WARD REPORT 2014

INTRODUCTION

This is the ninth annual One Nottingham Ward Report, produced to provide a variety of data at a Ward, Area Committee and Locality level.

The report includes data for a number of indicators, covering the themes of Worklessness; Health; Education; Crime, Housing and Liveability. It also includes data from the 2014 Citizens Survey.

The report concentrates on providing data at a Ward, Area Committee and Locality level - where data are available – but comparisons with the City, Greater Nottingham and England have been given where possible.

Greater Nottingham figures have been included for two reasons. Firstly, it is over this area that many local transport and economic strategies are formulated and delivered. Secondly, the City of Nottingham boundaries are very tightly drawn and Greater Nottingham gives a more complete picture of the urban area.

Data has been provided by a number of Agencies and Partners, including: Department for Work and Pensions; Nottinghamshire Police; Nottinghamshire Fire and Rescue Service; Nottinghamshire Futures; plus Nottingham City Council Children and Families department; Communities department; Public Heath; Housing Benefits; Accident Investigation; and Street Scene.

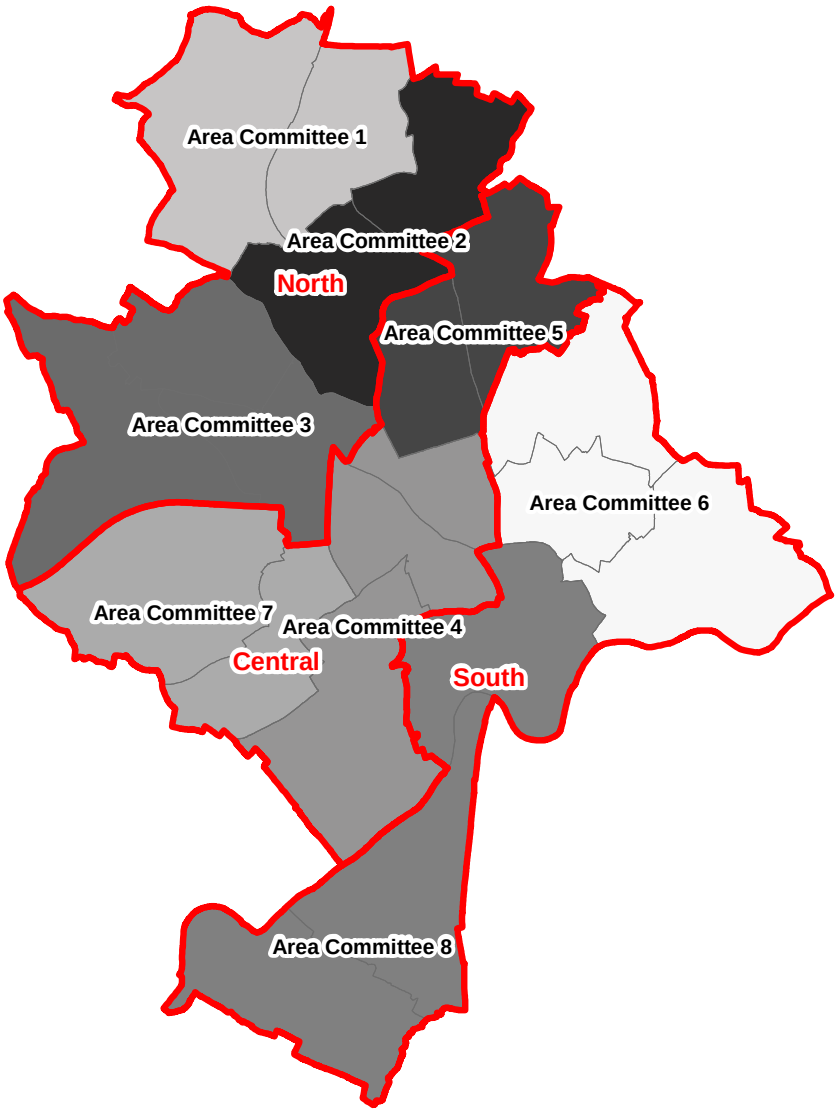

The contextual tables include data from the Office for National Statistics and the Department for Communities and Local Government and much is subject to Crown Copyright. Please quote the source when using the data.

Many of the datasets are available on the Nottingham Insight website (www.nottinghaminsight.org.uk), which also includes further contextual data from the 2011 Census, the 2010 Indices of Deprivation, the 2014 Citizens' survey, plus Ward Reports from the past few years.

If you would like any further information about this report, please contact Nicola Kirk in the Policy and Research team in the City Council, on (0115) 876 3979, or by e-mail, at: nicola.kirk@nottinghamcity.gov.uk

In 2011 a restructure of Area Committees resulted in a decrease from 9 to 8 Area Committees, grouped into 3 Localities.
The table and map below show which wards make up each Area Committee and Locality. Throughout the report, Area Committees are listed with their number for ease.

Locality	Area	Wards
North	1	Bulwell; Bulwell Forest
	2	Basford; Bestwood
	3	Aspley; Leen Valley; Bilborough
Central	4	Arboretum; Radford & Park; Dunkirk & Lenton
	5	Sherwood; Berridge
	7	Wollaton West; Wollaton East & Lenton Abbey
South	6	Mapperley; St Ann's; Dales
	8	Bridge; Clifton North; Clifton South

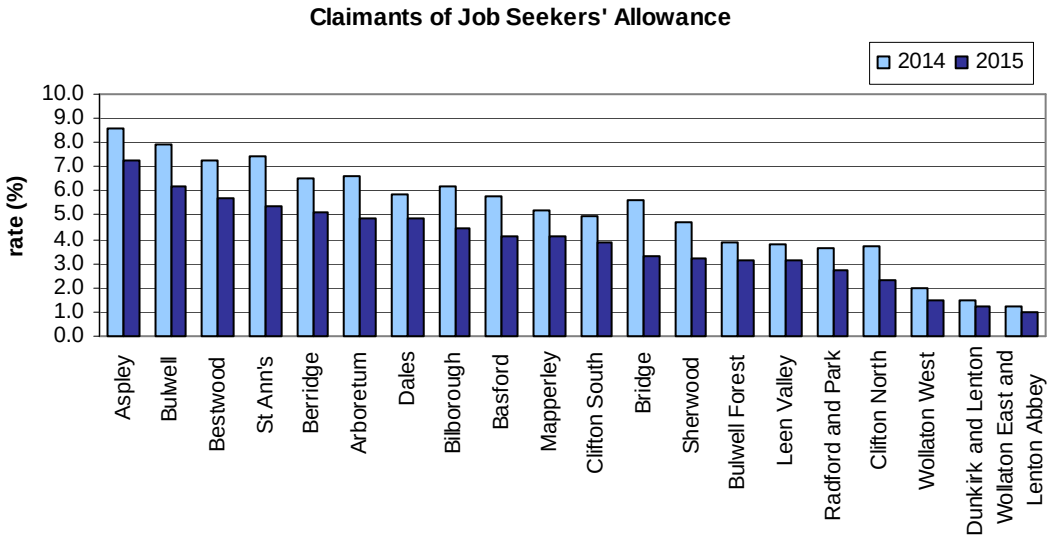

REGISTERED UNEMPLOYED

Number of people registered as unemployed (claimants of Job Seekers Allowance) and proportion of resident working age population

