WARD REPORT 2016

INTRODUCTION

This is the eleventh annual One Nottingham Ward Report, produced to provide a variety of data at a Ward, Area Committee and Locality level.

The report includes data for a number of indicators, covering the themes of Worklessness; Health; Education; Crime, Housing and Liveability. It also includes data from the 2016 Citizens Survey.

The report concentrates on providing data at a Ward, Area Committee and Locality level - where data are available – but comparisons with the City, Greater Nottingham and England have been given where possible.

Greater Nottingham figures have been included for two reasons. Firstly, it is over this area that many local transport and economic strategies are formulated and delivered. Secondly, the City of Nottingham boundaries are very tightly drawn and Greater Nottingham gives a more complete picture of the urban area.

Data have been provided by a number of Agencies and Partners, including: Department for Work and Pensions; Nottinghamshire Police; Nottinghamshire Fire and Rescue Service; Nottinghamshire Futures; plus Nottingham City Council Children and Adults department; Public Heath; Housing Benefits; Accident Investigation; and Street Scene.

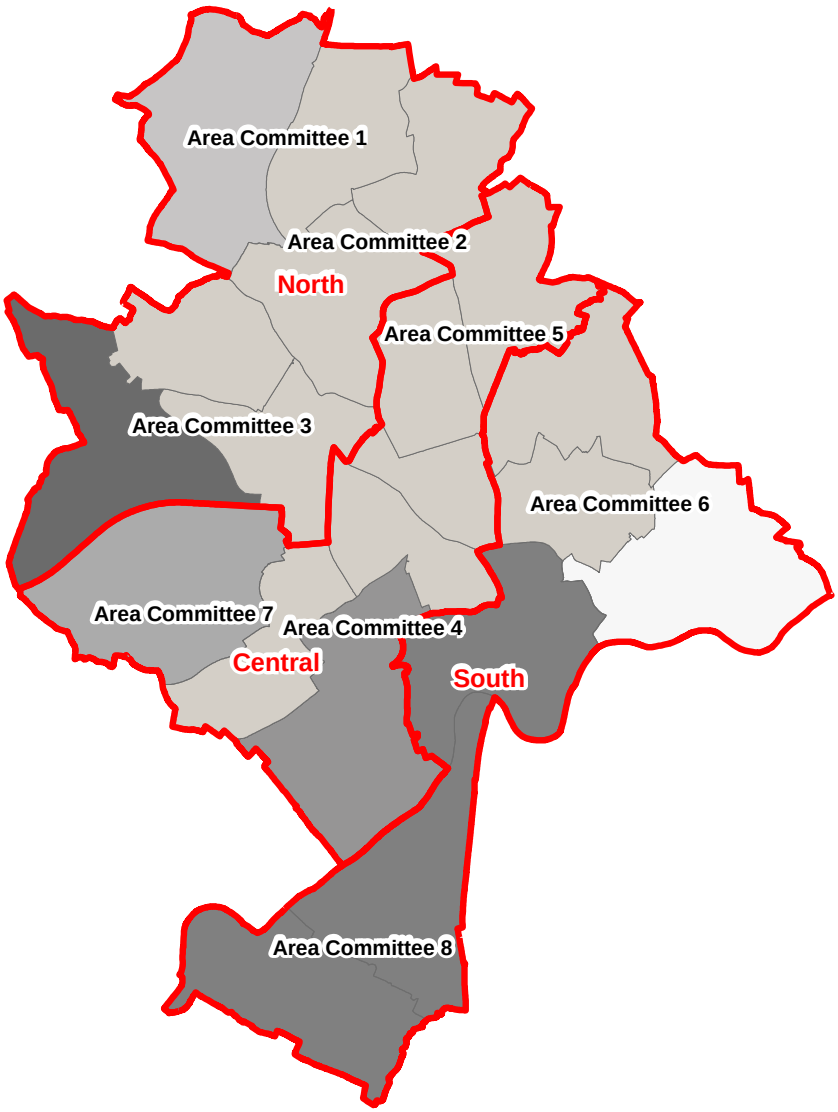

The contextual tables include data from the Office for National Statistics and the Department for Communities and Local Government and much is subject to Crown Copyright. Please quote the source when using the data.

Many of the datasets are available on the Nottingham Insight website (www.nottinghaminsight.org.uk), which also includes further contextual data from the 2011 Census, the 2015 Indices of Deprivation, the 2016 Citizens' survey, plus Ward Reports from the past few years.

If you would like any further information about this report, please contact Nicola Kirk in the Policy and Research team in the City Council, on (0115) 876 3979, or by e-mail, at: nicola.kirk@nottinghamcity.gov.uk

The table and map below show which wards make up each Area Committee and Locality. Throughout the report, Area Committees are listed with their number for ease.

Locality	Area	Wards
North	1	Bulwell; Bulwell Forest
	2	Basford; Bestwood
	3	Aspley; Leen Valley; Bilborough
Central	4	Arboretum; Radford & Park; Dunkirk & Lenton
	5	Sherwood; Berridge
	7	Wollaton West; Wollaton East & Lenton Abbey
South	6	Mapperley; St Ann's; Dales
	8	Bridge; Clifton North; Clifton South

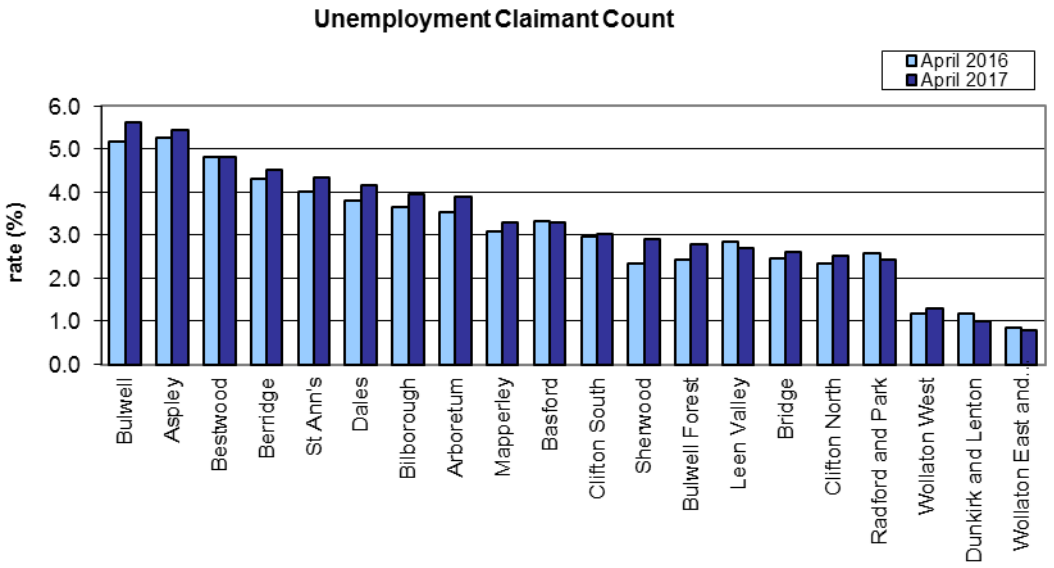

CLAIMANT COUNT

Number of people claiming Job Seekers Allowance or Universal Credit claimants looking for employment, and proportion of resident working age population

