WARD REPORT 2011

INTRODUCTION

This is the seventh annual One Nottingham Ward Report, produced to provide the most recently available data at a Ward, Area Committee and Locality level.

The report includes data for a number of indicators, covering the themes of Worklessness; Health; Education; Crime, Housing and Liveability. It also includes data from the 2011 Citizens Survey.

The report concentrates on providing data at a Ward, Area Committee and Locality level - where data are available – but comparisons with the City, Greater Nottingham and England have been given where possible.

Greater Nottingham figures have been included for two reasons. Firstly, it is over this area that many local transport and economic strategies are formulated and delivered. Secondly, the City of Nottingham boundaries are very tightly drawn and Greater Nottingham gives a more complete picture of the urban area.

Data has been provided by a number of Agencies and Partners, including: Department for Work and Pensions; NHS Nottingham City; Nottinghamshire Police; Nottinghamshire Fire and Rescue Service; plus Nottingham City Council Children and Families department; Communities department; Housing Benefits Team; Accident Investigation; Street Scene and the Youth Offending Team.

The contextual tables include data from the Office for National Statistics and the Department for Communities and Local Government and much is subject to Crown Copyright. Please quote the source when using the data.

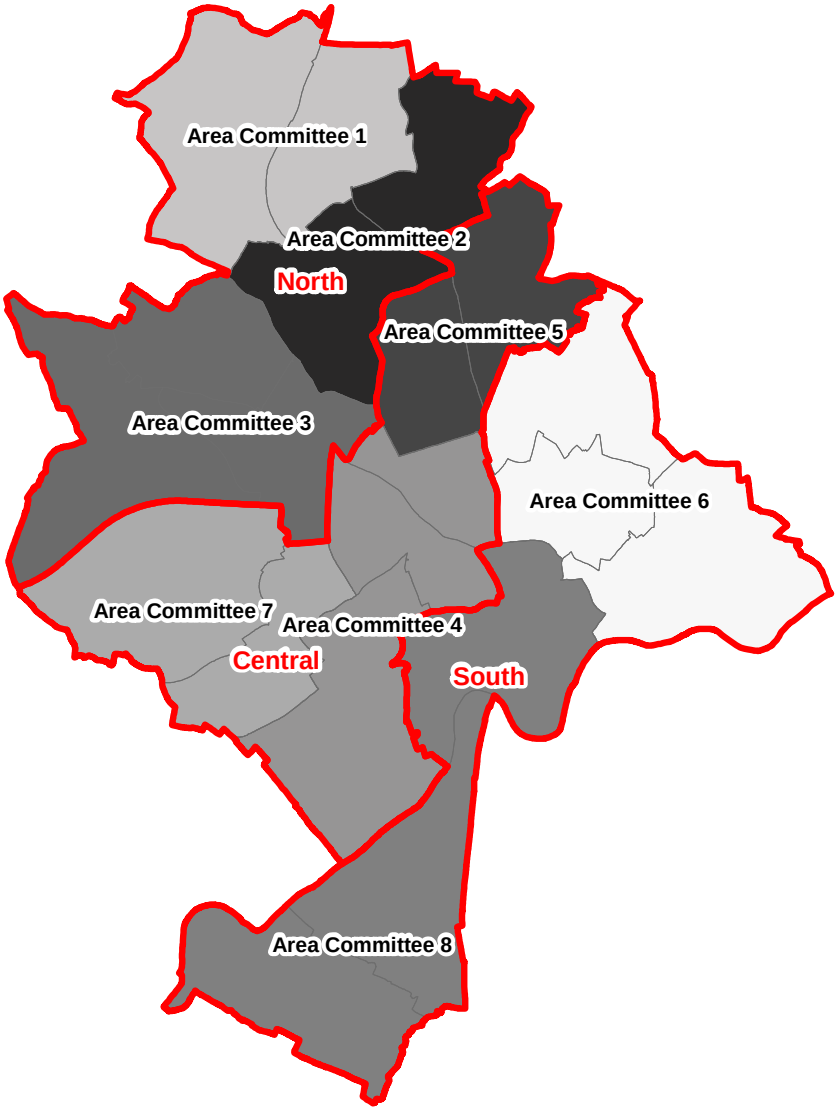

Many of the datasets are available on the Nottingham Insight website (www.nottinghaminsight.org.uk), which also includes further contextual data from the 2001 Census, the 2011 Census as and when it is released, and the 2010 Indices of Deprivation, plus Ward Reports from the past few years.

Please note: Many of the rates in this report are unofficial and may differ slightly to those published in other analysis due to the denominator used. For the economic and some of the crime and liveability indicators, the denominator used is from the 2011 Census. These figures are somewhat different to the 2010 and 2011 Mid Year Estimates which use the 2001 as their base, and which will revised shortly.

If you would like any further information about this report, please contact Nicola Kirk in the Policy and Research team in the City Council, on (0115) 876 3979, or by e-mail, at: nicola.kirk@nottinghamcity.gov.uk

In 2011 a restructure of Area Committees resulted in a decrease from 9 to 8 Area Committees, grouped into 3 Localities.
The table and map below show which wards make up each Area Committee and Locality. Throughout the report, Area Committees are listed with their number for ease.

Locality	Area	Wards
North	1	Bulwell; Bulwell Forest
	2	Basford; Bestwood
	3	Aspley; Leen Valley; Bilborough
Central	4	Arboretum; Radford & Park; Dunkirk & Lenton
	5	Sherwood; Berridge
	7	Wollaton West; Wollaton East & Lenton Abbey
South	6	Mapperley; St Ann's; Dales
	8	Bridge; Clifton North; Clifton South

REGISTERED UNEMPLOYED

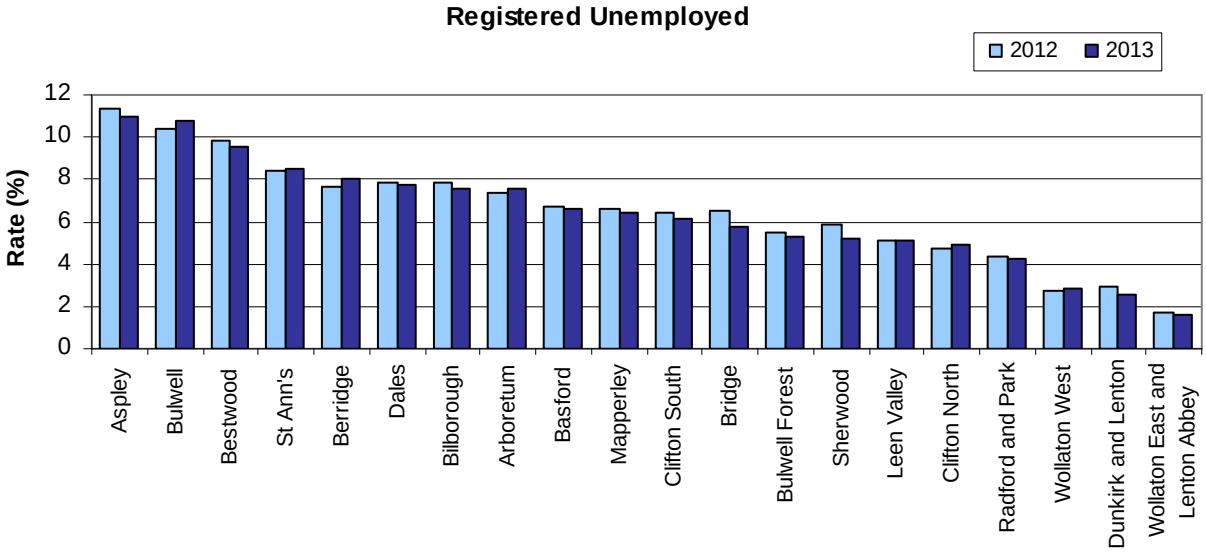

Number of people registered as unemployed (claimants of Job Seekers Allowance) and proportion of resident working age population

Unemployment rate by Ward

Caveats: Rates are calculated using the resident working age population from the 2011 Census. In 2009 the definition of 'working age' changed to 16-64 for both males and females instead of 16-59 for females and 16-64 for males.

