WARD REPORT 2017

INTRODUCTION

This is the eleventh annual One Nottingham Ward Report, produced to provide a variety of data at a Ward, Area Committee and Locality level.

The report includes data for a number of indicators, covering the themes of Worklessness; Health; Education; Crime, Housing and Liveability.

The report concentrates on providing data at a Ward, Area Committee and Locality level - where data are available – but comparisons with the City, Greater Nottingham and England have been given where possible.

Greater Nottingham figures have been included for two reasons. Firstly, it is over this area that many local transport and economic strategies are formulated and delivered. Secondly, the City of Nottingham boundaries are very tightly drawn and Greater Nottingham gives a more complete picture of the urban area.

Data have been provided by a number of Agencies and Partners, including: Department for Work and Pensions; Nottinghamshire Police; Nottinghamshire Fire and Rescue Service; Nottinghamshire Futures; plus Nottingham City Council Children and Adults department; Public Heath; Housing Benefits; Accident Investigation; and Street Scene.

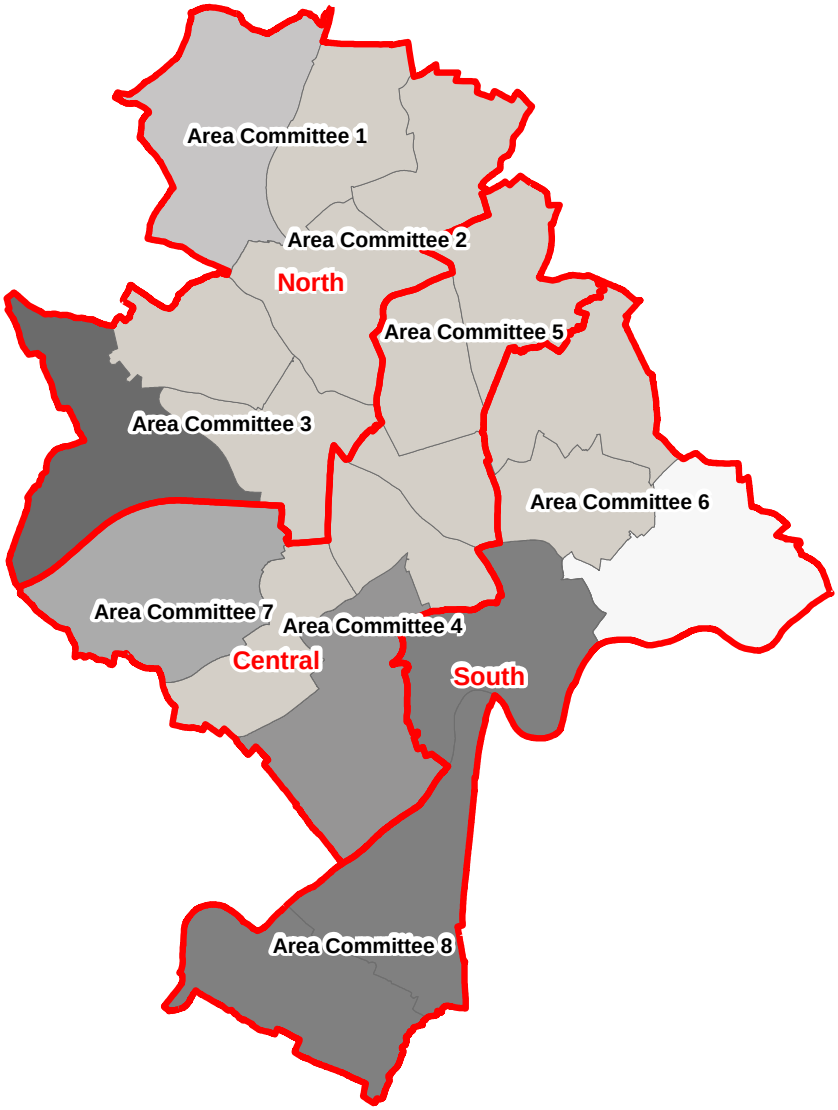

The contextual tables include data from the Office for National Statistics and the Department for Communities and Local Government and much is subject to Crown Copyright. Please quote the source when using the data.

Many of the datasets are available on the Nottingham Insight website (www.nottinghaminsight.org.uk), which also includes further contextual data from the 2011 Census, the 2015 Indices of Deprivation, the 2017 Citizens' survey, plus Ward Reports from the past few years.

If you would like any further information about this report, please contact Nicola Kirk in the Policy and Research team in the City Council, on (0115) 876 3979, or by e-mail, at: nicola.kirk@nottinghamcity.gov.uk

The table and map below show which wards make up each Area Committee and Locality. Throughout the report, Area Committees are listed with their number for ease.

Locality	Area	Wards
North	1	Bulwell; Bulwell Forest
	2	Basford; Bestwood
	3	Aspley; Leen Valley; Bilborough
Central	4	Arboretum; Radford & Park; Dunkirk & Lenton
	5	Sherwood; Berridge
	7	Wollaton West; Wollaton East & Lenton Abbey
South	6	Mapperley; St Ann's; Dales
	8	Bridge; Clifton North; Clifton South

