WARD REPORT 2015

INTRODUCTION

This is the tenth annual One Nottingham Ward Report, produced to provide a variety of data at a Ward, Area Committee and Locality level.

The report includes data for a number of indicators, covering the themes of Worklessness; Health; Education; Crime, Housing and Liveability. It also includes data from the 2015 Citizens Survey.

The report concentrates on providing data at a Ward, Area Committee and Locality level - where data are available – but comparisons with the City, Greater Nottingham and England have been given where possible.

Greater Nottingham figures have been included for two reasons. Firstly, it is over this area that many local transport and economic strategies are formulated and delivered. Secondly, the City of Nottingham boundaries are very tightly drawn and Greater Nottingham gives a more complete picture of the urban area.

Data has been provided by a number of Agencies and Partners, including: Department for Work and Pensions; Nottinghamshire Police; Nottinghamshire Fire and Rescue Service; Nottinghamshire Futures; plus Nottingham City Council Children and Families department; Communities department; Public Heath; Housing Benefits; Accident Investigation; and Street Scene.

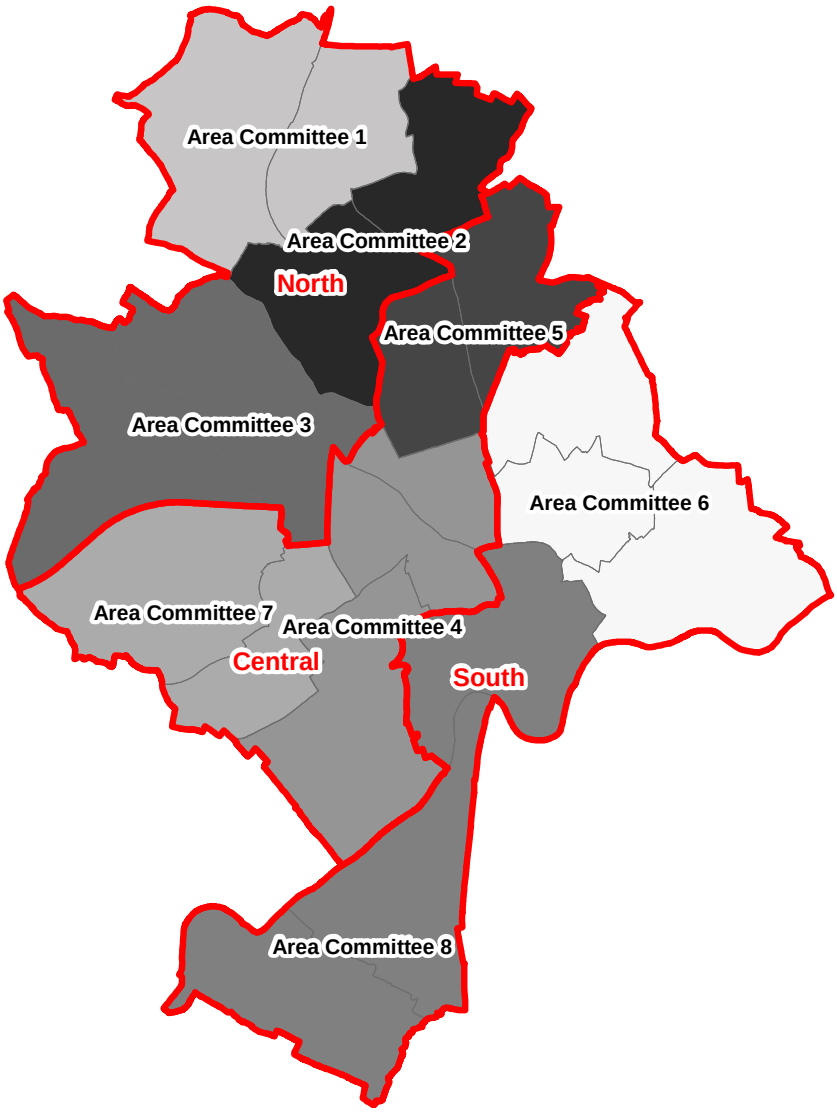

The contextual tables include data from the Office for National Statistics and the Department for Communities and Local Government and much is subject to Crown Copyright. Please quote the source when using the data.

Many of the datasets are available on the Nottingham Insight website (www.nottinghaminsight.org.uk), which also includes further contextual data from the 2011 Census, the 2015 Indices of Deprivation, the 2015 Citizens' survey, plus Ward Reports from the past few years.

If you would like any further information about this report, please contact Nicola Kirk in the Policy and Research team in the City Council, on (0115) 876 3979, or by e-mail, at: nicola.kirk@nottinghamcity.gov.uk

In 2011 a restructure of Area Committees resulted in a decrease from 9 to 8 Area Committees, grouped into 3 Localities.
The table and map below show which wards make up each Area Committee and Locality. Throughout the report, Area Committees are listed with their number for ease.

Locality	Area	Wards
North	1	Bulwell; Bulwell Forest
	2	Basford; Bestwood
	3	Aspley; Leen Valley; Bilborough
Central	4	Arboretum; Radford & Park; Dunkirk & Lenton
	5	Sherwood; Berridge
	7	Wollaton West; Wollaton East & Lenton Abbey
South	6	Mapperley; St Ann's; Dales
	8	Bridge; Clifton North; Clifton South