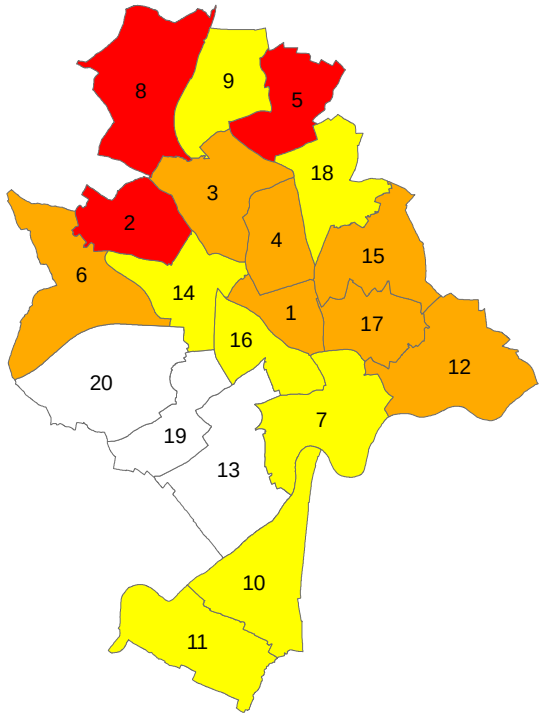

Unemployment rate by Area and Locality

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Regsitered Unemployed, Jan 2013

- 1.6 - 4.0
- 4.1 - 6.3
- 6.4 - 8.7
- 8.8 - 11.0

- **Please note:** Changes to the benefits system were implemented in 2008 with further changes in October 2009 and 2010 - affecting claimants of Lone Parent Income Support. Also, in April 2011, the process of reassessing Incapacity Benefit claimants began. Some claimants of these two benefits will have transferred to Job Seekers Allowance. While these changes may have had some impact on numbers of claimants, the large changes seen across the City in recent years will predominantly be due to the economic recession.
- Unemployment remained fairly static across the City between January 2012 and 2013, with 7 wards seeing increases and 13 decreases.
- The largest increase was in Berridge ward – an increase of 43 people, or 4%.
- The largest decreases were in Dunkirk and Lenton, Bridge and Sherwood – decreasing by 13.1%, 11.7% and 10.7% respectively.
- Aspley ward has the highest unemployment rate at 11%, and Wollaton East and Lenton Abbey ward has the lowest with 1.6% of the population aged 16-64 claiming JSA, followed by Dunkirk and Lenton and Wollaton West wards with 2.6% and 2.8%. These are the only City wards with a rate lower than the England average.

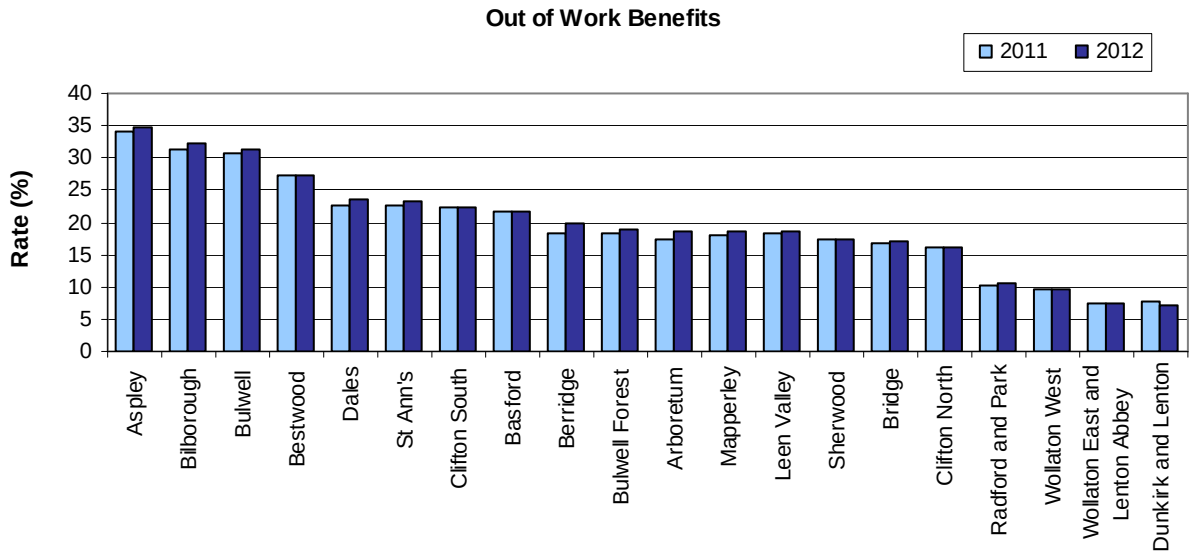

OUT OF WORK BENEFITS

Number of working age people claiming out of work benefits and proportion of resident working age population

Out of Work Benefit claimants by Ward

		May 2010		May 2011		May 2012

- **Definition:** The number of working-age people who are claiming one or more key DWP benefits. To avoid double counting, people are allocated to a 'statistical group' in the following order: Job Seekers Allowance; Incapacity Benefit and Employment Support Allowance; Income Support for Lone Parents and Other Income related benefits.
- **Please note**: Changes to the benefits system were implemented in 2008 with further changes in October 2009 and 2010, primarily affecting claimants of Lone Parent Income Support. Some Lone Parents with older children will subsequently have transferred to Job Seekers Allowance and future reforms mean that others may do so in the near future. People unable to work through incapacity, can no longer make new claims for Incapacity Benefit, but may instead claim Employment and Support Allowance (ESA). These changes should not impact on total numbers of claims for out of work benefits.
- The greatest increase in numbers of claimants between 2011 and 2012 was seen in Berridge ward, and Arboretum ward - an increase of 190 and 120 people respectively. Just three wards – Wollaton East and Lenton Abbey, Dunkirk and Lenton and Clifton South - saw decreases in numbers of claimants.
- The highest rate is in Aspley ward – where more than a third of the population aged 16-64 claim and out of work benefit.
- Just four City wards have a claimant rate lower than the average for England.