CLAIMANT COUNT

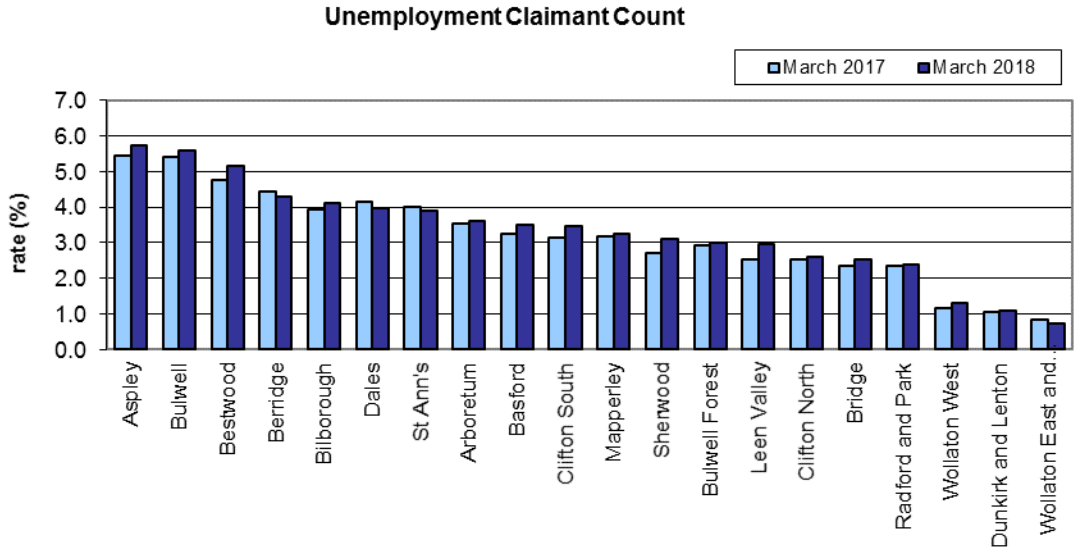

Number of people claiming Job Seekers Allowance or Universal Credit claimants looking for employment, and proportion of resident working age population

Claimant Count by Ward

		March 2017		March 2018	
Key	Ward	Number	%	Number	%
1	Arboretum	515	3.5	525	3.6
2	Aspley	610	5.4	645	5.7
3	Basford	355	3.2	385	3.5
4	Berridge	635	4.4	615	4.3

- **Please note:** There have been a number of changes to the benefits system since 2008 - affecting claimants of Lone Parent Income Support and Incapacity Benefit claimants. Some claimants of these two benefits will have transferred to Job Seekers Allowance, or Universal Credit – in the 'searching for work' group.
- Unemployment increased by 245 across the City between May 2017 and 2018, with 16 wards seeing increases.
- The largest increases were in Bestwood, Sherwood and Aspley wards – with 45, 40 and 35 more claimants respectively.
- Four wards saw decreases, the largest of which were Berridge, Dales and St Ann's with 20 fewer claimants.
- Aspley ward has the highest unemployment rate at 5.7%, and Wollaton East and Lenton Abbey ward has the lowest, with 0.7% of the population aged 16-64 claiming JSA or universal credit (unemployment) although rates in this ward are slightly skewed due to the large numbers of students.
- Just three City wards have a rate lower than the England average.

WORKING AGE BENEFITS

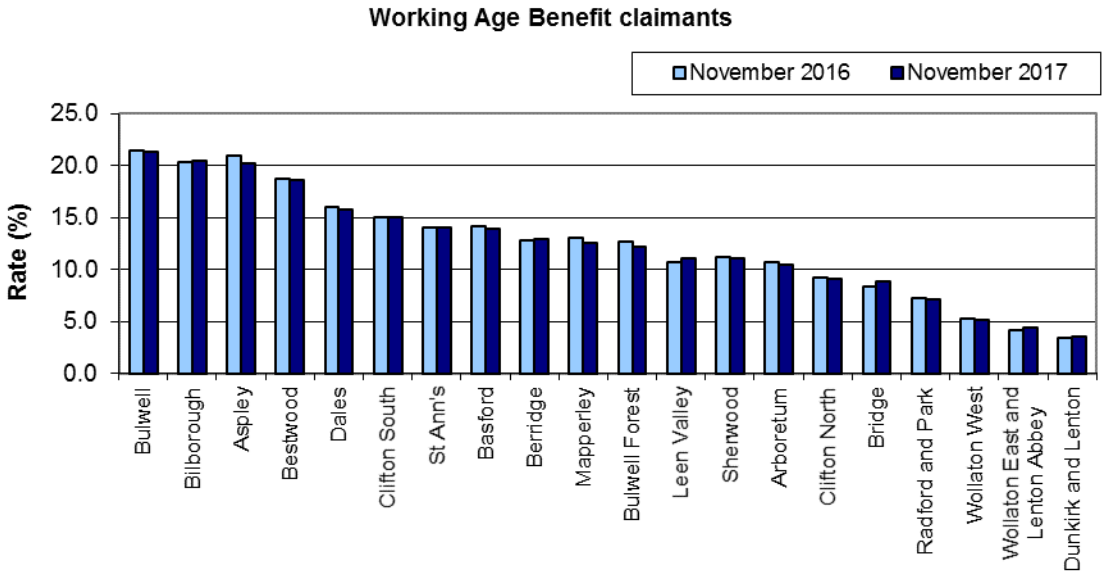

Number of people claiming working age benefits and proportion of resident working age population

Working age Benefit claimants by Ward

Key	Ward	November 2016 Number	%	November 2017 Number	%
1	Arboretum	1,560	10.7	1,530	10.5
2	Aspley	2,355	21.0	2,265	20.2

- **Definition:** The Office for National Statistics have discontinued the 'working age client' dataset, reported in previous Ward Reports, due to the introduction of Universal Credit. As such the data reported above is a proxy measure - the sum of people claiming either JSA or Universal Credit (searching for work), plus people claiming ESA (or IB/SDA), plus claimants of Lone Parent Income Support.
- The highest rate of claimants is in Bulwell ward – where 21% of the population aged 16-64 claims one of the above benefits.
- The lowest rates are in Dunkirk & Lenton, the two Area 7 wards and Radford & Park.
- The number of claimants decreased slightly across the City between November 2016 and November 2017, and 13 City wards saw a decrease in number and rate of claimants. The greatest numerical decreases were in Aspley ward and Mapperley, of 90 and 60 respectively.