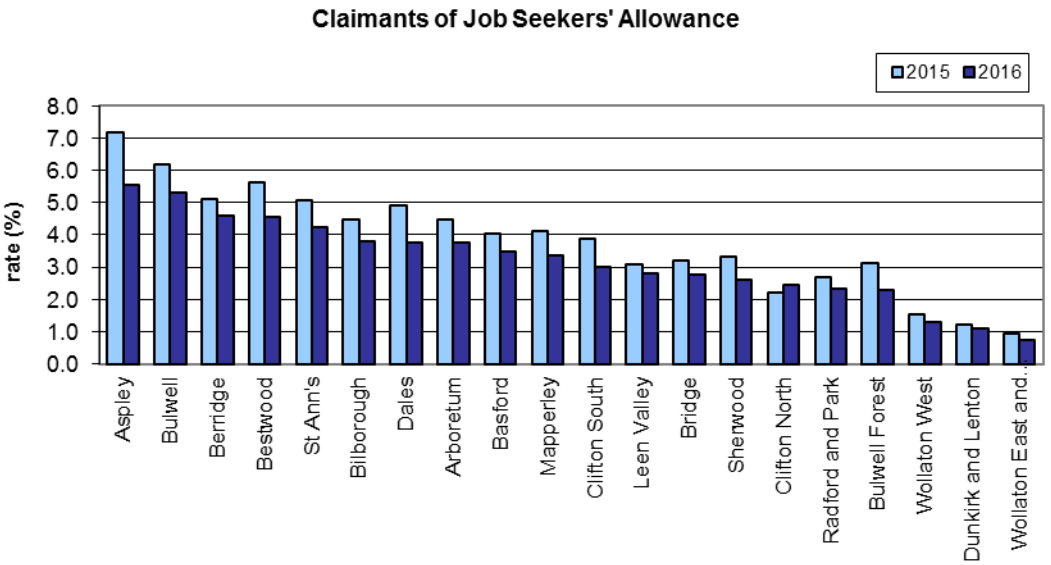

REGISTERED UNEMPLOYED

Number of people registered as unemployed (claimants of Job Seekers Allowance) and proportion of resident working age population

Unemployment rate by Ward

		January 2014		January 2015		January 2016	
Key	Ward	Number	%	Number	%	Number	%
1	Arboretum	775	5.9	585	4.5	490	3.7

- **Please note:** Changes to the benefits system were implemented in 2008 with further changes in October 2009 and 2010 - affecting claimants of Lone Parent Income Support. Also, in April 2011, the process of reassessing Incapacity Benefit claimants began. Some claimants of these two benefits will have transferred to Job Seekers Allowance.
- Unemployment fell by over 1,300 across the City between January 2015 and 2016, with 19 wards seeing decreases – 6 of which were decreases of over 20%.
- The largest decrease was in Aspley ward – with 175 fewer claimants.
- 3 other wards saw falls of more than 100 people.
- Aspley ward has the highest unemployment rate at 5.5%, and Wollaton East and Lenton Abbey ward has the lowest with 0.7% of the population aged 16-64 claiming JSA, followed by Dunkirk and Lenton and Wollaton West wards with 1.1% and 1.3% - although rates in these wards will be slightly skewed due to the large numbers of students. These are the only City wards with a rate lower than the England average.

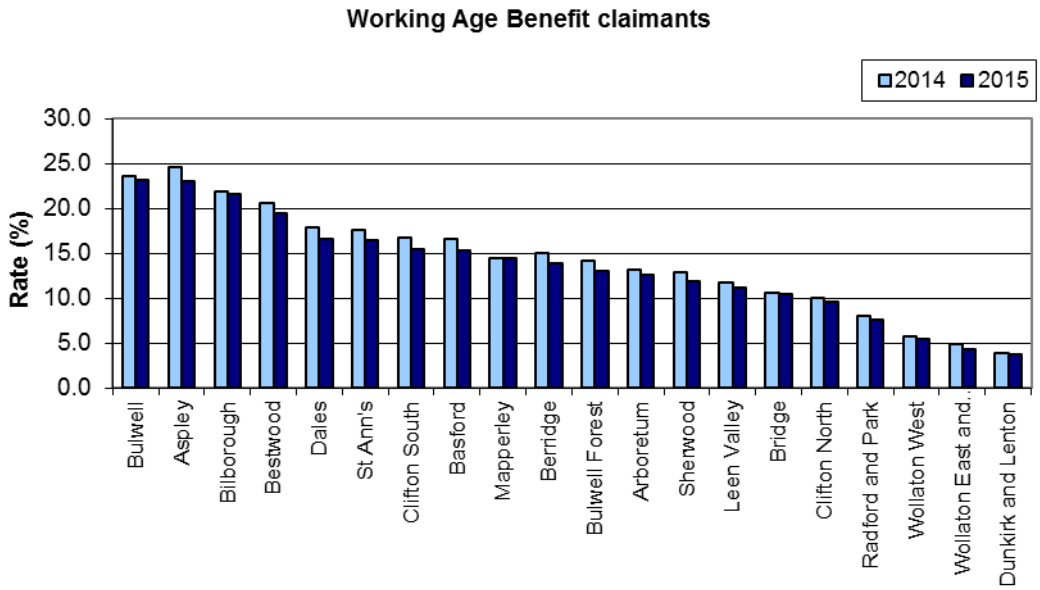

WORKING AGE BENEFITS

Number of people claiming working age benefits and proportion of resident working age population

Working age Benefit claimants by Ward

		August 2013		August 2014		August 2015	
Key	Ward	Number	%	Number	%	Number	%
1	Arboretum	1,805	15.2	1,725	13.2	1,645	12.6

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- **Definition:** The number of working-age people who are claiming one or more key DWP benefits. To avoid double counting, people are allocated to a 'statistical group' in the following order: Job Seekers Allowance; Incapacity Benefit and Employment Support Allowance; Income Support for Lone Parents and Other Income related benefits.
- **Please note**: Changes to the benefits system have been implemented from 2008, primarily affecting claimants of Lone Parent Income Support and Incapacity Benefit. Some Lone Parents with older children have been transferred to Job Seekers Allowance, and some people unable to work through incapacity, have been reassessed and may have been transferred to another benefit.
- The highest rate of claimants is in Bulwell ward – where 23.1% of the population aged 16-64 claims one or more working age benefits.
- The lowest rate is in Dunkirk & Lenton, the two Area 7 wards and Radford & Park - the only four wards with a claimant rate lower than the average for England.
- All City wards saw a decrease in number and rate of claimants between 2014 and 2015. The greatest numerical decreases were in Aspley ward and St Ann's, of 175 and 190 respectively.