Claimant Count by Ward

		April 2015		April 2016		April 2017	
Key	**Ward**	**Number**	**%**	**Number**	**%**	**Number**	**%**

- **Please note:** Changes to the benefits system were implemented in 2008 with further changes in October 2009 and 2010 - affecting claimants of Lone Parent Income Support. Also, in April 2011, the process of reassessing Incapacity Benefit claimants began. Some claimants of these two benefits will have transferred to Job Seekers Allowance.
- Unemployment increased by 350 across the City between April 2016 and 2017, with 14 wards seeing increases.
- The largest increases were in Sherwood, St Ann's and Arboretum wards – with 60, 50 and 50 more claimants respectively.
- Five wards saw decreases, the largest of which was Radford and Park, with 30 fewer people.
- Bulwell ward has the highest unemployment rate at 5.6%, and Wollaton East and Lenton Abbey ward has the lowest with 0.8% of the population aged 16-64 claiming JSA or universal credit (unemployment) although rates in this ward are slightly skewed due to the large numbers of students.
- Just three City wards have a rate lower than the England average.

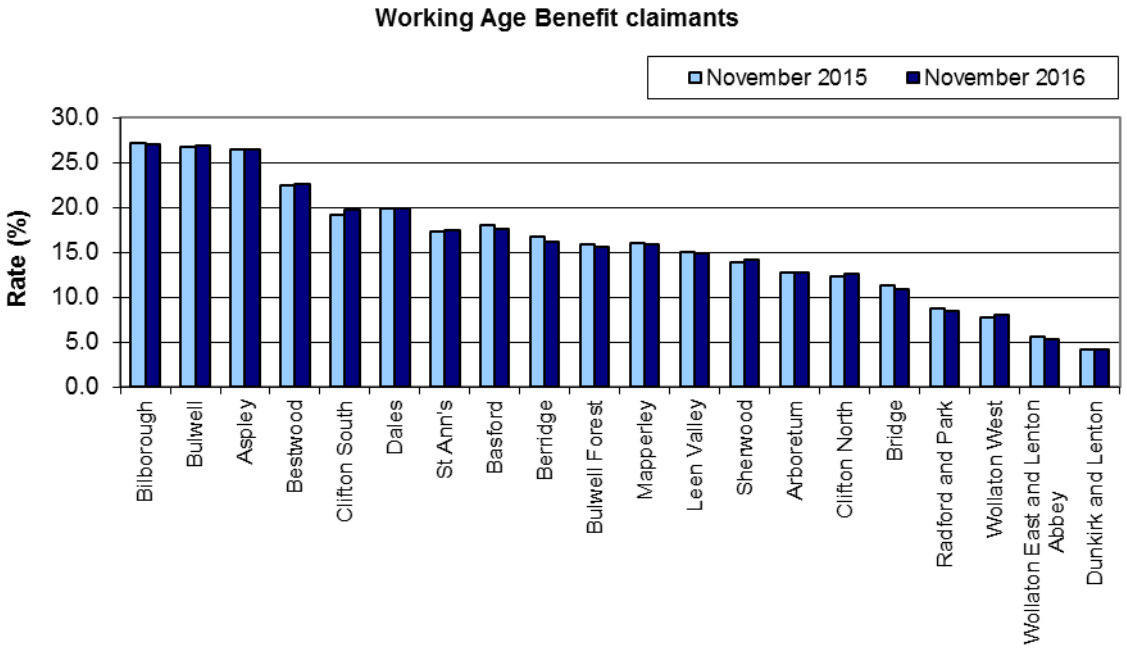

WORKING AGE BENEFITS

Number of people claiming working age benefits and proportion of resident working age population

Working age Benefit claimants by Ward

		November 2015		November 2016	
Key	Ward	Number	%	Number	%
1	Arboretum	1,780	12.7	1,781	12.7
2	Aspley	2,915	26.5	2,906	26.4

20	Wollaton West	695	7.8	715	8.0
-	**Nottingham**	**36,194**	**16.3**	**36,413**	**16.4**
	Greater Nottingham	**59,182**	**13.0**	**59,849**	**13.1**
	England	**4,154,270**	**12.0**	**4,159,850**	**12.0**

Source: DWP Information Directorate (from Nomis)
Caveats: Rates are calculated using the resident working age (16-64) population from the 2015 Mid-Year Estimates. Wards do not sum to City figures as the City includes Personal Independence Payment (PIP) claimants which cannot be allocated to wards.

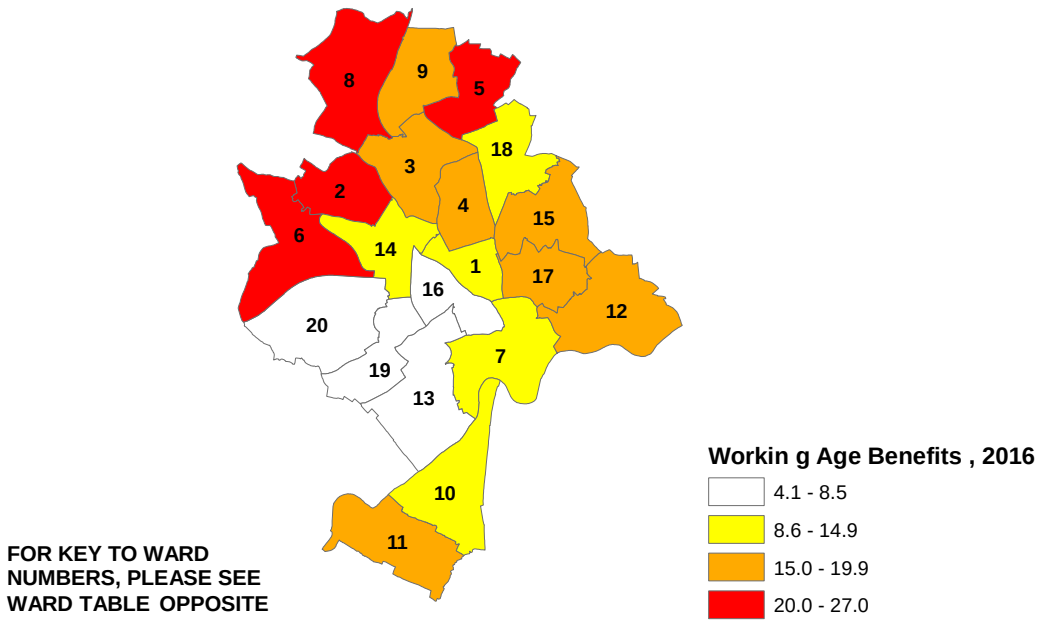

Working age Benefit claimants by Area and Locality

	November 2015		November 2016	
Area	**Number**	**%**	**Number**	**%**
1	4,035	21.8	4,016	21.7
2	4,385	20.2	4,361	20.1

Nottingham	**36,194**	**16.3**	**36,413**	**16.4**

Source: ONS Crown Copyright Reserved (from Nomis)

- **Definition:** The number of working-age people who are claiming one or more key DWP benefits. To avoid double counting, people are allocated to a 'statistical group' in the following order: Job Seekers Allowance; Incapacity Benefit and Employment Support Allowance; Income Support for Lone Parents and Other Income related benefits. Universal Credit is being rolled out nationally and Nottingham does not yet have significant numbers, but these have been added in to ward figures. Personal Independence Payment (PIP) figures are only added in to City level figures.
- The highest rate of claimants is in Bilborough ward – where 27.0% of the population aged 16-64 claims one or more working age benefits.
- The lowest rate is in Dunkirk & Lenton, the two Area 7 wards and Radford & Park - the only four wards with a claimant rate lower than the average for England.
- The number of claimants decreased slightly across the City, and 11 City wards saw a decrease in number and rate of claimants between 2015 and 2016. The greatest numerical decreases were in Berridge ward and Radford and Park, of 71 and 61 respectively.