INCAPACITY BENEFITS & EMPLOYMENT SUPPORT ALLOWANCE

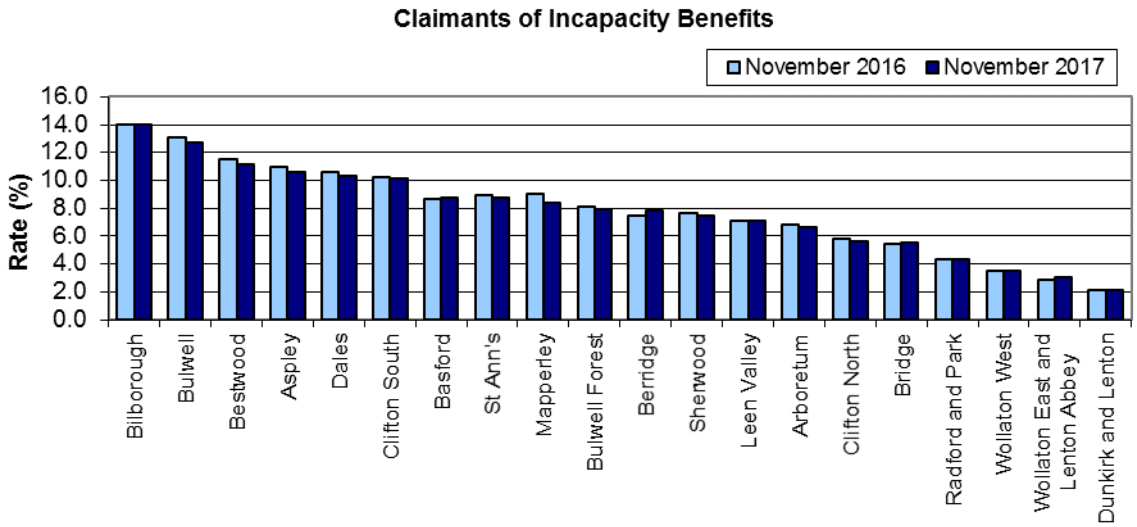

Number of people claiming Employment Support Allowance, Incapacity Benefit or Severe Disablement Allowance and proportion of resident working age population

IB, ESA and SDA Claimant Rate by Ward

Key	Ward	November 2016 Number	%	November 2017 Number	%
1	Arboretum	990	6.8	965	6.6
2	Aspley	1,235	11.0	1,185	10.6

Nottingham	**17,630**	**7.8**	**17,420**	**7.7**

Source: DWP Information Directorate (from Nomis)

- **Definition:** Disability Benefits are paid to people who are incapable of work, due to ill health or disability, and who meet certain contribution conditions. Employment Support Allowance (ESA) replaced new claims for Incapacity Benefit (IB) from October 2008. The process of reassessing IB claimants began in April 2011. Data suggest that most claimants will transfer to ESA but some claimants will be found to be fit to work and will transfer to Job Seeker's Allowance / Universal Credit.
- The highest rate of claims is in Bilborough ward at 14.0% of the resident working age population and nearly double the City average.
- The lowest rate remains in Dunkirk and Lenton (2.1%) and Wollaton East and Lenton Abbey (3.0%)
- 11 wards saw small fall in claimants in the last year, although numbers remained fairly static in all wards, with just two wards – Aspley and Mapperley - seeing a change of more than 50 people.

PREMATURE DEATHS FROM CANCER

Directly Standardised Rate of Deaths of under-75 year olds from Cancer, per 100,000 population

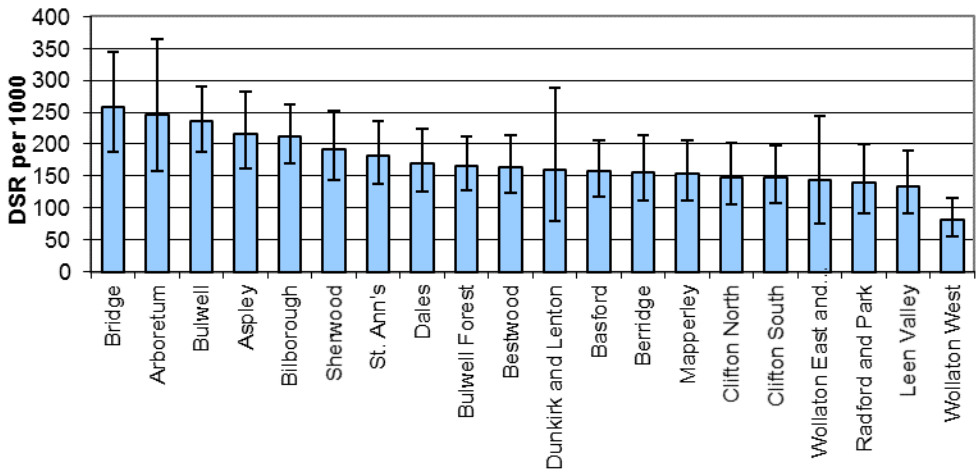

Directly Standardised Rate per 100,000 by Ward

		2013-2015				2014-2016

See over for caveats and definitions.

Directly Standardised Rate of premature deaths from Cancer, 2014-2016

- **Definition:** Rates are Directly Standardised to the European Standard Population to allow for the differing age and sex structures in each area. In 2013, the European Standard Population which had been in use since 1975 was updated and thus rates published here are not comparable with those published previously.
- In addition, Ward Death Rates in the previous report were incorrect and should not be compared to those published here.
- The rates are based on three years of pooled data and are per 100,000 population.
- **Caveats:** Please note the upper confidence limit (UCL) and lower confidence limit (LCL) figures in the table, and indicated on the chart above by the error bars. These overlap for many of the wards meaning they are not significantly different to one another.
- The highest rate of premature deaths from Cancer is in Bridge ward, at 258 per 100,000 population. The lowest rate is in Wollaton West, at 81 per 100,000.
- Due to the large confidence limits, many differences between wards are not statistically significant, but Wollaton West has a significantly lower rate than 11 other wards.