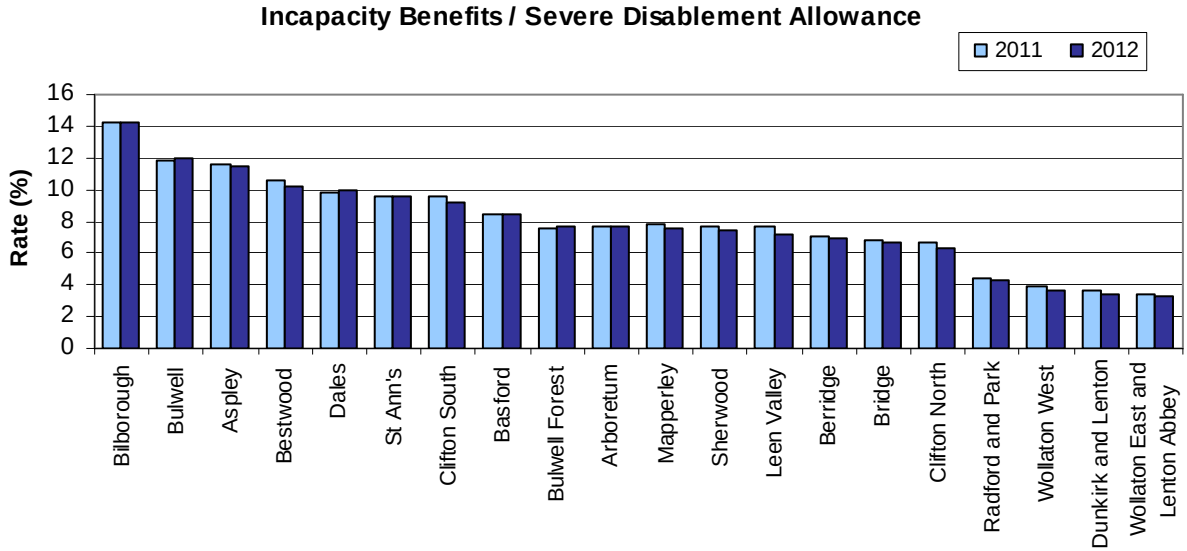

INCAPACITY BENEFITS & EMPLOYMENT SUPPORT ALLOWANCE

Number of people claiming Employment Support Allowance, Incapacity Benefit or Severe Disablement Allowance and proportion of resident working age population

IB, ESA and SDA Claimant Rate by Ward

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- **Definition:** Incapacity Benefit (IB) is paid to people who are incapable of work, mostly due to ill health, and who meet certain contribution conditions. Severe Disablement Allowance (SDA) is paid to those unable to work for 28 weeks in a row or more because of illness or disability. SDA is being phased out. Employment Support Allowance (ESA) replaced new claims for IB from October 2008. A three year process of reassessing IB claimants began in April 2011, pilot projects suggest that most claimants will transfer to ESA but around 30% of claimants were found to be fit to work and would initially transfer to Job Seeker's Allowance
- The highest rate of claims is in Bilborough ward at 14% of the resident working age population and nearly double the City average.
- The lowest rate remains in Wollaton East and Lenton Abbey (3.3%) and Dunkirk and Lenton (3.4%)
- 14 wards saw a fall in claimants in the last year, 3 saw small increases and 3 saw no change.

PREMATURE DEATHS FROM CANCER

Directly Standardised Rate of Deaths of under-75 year olds from Cancer, per 1,000 population

See over for caveats and definitions.

Directly Standardised Rate of premature deaths from Cancer, 2009-11

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Premature mortality - Cancer, 2009-2011

- 2.21 - 2.87
- 2.88 - 3.53
- 3.54 - 4.19
- 4.20 - 4.85

- **Definition:** Rates are Directly Standardised to the European Standard Population to allow for the differing age profiles in each area, and are premature (under 75) deaths from all cancers per 1,000 population. The rates are based on three years of pooled data.
- **Caveats:** Please note the upper confidence limit (UCL) and lower confidence limit (LCL) figures in the table, and indicated on the chart above by the error bars. These overlap for many of the wards meaning they are not significantly different to one another.
- Between 2008-10 and 2009-11, 8 wards saw a slight increase in premature mortality from Cancer, but none were statistically significant.
- The highest rate of premature deaths from Cancer is in Bulwell ward, at 4.85 per 1,000 population. The lowest rate is in Wollaton West, at 2.21 per 1,000.
- The rate in Bulwell is significantly higher than the rates in Wollaton West and neighbouring Bulwell Forest wards.

PREMATURE DEATHS FROM CIRCULATORY DISEASE

Directly Standardised Rate of Deaths of under-75 year olds from Circulatory Disease, per 1,000 population

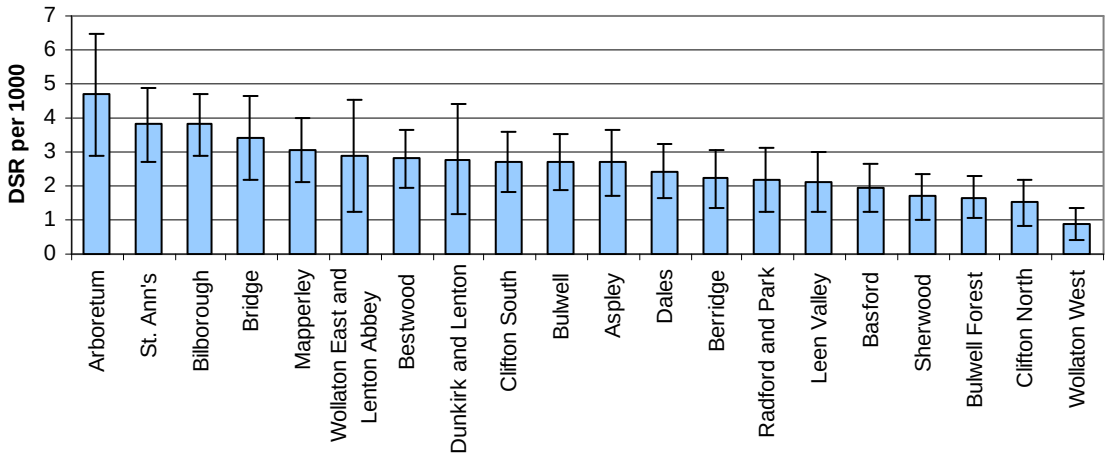

Directly Standardised Rate per 1,000 by Ward

		2008-2010				2009-2011

Directly Standardised Rate of premature deaths from Cardiovascular Disease, 2009-11

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Premature mortality - Circulatory Disease, 2009-2011

- 0.89 - 1.84
- 1.85 - 2.79
- 2.80 - 3.74
- 3.75 - 4.69

- **Definition:** Rates are Directly Standardised to the European Standard Population to allow for the differing age profiles in each area, and are premature (under 75) deaths from cardiovascular disease per 1,000 population. The rates are based on three years of pooled data.
- **Caveats:** Please note the upper confidence limit (UCL) and lower confidence limit (LCL) figures in the table, and indicated on the chart above by the error bars. These overlap for many of the wards meaning they are not significantly different to one another.
- Between 2007-09 and 2008-10, the rate increased in 8 wards but none of the increases were statistically significant.
- The highest rate of premature deaths from Circulatory disease is in Arboretum, at 4.69 per 1,000 people. This is significantly higher than Basford, Sherwood, Bulwell Forest, Clifton North and Wollaton West wards.
- The lowest rate is in Wollaton West, at less than 0.89 per 1,000 population, significantly lower than 11 other wards.