INCAPACITY BENEFITS & EMPLOYMENT SUPPORT ALLOWANCE

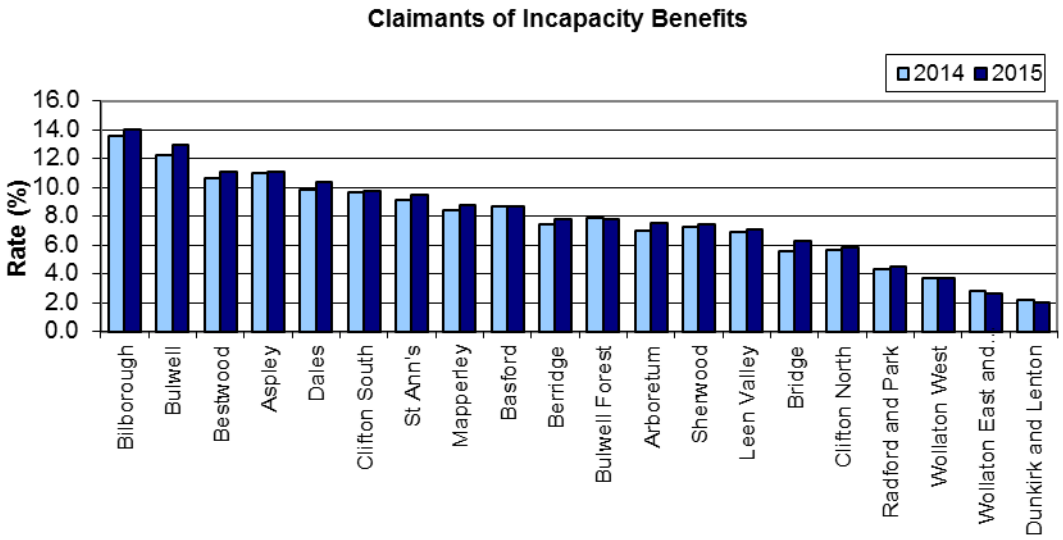

Number of people claiming Employment Support Allowance, Incapacity Benefit or Severe Disablement Allowance and proportion of resident working age population

IB, ESA and SDA Claimant Rate by Ward

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Incapacity Benefits, Aug 2015

- 2.1 - 4.5
- 4.6 - 7.8
- 7.9 - 10.4
- 10.5 - 14.0

- **Definition:** Incapacity Benefit (IB) is paid to people who are incapable of work, mostly due to ill health, and who meet certain contribution conditions. Severe Disablement Allowance (SDA) is paid to those unable to work for 28 weeks in a row or more because of illness or disability. Employment Support Allowance (ESA) replaced new claims for IB from October 2008. A three year process of reassessing IB claimants began in April 2011. Pilot projects suggest that most claimants will transfer to ESA but some claimants will be found to be fit to work and will transfer to Job Seeker's Allowance.
- The highest rate of claims is in Bilborough ward at 14% of the resident working age population and nearly double the City average.
- The lowest rate remains in Dunkirk and Lenton (2.1%) and Wollaton East and Lenton Abbey (2.7%)
- 4 wards saw small fall in claimants in the last year, although numbers remained fairly static in all wards, with just four wards – Arboretum, Bridge, Bulwell and Dales, seeing changes of more than 50 people.

PREMATURE DEATHS FROM CANCER

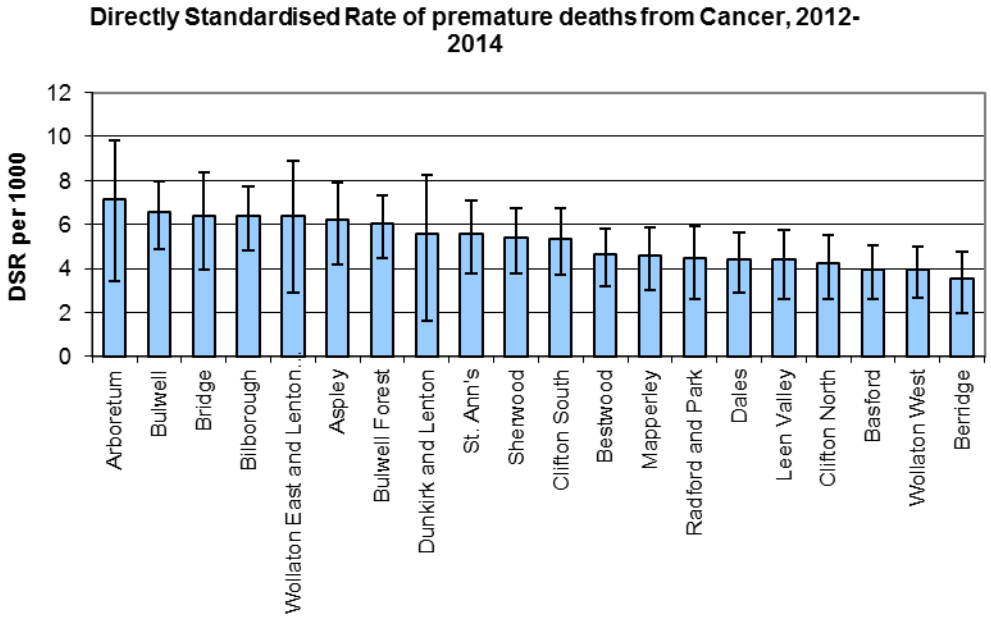

Directly Standardised Rate of Deaths of under-75 year olds from Cancer, per 1,000 population

See over for caveats and definitions.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Premature mortaity from Cancer, 2012-2014

- 3.6 - 4.0
- 4.1 - 4.6
- 4.7 - 5.6
- 5.7 - 7.1

- **Definition:** Rates are Directly Standardised to the European Standard Population to allow for the differing age and sex structures in each area. In 2013, the European Standard Population which had been in use since 1975 was updated and thus rates published here are not comparable with those published previously.
- In addition, previous Ward Death Rates were calculated using small area populations derived from GP Registered Lists. These DSRs were calculated using ONS Ward Population Estimates for the mid-year of the DSR.
- The rates are based on three years of pooled data.
- **Caveats:** Please note the upper confidence limit (UCL) and lower confidence limit (LCL) figures in the table, and indicated on the chart above by the error bars. These overlap for many of the wards meaning they are not significantly different to one another.
- The highest rate of premature deaths from Cancer is in Arboretum ward, at 7.12 per 1,000 population. The lowest rate is in Berridge, at 3.55 per 1,000.
- Between 2011-13 and 2012-14, 6 wards saw a slight increase in premature mortality from Cancer, but none were statistically significant.

