WARD REPORT 2018

INTRODUCTION

This is the twelfth annual One Nottingham Ward Report, but the first to provide data for the new wards of Nottingham which are to be implemented following the local elections in May 2019.

The report includes contextual data on Demographics – including age, sex, ethnicity and deprivation, plus data for a number of indicators, covering the themes of Worklessness; Health; Crime and Liveability. The report will be updated with Educational and other Liveability data when available.

The report provides data at a Ward and Area Committee level.

Data have been provided by a number of Agencies and Partners, including: Department for Work and Pensions; Public Health and Nottinghamshire Police.

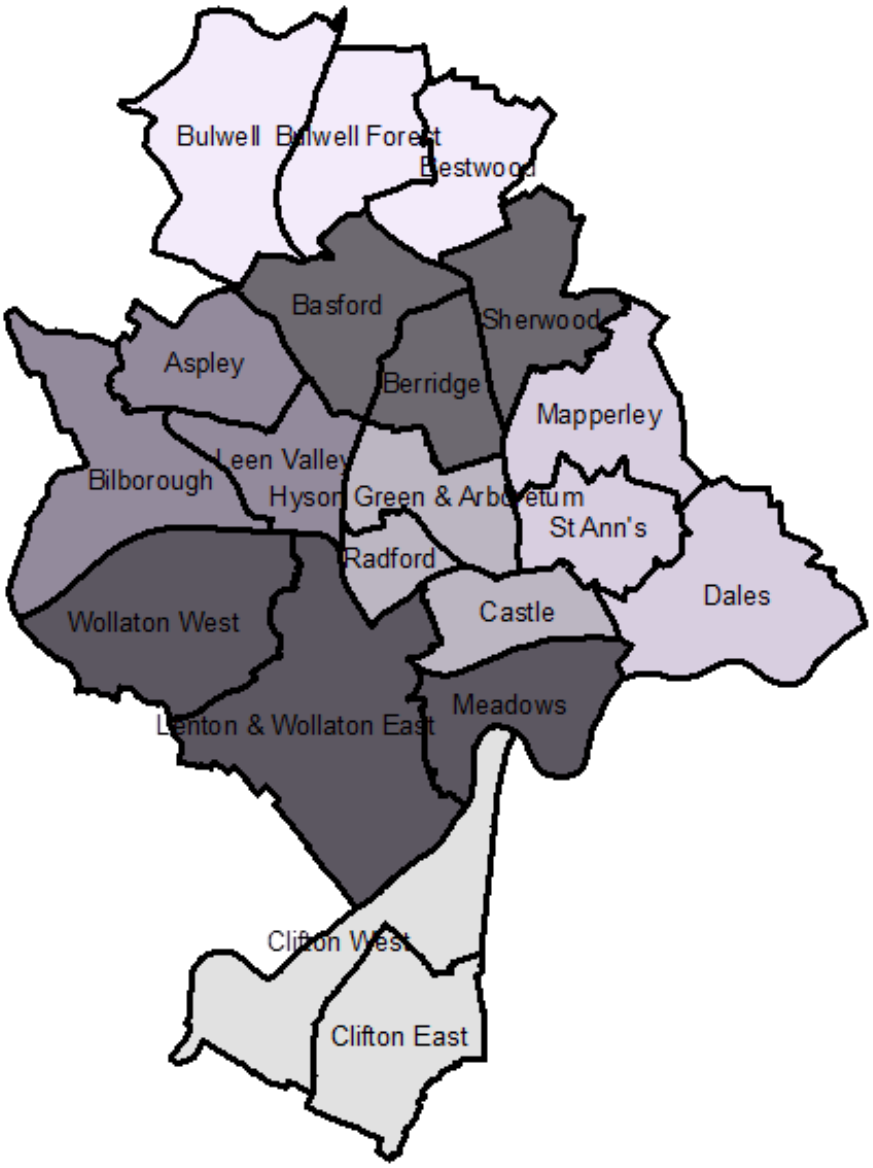

The contextual tables include data from the Office for National Statistics and the Department for Communities and Local Government and much is subject to Crown Copyright. Please quote the source when using the data.