Unemployment rate by Ward

		February 2013		February 2014		February 2015	
Key	Ward	Number	%	Number	%	Number	%
1	Arboretum	859	7.1	799	6.6	649	4.9

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- **Please note:** Changes to the benefits system were implemented in 2008 with further changes in October 2009 and 2010 - affecting claimants of Lone Parent Income Support. Also, in April 2011, the process of reassessing Incapacity Benefit claimants began. Some claimants of these two benefits will have transferred to Job Seekers Allowance.
- Unemployment fell by over 3,000 across the City between 2014 and 2015, with 17 wards seeing decreases of over 20%.
- The largest decrease was in St Ann's ward – with 300 fewer people.
- 3 other wards saw falls of more than 200 people.
- Aspley ward has the highest unemployment rate at 7.3%, and Wollaton East and Lenton Abbey ward has the lowest with 1% of the population aged 16-64 claiming JSA, followed by Dunkirk and Lenton and Wollaton West wards with 1.2% and 1.5% - although rates in these wards will be slightly skewed due to the large numbers of students. These are the only City wards with a rate lower than the England average.

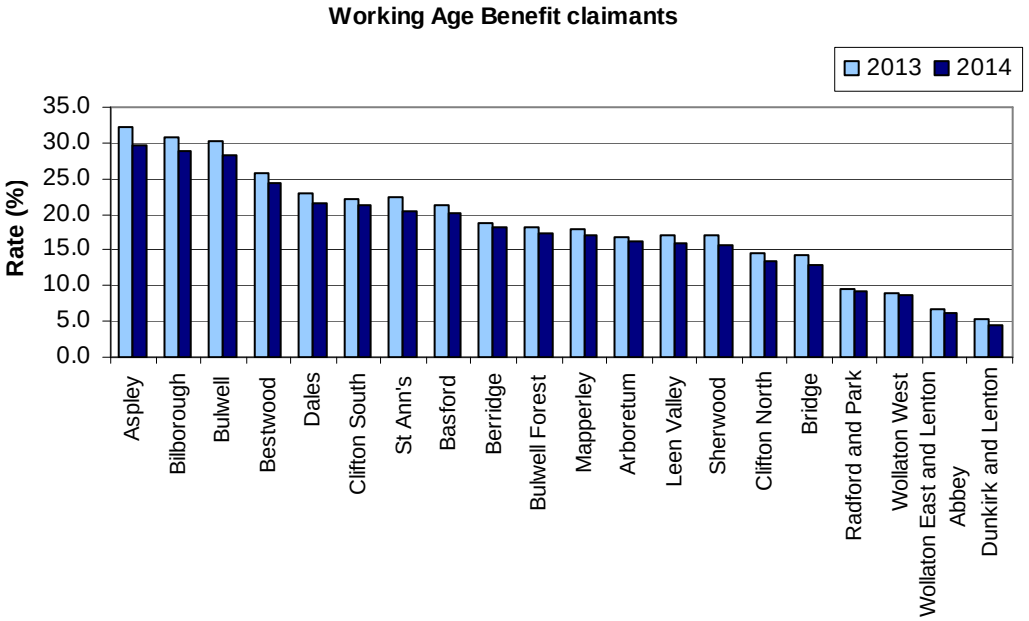

WORKING AGE BENEFITS

Number of people claiming working age benefits and proportion of resident working age population

Working age Benefit claimants by Ward

		August 2012		August 2013		August 2014

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- **Definition:** The number of working-age people who are claiming one or more key DWP benefits. To avoid double counting, people are allocated to a 'statistical group' in the following order: Job Seekers Allowance; Incapacity Benefit and Employment Support Allowance; Income Support for Lone Parents and Other Income related benefits.
- **Please note**: Changes to the benefits system have been implemented from 2008, primarily affecting claimants of Lone Parent Income Support and Incapacity Benefit. Some Lone Parents with older children have been transferred to Job Seekers Allowance, and some people unable to work through incapacity, have been reassessed and may have been transferred to another benefit.
- The highest rate of claimants is in Aspley ward – where 29.6% of the population aged 16-64 claims one or more working age benefits.
- The lowest rate is in the two Area 7 wards, Dunkirk & Lenton, and Radford & Park, - the only four wards with a claimant rate lower than the average for England.
- All City wards saw a decrease in number and rate of claimants between 2013 and 2014. The greatest numerical decreases were in Aspley ward and St Ann's, of 275 and 280 respectively.

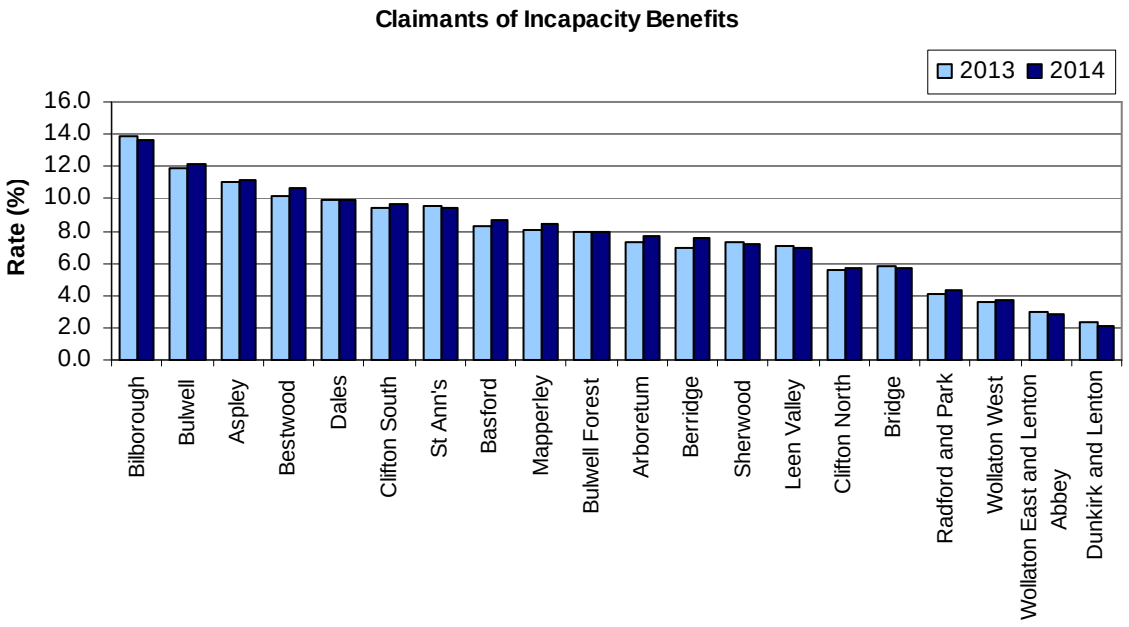

INCAPACITY BENEFITS & EMPLOYMENT SUPPORT ALLOWANCE

Number of people claiming Employment Support Allowance, Incapacity Benefit or Severe Disablement Allowance and proportion of resident working age population