PREMATURE DEATHS FROM CIRCULATORY DISEASE

Directly Standardised Rate of Deaths of under-75 year olds from Circulatory Disease, per 1,000 population

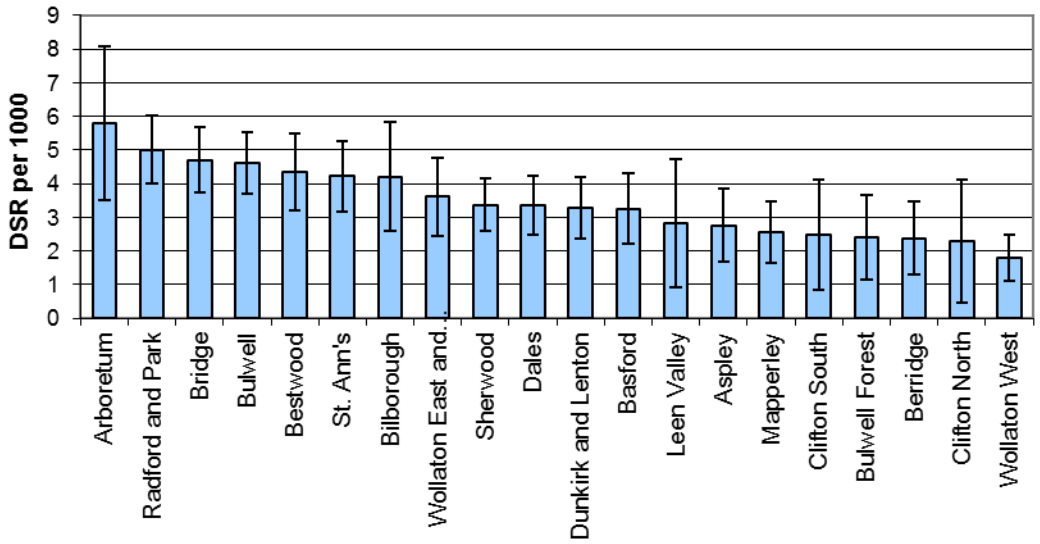

Directly Standardised Rate per 1,000 by Ward

Directly Standardised Rate of premature deaths from Circulatory disease, 2012-2014

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Premature mortality from Circulatory Disease

- 1.8 - 2.8
- 2.9 - 3.6
- 3.7 - 5.0
- 5.1 - 5.8

- **Definition:** Rates are Directly Standardised to the European Standard Population to allow for the differing age and sex structures in each area. In 2013, the European Standard Population which had been in use since 1975 was updated and thus rates published here are not comparable with those published previously.
- In addition, previous Ward Death Rates were calculated using small area populations derived from GP Registered Lists. These DSRs were calculated using ONS Ward Population Estimates for the mid-year of the DSR.
- The rates are based on three years of pooled data.
- **Caveats:** Please note the upper confidence limit (UCL) and lower confidence limit (LCL) figures in the table, and indicated on the chart above by the error bars. These overlap for many of the wards meaning they are not significantly different to one another.
- The highest rate of premature deaths from Circulatory disease is in Arboretum, at 5.79 per 1,000 people. This is significantly higher than Wollaton West, Berridge and Bulwell Forest.
- The lowest rate is in Wollaton West, at fewer than 2 per 1,000 population, significantly lower than 7 other wards.
- Between 2011-13 and 2012-14, 8 wards saw a slight increase in premature mortality from Circulatory disease, but none were statistically significant.

TEENAGE CONCEPTIONS

Source: Office for National Statistics, Crown Copyright

Caveats: The ONS state that ward level rates must not be published on the internet, so the table, and the graph and maps below, above just state whether a ward's rate is significantly different to rates for England.

Please note: The graph below shows the wards from highest rate on the left to lowest rate on the right. Some wards may have a higher rate than others but not be significantly different to England due to the large confidence intervals.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Teenage Conceptions 2011-13

- No significant difference
- Significantly Higher
- Significantly Lower

- Ten City wards have a Teenage Conception rate that is significantly higher than the England rate.
- Wollaton West is the only City ward to have a teenage conception rate that is significantly lower than the England rate.
- Although the data is not directly comparable, in 2014 Nottingham had an under-18 conception rate of 32.8 per 1,000 females. The corresponding rate for England was 22.8 per 1,000.

Reading **Writing** **Maths**

- **Definition**: Percentage of eligible pupils in schools maintained by the Local Education Authority achieving Level 2 or above in the Key Stage 1 Tests who are resident within the Nottingham City ward boundaries.
- **Please note:** Figures for wards are given for pupils resident in the City and attending City schools but may exclude a few pupils where their address could not be geo-coded. The Nottingham rate is for all pupils, including those who live outside of the City and those who could not be geo-coded to an area.
- **Please note:** The categories on the maps above have been manually adjusted to enable comparisons between the three subjects.
- The highest rates of attainment in the three elements of Key Stage 1, reading, writing and maths, are seen in Wollaton West with over 90% of attaining level 2 or above in reading, writing and maths.
- The lowest rates of attainment in reading are in Arboretum ward (75.4%). In writing, Radford and Park has the lowest attainment rate at 72.0% and Berridge (80.9%) has the lowest attainment rate in maths.

Dwelling Burglary rate, 2015

- 2.3 - 4.1
- 4.2 - 7.8
- 7.9 - 12.3
- 12.4 - 19.9

- **Definition**: A person is guilty of a dwelling burglary (domestic burglary) if they enter any part of a dwelling (fit for habitation) as a trespasser and steal or attempt to steal anything in the building or attempt to inflict any grievous bodily harm on any person in the building (or intend to carry out any of these acts).
- The highest rate of dwelling burglary is in Arboretum, at 20 per 1,000 households.
- The lowest rate is in Wollaton West ward, with just 2.3 per 1,000 households.
- Overall, there was a decrease of 950 incidents over the last year, with all wards seeing decreases – the largest decrease being in Bilborough which saw more 85 fewer incidents on the previous year.