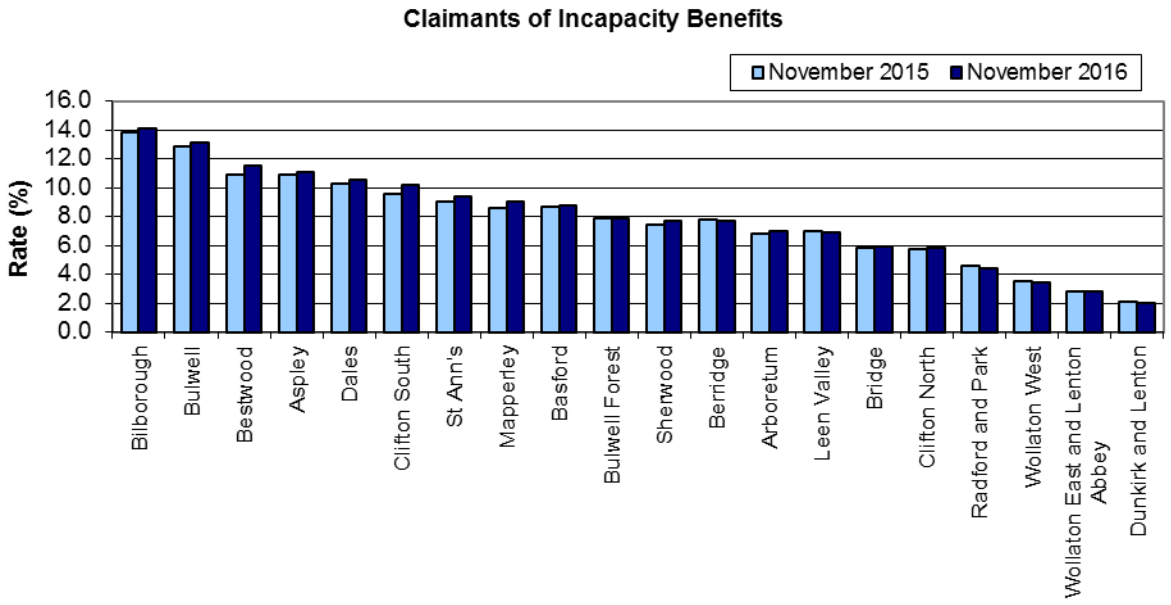

INCAPACITY BENEFITS & EMPLOYMENT SUPPORT ALLOWANCE

Number of people claiming Employment Support Allowance, Incapacity Benefit or Severe Disablement Allowance and proportion of resident working age population

IB, ESA and SDA Claimant Rate by Ward

		November 2015		November 2016	
Key	Ward	Number	%	Number	%
1	Arboretum	955	6.8	980	7.0

Source: DWP Information Directorate (from Nomis)

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- **Definition:** Incapacity Benefits are paid to people who are incapable of work, due to ill health or disability, and who meet certain contribution conditions. Employment Support Allowance (ESA) replaced new claims for Incapacity Benefit (IB) from October 2008. The process of reassessing IB claimants began in April 2011. Data suggest that most claimants will transfer to ESA but some claimants will be found to be fit to work and will transfer to Job Seeker's Allowance. Severe Disablement Allowance (SDA) is paid to those unable to work for 28 weeks in a row or more because of illness or disability, but the benefit has been phased out.
- The highest rate of claims is in Bilborough ward at 14.1% of the resident working age population and nearly double the City average.
- The lowest rate remains in Dunkirk and Lenton (2.0%) and Wollaton East and Lenton Abbey (2.8%)
- Five wards saw small fall in claimants in the last year, although numbers remained fairly static in all wards, with just four wards – Bestwood, Clifton North, Mapperley and St Ann's, seeing changes of 50 or more people.

PREMATURE DEATHS FROM CANCER

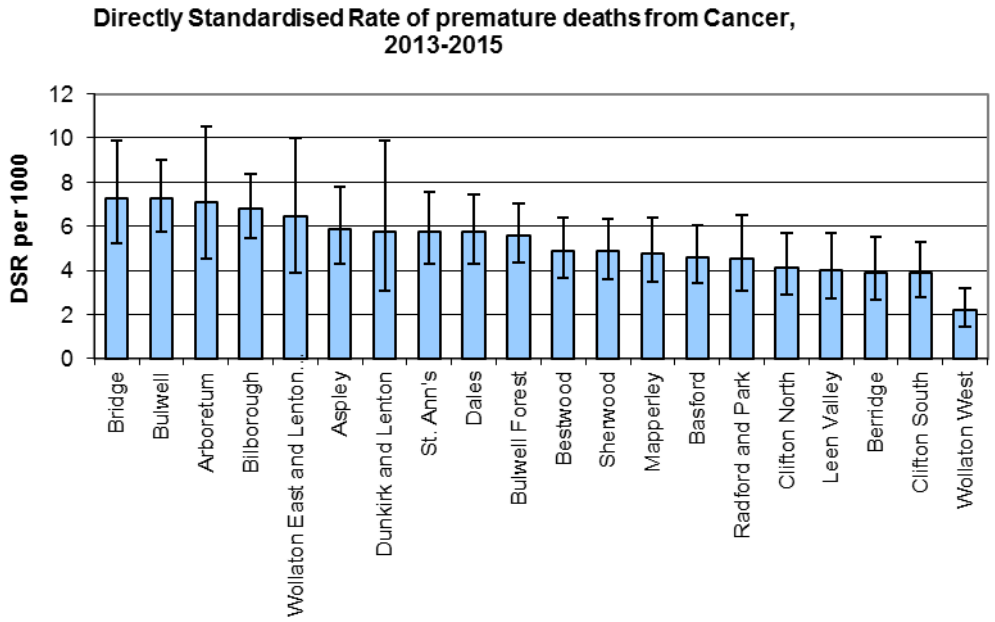

Directly Standardised Rate of Deaths of under-75 year olds from Cancer, per 1,000 population