IB, ESA and SDA Claimant Rate by Ward

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- **Definition:** Incapacity Benefit (IB) is paid to people who are incapable of work, mostly due to ill health, and who meet certain contribution conditions. Severe Disablement Allowance (SDA) is paid to those unable to work for 28 weeks in a row or more because of illness or disability. Employment Support Allowance (ESA) replaced new claims for IB from October 2008. A three year process of reassessing IB claimants began in April 2011. Pilot projects suggest that most claimants will transfer to ESA but some claimants will be found to be fit to work and will transfer to Job Seeker's Allowance. This may explain some of the decrease in claimant numbers.
- The highest rate of claims is in Bilborough ward at 13.6% of the resident working age population and nearly double the City average.
- The lowest rate remains in Wollaton East and Lenton Abbey (2.9%) and Dunkirk and Lenton (2.1%)
- 8 wards saw small fall in claimants in the last year, although numbers remained fairly static in all wards, with just three wards – Arboretum, Berridge and Bestwood, seeing changes of more than 50 people.

PREMATURE DEATHS FROM CANCER

See over for caveats and definitions.

Directly Standardised Rate of premature deaths from Cancer, 2011-2013

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- **Definition:** Rates are Directly Standardised to the European Standard Population to allow for the differing age and sex structures in each area. In 2013, the European Standard Population which had been in use since 1975 was updated and thus rates published here are not comparable with those published previously.
- In addition, previous Ward Death Rates were calculated using small area populations derived from GP Registered Lists. These DSRs were calculated using ONS Ward Population Estimates for the mid year of the DSR.
- The rates are based on three years of pooled data.
- **Caveats:** Please note the upper confidence limit (UCL) and lower confidence limit (LCL) figures in the table, and indicated on the chart above by the error bars. These overlap for many of the wards meaning they are not significantly different to one another.
- The highest rate of premature deaths from Cancer is in Arboretum ward, at 7.2 per 1,000 population. The lowest rate is in Berridge, at 4.0 per 1,000.
- The rate in Bulwell is significantly higher than the rate in Wollaton West.
- Between 2010-12 and 2011-13, 5 wards saw a slight increase in premature mortality from Cancer, but none were statistically significant.

PREMATURE DEATHS FROM CIRCULATORY DISEASE

Directly Standardised Rate of Deaths of under-75 year olds from Circulatory Disease, per 1,000 population

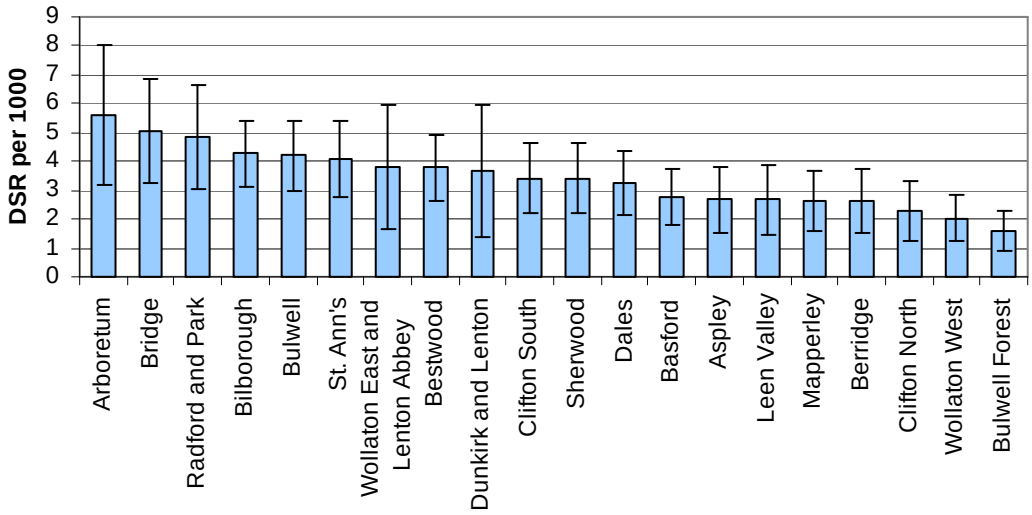

Directly Standardised Rate per 1,000 by Ward

		2010-2012				2011-2013			
Key	Ward	Directly Standardised Rate	LCL	UCL	No. of Events	Directly Standardised Rate	LCL	UCL	No. of Events

Directly Standardised Rate of premature deaths from Circulatory disease, 2011-2013

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Wards

DSR of premature deaths from Circulatory Disease, 2011-1

1.6 - 2.6
2.7 - 3.6
3.7 - 4.6
4.7 - 5.6

- **Definition:** Rates are Directly Standardised to the European Standard Population to allow for the differing age and sex structures in each area. In 2013, the European Standard Population which had been in use since 1975 was updated and thus rates published here are not comparable with those published previously.
- In addition, previous Ward Death Rates were calculated using small area populations derived from GP Registered Lists. These DSRs were calculated using ONS Ward Population Estimates for the mid year of the DSR.
- The rates are based on three years of pooled data.
- **Caveats:** Please note the upper confidence limit (UCL) and lower confidence limit (LCL) figures in the table, and indicated on the chart above by the error bars. These overlap for many of the wards meaning they are not significantly different to one another.
- The highest rate of premature deaths from Circulatory disease is in Arboretum, at 5.6 per 1,000 people. This is significantly higher than Wollaton West and Bulwell Forest.
- The lowest rate is in Bulwell Forest, at less than 2 per 1,000 population, significantly lower than 7 other wards.
- Between 2010-12 and 2011-13, 8 wards saw a slight increase in premature mortality from Circulatory disease, but none were statistically significant.

Caveats: The ONS state that ward level rates must not be published on the internet, so the table, and the graph and maps below, above just state whether a ward's rate is significantly different to rates for the City or England.