PREMATURE DEATHS FROM CIRCULATORY DISEASE

Directly Standardised Rate of Deaths of under-75 year olds from Circulatory Disease, per 100,000 population

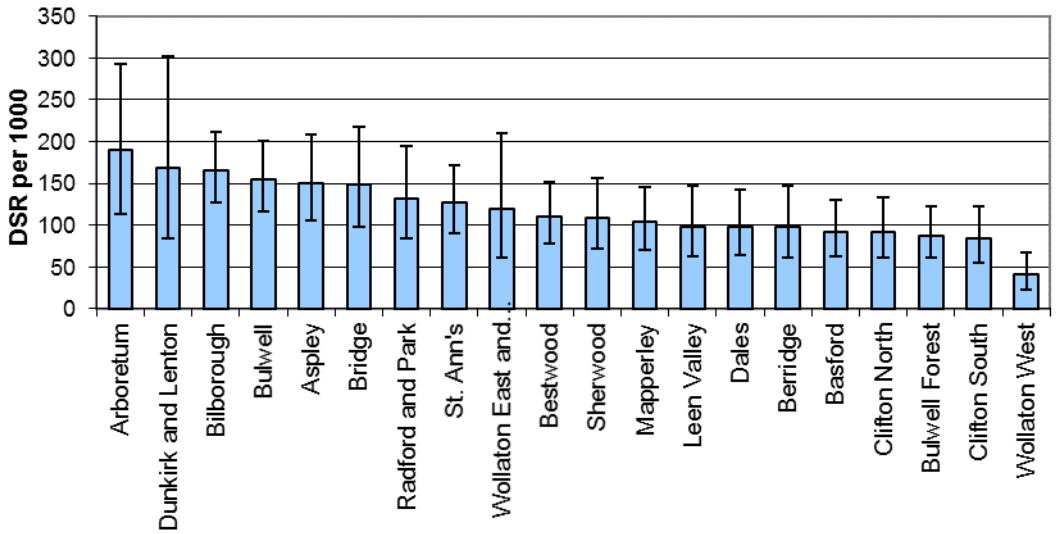

Directly Standardised Rate per 100,000 by Ward

Directly Standardised Rate of premature deaths from Circulatory disease, 2014-2016

- **Definition:** Rates are Directly Standardised to the European Standard Population to allow for the differing age and sex structures in each area. In 2013, the European Standard Population which had been in use since 1975 was updated and thus rates published here are not comparable with those published previously.
- In addition, Ward Death Rates in the previous report were incorrect and should not be compared to those published here.
- The rates are based on three years of pooled data and are per 100,000 population.
- **Caveats:** Please note the upper confidence limit (UCL) and lower confidence limit (LCL) figures in the table, and indicated on the chart above by the error bars. These overlap for many of the wards meaning they are not significantly different to one another.
- The highest rate of premature deaths from Circulatory disease is in Arboretum, at 189 per 100,000 people. This is significantly higher than Wollaton West.
- The lowest rate is in Wollaton West, 41 per 100,000 population, significantly lower than 10 other wards.
- Between 2013-15 and 2014-16, 8 wards saw a slight increase in premature mortality from Circulatory disease, although these were not statistically significant.

LIFE EXPECTANCY

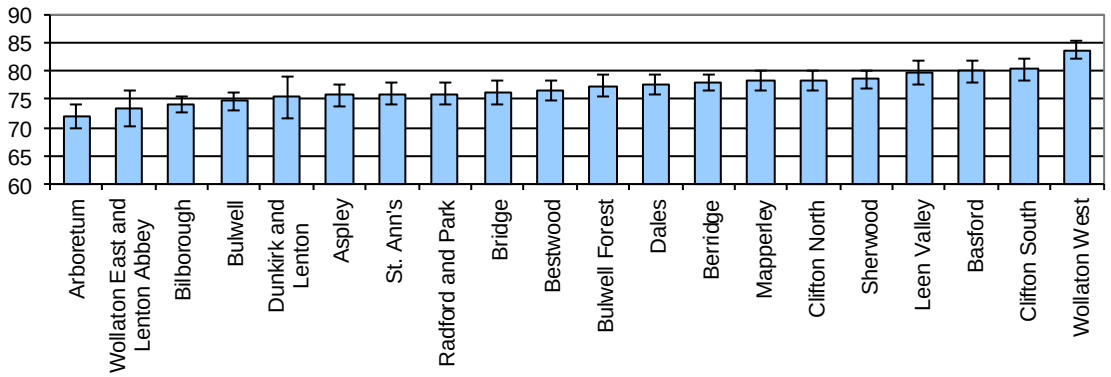

Life Expectancy at Birth

Life Expectancy at Birth by Ward

Male Life Expectancy 2014-2016

Female Life Expectancy at birth 2014-2016

Life Expectancy at Birth, 2014/16, Males

- 71.9 - 73.9
- 74.0 - 76.4
- 76.5 - 78.6
- 78.7 - 83.7

Life Expectancy at Birth, 2014/16, Females

- 76.1
- 76.2 - 80.6
- 80.7 - 83.6
- 83.7 - 88.2

- **Please note:** the y-axis on the graphs opposite do not start at 0. Please also note that the range on the maps above differs for Males and for Females.
- **Please note:** Some wards may have a higher rate than others but not be significantly different to England due to the large confidence intervals.
- For males and females, the highest life expectancy is in Wollaton West ward and the lowest is in Arboretum ward.
- For males, the gap in life expectancy at birth between the highest and lowest is 11.8 years. For females this is slightly higher, at 12.1 years.