Other data and analysis are available on the Nottingham Insight website (www.nottinghaminsight.org.uk), which also includes further contextual data from the 2011 Census, the 2015 Indices of Deprivation, plus Ward Reports from the past few years.

If you would like any further information about this report, please contact Nicola Kirk in the Policy and Research team in the City Council, on (0115) 876 3979, or by e-mail, at: nicola.kirk@nottinghamcity.gov.uk

The table and map below show which of the new City wards make up each Area Committee. Throughout the report, Area Committees are listed with their number for ease.

Area	Wards
1	Aspley; Bilborough; Leen Valley
2	Basford; Berridge; Sherwood
3	Bestwood; Bulwell; Bulwell Forest
4	Castle; Hyson Green and Arboretum; Radford
5	Clifton East; Clifton West
6	Dales; St Ann's; Mapperley
7	Lenton and Wollaton East; Meadows; Wollaton West

CLAIMANT COUNT

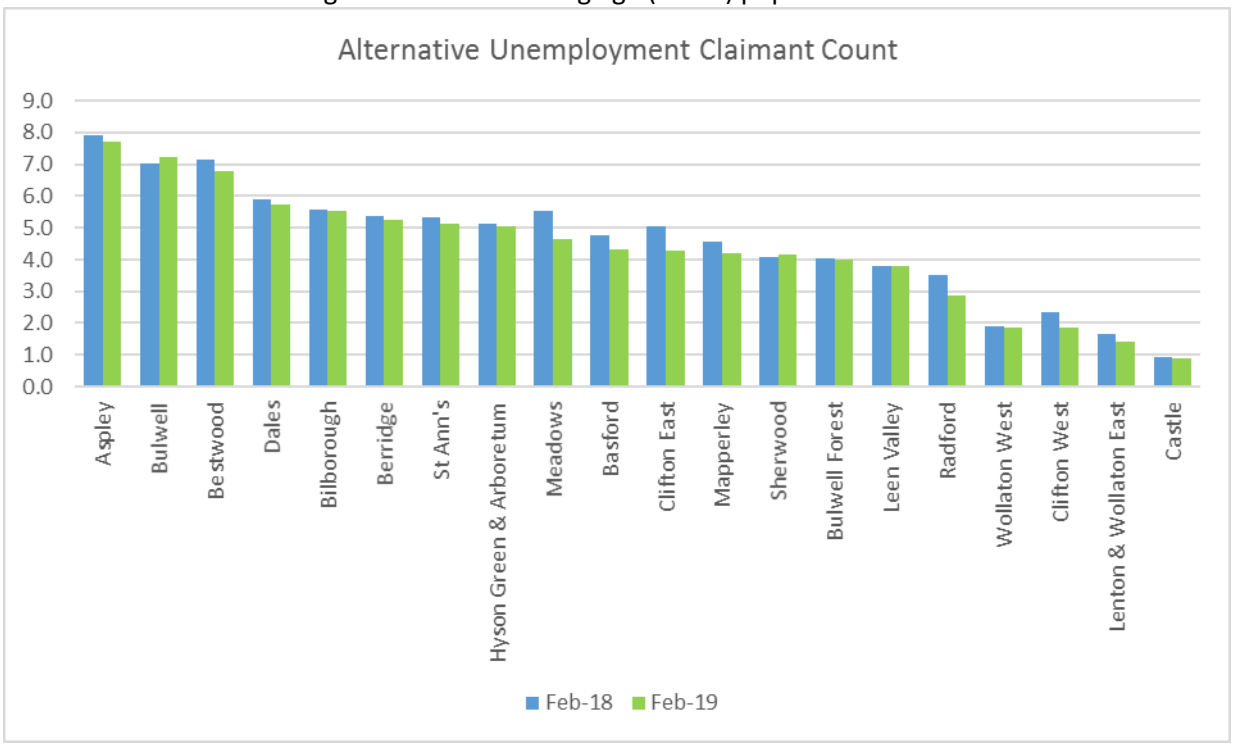

Number of people claiming Job Seekers Allowance or Universal Credit claimants looking for employment, and proportion of resident working age population