TEENAGE CONCEPTIONS

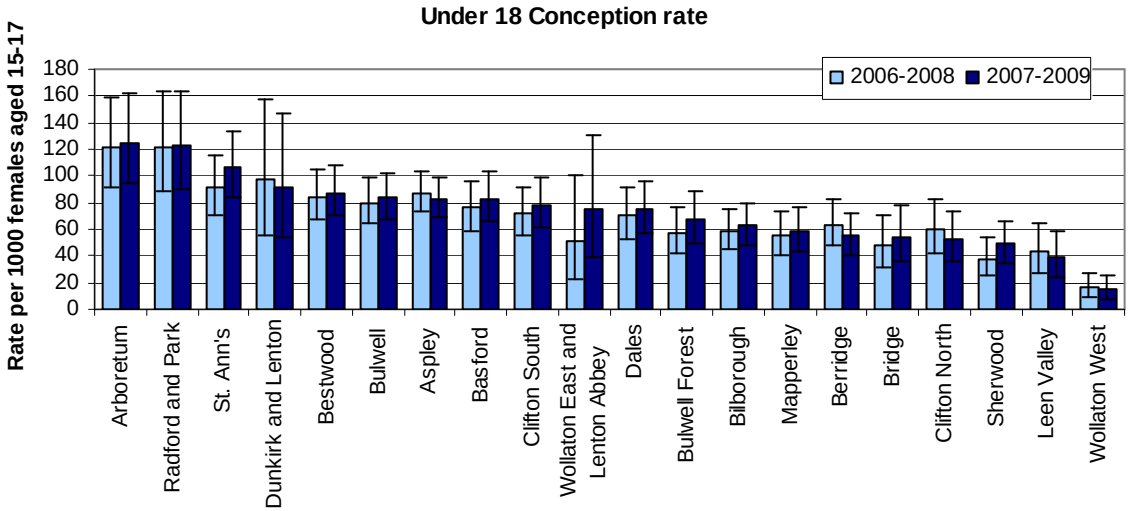

Under 18 conception rate per 1,000 females aged 15-17

Under 18 Conception Rate by Ward

-	**Nottingham**	**68.5**	-	-	**64.2**	-	-

Source: Department for Health and Teenage Pregnancy Unit, and NHS Nottingham City

Caveats: Rates are conceptions to females under 18 per 1,000 of the resident female population aged 15-17. Some wards may have high *rates* of conceptions but relatively low *numbers* of conceptions, due to varying population sizes in each ward. Please see contextual table 2 for an indication of population size by age band.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Teenage Conception rate, 2007-2009

- 14.5 - 42.1
- 42.2 - 69.8
- 69.9 - 97.4
- 97.5 - 125.0

- Over the period 2006-08 to 2007-09, 14 wards saw an increase in teenage conception rates, and 6 saw a decrease. No change was statistically significant however.
- The highest rate of teenage conceptions are in Arboretum and Radford and Park wards, with rates of 125 and 123 per 1,000 females aged 15-17.
- The lowest rates are in Wollaton West (15 per 1,000) and Leen Valley (39 per 1,000)

Caveats: Please note that confidence limits overlap, meaning wards may not be significantly different to one another.

Male Life Expectancy at birth, 2006-2010

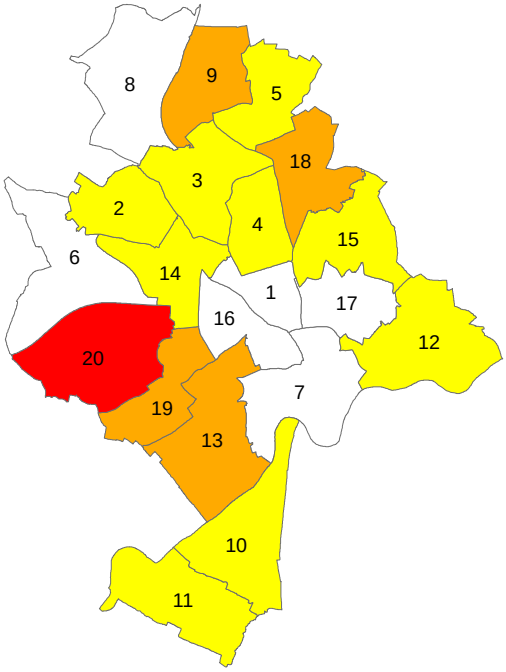

Female Life Expectancy at birth, 2006-2010

Life Expectancy at Birth, males, 2006-10

69.4 - 72.9
73.0 - 76.4
76.5 - 79.8
79.9 - 83.3

Life Expectancy at birth, Females, 2006-10

76.8 - 79.4
79.5 - 82.0
82.1 - 84.6
84.7 - 87.2

- **Please note:** the y-axis on the graphs opposite do not start at 0. Please also note that the range on the maps above differs for Males and for Females.
- The Local Health tool (www.localhealth.org.uk), produced by the Public Health Observatories, uses Middle Super Output Area level data to provide population weighted estimates for wards, but these are not directly compared to the published ward level data for 2005-2009.
- For males and females, the highest life expectancy is in Wollaton West ward. Male life expectancy is lowest in Arboretum ward and in St Ann's for females.
- For males, the gap in life expectancy at birth between the highest and lowest is 13.9 years. For females this is slightly lower, at 10.4 years.

Key Stage 2 English, 2011
- under 70
- 71 - 80
- 81 - 90
- 91 +

Key Stage 2 Maths, 2011
- under 70
- 71 - 80
- 81 - 90
- 91+

- **Definition**: Key Stage 2 attainment is measured at age 11, during the final year of Primary School.
- **Please note**: Figures have not been produced for 2010 as a significant number of schools both locally and nationally chose to boycott the SATS exams in this year.
- **Please note:** Figures for wards are given for pupils resident in the City and attending City schools but may exclude a few pupils where their address could not be geo-coded. The Nottingham rate is for all pupils, including those who live outside of the City and those who could not be geo-coded to an area.
- **Please note: The categories on the maps above have been manually adjusted to enable comparisons between the two subjects.**
- The highest rate of attainment at Key Stage 2 is in Wollaton West – with 93.5% of pupils achieving level 4 or above in English and 92.1% in Maths.
- The lowest rates of attainment for English is in Wollaton East and Lenton Abbey - with 57.1% of pupils achieving level 4 or above, while the lowest rate for Maths is in Bilborough – where 69.2% of pupils achieved level 4 or above.