TEENAGE CONCEPTIONS

Under 18 conception rate per 1,000 females aged 15-17

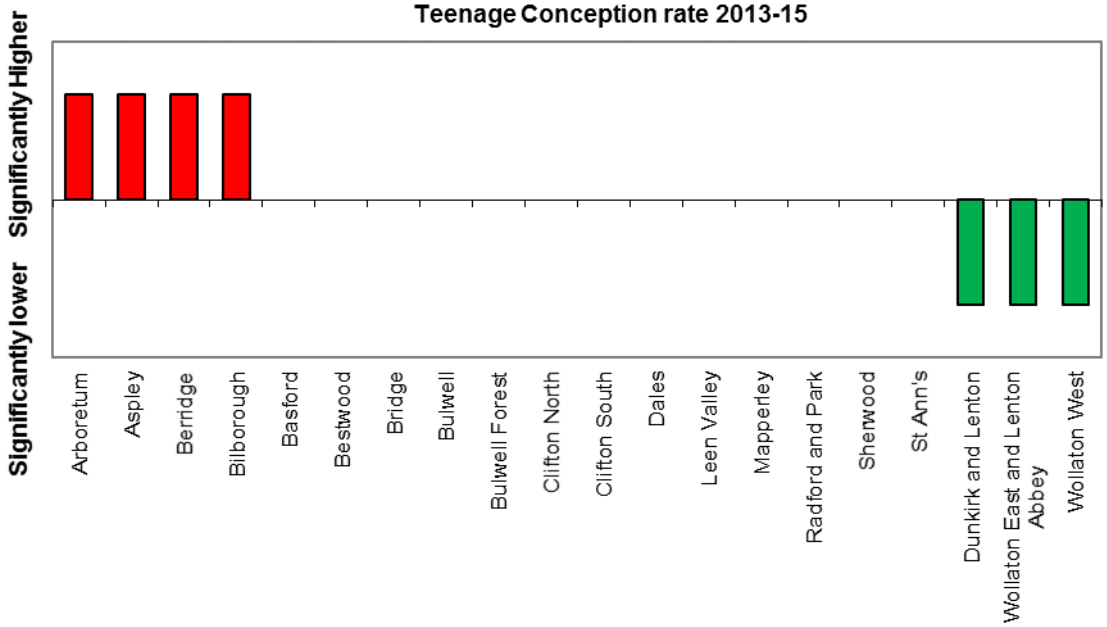

Under 18 Conception Rate by Ward

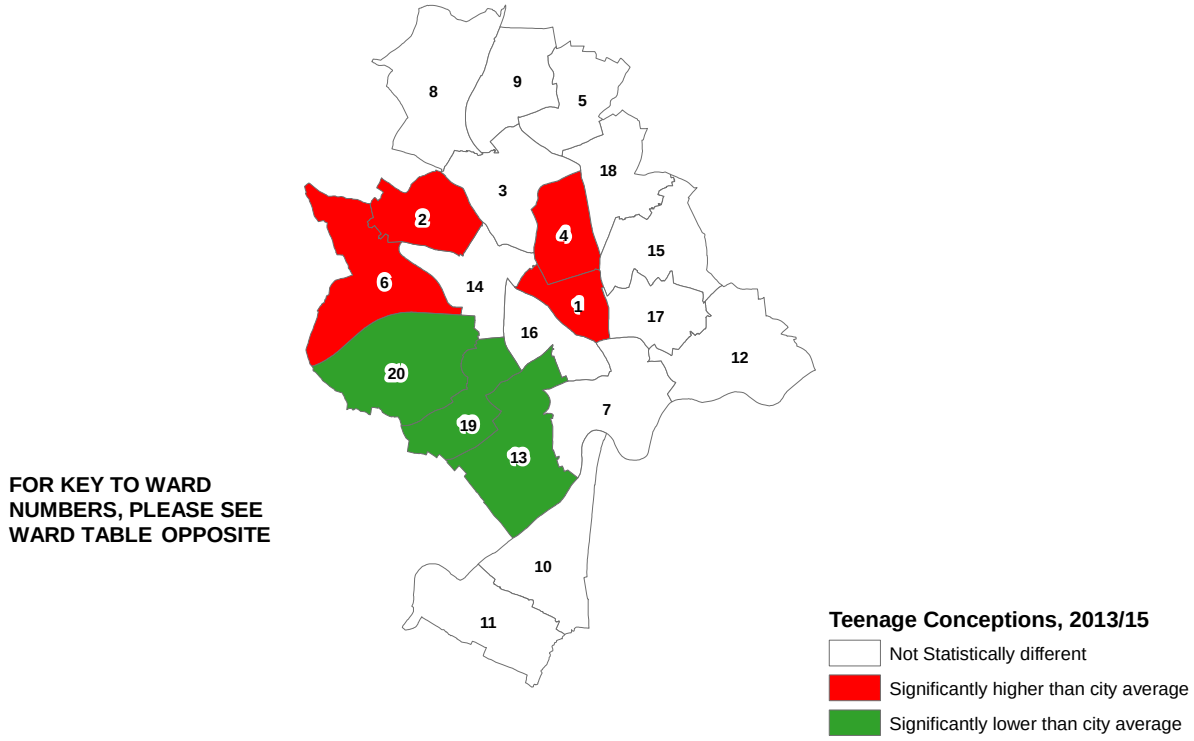

Key	Ward	Teenage conception rate 2013-15 Comparison to the City Median

19	Wollaton East and Lenton Abbey	Significantly lower than city average
20	Wollaton West	Significantly lower than city average

Source: Office for National Statistics, Crown Copyright

Caveats: The ONS state that ward level rates must not be published on the internet, so the table, and the graph and maps below, above just state whether a ward's rate is significantly different to the City average.

Please note: Some wards may have a higher rate than others but not be significantly different due to the large confidence intervals.

- Four City wards have a Teenage Conception rate that is significantly higher than the average for Nottingham.
- Three wards have a teenage conception rate that is significantly lower than the City average.
- Although the data is not directly comparable, in 2016 Nottingham had an under-18 conception rate of 26.9 per 1,000 females (in that age group). This was a fall from a rate of 31.4 per 1,000 in 2015. The corresponding rates for England as a whole were 18.8 per 1,000 in 2016 and 20.8 per 1,000 in 2015.

- **Definition**: Percentage of eligible pupils in schools maintained by the Local Education Authority achieving at least the expected standard in the Key Stage 1 Assessments who are resident within Nottingham City.
- **Please note:** Figures for wards are given for pupils resident in the City and attending City schools but may exclude a few pupils where their address could not be geo-coded.
- **Please note:** The categories on the maps above have been manually adjusted to enable comparisons between the three subjects.
- The highest rates of attainment in the three elements of Key Stage 1, reading, writing and maths, are seen in Wollaton West with over 85% reaching the expected standard in reading and maths and just under 79% in writing.
- The lowest rates of attainment in reading, writing and maths are in Arboretum ward (52.9%, 41.3% and 54.8% respectively).

- **Definition:** Percentage of eligible pupils in schools maintained by the Local Education Authority achieving at least the expected level in the Key Stage 2 tests and assessments who are resident within Nottingham City.
- **Please note:** Figures for wards are given for pupils resident in the City and attending City schools but may exclude a few pupils where their address could not be geo-coded.
- **Please note**: Key Stage 2 tests are sat by pupils in their final year of primary school when they are 11 years old.
- The lowest rate of attainment in reading, writing and maths is in Arboretum ward where 48% of pupils achieved the expected level or above. The lowest rate of attainment in grammar, punctuation and spelling is in Dales ward where 66.5% of pupils achieved this level.
- Wollaton West saw the highest levels of attainment in both elements at Key Stage 2 in 2017, with over 80% achieving the expected level in Reading, Writing and Maths, and nearly 90% in Grammar, Punctuation and Spelling.