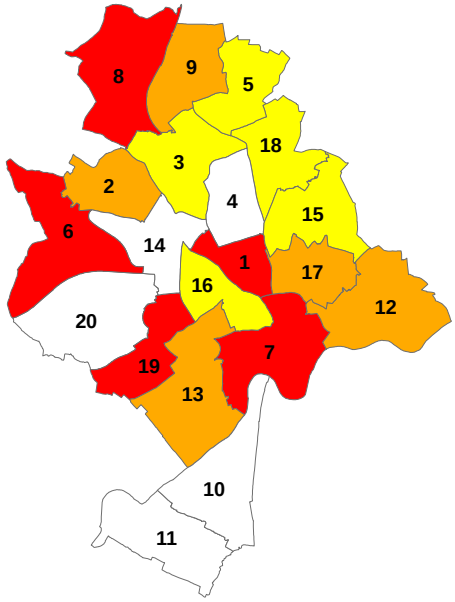

Directly Standardised Rate per 1,000 by Ward

See over for caveats and definitions.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Premature deaths from Cancer 2013-15

- 2.21 - 4.11
- 4.12 - 4.89
- 4.90 - 5.88
- 5.89 - 7.27

- **Definition:** Rates are Directly Standardised to the European Standard Population to allow for the differing age and sex structures in each area. In 2013, the European Standard Population which had been in use since 1975 was updated and thus rates published here are not comparable with those published previously.
- In addition, previous Ward Death Rates were calculated using small area populations derived from GP Registered Lists. These DSRs were calculated using ONS Ward Population Estimates for the mid-year of the DSR.
- The rates are based on three years of pooled data.
- **Caveats:** Please note the upper confidence limit (UCL) and lower confidence limit (LCL) figures in the table, and indicated on the chart above by the error bars. These overlap for many of the wards meaning they are not significantly different to one another.
- The highest rate of premature deaths from Cancer is in Bridge ward, at 7.27 per 1,000 population. The lowest rate is in Wollaton West, at 2.21 per 1,000.
- Due to the large confidence limits, many differences between wards are not statistically significant, but Wollaton West has a significantly lower rate than 13 other wards.

PREMATURE DEATHS FROM CIRCULATORY DISEASE

Directly Standardised Rate of Deaths of under-75 year olds from Circulatory Disease, per 1,000 population

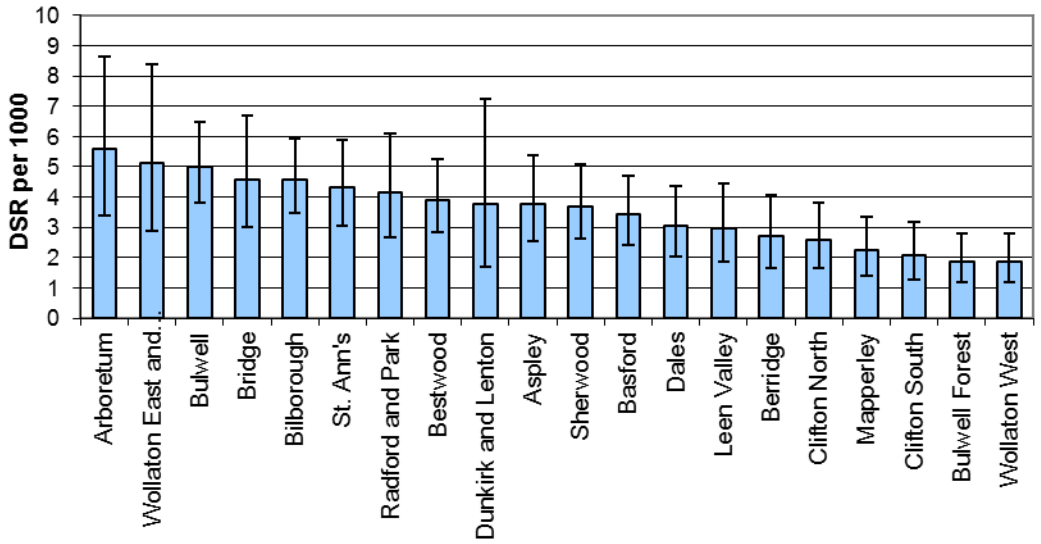

Directly Standardised Rate per 1,000 by Ward

		2012-2014				2013-2015

- 4.31 - 5.59

- **Definition:** Rates are Directly Standardised to the European Standard Population to allow for the differing age and sex structures in each area. In 2013, the European Standard Population which had been in use since 1975 was updated and thus rates published here are not comparable with those published previously.
- In addition, previous Ward Death Rates were calculated using small area populations derived from GP Registered Lists. These DSRs were calculated using ONS Ward Population Estimates for the mid-year of the DSR.
- The rates are based on three years of pooled data.
- **Caveats:** Please note the upper confidence limit (UCL) and lower confidence limit (LCL) figures in the table, and indicated on the chart above by the error bars. These overlap for many of the wards meaning they are not significantly different to one another.
- The highest rate of premature deaths from Circulatory disease is in Arboretum, at 5.59 per 1,000 people. This is significantly higher than Wollaton West, Clifton South, and Bulwell Forest.
- The lowest rate is in Wollaton West, at fewer than 2 per 1,000 population, significantly lower than 7 other wards.
- Between 2012-14 and 2013-15, just 2 wards saw a slight increase in premature mortality from Circulatory disease, but these were not statistically significant.

TEENAGE CONCEPTIONS

Under 18 conception rate per 1,000 females aged 15-17

Source: Office for National Statistics, Crown Copyright

Caveats: The ONS state that ward level rates must not be published on the internet, so the table, and the graph and maps below, above just state whether a ward's rate is significantly different to rates for England.

Please note: Some wards may have a higher rate than others but not be significantly different to England due to the large confidence intervals.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Teenage Conceptions, 2012-14

- No data
- Significantly Higher
- Significantly Lower
- Statistically Similar

- Ten City wards have a Teenage Conception rate that is significantly higher than the England rate.
- Wollaton West is the only City ward to have a teenage conception rate that is significantly lower than the England rate.
- The only changes between the two sets of data are Bulwell Forest being statistically similar in 2012-14 instead of significantly higher, and the reverse in St Ann's ward.
- Although the data is not directly comparable, in 2015 Nottingham had an under-18 conception rate of 31.2 per 1,000 females. The corresponding rate for the UK as a whole was 21 per 1,000.