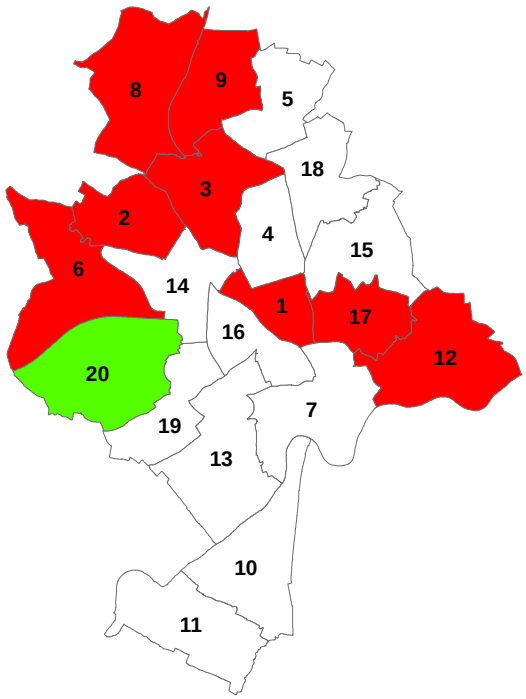

Please note: The graph below shows the wards from highest rate on the left to lowest rate on the right. Some wards may have a higher rate than others but not be significantly different to the City or England due to the large confidence intervals.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Significantly Higher

- Two City wards have a Teenage Conception rate that is significantly higher than the City rate. 8 wards have rates than are significantly higher than the England rate.
- Wollaton West has a teenage conception rate that is significantly lower than both the City and England rates. Radford and Park ward is also significantly lower than the City rate.
- Although the data is not directly comparable, in 2012 Nottingham had a teenage conception rate of 37.7 per 1,000 females. The corresponding rate for England was 27.7 per 1,000.

Source: ONS, Public Health

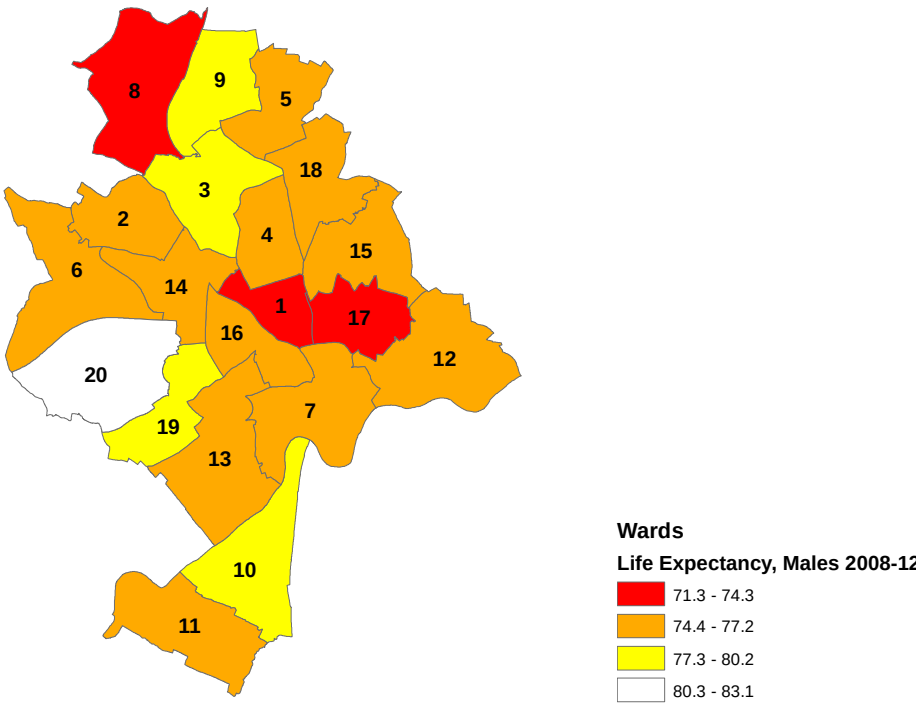

Caveats: Please note that confidence limits overlap, meaning wards may not be significantly different to one another.

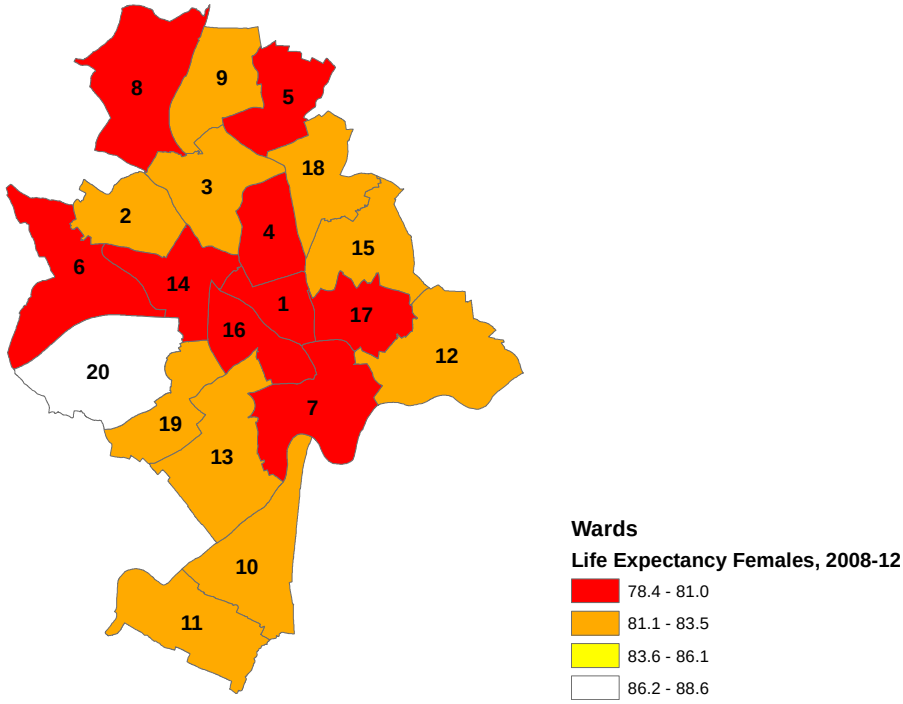

Male Life Expectancy 2008-2012

Female Life Expectancy at birth 2008-2012

- **Please note:** the y-axis on the graphs opposite do not start at 0. Please also note that the range on the maps above differs for Males and for Females.
- Ward level estimates have been calculated using the SEPHO LE calculator, available at: http://www.sepho.org.uk/viewResource.aspx?id=8943. The Nottingham and England figures are for the three year period of 2010-2012, not 2008-2012 as for wards.
- For males and females, the highest life expectancy is in Wollaton West ward. Male life expectancy is lowest in Arboretum ward and in Bridge for females.
- For males, the gap in life expectancy at birth between the highest and lowest is 11.8 years. For females this is slightly lower, at 10.2 years.