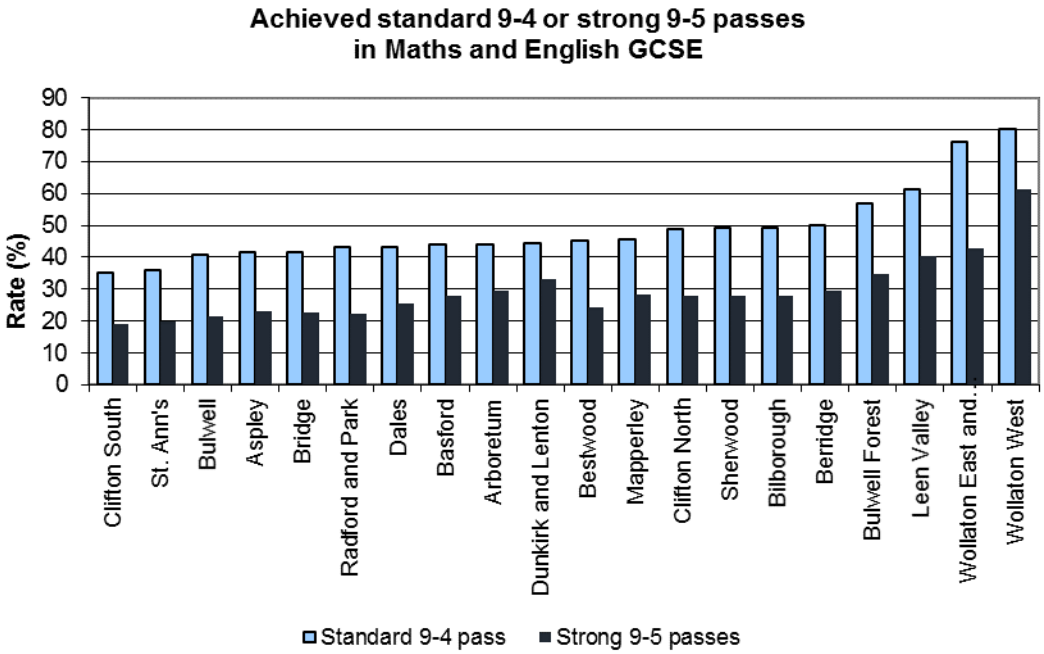

KEY STAGE 4: 5 GCSEs INCLUDING ENGLISH AND MATHS

Percentage of pupils aged 16 achieving standard (grade 9-4) or strong (grade 9-5) GCSEs in English and Maths

Attainment of GCSEs in English and Maths by Ward, 2017

		Standard 9-4 pass		Strong 9-5 passes	
Key	Ward	Number	Rate (%)	Number	Rate (%)

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- **Definition:** The percentage of pupils who attained grade 9-4 or 9-5 in GCSE English and maths. The grading of English and Maths GCSEs was reformed in 2017 from A-F. The reformed grade 9-4 equates to an old grade C or above.
- **Please note:** Figures for wards are given for pupils resident in the City and attending City schools but may exclude a few pupils where their address could not be geo-coded. The Nottingham rate is for all pupils, including those who live outside of the City and those who could not be geo-coded to an area.
- The highest percentage of pupils attaining both standard (9-4) and strong (9-5) passes in English and Maths is in Wollaton West ward with 80.6% and 61.3% of pupils respectively in 2017.
- The lowest rate is in Clifton South ward, where 35.2% achieved a standard pass and 19% achieved a string pass in 2017.
- Only five City wards saw over half of pupils attaining a standard pass in English and Maths at GCSE in 2017.