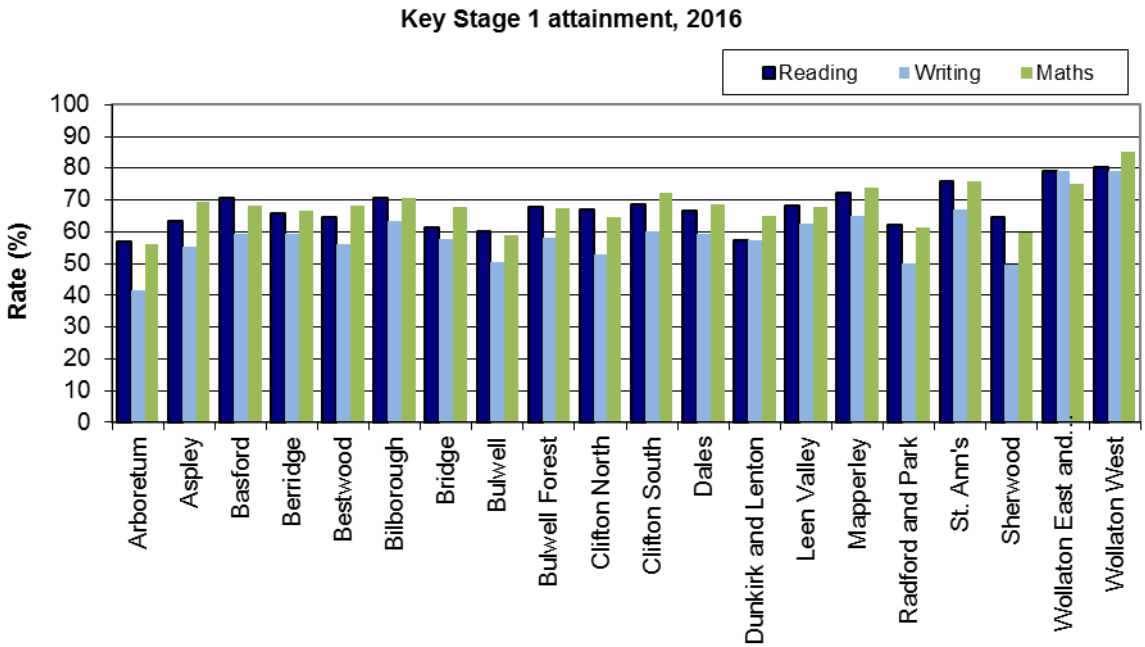

KEY STAGE 1: READING WRITING AND MATHS

Percentage of pupils achieving the expected level

Reading **Writing** **Maths**

- **Definition**: Percentage of eligible pupils in schools maintained by the Local Education Authority achieving at least the expected standard in the Key Stage 1 Assessments who are resident within Nottingham City.
- **Please note:** Figures for wards are given for pupils resident in the City and attending City schools but may exclude a few pupils where their address could not be geo-coded.
- **Please note:** The categories on the maps above have been manually adjusted to enable comparisons between the three subjects.
- The highest rates of attainment in the three elements of Key Stage 1, reading, writing and maths, are seen in Wollaton West with over 80% reaching the expected standard in reading and maths and 79% in writing.
- The lowest rates of attainment in reading, writing and maths are in Arboretum ward (56.8%, 41.6% and 56% respectively).

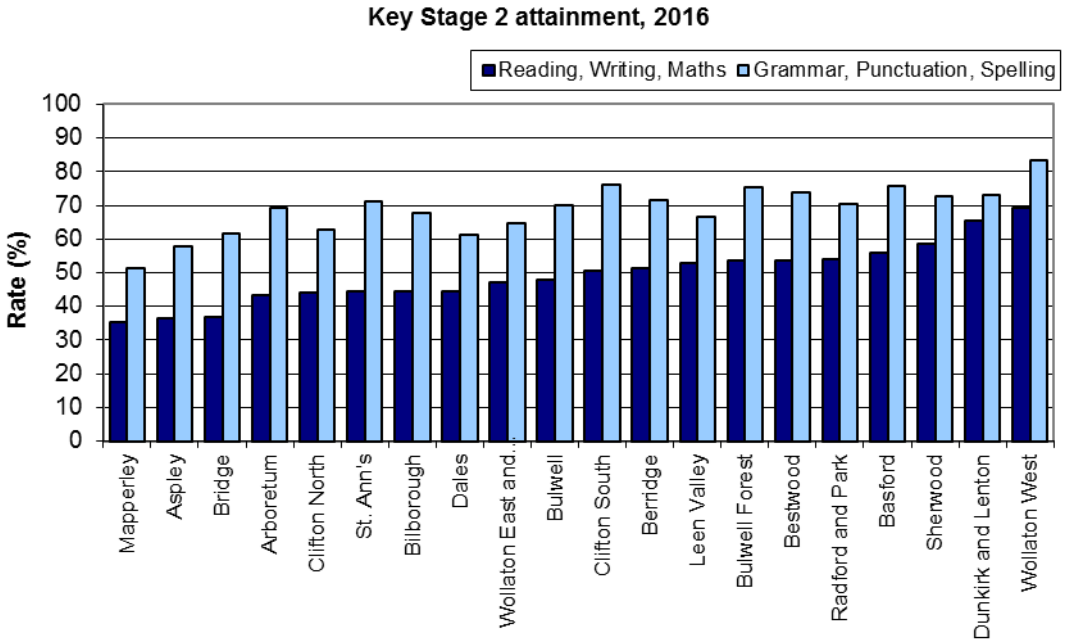

KEY STAGE 2 TESTS AND ASSESSMENTS

- **Attainment 8** measures the achievement of a pupil at Key Stage 4 across 8 qualifications including maths and English.
- **Progress 8** measures the progress a pupil makes from the end of primary school to the end of secondary school. It compares their achievement –their Attainment 8 score – with the average Attainment 8 score of all pupils nationally who had a similar starting point at the end of primary school. The greater the Progress 8 score, the greater the progress made. A score above zero means pupils made more progress, on average, than pupils across England who got similar results at the end of key stage 2 and vice versa.
- The highest attainment 8 score is in Wollaton West ward, at 58.9 in 2016. Every other ward had a score lower than 50, with the lowest being Bulwell ward at 35.6.
- The highest progress 8 score is in Wollaton West ward, at 0.18 in 2016 – the only score above zero.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- **Definition**: A person is guilty of a dwelling burglary (domestic burglary) if they enter any part of a dwelling (fit for habitation) as a trespasser and steal or attempt to steal anything in the building or attempt to inflict any grievous bodily harm on any person in the building (or intend to carry out any of these acts).
- The highest rate of dwelling burglary is in Dunkirk and Lenton, at 24.9 per 1,000 households.
- The lowest rate is in Bulwell Forest ward, with just 6.1 per 1,000 households.
- Overall, there was a decrease of 197 incidents over the previous year, with 14 of the 20 wards seeing either no change or decreases – the largest decrease being in Basford which saw 55 fewer incidents on the previous year.

VIOLENT CRIME

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- **Definition**: Violent crime covers a number of offences where physical or verbal assault has taken place on an individual (this includes threats of violence). Offence types range from harassment, to assault, to grievous bodily harm and murder, but the number of serious offences tend to be relatively small. Sexual Offences are also included in this category. Violent crime includes Domestic Violence, which is defined by the Home Office as any violence between current and former partners in an intimate relationship, wherever the violence occurs.
- **Please note:** The figures are based on location of the crime, not residence of the offender or victim.
- The highest rate of violent crime is in Bridge ward, at 79.1 incidents per 1,000 population. Note that Bridge ward contains much of the City Centre area.
- The lowest rate is in Wollaton West, at 7.2 per 1,000 population.
- Only two wards saw a decrease in incidents between 2015 and 2016, with the largest decrease seen in Bestwood – with 36 fewer incidents.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- **Definition:** Theft **from** a vehicle is where the intent is to steal from a vehicle rather than drive it away. Theft **of** a motor vehicle is committed if, without having the consent of the owner or other lawful authority, the perpetrator takes any vehicle for his own or another's use. This category includes other vehicles such as motorcycles and mopeds.
- **Please note:** Figures are for the location of the theft and not the residence of the offender or victim.
- The highest rates of vehicle crime are in Bridge ward, with a rate of 10.8 per 1,000 population.
- Across the City the number of vehicle crimes decreased by 19 incidents between 2015 and 2016.
- The largest falls numerically was in Sherwood ward with 30 fewer incidents.