Reading **Writing** **Maths**

- **Definition**: Percentage of eligible pupils in schools maintained by the Local Education Authority achieving Level 2 or above in the Key Stage 1 Tests who are resident within the Nottingham City ward boundaries.
- **Please note:** Figures for wards are given for pupils resident in the City and attending City schools but may exclude a few pupils where their address could not be geo-coded. The Nottingham rate is for all pupils, including those who live outside of the City and those who could not be geo-coded to an area.
- **Please note:** The categories on the maps above have been manually adjusted to enable comparisons between the three subjects.
- The highest rates of attainment in the three elements of Key Stage 1, reading, writing and maths, are seen in Wollaton West and Dunkirk and Lenton – with over 90% of pupils in both wards attaining level 2 or above in reading, writing and maths.
- The lowest rates of attainment for all three elements of Key Stage 1 are seen in Arboretum, with 75.5% of pupils achieving level in reading, 67.9% in writing and 82.1% in maths.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- **Definition**: A person is guilty of a dwelling burglary (domestic burglary) if they enter any part of a dwelling (fit for habitation) as a trespasser and steal or attempt to steal anything in the building or attempt to inflict any grievous bodily harm on any person in the building (or intend to carry out any of these acts).
- The highest rate of dwelling burglary is in Bulwell, at 28 per 1,000 households.
- The lowest rate is in Mapperley ward, with just 11.5 per 1,000 households.
- Overall, there was a small increase of 64 incidents over the last year, with13 wards seeing increases – the largest of which was 43 in St Ann's.
- 8 wards saw a decrease – with the largest decrease being in Aspley which saw more than 60 fewer incidents on the previous year.

Wards
Violent Crime, 2014
4.99 - 20.95
20.96 - 36.92
36.93 - 52.88
52.89 - 68.84

- **Definition**: Violent crime covers a number of offences where physical or verbal assault has taken place on an individual (this includes threats of violence). Offence types range from harassment, to assault, to grievous bodily harm and murder, but the number of serious offences tend to be relatively small. Sexual Offences are also included in this category. Violent crime includes Domestic Violence, which is defined by the Home Office as any violence between current and former partners in an intimate relationship, wherever the violence occurs.
- **Please note:** The figures are based on location of the crime, not residence of the offender or victim.
- The highest rate of violent crime is in Bridge ward which contains much of the City Centre area. This is the most concentrated area of offences due to the night time economy. At 68.8 incidents per 1,000 population, the rate in Bridge is significantly higher than all other wards.
- The lowest rate is in Wollaton West, at 5 per 1,000.
- 18 wards saw an increase in incidents between 2013 and 2014, with the largest increases seen in Bridge and Dales wards – at 149 (+16.5%) and 126 (+46.3%) more incidents respectively

- **Definition:** Theft from a vehicle is where the intent is to steal from a vehicle rather than drive it away. Theft of a motor vehicle is committed if, without having the consent of the owner or other lawful authority, the perpetrator takes any vehicle for his own or another's use. This category includes other vehicles such as motorcycles and mopeds.
- **Please note:** Figures are for the location of the theft and not the residence of the offender or victim.
- The highest rates of vehicle crime are in Dunkirk & Lenton, Radford & Park and Bridge wards, all of which have rates of more than 11 per 1,000.
- The lowest rates are in Wollaton East & Lenton Abbey and Bestwood wards, with 2.3 and 4.2 incidents per 1,000.
- Across the City the number of vehicle crimes increased slightly by 4% between 2013 and 2014 with increases in 11 wards – the largest of which was in Clifton South with 80 more incidents (+166.7%).
- The largest falls numerically were in Bilborough and Bulwell wards – with 45 and 30 fewer incidents respectively.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- **Definition**: Intentional Secondary Fires: where 'Intentional' refers to deliberate, doubtful or malicious cause of fire and 'Secondary Fire' is a fire with no insurance value or with no casualties involved, such as refuse and grassland fires. Intentional Vehicle Fires: in this context, 'Intentional' basically means arson, and refers to vehicle fires whose causes are deliberate, doubtful or malicious.
- The number of intentional fires increased by a third between 2013 and 2014, with 14 wards seeing an increase.
- The largest number of intentional fires was in Bestwood, Bulwell Forest and Bulwell wards, with rates of 12.3, 10.6 and 10.5 per 1,000 households, all increases on the previous year.
- The two Area 7 wards had the lowest number of intentional fires, with a total of just 11 in 2014.

TRAFFIC CASUALTIES

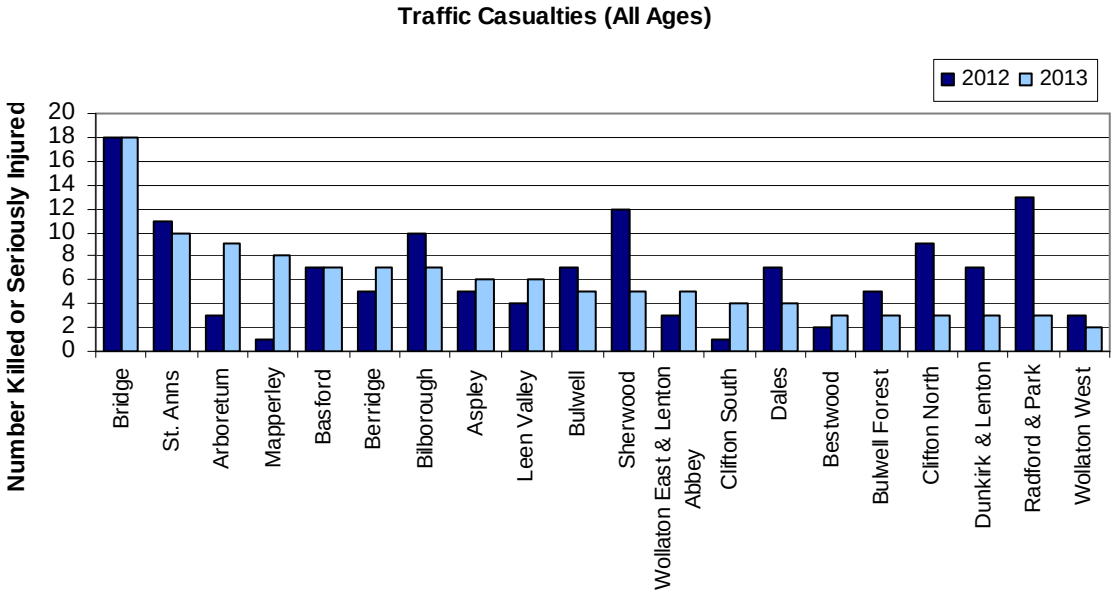

Number of people killed or seriously injured on Nottingham's roads

Source: Nottingham City Council Accident Investigation

- **Definition**: Figures are for the location where an accident involving someone being killed or seriously injured, took place, not the address of the person involved.
- **Please note:** Due to the small numbers involved, percentage changes can look very large and care should be taken in interpreting the data.
- The number of people killed or seriously injured in traffic accidents has decreased slightly across the City between 2012 and 2013 with the largest numerical decrease in Radford and Park ward (-10) and Sherwood ward (-7).
- Ten wards saw falls in casualties and 8 saw increases – the largest of which was in Mapperley (+7).