Violent Crime, 2015

- 4.6 - 5.8
- 5.9 - 12.2
- 12.3 - 17.5
- 17.6 - 26.5

- **Definition**: Violent crime covers a number of offences where physical or verbal assault has taken place on an individual (this includes threats of violence). Offence types range from harassment, to assault, to grievous bodily harm and murder, but the number of serious offences tend to be relatively small. Sexual Offences are also included in this category. Violent crime includes Domestic Violence, which is defined by the Home Office as any violence between current and former partners in an intimate relationship, wherever the violence occurs.
- **Please note:** The figures are based on location of the crime, not residence of the offender or victim.
- The highest rate of violent crime is in Arboretum ward, at 26.5 incidents per 1,000 population.
- The lowest rate is in the two Wollaton wards, at fewer than 5 per 1,000.
- 18 wards saw a decrease in incidents between 2014 and 2015, with the largest decrease seen in Aspley – with 120 fewer incidents.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Vehicle Crime, 2015

- 1.7 - 3.1
- 3.2 - 4.3
- 4.4 - 6.6
- 6.7 - 8.5

- **Definition:** Theft **from** a vehicle is where the intent is to steal from a vehicle rather than drive it away. Theft **of** a motor vehicle is committed if, without having the consent of the owner or other lawful authority, the perpetrator takes any vehicle for his own or another's use. This category includes other vehicles such as motorcycles and mopeds.
- **Please note:** Figures are for the location of the theft and not the residence of the offender or victim.
- The highest rates of vehicle crime are in Wollaton West ward, with a rate of 8.5 per 1,000.
- The lowest rates are in neighbouring Wollaton East & Lenton Abbey and Bulwell Forest wards, with 1.7 and 2.6 incidents per 1,000 respectively.
- Across the City the number of vehicle crimes decreased by 750 incidents between 2014 and 2015 with increases in just 1 ward – 34 more incidents in Wollaton West.
- The largest falls numerically were in Mapperley and Basford wards – both with 89 fewer incidents.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- **Definition**: Intentional Secondary Fires: where 'Intentional' refers to deliberate, doubtful or malicious cause of fire and 'Secondary Fire' is a fire with no insurance value or with no casualties involved, such as refuse and grassland fires. Intentional Vehicle Fires: in this context, 'Intentional' basically means arson, and refers to vehicle fires whose causes are deliberate, doubtful or malicious.
- The number of intentional fires decreased by over 400 between 2014 and 2015, with all wards seeing an increase.
- The largest number of intentional fires was in Bulwell, Bestwood and Arboretum wards, with rates of 4.3, 2.8 and 1.8 per 1,000 households.
- Wollaton East and Lenton Abbey, and Dunkirk and Lenton wards had no intentional fires recorded in 2015.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Traffic Casualties, 2015

- 1 - 4
- 4 - 9
- 9 - 14
- 15 - 20

- **Definition**: Figures are for the location where an accident involving someone being killed or seriously injured, took place, not the address of the person involved.
- **Please note:** Due to the small numbers involved, percentage changes can look very large and care should be taken in interpreting the data.
- The highest number of casualties during 2015 were in St Ann's and Bridge wards – both encompassing parts of the City Centre area. The lowest number was in Wollaton West ward.
- The number of people killed or seriously injured in traffic accidents has increased across the City between 2014 and 2015 with the largest numerical increase in Dunkirk and Lenton ward (+8).
- Seven wards saw falls in casualties between the two years and 11 saw increases.

NOT IN EMPLOYMENT, EDUCATION OR TRAINING

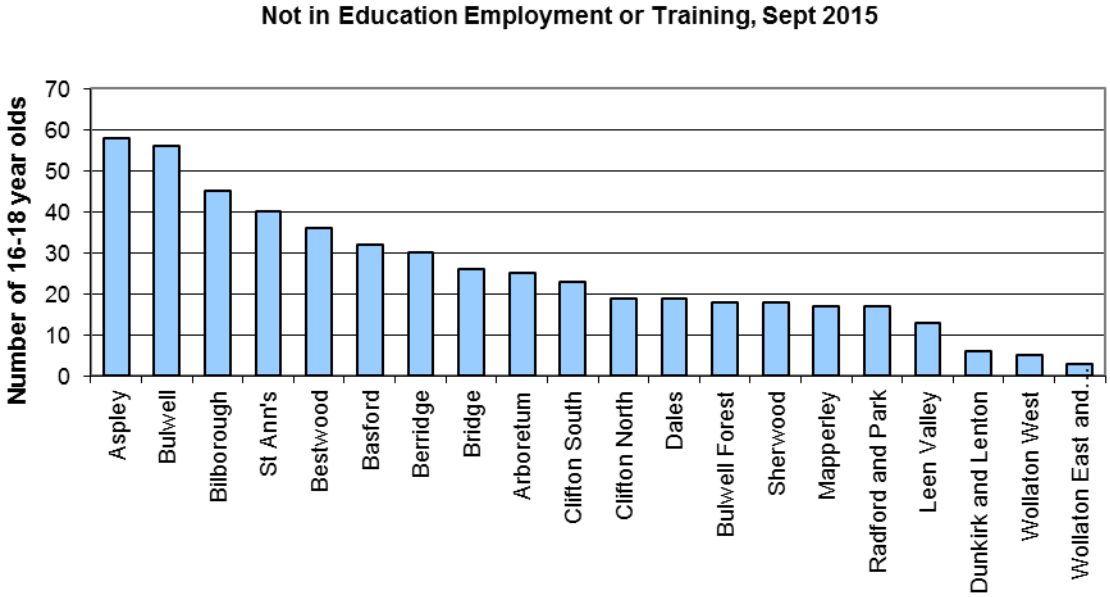

Young people aged 16-18 year olds not in employment, education or training (NEET)

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- If you require further information about the levels of NEET or EET in a ward, please contact Futures Advice on 0115 960 1597.
- The highest number of young people who are Not in Employment, Education or Training, is in Aspley ward – with 58 equating to more than a tenth of the City's total. It should be noted however, that Aspley also has one of the highest numbers of young people of all city wards.
- Three wards have fewer than 10 people who are NEET – including Wollaton East & Lenton Abbey and Dunkirk & Lenton wards, which both have high numbers of students and corresponding lower numbers of 16 and 17 year olds.