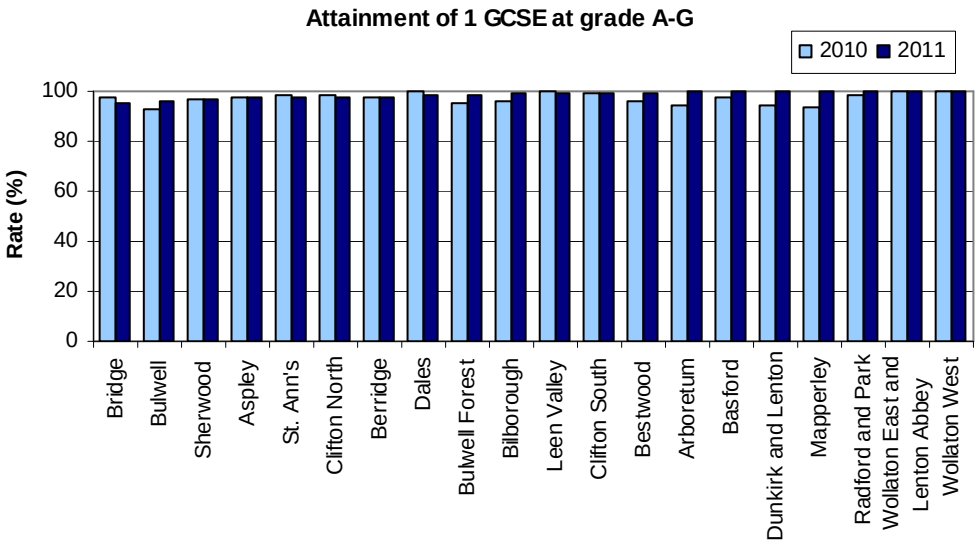

KEY STAGE 4: GCSE GRADE A*-G

Percentage of pupils aged 16 achieving at least 1 GCSE at grade A*- G

Attainment of 1 GCSE grade A*-G by Ward

		2010		2011

Source: Nottingham City Council Children and Families Department

- **Please note:** Figures for wards are given for pupils resident in the City and attending City schools but may exclude a few pupils where their address could not be geo-coded. The Nottingham rate is for all pupils, including those who live outside of the City and those who could not be geo-coded to an area.
- **Please note:** Because the number of children in each ward changes year to year, the number of children attaining 1 GCSE at grade A*-G may show an increase between 2009 and 2010, but the rate may decrease. Conversely the number may decrease but the rate may increase.
- In seven wards – Wollaton West, Wollaton East and Lenton Abbey, Radford and Park, Mapperley, Dunkirk and Lenton, Basford and Arboretum - 100% of pupils achieved at least one GCSE in 2011.
- The lowest rate of attainment is in Bridge ward where 95.1% of pupils achieved at least one GCSE. Only 7 wards saw a decrease in attainment rates between 2010 and 2011.

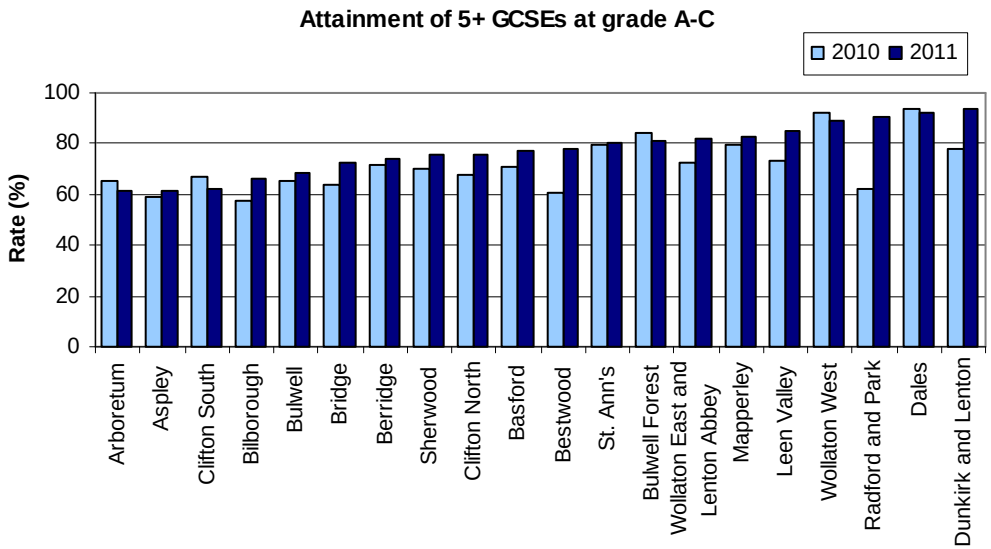

KEY STAGE 4: 5 GCSEs GRADE A*-C

Percentage of pupils aged 16 achieving the equivalent of 5 GCSEs at grade A*- C

Attainment of 5 GCSEs grade A*-C by Ward

- **Please note:** Figures for wards are given for pupils resident in the City and attending City schools but may exclude a few pupils where their address could not be geo-coded. The Nottingham rate is for all pupils, including those who live outside of the City and those who could not be geo-coded to an area.
- **Please note:** Because the number of children in each ward changes year to year, the number of children attaining 5 GCSEs at grade A*-C may show an increase between 2009 and 2010, but the rate may decrease. Conversely the number may decrease but the rate may increase.
- The highest rate of attainment is in Dunkirk and Lenton ward, where 93.3% of pupils attained at least 5 GCSEs at grade A*-C in 2011.
- The lowest rates are in Arboretum and Aspley wards, where 61.4% and 66.5% of pupils gained 5 GCSEs at A*-C respectively, with Arboretum ward seeing a decrease on last year.
- 15 wards saw increases in attainment since 2010 with 4 wards increasing by more than 10 percentage points.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Dwelling Burglary rate, 2011

- 8.4 - 16.3
- 16.4 - 24.2
- 24.3 - 32.2
- 32.3 - 40.1

- **Definition**: A person is guilty of a dwelling burglary (domestic burglary) if they enter any part of a dwelling (fit for habitation) as a trespasser and steal or attempt to steal anything in the building or attempt to inflict any grievous bodily harm on any person in the building (or intend to carry out any of these acts).
- The highest rate of dwelling burglary is in Arboretum, at 40.7 per 1,000 households.
- The lowest rate is in Clifton South ward, with just 8.5 per 1,000 households – a 50% decrease on 2010.
- Overall, there was a large decrease over the last year, with the largest decrease in Basford with 143 fewer burglaries – 60% fewer than the previous year. Just 2 wards saw increases in the number of dwelling burglaries between 2010 and 2011 – Sherwood with 1 more and Leen Valley with 7 more incidents.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Violent Crime Rate, 2011

- 4.0 - 22.2
- 22.3 - 40.5
- 40.6 - 58.8
- 58.9 - 77.1

- **Definition**: Violent crime covers a number of offences where physical or verbal assault has taken place on an individual (this includes threats of violence). Offence types range from harassment, to assault, to grievous bodily harm and murder, but the number of serious offences tend to be relatively small. Sexual Offences are also included in this category. Violent crime includes Domestic Violence, which is defined by the Home Office as any violence between current and former partners in an intimate relationship, wherever the violence occurs.
- **Please note:** The figures are based on location of the crime, not residence of the offender or victim.
- The highest rate of violent crime is in Bridge ward which contains much of the City Centre area. This is the most concentrated area of offences due to the night time economy. At 70 per 1,000 population, the rate in Bridge is more than twice that of the next highest ward.
- The lowest rate is in Wollaton West, at 4 per 1,000.
- Nine wards saw an increase in incidents between 2010 and 2011, with the largest increases seen in Bridge and Bestwood wards – 88 (+9.4%) and 63 more incidents (+30%) respectively