NOT IN EMPLOYMENT, EDUCATION OR TRAINING

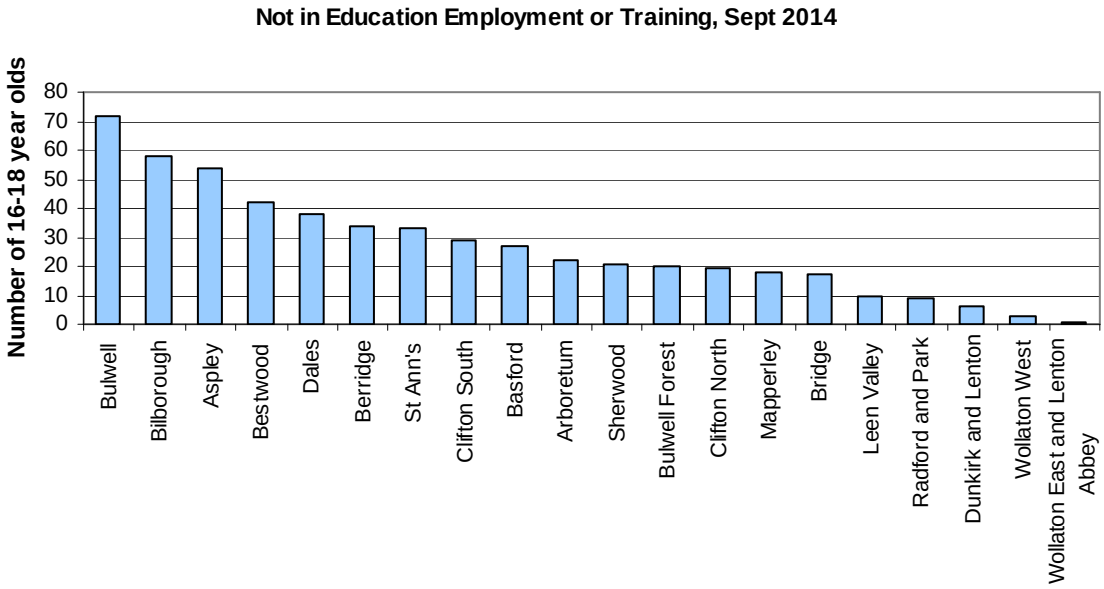

Young people aged 16-18 year olds not in employment, education or training (NEET)

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- If you require further information about the levels of NEET or EET in a ward, please contact Futures Advice on 0115 960 1597.
- The highest number of young people who are Not in Employment, Education or Training, is in Aspley ward – with 54 equating to a tenth of the City's total. It should be noted however, that Aspley also has one of the highest numbers of young people of all city wards.
- Four wards have fewer than 10 people who are NEET – including Wollaton East & Lenton Abbey and Dunkirk & Lenton wards, which both have high numbers of students and corresponding lower numbers of 16 and 17 year olds.

HOUSING BENEFIT AND COUNCIL TAX REDUCTION

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- **Caveat:** Due to a change in Government policy, Council Tax Benefit ended of 31/3/2013, and Local Authorities are now responsible for administering Council Tax Reduction Schemes. The eligibility criteria have consequently changed.
- All wards saw a decrease in the number of claims for Council Tax Reduction and/or Housing Benefit between May 2013 and May 2013. 2 wards – Dales and Bilborough saw decreases of more than 700 claimants.
- Aspley has the highest rate of claims for Council Tax Reduction and/or Housing benefit, with 42% of all households in the ward claiming. Five other wards have rates of more than 30%
- The lowest rate is in Wollaton West with just 7.3% of households receiving one or both.

SOCIAL SERVICES FOR OLDER PEOPLE

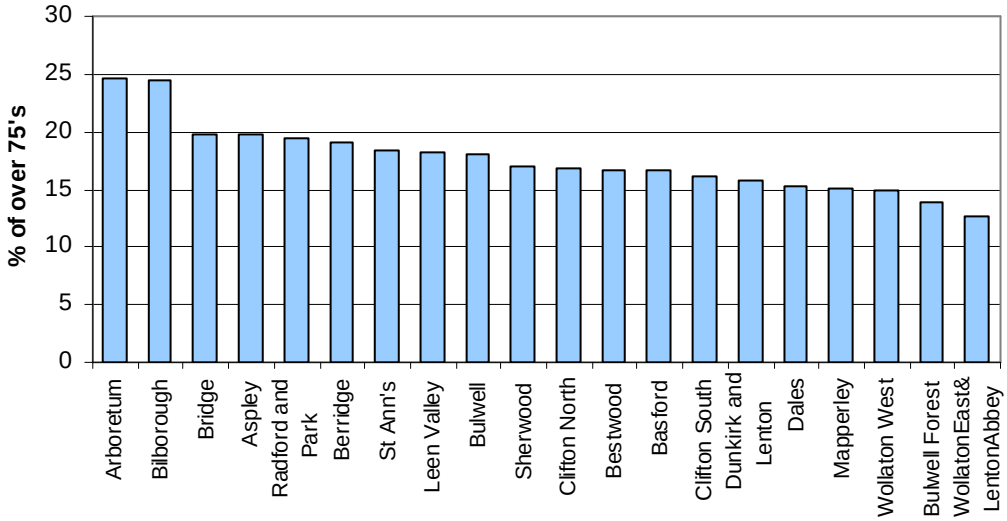

Number of people aged 75 and over who received a Community Based Social Service to enable them to live independently in their own home, plus rate per population aged 75 and over.

Social Services for Older People by Ward, 2013/14

Key	Ward	Number receiving a Social Service	Population 75+ (2013)	% receiving a Social Service

Wards
Services for Over 75's, 2013/14
12.71 - 15.69
15.70 - 18.66
18.67 - 21.64
21.65 - 24.61

- **Definition**: People aged 75 and over who received any Community Based Social Service during the year April 2013-March 2014. The number does not include long term residential or nursing care, although short term care in a residential or nursing home does count as a Community Based Service.
- **Please note**: The location is the client's address at the end of the year. Some individuals may have moved address during this year and may no longer live at the address where the service was accessed.
- The highest rate of older people receiving a service is in Arboretum ward where 24.6% of over 75's received a service. This is mainly due to the low numbers of over 75's in the ward - the actual number of people receiving a service is quite low (63)
- Bilborough has the highest number of older people receiving a service – at 368, over 100 more than any other ward.