HOUSING BENEFIT AND COUNCIL TAX REDUCTION

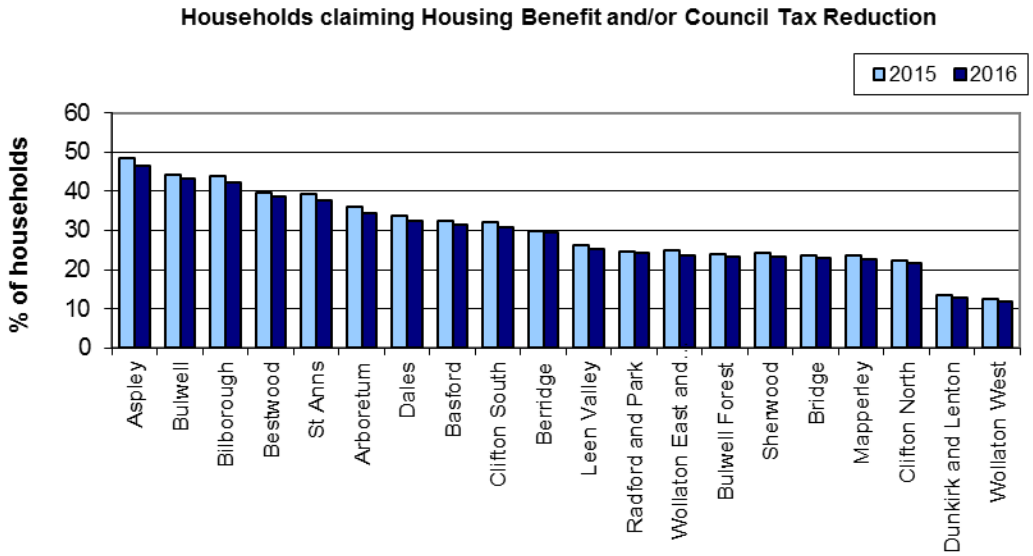

Households in receipt of Housing Benefit and/or Council Tax Reduction and proportion of all households

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- **Caveat:** Due to a change in Government policy, Council Tax Benefit ended on 31/3/2013, and Local Authorities are now responsible for administering Council Tax Reduction Schemes. The eligibility criteria have consequently changed.
- All wards saw a decrease in the number of claims for Council Tax Reduction and/or Housing Benefit between April 2015 and April 2016. Three wards – Aspley, St Ann's and Bilborough saw decreases of more than 100 claimants.
- Aspley has the highest rate of claims for Council Tax Reduction and/or Housing Benefit, with 46% of all households in the ward claiming. Four other wards have rates of more than 30%
- The lowest rate is in Wollaton West with just 11.7% of households receiving one or both.

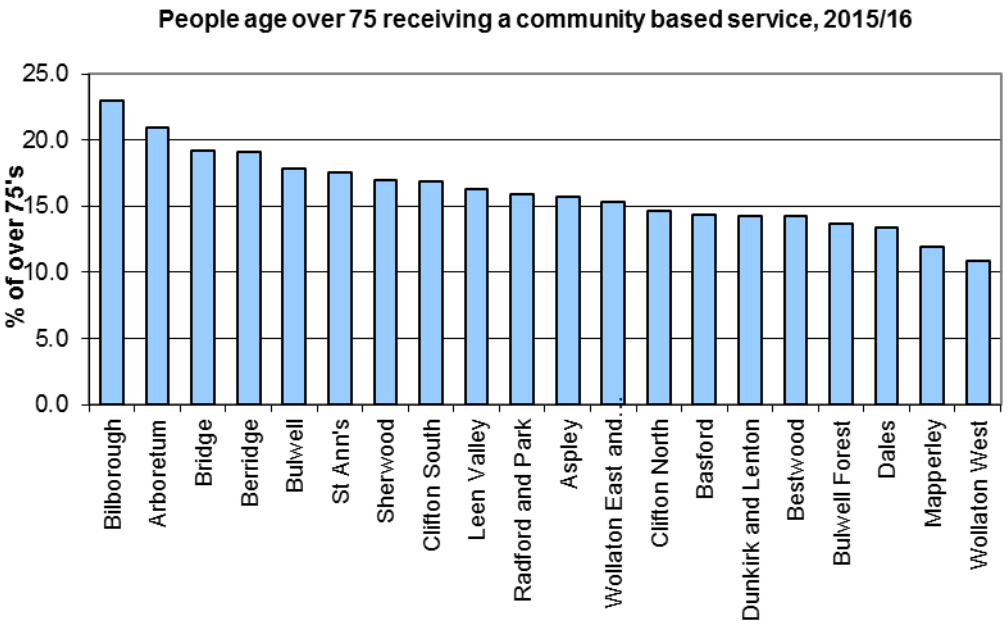

SOCIAL SERVICES FOR OLDER PEOPLE

Number of people aged 75 and over who received a Community Based Social Service to enable them to live independently in their own home, plus rate per population aged 75 and over.

Social Services for Older People by Ward, 2015/16

Key	Ward	Number receiving a Social Service	Population 75+ (2014)	% receiving a Social Service

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- **Definition**: People aged 75 and over who received any Community Based Social Service during the year April 2015-March 2016. The number does not include long term residential or nursing care, although short term care in a residential or nursing home does count as a Community Based Service.
- **Please note**: The location is the client's address at the end of the year. Some individuals may have moved address during this year and may no longer live at the address where the service was accessed.
- The highest rate of older people receiving a service is in Bilborough ward where 23.0% of over 75's received a service.
- Bilborough also has the highest number of older people receiving a service – at 340. This is 80 people more than the second highest ward, Clifton South, despite Bilborough having a smaller number of over 75s.