Alternative Claimant Count by Ward

		February 2018		February 2019		Change	
Key	Ward	Number	%	Number	%	Number	%
1	Aspley	937	7.9	912	7.7	-25	-2.7
2	Basford	529	4.8	477	4.3	-52	-9.8
3	Berridge	646	5.4	634	5.3	-12	-1.9

- Please note: The Alternative Claimant Count measure of unemployment has been created to attempt to solve problems caused by the gradual roll out of Universal Credit – which has a wider definition of unemployment than under Job Seekers Allowance. The alternative claimant count therefore contains three groups of claimants: current JSA claimants; current UC claimants in the 'searching for work' category and 'additional claimants' who would be classed as unemployed under UC but are not currently claiming UC.
- Unemployment decreased by 537 across the City between Feb 2018 and 2018, with 17 wards seeing decreases.
- The largest decrease was in Radford ward – with 90 fewer claimants.
- Just two wards saw increases, the largest of which was in Bulwell with 20 more claimants.
- Aspley ward has the highest unemployment rate at 7.5%, and Castle ward has the lowest, with 0.9% of the population aged 16-64 claiming - although rates in this ward are slightly skewed due to the large numbers of students.

OUT OF WORK BENEFITS

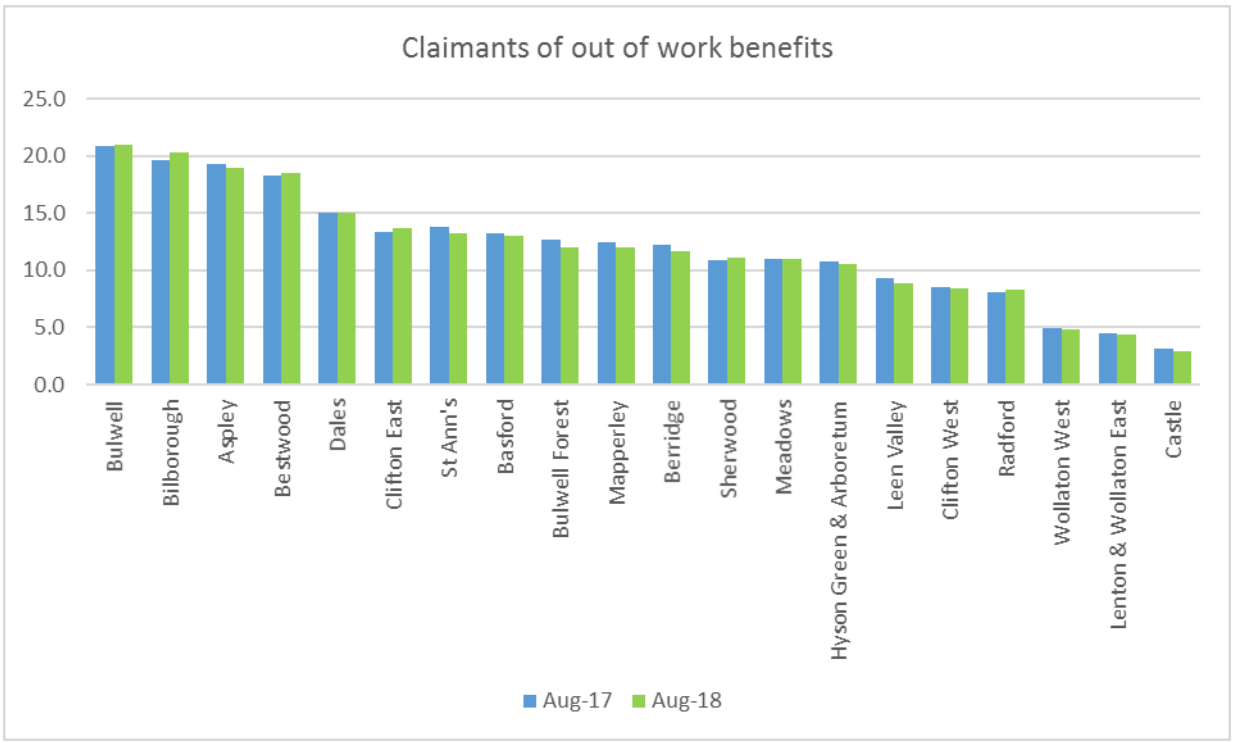

Number of people claiming out of work benefits and proportion of resident working age population