- **Definition**: Intentional Secondary Fires: where 'Intentional' refers to deliberate, doubtful or malicious cause of fire and 'Secondary Fire' is a fire with no insurance value or with no casualties involved, such as refuse and grassland fires. Intentional Vehicle Fires: in this context, 'Intentional' basically means arson, and refers to vehicle fires whose causes are deliberate, doubtful or malicious.
- The number of intentional fires decreased overall by over 100 between 2015 and 2016, with 11 wards seeing a decrease.
- The largest number of intentional fires was in Bulwell and Berridge wards, with rates of 6.6 and 5.0 per 1,000 households.
- Wollaton East and Lenton Abbey, Wollaton West , Dunkirk and Lenton and Dales wards had the fewest intentional fires recorded in 2016 – all under 10.

- **Definition**: Figures are for the location where an accident involving someone being killed or seriously injured, took place, not the address of the person involved.
- **Please note:** Due to the small numbers involved, percentage changes can look very large and care should be taken in interpreting the data.
- The highest number of casualties during 2016 were in St Ann's and Bridge wards – both encompassing parts of the City Centre area. The lowest number was in the two Clifton wards.
- The number of people killed or seriously injured in traffic accidents has decreased across the City between 2015 and 2016 with the largest numerical decreases being in St Ann's and Dunkirk and Lenton wards – both reducing by 9.

South	104	17
Nottingham	**362**	**78**

Source: Nottingham and Nottinghamshire Futures

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- If you require further information about the levels of NEET or EET in a ward, please contact Futures Advice on 0115 960 1597.
- The highest number of young people who are Not in Employment, Education or Training, is in Aspley ward – with 52 equating to a seventh of the City's total. It should be noted however, that Aspley also has one of the highest numbers of young people of all city wards.
- Three wards have fewer than 10 people who are NEET – including Wollaton East & Lenton Abbey and Dunkirk & Lenton wards, which both have high numbers of students and corresponding lower numbers of 16 and 17 year olds.

HOUSING BENEFIT AND COUNCIL TAX REDUCTION

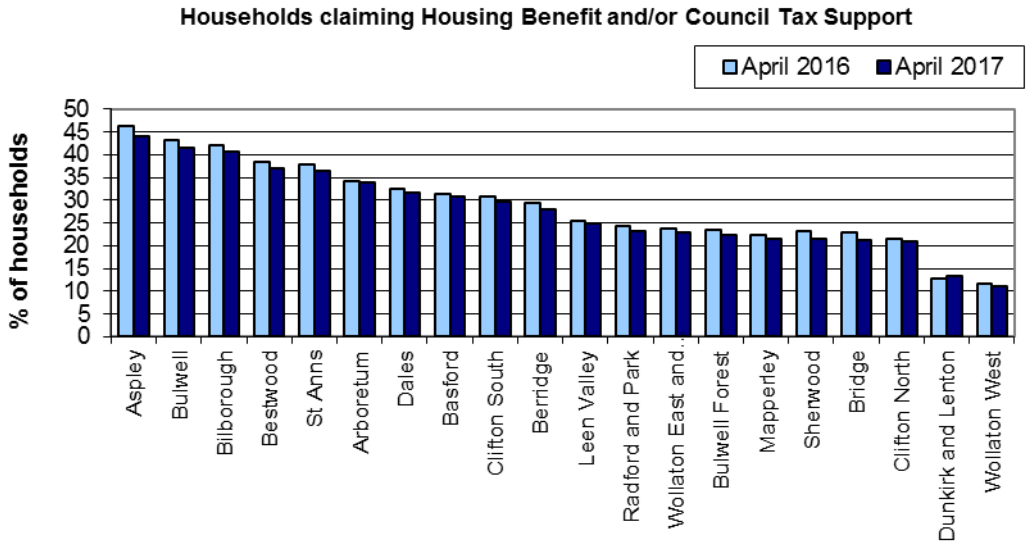

Households in receipt of Housing Benefit and/or Council Tax Reduction and proportion of all households

- **Caveat:** Due to a change in Government policy, Council Tax Benefit ended on 31/3/2013, and Local Authorities are now responsible for administering Council Tax Support Schemes (Council Tax Reduction). The eligibility criteria have consequently changed.
- All wards saw a decrease in the number of claims for Council Tax Support and/or Housing Benefit between April 2016 and April 2017. Eight wards saw decreases of more than 100 claimants.
- Aspley has the highest number and rate of claims for Council Tax Support and/or Housing Benefit, with 44% of all households in the ward claiming. Seven other wards have rates of more than 30%
- The lowest rate is in Wollaton West with just 11.1% of households receiving one or both.

SOCIAL SERVICES FOR OLDER PEOPLE

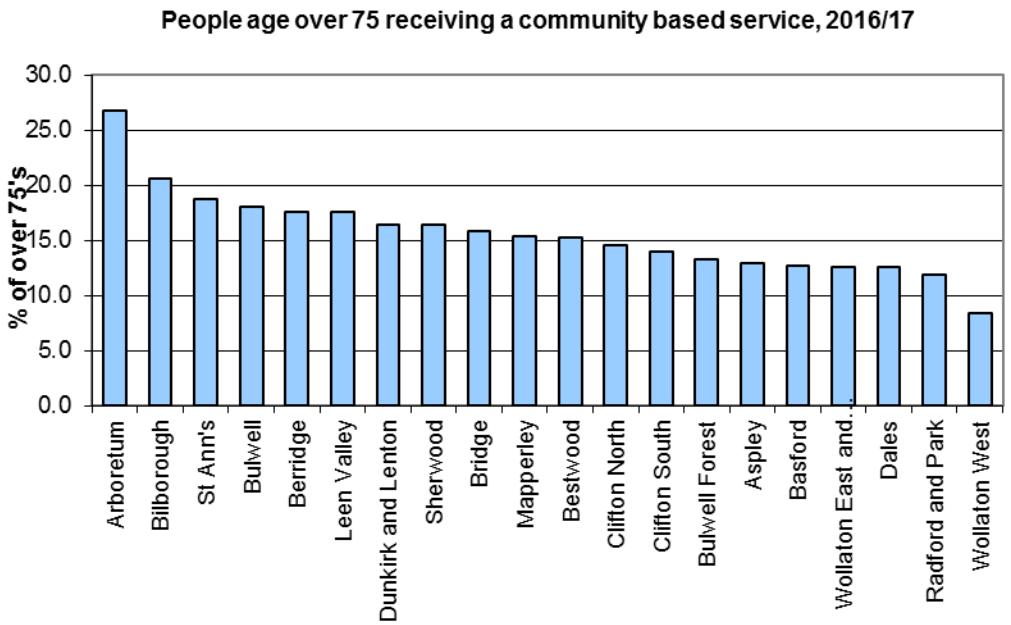

Number of people aged 75 and over who received a Community Based Social Service to enable them to live independently in their own home, plus rate per population aged 75 and over.