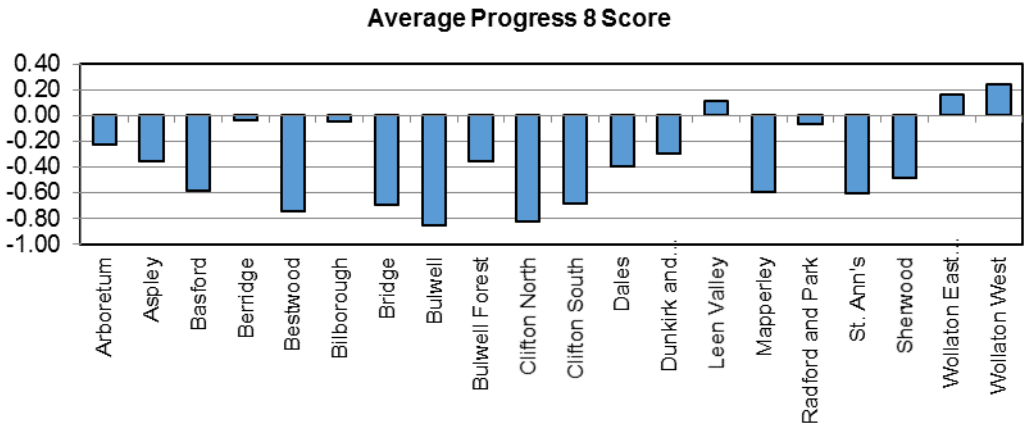

KEY STAGE 4: ATTAINMENT 8 AND PROGRESS 8 SCORES

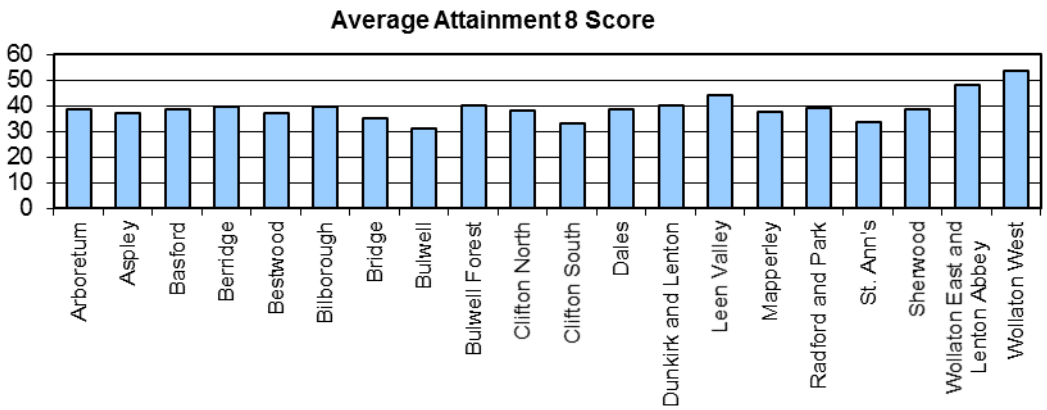

Average Attainment 8 and Progress 8 scores

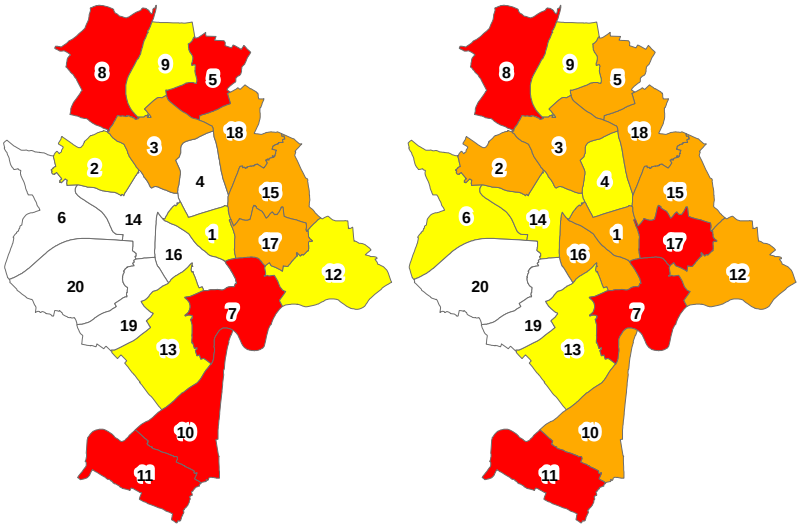

Average Attainment 8 and Progress 8 scores by Ward, 2017

Key	Ward	Progress 8 Score	Attainment 8 Score
1	Arboretum	-0.22	38.7
2	Aspley	-0.35	37.0
3	Basford	-0.59	38.9
4	Berridge	-0.04	39.7
5	Bestwood	-0.75	37.0
6	Bilborough	-0.04	39.9
7	Bridge	-0.70	34.9
8	Bulwell	-0.86	31.3
9	Bulwell Forest	-0.35	40.0
10	Clifton North	-0.83	38.4

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Progress 8 Score, 2017

	-0.86 - -0.69
	-0.68 - -0.48
	-0.47 - -0.22
	-0.21 - 0.25

Attainment 8 Score, 2017

	31.3 - 34.9
	35.0 - 39.3
	39.4 - 44.3
	44.4 - 53.6

- **Attainment 8** measures the achievement of a pupil at Key Stage 4 across 8 qualifications including maths and English.
- **Progress 8** measures the progress a pupil makes from the end of primary school to the end of secondary school. It compares their achievement –their Attainment 8 score – with the average Attainment 8 score of all pupils nationally who had a similar starting point at the end of primary school. The greater the Progress 8 score, the greater the progress made. A score above zero means pupils made more progress, on average, than pupils across England who got similar results at the end of key stage 2 and vice versa.
- The highest attainment 8 score is in Wollaton West ward, at 53.6 in 2017. Every other ward had a score lower than 50, with the lowest being Bulwell ward at 31.3.
- The highest progress 8 score is in Wollaton West ward, at 0.25 in 2017 – one of only three positive scores , with the others being in Wollaton East and Lenton Abbey, and Leen Valley.

Source: Nottinghamshire Police

- **Definition**: A person is guilty of a dwelling burglary (domestic burglary) if they enter any part of a dwelling (fit for habitation) as a trespasser and steal or attempt to steal anything in the building or attempt to inflict any grievous bodily harm on any person in the building (or intend to carry out any of these acts).
- **Please note:** From April 2017 incidents recorded previously as Burglary Dwellings became Burglary – Residential and included offences within the residential boundary such as in sheds, garages and outbuildings, which had previously been recorded as Burglary Other. Comparisons between 2016 & 2017 are therefore very difficult.
- The highest rate of dwelling burglary is in Arboretum, at 40.2 per 1,000 households.
- The lowest rate is in Clifton North ward, with just 7.0 per 1,000 households.
- 16 wards saw an increase in the number of dwelling burglaries over the previous year, with an overall increase of 617 incidents across the City.
- The largest increase was in Berridge with 124 more incidents. The largest decreases were in the two Clifton wards – totally 52 fewer burglaries.

- **Definition**: Violent crime covers a number of offences where physical or verbal assault has taken place on an individual (this includes threats of violence). Offence types range from harassment, to assault, to grievous bodily harm and murder, but the number of serious offences tend to be relatively small. Sexual Offences are also included in this category. Violent crime includes Domestic Violence, which is defined by the Home Office as any violence between current and former partners in an intimate relationship, wherever the violence occurs. **Please note:** The figures are based on location of the crime, not residence of the offender or victim.
- The highest rate of violent crime is in Bridge ward, at 93.2 incidents per 1,000 population. Note that Bridge ward contains much of the City Centre area.
- The lowest rate is in Wollaton West, at 10.3 per 1,000 population.
- All wards saw an increase in incidents between 2016 and 2017, with the largest seen in St Ann's – with 426 more incidents. The increases in violent crime are a reflection of the overall increase in crime the city has experienced over the two years.

- **Definition:** Theft **from** a vehicle is where the intent is to steal from a vehicle rather than drive it away. Theft **of** a motor vehicle is committed if, without having the consent of the owner or other lawful authority, the perpetrator takes any vehicle for his own or another's use. This category includes other vehicles such as motorcycles and mopeds.
- **Please note:** Figures are for the location of the theft and not the residence of the offender or victim.
- The highest rates of vehicle crime are in Arboretum ward, with a rate of 17.4 per 1,000 population. The lowest rate is in Clifton South, with 4.9 per 1,000.
- Across the City the number of vehicle crimes increased by 924 incidents between 2016 and 2017 reflecting an overall increase in crime across the city over the two years.
- Only three wards experienced reductions in the number vehicle offences in 2017 when compared to 2016, they are Clifton North & South and Wollaton West.