Out of work benefit claimants by Ward

		August 2017		August 2018		Change	
Key	Ward	Number	%	Number	%	Number	%
1	Aspley	2,196	19.3	2,158	18.9	-38	-1.7

- **Definition:** DWP have produced a new dataset which aggregates all DWP administered benefits and allows the total number of people claiming benefits in the City to be counted without any duplication of claimants who receive more than one DWP benefit. This replaces and improves upon the old working age client group dataset which was discontinued as it was unable to integrate newer benefits such as Universal Credit and Personal Independence Payments.
- The highest rate of out of work benefit claimants is in Bulwell ward – where 21% of the population aged 16-64 claims one of the above benefits.
- The lowest rates are in Castle, with a claimant rate of just 3%.
- The number of claimants decreased slightly across the City between August 2017 and 2018, and 13 City wards saw a decrease in number and rate of claimants. The greatest numerical decreases were in St Ann's ward with a reduction of 94 claimants.

INCAPACITY BENEFITS & EMPLOYMENT SUPPORT ALLOWANCE

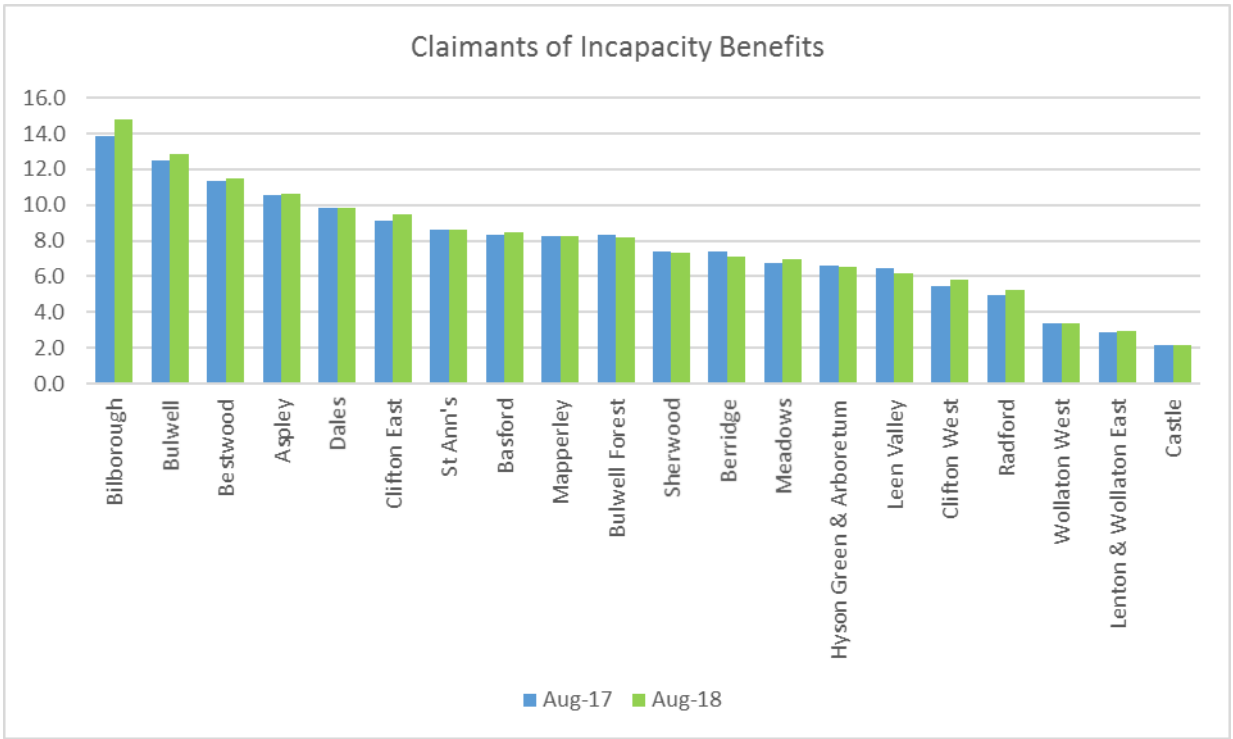

Number of people claiming Employment Support Allowance, Incapacity Benefit or Severe Disablement Allowance and proportion of resident working age population