Social Services for Older People by Ward, 2016/17

Key	Ward	Number receiving a Social Service	Population 75+ (2015)	% receiving a Social Service

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- **Definition**: People aged 75 and over who received any Community Based Social Service during the year April 2015-March 2016. The number does not include long term residential or nursing care, although short term care in a residential or nursing home does count as a Community Based Service.
- **Please note**: The location is the client's address at the end of the year. Some individuals may have moved address during this year and may no longer live at the address where the service was accessed.
- The highest rate of older people receiving a service is in Arboretum ward where 26.8% of over 75's received a service.
- Bilborough has the highest number of older people receiving a service – at 298. This is 91 people more than the second highest ward, Clifton South, despite Bilborough having a smaller number of over 75s.

NEIGHBOURHOOD SATISFACTION

Proportion of residents who are satisfied with their local neighbourhood

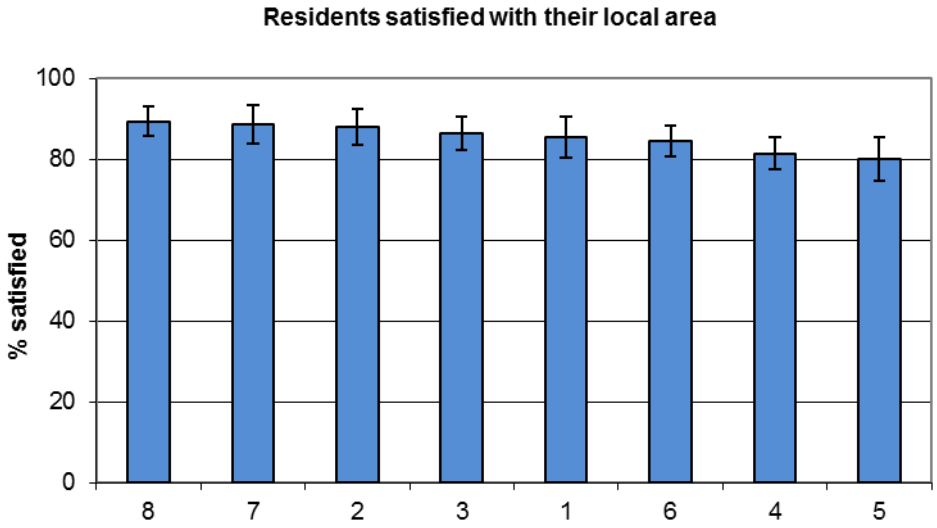

Neighbourhood satisfaction by Area and Locality, 2016

Area	Total	% Satisfied	% Dissatisfied
1	182	85.4	14.6
2	204	88.0	12.0
3	265	86.6	13.4
4	351	81.5	18.5
5	217	80.2	19.8
6	337	84.5	15.5
7	168	88.7	11.3
8	283	89.5	10.5
Nottingham	**2,006**	**85.3**	**14.7**

Locality	Total	% Satisfied	% Dissatisfied
North	651	86.7	13.3
Central	735	82.8	17.2
South	620	86.8	13.2
Nottingham	**2,006**	**85.3**	**14.7**

Source: Nottingham Citizens Survey 2016

Caveats: Rates are based on survey data and as such are subject to error. Please note that confidence limits therefore apply to data (95% confidence limits approx. +/- 5%) – as shown by the error bars on the graph below.

- The highest levels of satisfaction are in Area 8 (Bridge, Clifton North and South) where just under 90% of respondents replied that they were either Very or Fairly Satisfied with their area as a place to live.
- The lowest level of satisfaction was in Area 5 (Sherwood and Berridge wards) where only 80% of people were Very or Fairly Satisfied – significantly lower than Area 7.

ABILITY TO INFLUENCE DECISIONS

Proportion of residents who feel they are able to personally influence decisions relating to their neighbourhood

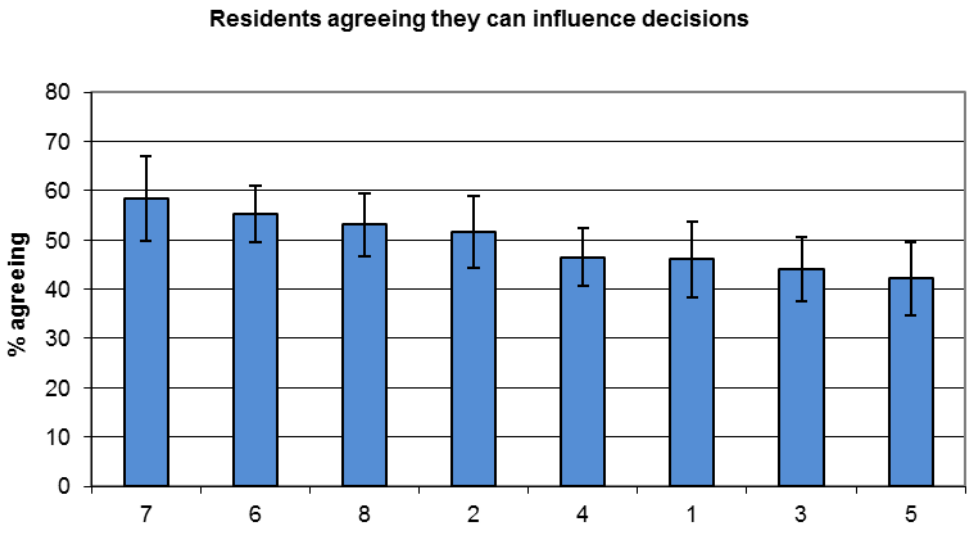

Agreement by Area and Locality, 2016

Area	Total	% Agree	% Disagree
1	160	46.1	53.9
2	183	51.6	48.4
3	227	44.1	55.9
4	277	46.5	53.5
5	172	42.1	57.9
6	285	55.3	44.7
7	127	58.4	41.6
8	237	53.1	46.9
Nottingham	**1,668**	**49.6**	**50.4**

Locality	Total	% Agree	% Disagree
North	570	47.1	52.9
Central	576	47.8	52.2
South	523	54.3	45.7
Nottingham	**1,668**	**49.6**	**50.4**

Source: Nottingham Citizens Survey 2016

Caveats: Rates are based on survey data and as such are subject to error. Please note that confidence limits therefore apply to data (95% confidence limits up to +/- 8%) – as shown by the error bars on the graph below.

- In four Area Committees, at least 50% of the population agree that they can influence decisions which affect their local area. The highest is Area 7 (Wollaton West and Wollaton East & Lenton Abbey) where 58.4% of the residents agree.
- The lowest rate is in Area 5 where just 42.1% of people agree.