NEIGHBOURHOOD SATISFACTION

Proportion of residents who are satisfied with their local neighbourhood

Neighbourhood satisfaction by Area and Locality, 2015

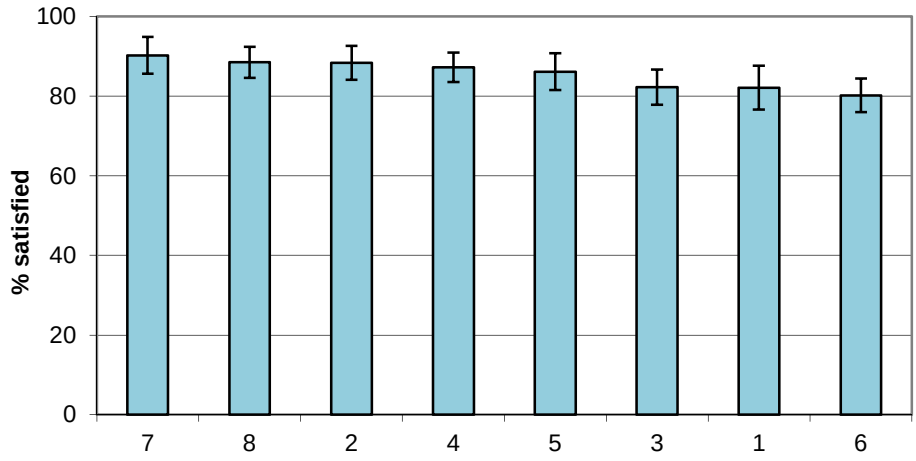

Area	Total	% Satisfied	% Dissatisfied
1	190	82.1	7.9
2	223	88.3	6.3
3	293	82.3	7.8
4	320	87.2	8.1
5	216	86.1	6.0
6	343	80.2	7.9
7	163	90.2	2.5
8	269	88.5	4.8
Nottingham	**2,020**	**85.1**	**6.8**

Locality	Total	% Satisfied	% Dissatisfied
North	706	84.1	7.4
Central	699	87.6	6.2
South	612	83.8	6.5
Nottingham	**2,020**	**85.1**	**6.8**

Source: Nottingham Citizens Survey 2015

Caveats: Rates are based on survey data and as such are subject to error. Please note that confidence limits therefore apply to data (95% confidence limits approx. +/- 5%) – as shown by the error bars on the graph below.

Residents satisfied with their local area

- The highest levels of satisfaction are in Area 7 (Wollaton West and Wollaton east & Lenton Abbey) where 90% of respondents replied that they were either Very or Fairly Satisfied with their area as a place to live.
- The lowest level of satisfaction was in Area 6 (Mapperley, Dales and St Ann's wards) where only 80% of people were Very or Fairly Satisfied – significantly lower than Area 7.

ABILITY TO INFLUENCE DECISIONS

Proportion of residents who feel they are able to personally influence decisions relating to their neighbourhood

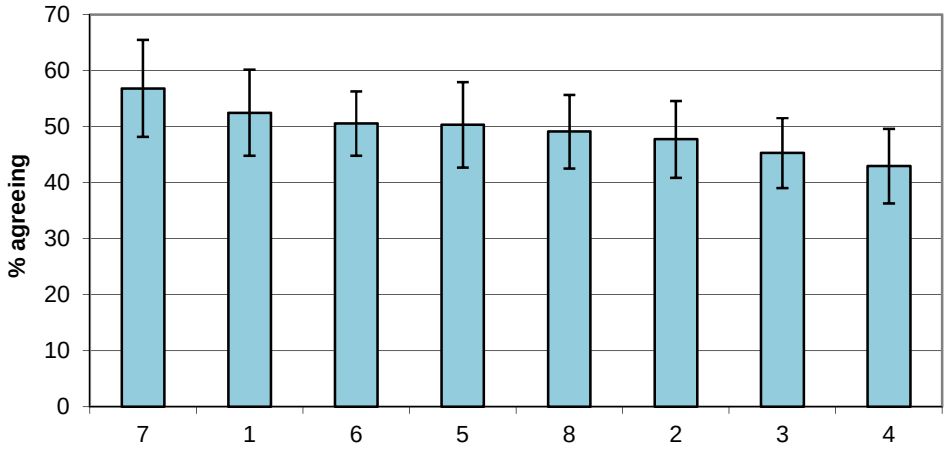

Agreement by Area and Locality, 2015

Area	Total	% Agree	% Disagree
1	162	52.5	47.5
2	197	47.7	52.3
3	243	45.3	54.7
4	212	42.9	57.1
5	165	50.3	49.7
6	289	50.5	49.5
7	125	56.8	43.2
8	222	49.1	50.9
Nottingham	**1616**	**48.8**	**51.2**

Locality	Total	% Agree	% Disagree
North	602	48.0	52.0
Central	502	48.8	51.2
South	511	49.9	50.1
Nottingham	**1616**	**48.8**	**51.2**

Source: Nottingham Citizens Survey 2015
Caveats: Rates are based on survey data and as such are subject to error. Please note that confidence limits therefore apply to data (95% confidence limits up to +/- 8%) – as shown by the error bars on the graph below.

Residents agreeing they can influence decisions

- In four Area Committees, at least 50% of the population agree that they can influence decisions which affect their local area. The highest is Area 7 (Wollaton West and Wollaton East & Lenton Abbey) where 56.8% of the residents agree.
- The lowest rate is in Area 4 where just 42.9% of people agree.