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- **Definition:** Theft from a vehicle is where the intent is to steal from a vehicle rather than drive it away. Theft of a motor vehicle is committed if, without having the consent of the owner or other lawful authority, the perpetrator takes any vehicle for his own or another's use. This category includes other vehicles such as motorcycles and mopeds.
- **Please note:** Figures are for the location of the theft and not the residence of the offender or victim.
- The highest rate of vehicle crime is in Bridge ward, which contains much of the City Centre area. Bridge had 17.7 vehicle crimes per 1000 population in 2011, a decrease in number of 14.2% from 2010.
- The lowest rate is in Bestwood ward, at 4.1 per 1,000 – a decrease of a third.
- Across the City the number of vehicle crimes fell by 5% between 2010 and 2011 with decreases in 12 wards. The largest falls were in Bilborough and Arboretum wards – with 76 and 68 fewer incident s respectively.
- The largest increase was seen in Radford and Park ward with just under 100 more incidents.

Caveats: Figures show the number of offences, not the number of young people. Figures relate to offences for which a young person has been charged.

The area reported is for the address currently recorded on the YOT database. It is possible that the young person committed the offence or received the outcome before moving to the address that we have currently recorded.

Offences commited by young people, 2011

Caveats: Figures show numbers of outcomes not numbers of young people – the numbers of outcomes will be greater as a number of young people will have received more than one outcome. Figures are outcomes received by residence of the young person.

- **Definition:** A young offender is normally between 10 to 17 years old. Under 10yrs, and the young person cannot legally be charged for an offence. There may be a very small number of young people in the figures who are 18 as outcomes are still recorded if the person committed the offence(s) while they were still under 18.
- The greatest number of offences committed by a young person is in Aspley, with 253, of which, 48 are in the category of Violence Against the Person. The high number of young people in Area 3 will however contribute to the high number of offences committed.
- The lowest number of offences committed by a young person is in the two Wollaton wards, with just 31.
- The greatest number of outcomes received by young people in 2011 was in Aspley and Bilborough wards, with 114 and 100, of which nearly 40 percent were Police Reprimands.
- The lowest number of outcomes received is in the two Wollaton wards, with 16 outcomes.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- The highest number of recorded fly tips was in St Ann's ward, with 2,731, although this was more than 600 fewer than in 2010. One other ward, Dales, had more than 1,800 incidents in 2011, a decrease of more than 200.
- The lowest number of fly tips were in the two Area 7 wards, with just over 100 in total across Wollaton West and Wollaton East and Lenton Abbey, equating to 12.9 incidents per 1,000 households.
- Seven wards saw increases in fly tips between 2010 and 2011, the largest of which was in Bestwood ward – with 116 more than in 2010.
- The largest decreases were in St Ann's and Bulwell, both with over 500 fewer incidents of fly tipping in 2011 than in 2010. Bulwell had less than half the incidents recorded in 2010.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Intentional fire rate, 2011

- 1.6 - 6.7
- 6.8 - 11.7
- 11.8 - 16.8
- 16.9 - 21.8

- **Definition**: Intentional Secondary Fires: where 'Intentional' refers to deliberate, doubtful or malicious cause of fire and 'Secondary Fire' is a fire with no insurance value or with no casualties involved, such as refuse and grassland fires. Intentional Vehicle Fires: in this context, 'Intentional' basically means arson, and refers to vehicle fires whose causes are deliberate, doubtful or malicious.
- There was an increase in the number of intentional fires of 28% between 2010 and 2011, with only 4 wards seeing a decrease.
- The largest number of intentional fires is in Bulwell ward, with 22 per 1,000 households, an increase of 46 (+43%) on last year.
- The two Area 7 wards have the lowest number of intentional fires, with a total of just 20 or 2.4 per 1,000 households.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- **Definition**: Figures are for the location where an accident involving someone being killed or seriously injured, took place, not the address of the person involved.
- The number of people killed or seriously injured in traffic accidents has increased slightly across the City between 2010 and 2011 with the largest increase in Bilborough ward (+9) and St Ann's ward (+7).
- Seven wards saw falls in casualties and a further two saw no change.
- Due to the small numbers involved, percentage changes can look very large and care should be taken in interpreting the data.

NOT IN EMPLOYMENT, EDUCATION OR TRAINING

Not in Employment, Education or Training

- 3 - 14
- 15 - 28
- 29 - 47
- 48 - 62

- If you require further information about the levels of NEET or EET in a ward, please contact Nottingham and Nottinghamshire Futures 0115 960 1597.
- The highest number of young people who are Not in Employment, Education or Training, is in Aspley ward – with 62 equating to one in nine of the City's total. It should be noted however, that Aspley also has one of the highest numbers of young people of all city wards.
- Three wards have fewer than 10 people who are NEET - both of the wards in Area Committee 7 and Dunkirk and Lenton.

Caveats: The data represents the number of households in receipt of Housing and/or Council Tax Benefit split down to ward level. It does not show the actual number of customers who are claiming Benefits. Attempts have been made to exclude Hostels and Refuges from the count. May was chosen as it is a time when most occupancies are stable and not affected by seasonal changes.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Housing / Council tax benefit recipients, 2012

- 13.5 - 24.2
- 24.3 - 35.0
- 35.1 - 45.7
- 45.8 - 56.4

- Only 3 wards (Wollaton East and Lenton Abbey, Dunkirk and Lenton and Bridge) saw a decrease in the number of claims for Council and/or Housing Benefit between May 2011 and May 2012. 8 wards saw increases of more than 100 claimants with the largest increase being in Berridge ward (170 more people)
- Aspley has the highest rate of claims for Council and/or Housing benefit, with over half of all households in the ward claiming. Four other wards have rates of more than 40%
- The lowest rate is in Wollaton West with just 13.5% of households claiming one or both of the benefits.

SOCIAL SERVICES FOR OLDER PEOPLE

Number of people aged 75 and over who received a Community Based Social Service to enable them to live independently in their own home, plus rate per population aged 75 and over.