NEIGHBOURHOOD COHESION

Proportion of residents who feel their neighbourhood is a place where people from different backgrounds get on well together

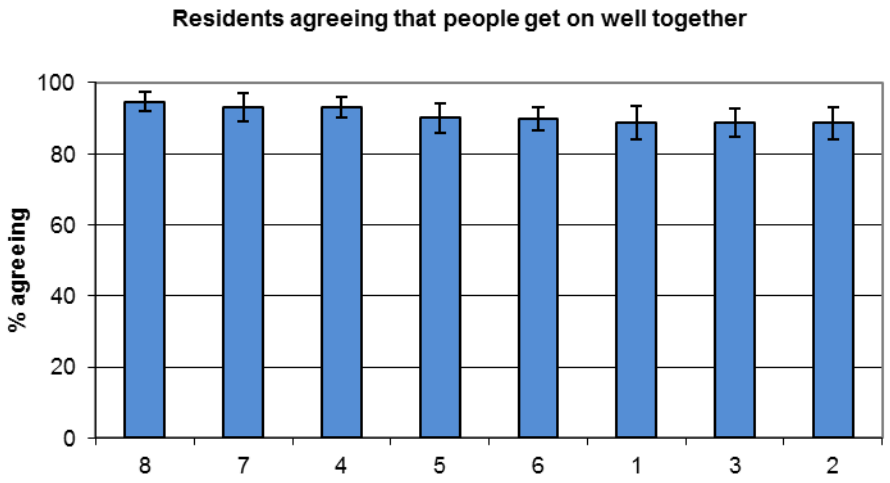

Agreement by Area and Locality, 2016

Area	Total	% Agree	% Disagree
1	166	88.7	11.3
2	198	88.6	11.4
3	246	88.6	11.4
4	328	93.1	6.9
5	201	90.0	10.0
6	323	89.8	10.2
7	158	93.2	6.8
8	263	94.6	5.4
Nottingham	**1,882**	**91.0**	**9.0**

Locality	Total	% Agree	% Disagree
North	610	88.6	11.4
Central	687	92.2	7.8
South	586	92.0	8.0
Nottingham	**1,882**	**91.0**	**9.0**

Source: Nottingham Citizens Survey 2016

Caveats: Rates are based on survey data and as such are subject to error. Please note that confidence limits therefore apply to data (95% confidence limits approx. +/- 4%) – as shown by the error bars on the graph below.

- Area 2 (Bestwood and Basford) has the lowest percentage of people reporting that people from different backgrounds get on well in their area – although the figure is quite high at 88.6%.
- The highest proportion was in Area 8 where 94.6% of residents agreed that people got on well.

RESIDENTS WHO SMOKE

Proportion of residents who smoke tobacco and of residents who do not smoke

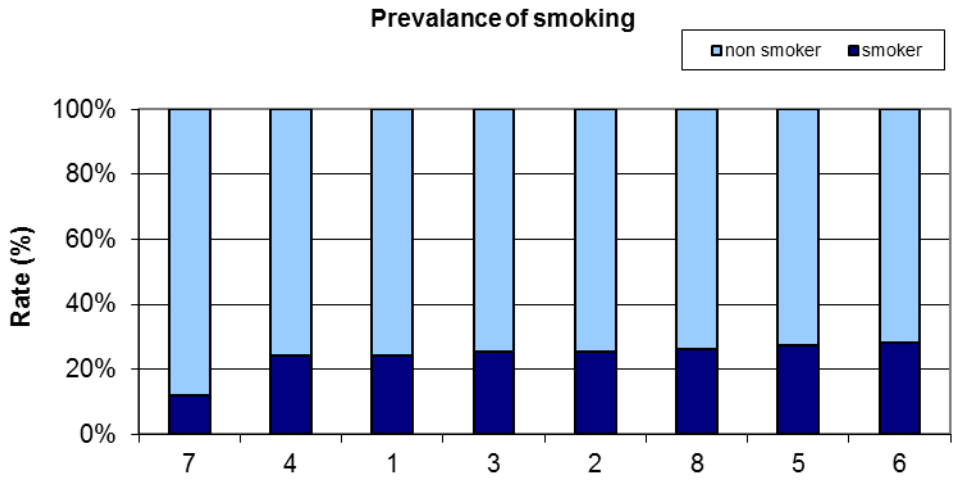

Prevalence of smoking by Area and Locality, 2016

Area	Total	I have never smoked	I used to smoke but I have given up now	I smoke but I don't smoke every day	I smoke every day
1	182	51.8	23.9	1.1	23.2
2	201	51.7	22.9	4.8	20.7
3	265	52.8	21.8	2.5	22.9
4	350	64.7	11.1	5.9	18.3
5	213	49.6	22.9	8.5	19.0
6	333	54.6	17.2	9.0	19.2
7	167	68.4	19.6	5.4	6.6
8	282	48.8	24.9	5.1	21.2
Nottingham	**1992**	**55.4**	**19.8**	**5.5**	**19.3**

Locality	Total	I have never smoked	I used to smoke but I have given up now	I smoke but I don't smoke every day	I smoke every day
North	648	52.2	22.7	2.8	22.3
Central	730	61.1	16.5	6.5	15.9
South	614	51.9	20.7	7.2	20.1
Nottingham	**1992**	**55.4**	**19.8**	**5.5**	**19.3**

Source: Nottingham Citizens Survey 2016

Caveats: Rates are based on survey data and as such are subject to error. Please note that confidence limits therefore apply to data (95% confidence limits approx., +/- 6%) – as shown by the error bars on the graph below.

- Area 7 has the highest proportion of residents who are non-smokers than other Areas, at 88%.
- Area 6 has the highest proportion of residents who are smokers, with 28.2% of residents smoking and just under a fifth smoking very day.
- In four of the City's areas, more than 1 in 5 residents smoke daily.

Indices of Deprivation 2015: (Department for Communities and Local Government) The Indices of Deprivation measure the different types of deprivation experienced by individuals living in an area. Scores and Ranks are published for Super Output Areas but not for wards. The ward ranks above have been estimated by taking an average of the population weighted SOA scores for each City ward. These are unofficial. The City Ranks are out of 20. The SOA column gives the number in the worst 10% of SOAs in England and the total SOAs in the area.

CONTEXTUAL TABLE 5 - Students and Households

Ward	Students (2011 Census)			Households		
	No.	% of total population	% of 16 to 64	Total (2011 Census) No.	Student (2016) No.	Student (2016) %

Students: Source: 2011 Census. School children and full time students aged 18 and above. These figures are not comparable with figures previously published in ward reports, as they will include some students attending colleges and sixth forms as well as University students.

Households: Total households are from the 2011 Census and are **not** estimates using Council Tax and housing completions and demolitions information, so are not comparable with figures published in previous Ward Reports. Student households are from November 2016 Council Tax exemption records. A household is defined as "a person living alone or people living at same address sharing a living or sitting room or sharing at least one meal per day". Because this relates to people, rather than buildings, vacant dwellings will not be included. The intention is that households in purpose-built student dwellings are excluded, but some may be included.