- **Definition**: Figures are for the location where an accident involving someone being killed or seriously injured, took place, not the address of the person involved.
- **Please note:** Due to the small numbers involved, percentage changes can look very large and care should be taken in interpreting the data.
- The highest number of casualties during 2017 were in Berridge ward and Bridge ward – which encompasses parts of the City Centre area. The lowest number was in Bestwood ward.
- The number of people killed or seriously injured in traffic accidents has decreased across the City between 2016 and 2017 with the largest numerical decrease being in Wollaton West ward - reducing by 6.

- **Caveat:** Due to a change in Government policy, Council Tax Benefit ended on 31/3/2013, and Local Authorities are now responsible for administering Council Tax Support Schemes (Council Tax Reduction). The eligibility criteria have consequently changed.
- 18 wards saw a decrease in the number of claims for Council Tax Support and/or Housing Benefit between April 2017 and April 2018. Five wards saw decreases of more than 80 claimants.
- Aspley has the highest rate of claims for Council Tax Support and/or Housing Benefit, with 42% of all households in the ward claiming. St Ann's and Bilborough have the largest numbers of claimanys – both over 2,900.
- The lowest rate is in Wollaton West with just 10.7% of households receiving one or both, but Wollaton West and Lenton Abbey have fewer claimants.

SOCIAL SERVICES FOR OLDER PEOPLE

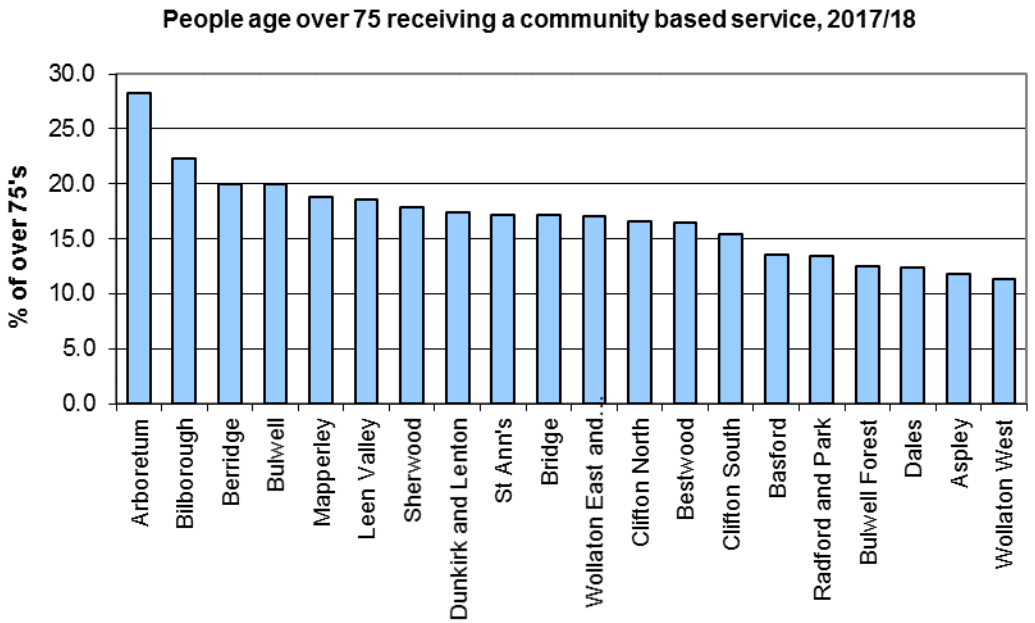

Number of people aged 75 and over who received a Community Based Social Service to enable them to live independently in their own home, plus rate per population aged 75 and over.

Social Services for Older People by Ward, 2017/18

- **Definition**: People aged 75 and over who received any Community Based Social Service during the year April 2017-March 2018. The number does not include long term residential or nursing care, although short term care in a residential or nursing home does count as a Community Based Service.
- **Please note**: The location is the client's address at the end of the year. Some individuals may have moved address during this year and may no longer live at the address where the service was accessed.
- The highest rate of older people receiving a service is in Arboretum ward where 28.3% of over 75's received a service, although the total numbers in the ward are low.
- Bilborough has the highest number of older people receiving a service – at 315. This is 88 people more than the second highest ward, Clifton South, despite Bilborough having a smaller number of over 75s.

Definitions and sources

Greater Nottingham is the Greater Nottingham Partnership area (Nottingham City, Broxtowe, Gedling and Rushcliffe Borough, and the Hucknall wards of Ashfield District).

Population: Office for National Statistics (ONS) Mid Year Estimates for 2006 (revised 2013) and 2016 (unrevised for wards (not yet released), and revised in 2018 for Local Authorities and higher). Greater Nottingham is the 2016 revised estimates for districts plus the 2016 unrevised ward level estimates for Hucknall.

Sex: From the Office for National Statistics (ONS) Mid Year Estimates, 2014

Indices of Deprivation 2015: (Department for Communities and Local Government) The Indices of Deprivation measure the different types of deprivation experienced by individuals living in an area. Scores and Ranks are published for Super Output Areas but not for wards. The ward ranks above have been estimated by taking an average of the population weighted SOA scores for each City ward. These are unofficial. The City Ranks are out of 20. The SOA column gives the number in the worst 10% of SOAs in England and the total SOAs in the area.

CONTEXTUAL TABLE 5 - Students and Households

Students: Source: 2011 Census. School children and full time students aged 18 and above. These figures are not comparable with figures previously published in ward reports, as they will include some students attending colleges and sixth forms as well as University students.

Households: Total households are from the 2011 Census and are **not** estimates using Council Tax and housing completions and demolitions information, so are not comparable with figures published in previous Ward Reports. Student households are from November 2017 Council Tax exemption records. A household is defined as "a person living alone or people living at same address sharing a living or sitting room or sharing at least one meal per day". Because this relates to people, rather than buildings, vacant dwellings will not be included. The intention is that households in purpose-built student dwellings are excluded, but some may be included.