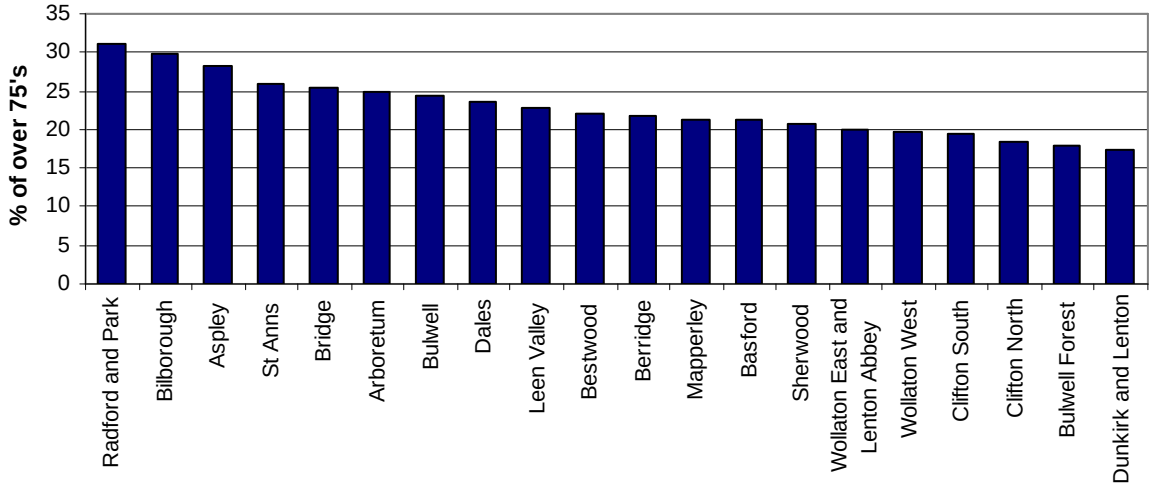

Social Services for Older People by Ward, 2011/12

Key	Ward	Number receiving a Social Service	Population 75+ (2010)	% receiving a Social Service

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- **Definition**: People aged 75 and over who received any Community Based Social Service in their own home during the year April 2011-March 2012. The number does not include long term residential or nursing care, although short term care in a residential or nursing home does count as a Community Based Service.
- **Please note**: The location is the client's address at the end of the year 2010/11. Some individuals may have moved address during this year and may no longer live at the address where the service was accessed.
- The highest rate of older people receiving a service is in Radford and Park ward, where 31.2% of over 75's received some kind of Community-based service during the year.
- The largest number of people is in Bilborough ward, where 473 people received a service.
- Six wards had less than 20% of over 75's receiving a Community-based service in 2011/1 and five had more than a quarter.

NEIGHBOURHOOD SATISFACTION

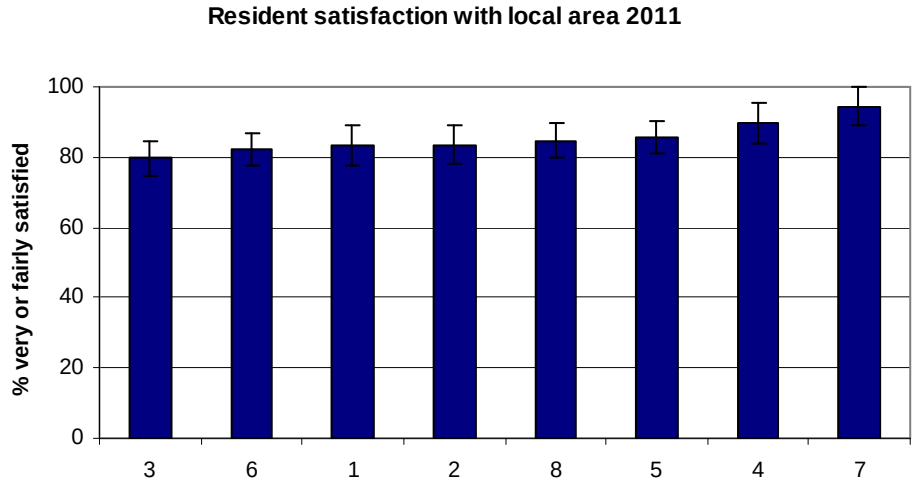

Proportion of residents who are satisfied with their local neighbourhood

Neighbourhood satisfaction by Area and Locality, 2011

Area	Total	% Satisfied	% Dissatisfied
1	203	83.3	8.9
2	202	83.6	8.0
3	292	79.7	10.3
4	196	89.8	4.6
5	300	85.6	6.6
6	296	82.1	9.1
7	211	94.3	4.2
8	294	84.7	7.5
Nottingham	**1992**	**85.0**	**7.6**

Locality	Total	% Satisfied	% Dissatisfied
North	697	81.9	9.2
Central	707	89.4	5.4
South	590	83.4	8.3

Source: Nottingham Citizens Survey 2011
Caveats: Rates are based on survey data and as such are subject to error. Please note that confidence limits therefore apply to data at Area level (95% confidence limits +/- 6%) – as shown by the error bars on the graph below.

- The highest levels of satisfaction are in Area 7 (Wollaton East and Lenton Abbey and Wollaton West) with 94.3% of respondents replying that they were either Very or Fairly Satisfied with their area as a place to live.
- The lowest level of satisfaction was in Area 3 (Aspley, Bilborough and Leen Valley wards) where only 79.7% of people were Very or Fairly Satisfied – significantly lower than Area 7.

ABILITY TO INFLUENCE DECISIONS

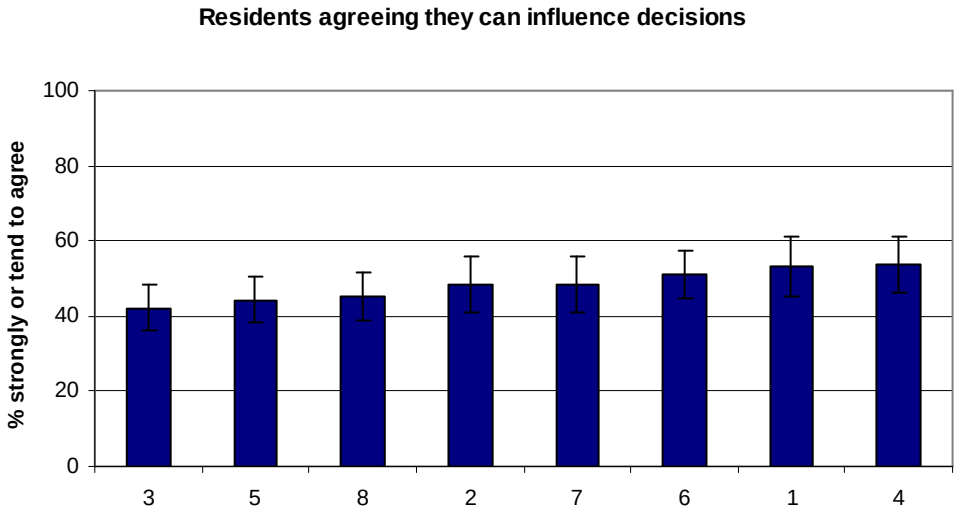

Proportion of residents who feel they are able to personally influence decisions relating to their neighbourhood

Agreement by Area and Locality, 2011

Area	Total	% Agree	% Disagree
1	158	53.2	46.8
2	178	48.3	51.7
3	253	42.2	57.7
4	169	53.8	46.2
5	250	44.4	55.6
6	245	51.0	49.0
7	176	48.3	51.7
8	239	45.2	54.8
Nottingham	**1668**	**47.7**	**52.3**

Locality	Total	% Agree	% Disagree
North	589	47.0	53.0
Central	595	48.2	51.8
South	484	48.1	51.9

Caveats: Rates are based on survey data and as such are subject to error. Please note that confidence limits therefore apply to data at Area level (95% confidence limits +/- 7%) – as shown by the error bars on the graph below.

- In three Area Committees, more than 50% of the population agree that they can influence decisions which affect their local area. The highest is Area 4 (Arboretum, Radford and Park and Dunkirk and Lenton wards) where 53.8% of the residents agree.
- The lowest rate is in Area 3 where 42% of people agree.