NEIGHBOURHOOD COHESION

Proportion of residents who feel their neighbourhood is a place where people from different backgrounds get on well together

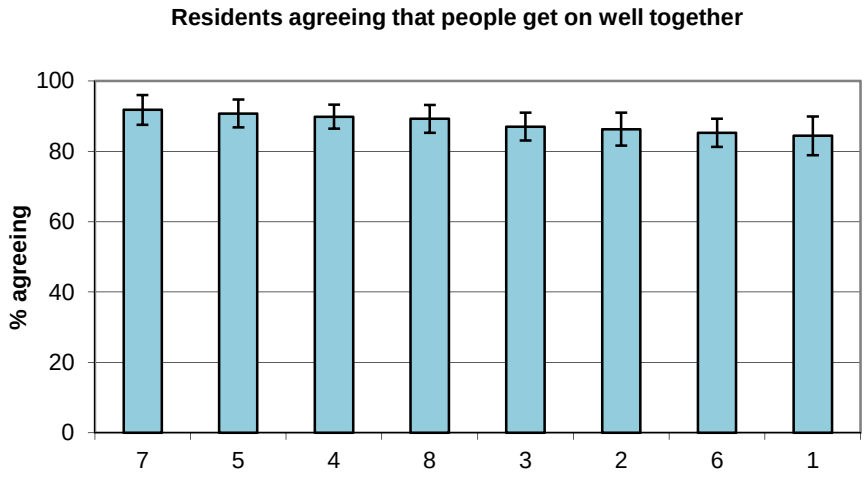

Agreement by Area and Locality, 2015

Area	Total	% Agree	% Disagree
1	173	84.4	15.6
2	211	86.3	13.7
3	277	87.0	13.0
4	295	89.8	10.2
5	205	90.7	9.3
6	312	85.3	14.7
7	158	91.8	8.2
8	241	89.2	10.8
Nottingham	**1,867**	**88.1**	**11.9**

Locality	Total	% Agree	% Disagree
North	661	86.1	13.9
Central	658	90.6	9.4
South	553	87.0	13.0
Nottingham	**1,867**	**88.1**	**11.9**

Source: Nottingham Citizens Survey 2015

Caveats: Rates are based on survey data and as such are subject to error. Please note that confidence limits therefore apply to data (95% confidence limits approx. +/- 4%) – as shown by the error bars on the graph below.

- Area 1 has the lowest percentage of people reporting that people from different backgrounds get on well in their area – although the figure is quite high at 84.4%.
- The highest proportion was in Area 7 where nearly 92% of residents agreed that people got on well.

RESIDENTS WHO SMOKE

Proportion of residents who smoke tobacco and of residents who do not smoke

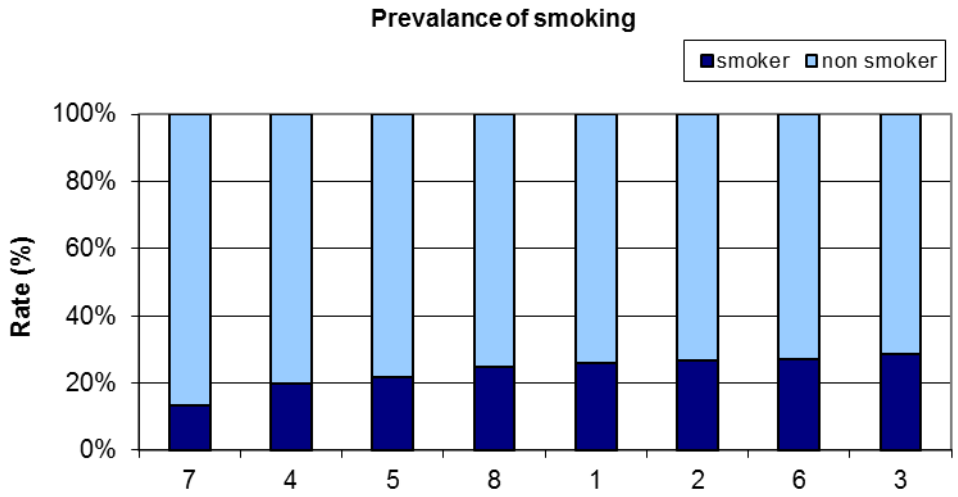

Prevalence of smoking by Area and Locality, 2015

Area	Total	I have never smoked	I used to smoke but I have given up now	I smoke but I don't smoke every day	I smoke every day
1	189	52.9	21.2	3.7	22.2
2	224	53.6	19.6	7.1	19.6
3	292	52.1	19.5	4.8	23.6
4	319	66.8	13.5	7.2	12.5
5	213	60.6	17.8	2.8	18.8
6	341	51.3	21.7	4.4	22.6
7	163	73.0	13.5	3.7	9.8

Nottingham	**2006**	**58.0**	**18.1**	**4.9**	**18.9**

Locality	Total	I have never smoked	I used to smoke but I have given up now	I smoke but I don't smoke every day	I smoke every day
North	705	52.8	20.0	5.2	22.0
Central	695	66.3	14.8	5.0	13.8
South	609	54.2	19.9	4.6	21.3
Nottingham	**2006**	**58.0**	**18.1**	**4.9**	**18.9**

Source: Nottingham Citizens Survey 2015

Caveats: Rates are based on survey data and as such are subject to error. Please note that confidence limits therefore apply to data (95% confidence limits approx., +/- 6%) – as shown by the error bars on the graph below.

- Area 7 has the highest proportion of residents who are non-smokers than other Areas, at 86.5%.
- Area 3 has the highest proportion of residents who are smokers, with 28.4% of residents smoking and just under a quarter smoking very day.
- In three of the City's areas, more than 2 in 5 residents smoke daily.

Indices of Deprivation 2015: (Department for Communities and Local Government) The Indices of Deprivation measure the different types of deprivation experienced by individuals living in an area. Scores and Ranks are published for Super Output Areas but not for wards. The ward ranks above have been estimated by taking an average of the population weighted SOA scores for each City ward. These are unofficial. The City Ranks are out of 20. The SOA column gives the number in the worst 10% of SOAs in England and the total SOAs in the area.

CONTEXTUAL TABLE 5 - Students and Households

Students: Source: 2011 Census. School children and full time students aged 18 and above. These figures are not comparable with figures previously published in ward reports, as they will include some students attending colleges and sixth forms as well as University students.

Households: Total households are from the 2011 Census and are **not** estimates using Council Tax and housing completions and demolitions information, so are not comparable with figures published in previous Ward Reports. Student households are from November 2015 Council Tax exemption records. A household is defined as "a person living alone or people living at same address sharing a living or sitting room or sharing at least one meal per day". Because this relates to people, rather than buildings, vacant dwellings will not be included. The intention is that households in purpose-built student dwellings are excluded, but some may be included.