NEIGHBOURHOOD SATISFACTION

Proportion of residents who are satisfied with their local neighbourhood

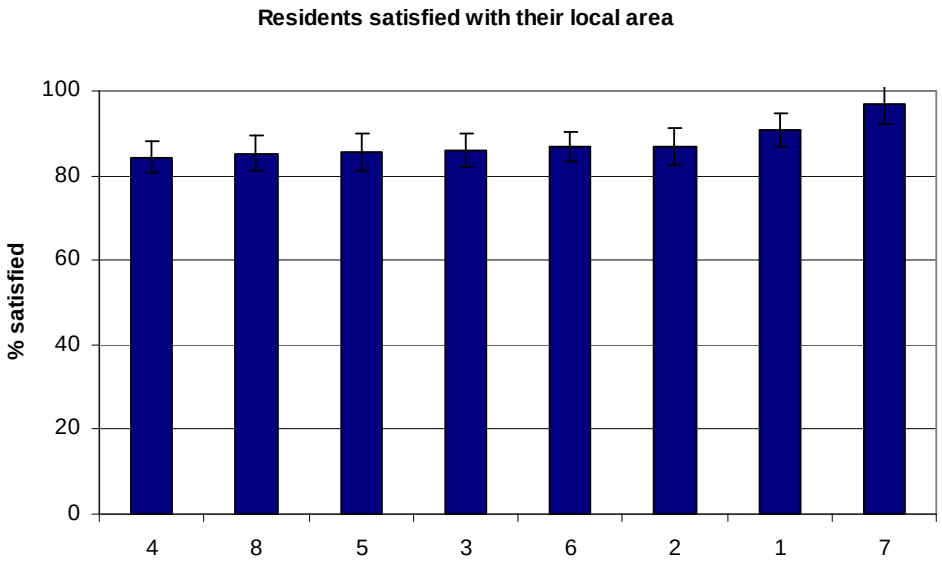

Neighbourhood satisfaction by Area and Locality, 2014

Area	Total	% Satisfied	% Dissatisfied
1	202	90.6	4.5
2	223	87.0	9.0
3	310	85.8	8.4
4	318	84.3	6.6
5	236	85.6	8.5
6	359	86.9	7.8
7	171	97.1	2.3
8	284	85.2	7.4
Nottingham	**2,105**	**87.1**	**7.1**

Locality	Total	% Satisfied	% Dissatisfied
North	735	87.5	7.5
Central	725	87.7	6.2
South	643	86.2	7.6
Nottingham	**2,105**	**87.1**	**7.1**

Source: Nottingham Citizens Survey 2014

Caveats: Rates are based on survey data and as such are subject to error. Please note that confidence limits therefore apply to data (95% confidence limits approx. +/- 5%) – as shown by the error bars on the graph below.

- The highest levels of satisfaction are in Area 7 (Wollaton West and Wollaton east & Lenton Abbey) where 97% of respondents replied that they were either Very or Fairly Satisfied with their area as a place to live.
- The lowest level of satisfaction was in Area 4 (Arboretum, Radford & Park and Dunkirk & Lenton wards) where only 84.3% of people were Very or Fairly Satisfied – significantly lower than Area 7.

ABILITY TO INFLUENCE DECISIONS

Proportion of residents who feel they are able to personally influence decisions relating to their neighbourhood

Agreement by Area and Locality, 2014

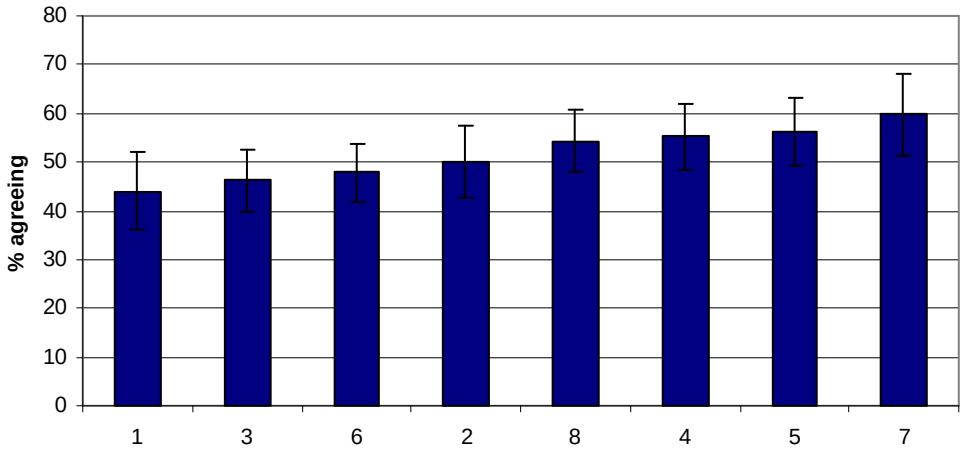

Area	Total	% Agree	% Disagree
1	152	44.1	55.9
2	178	50.0	50.0
3	236	46.2	53.8
4	208	55.3	44.7
5	203	56.2	43.8
6	278	47.8	52.2
7	134	59.7	40.3
8	245	54.3	45.7
Nottingham	**1634**	**51.5**	**48.5**

Locality	Total	% Agree	% Disagree
North	566	46.8	53.2
Central	545	56.7	43.3
South	523	50.9	49.1
Nottingham	**1634**	**51.5**	**48.5**

Source: Nottingham Citizens Survey 2014

Caveats: Rates are based on survey data and as such are subject to error. Please note that confidence limits therefore apply to data (95% confidence limits up to +/- 8%) – as shown by the error bars on the graph below.

Residents agreeing they can influence decisions

- In five Area Committees, at least 50% of the population agree that they can influence decisions which affect their local area. The highest is Area 7 (Wollaton West and Wollaton East & Lenton Abbey) where nearly 60% of the residents agree.
- The lowest rate is in Area 1 where just 44% of people agree.