NEIGHBOURHOOD COHESION

Proportion of residents who feel their neighbourhood is a place where people from different backgrounds get on well together

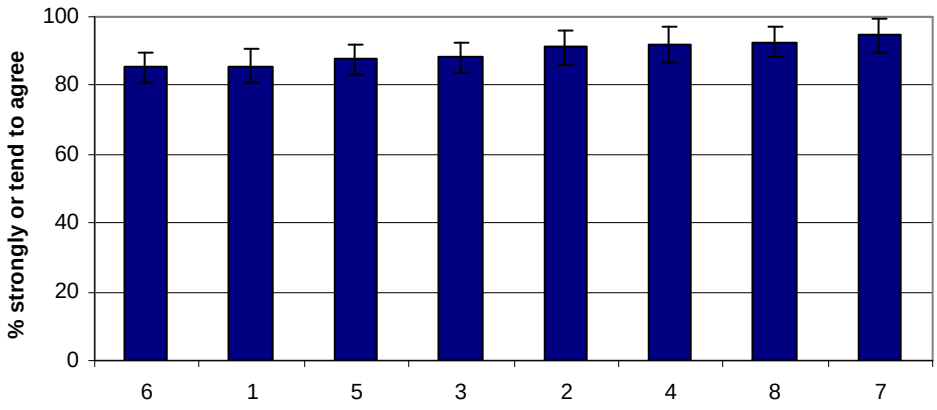

Agreement by Area and Locality, 2011

Area	Total	% Agree	% Disagree
1	189	85.7	14.3
2	189	91.0	9.0
3	277	88.1	12.0
4	186	92.0	8.1
5	276	87.6	12.3
6	271	85.2	14.8
7	201	94.5	5.5
8	275	92.7	7.3
Nottingham	**1859**	**90**	**11**

Locality	Total	% Agree	% Disagree
North	655	88.2	11.8
Central	663	91.0	9.0
South	546	89.0	11.0

Source: Nottingham Citizens Survey 2011
Caveats: Rates are based on survey data and as such are subject to error. Please note that confidence limits therefore apply to data at Area level (95% confidence limits +/- 6.5%) – as shown by the error bars on the graph below.

Residents agreeing that people get on well together

- Area 6 has the lowest percentage of people reporting that people from different backgrounds get on well in their area – at 85.2% - although the results are not significantly different to other areas.
- The highest proportion was in Area 7 where nearly 95% of people agreed that people got on well.

RESIDENTS WHO SMOKE

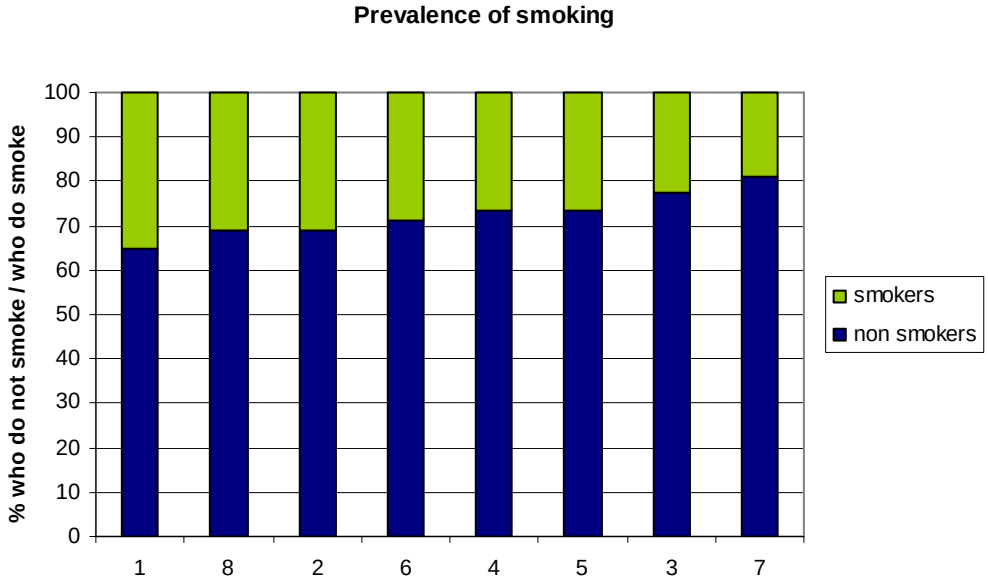

Proportion of residents who smoke tobacco and of residents who do not smoke

Prevalence of smoking by Area and Locality, 2011

Area	Total	I have never smoked	I used to smoke but I have given up now	I smoke but I don't smoke every day	I smoke every day
1	201	43.3	21.4	4	31.3
2	205	48.3	20.5	4.4	26.8
3	290	55.9	21.7	2.1	20.3
4	195	53.8	19.5	5.6	21
5	297	60.9	12.5	8.8	17.8
6	292	52.7	18.5	5.8	22.9
7	213	58.7	22.5	3.3	15.5
8	294	48.3	20.4	7.8	23.5
Nottingham	**1987**	**53.1**	**19.4**	**5.4**	**22.1**

Locality	Total	I have never smoked	I used to smoke but I have given up now	I smoke but I don't smoke every day	I smoke every day
North	696	50.0	21.3	3.3	25.4
Central	705	58.3	17.4	6.2	18.0
South	586	50.5	19.5	6.8	23.2

Source: Nottingham Citizens Survey 2011
Caveats: Rates are based on survey data and as such are subject to error. Please note that confidence limits therefore apply to data at Area level (95% confidence limits +/- 7%) – as shown by the error bars on the graph below.

- Area 7 has the highest proportion of residents who have smoked in the past but no longer smoke tobacco, and the highest percentage of people who have quit smoking than other Areas.
- Area 1 has the highest proportion of residents who smoke, with 31.3% of residents smoking every day.

Indices of Deprivation 2010: (Department for Communities and Local Government) The Indices of Deprivation measure the different types of deprivation experienced by individuals living in an area. Scores and Ranks are published for Super Output Areas but not for wards. The ward ranks above have been estimated by taking an average of the population weighted SOA scores for each City ward. These are unofficial. The City Ranks are out of 20. The SOA column gives the number in the worst 10% of SOAs in England and the total SOAs in the area.

CONTEXTUAL TABLE 5 - Students and Households

Ward	Students (2011)			Households (2011 census)		
	No.	% of total population	% of 16 to 64	Total No.	Student No.	Student %

Students: Source: 2011 Census. School children and full time students aged 18 and above. These figures are not comparable with figures previously published in ward reports, as they will include some students attending colleges and sixth forms as well as University students.

Households: 2011 Census. Please note, as these figures are from the Census and are not estimates using Council Tax and housing completions and demolitions information, they are not comparable with figures published in previous Ward Reports. Student households are from November 2012 from Council Tax exemption records. A household is defined as "a person living alone or people living at same address sharing a living or sitting room or sharing at least one meal per day". Because this relates to people, rather than buildings, vacant dwellings will not be included. The intention is that households in purpose-built student dwellings are excluded, but some may be included.
