 3 has the lowest percentage of people reporting that people from different backgrounds get on well in their area – at 83.2%.
- The highest proportion was in Area 7 where nearly 93% of people agreed that people got on well.

RESIDENTS WHO SMOKE

Proportion of residents who smoke tobacco and of residents who do not smoke

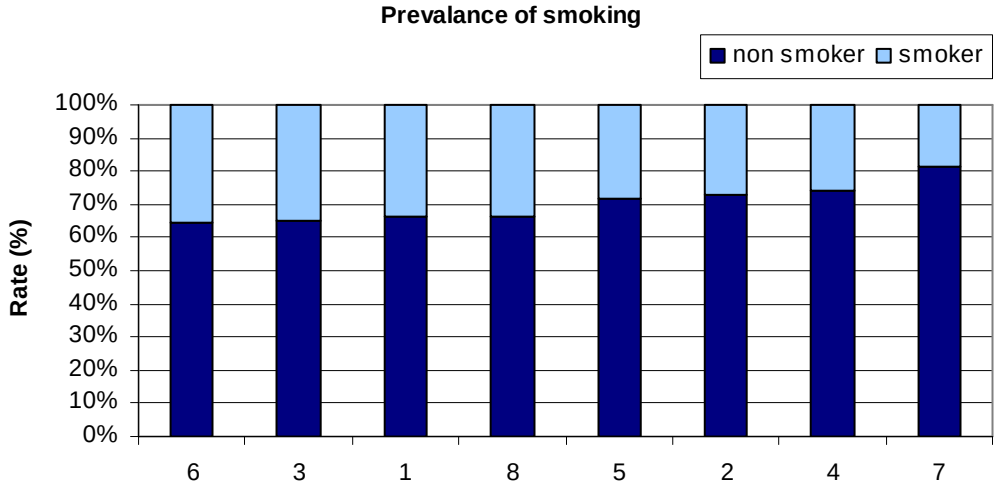

Prevalence of smoking by Area and Locality, 2012

Area	Total	I have never smoked	I used to smoke but I have given up now	I smoke but I don't smoke every day	I smoke every day
1	191	46.1	19.9	7.3	26.7

Indices of Deprivation 2010: (Department for Communities and Local Government) The Indices of Deprivation measure the different types of deprivation experienced by individuals living in an area. Scores and Ranks are published for Super Output Areas but not for wards. The ward ranks above have been estimated by taking an average of the population weighted SOA scores for each City ward. These are unofficial. The City Ranks are out of 20. The SOA column gives the number in the worst 10% of SOAs in England and the total SOAs in the area.

CONTEXTUAL TABLE 5 - Students and Households

Ward	Students (2011 Census)			Households		
	No.	% of total population	% of 16 to 64	Total (2011 Census) No.	Student (2013) No.	Student (2013) %

Students: Source: 2011 Census. School children and full time students aged 18 and above. These figures are not comparable with figures previously published in ward reports, as they will include some students attending colleges and sixth forms as well as University students.

Households: 2011 Census. Total households are from the Census and are **not** estimates using Council Tax and housing completions and demolitions information, so are not comparable with figures published in previous Ward Reports. Student households are from November 2013 from Council Tax exemption records. A household is defined as "a person living alone or people living at same address sharing a living or sitting room or sharing at least one meal per day". Because this relates to people, rather than buildings, vacant dwellings will not be included. The intention is that households in purpose-built student dwellings are excluded, but some may be included.