NEIGHBOURHOOD COHESION

Proportion of residents who feel their neighbourhood is a place where people from different backgrounds get on well together

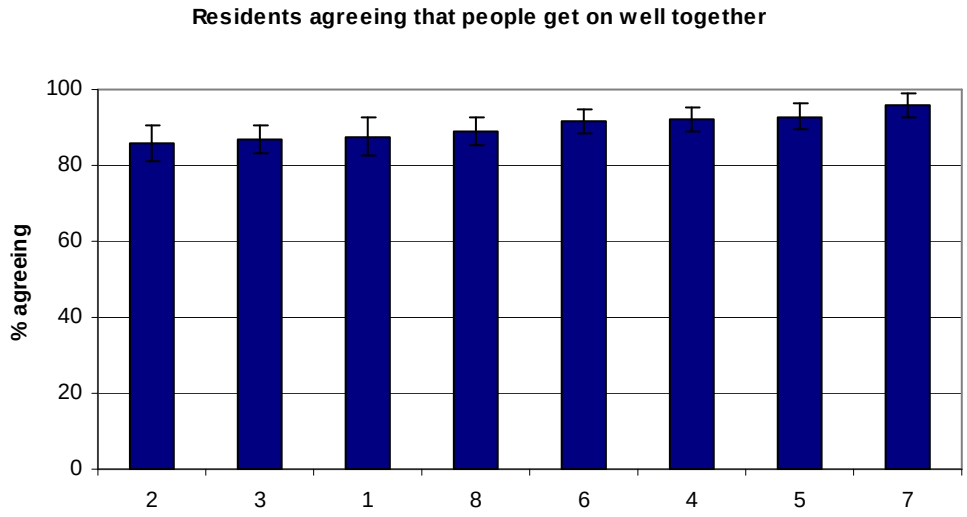

Agreement by Area and Locality, 2014

Area	Total	% Agree	% Disagree
1	177	87.6	12.4
2	206	85.9	14.1
3	290	86.9	13.1
4	283	91.9	8.1
5	224	92.9	7.1
6	328	91.5	8.5
7	160	95.6	4.4
8	270	88.9	11.1
Nottingham	**1,940**	**89.9**	**10.1**

Locality	Total	% Agree	% Disagree
North	673	86.8	13.2
Central	667	93.1	6.9
South	598	90.3	9.7
Nottingham	**1,940**	**89.9**	**10.1**

Source: Nottingham Citizens Survey 2014

Caveats: Rates are based on survey data and as such are subject to error. Please note that confidence limits therefore apply to data (95% confidence limits approx +/- 4%) – as shown by the error bars on the graph below.

- Area 2 has the lowest percentage of people reporting that people from different backgrounds get on well in their area – although the figure is quite high at 85.9%.
- The highest proportion was in Area 7 where over 95% of people agreed that people got on well.

RESIDENTS WHO SMOKE

Proportion of residents who smoke tobacco and of residents who do not smoke

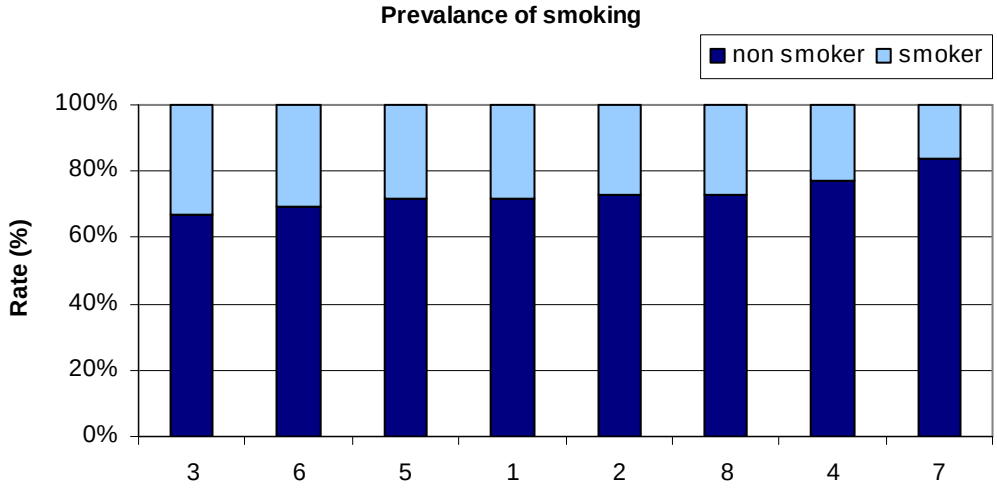

Prevalence of smoking by Area and Locality, 2014

Area	Total	I have never smoked	I used to smoke but I have given up now	I smoke but I don't smoke every day	I smoke every day
1	198	54.5	13.0	1.5	26.8
2	224	59.4	0.0	6.7	20.5
3	306	51.0	17.2	3.3	29.7
4	316	69.9	13.4	7.3	15.8
5	235	59.6	16.0	6.4	22.1
6	358	53.6	7.0	5.3	25.4
7	170	68.2	11.9	2.9	13.5
8	281	64.1	15.6	6.8	20.3
Nottingham	**2090**	**59.6**	**13.0**	**5.2**	**22.2**

Locality	Total	I have never smoked	I used to smoke but I have given up now	I smoke but I don't smoke every day	I smoke every day
North	728	54.5	15.5	3.8	26.1
Central	721	66.2	10.5	6.0	17.3
South	639	58.2	12.7	5.9	23.2
Nottingham	**2090**	**59.6**	**11.9**	**6.4**	**22.1**

Source: Nottingham Citizens Survey 2014

Caveats: Rates are based on survey data and as such are subject to error. Please note that confidence limits therefore apply to data (95% confidence limits approx, +/- 6%) – as shown by the error bars on the graph below.

- Area 7 has the highest proportion of residents who are non smokers than other Areas, at 83.5%.
- Area 3 has the highest proportion of residents who are smokers, with nearly a third of residents smoking and over a quarter smoking very day.
- In three of the City's areas, more than a quarter of residents smoke daily.

Indices of Deprivation 2010: (Department for Communities and Local Government) The Indices of Deprivation measure the different types of deprivation experienced by individuals living in an area. Scores and Ranks are published for Super Output Areas but not for wards. The ward ranks above have been estimated by taking an average of the population weighted SOA scores for each City ward. These are unofficial. The City Ranks are out of 20. The SOA column gives the number in the worst 10% of SOAs in England and the total SOAs in the area.

CONTEXTUAL TABLE 5 - Students and Households

Students: Source: 2011 Census. School children and full time students aged 18 and above. These figures are not comparable with figures previously published in ward reports, as they will include some students attending colleges and sixth forms as well as University students.

Households: 2011 Census. Total households are from the Census and are **not** estimates using Council Tax and housing completions and demolitions information, so are not comparable with figures published in previous Ward Reports. Student households are from November 2014 from Council Tax exemption records. A household is defined as "a person living alone or people living at same address sharing a living or sitting room or sharing at least one meal per day". Because this relates to people, rather than buildings, vacant dwellings will not be included. The intention is that households in purpose-built student dwellings are excluded, but some may be included.