IB, ESA and SDA Claimant Rate by Ward

		August 2017		August 2018		Change	
Key	Ward	Number	%	Number	%	Number	%
1	Aspley	1,205	10.6	1,210	10.6	5	0.4

- **Definition:** Sickness Benefits are paid to people who are incapable of work, due to ill health or disability, and who meet certain contribution conditions. Employment Support Allowance (ESA) replaced new claims for Incapacity Benefit (IB) from October 2008. The process of reassessing IB claimants began in April 2011. Data suggest that most claimants will transfer to ESA but some claimants will be found to be fit to work and will transfer to Universal Credit.
- The highest rate of claims is in Bilborough ward at 14.8% of the resident working age population and double the City average.
- The lowest rate remains in Castle (2.1%) and Lenton and Wollaton East (3.0%)
- 6 wards saw small fall in claimants in the last year, although numbers remained fairly static in all wards, with just one wards – Bilborough - seeing a significant increase of 96 people.

PREMATURE DEATHS FROM CANCER

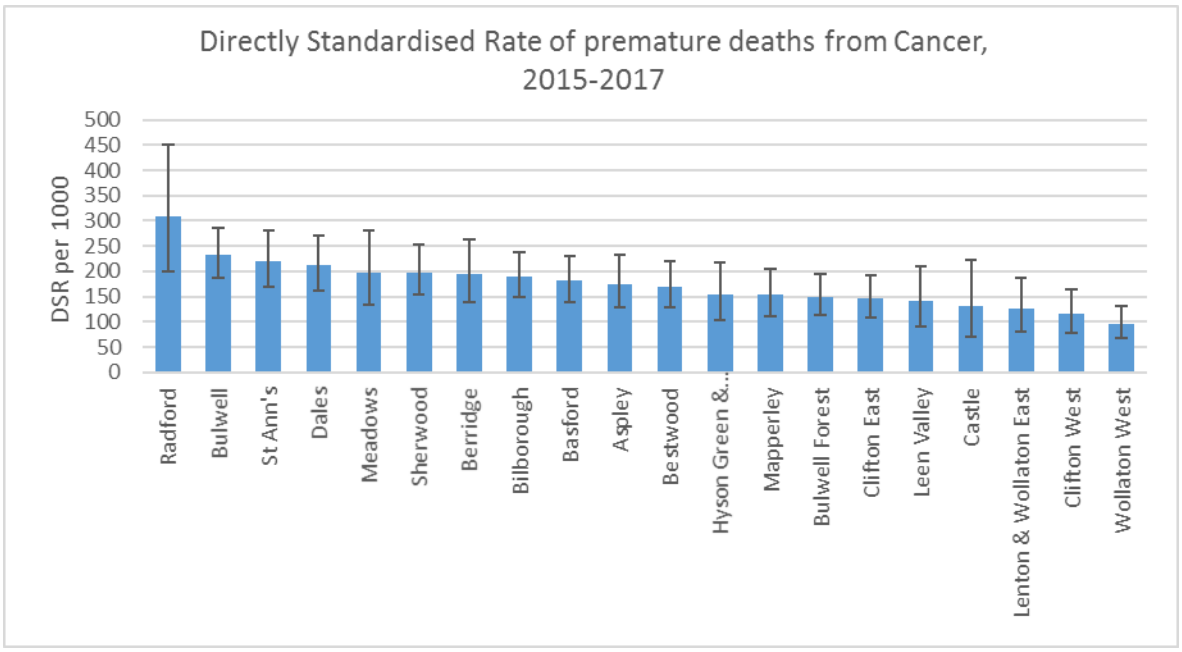

Directly Standardised Rate of Deaths of under-75 year olds from Cancer, per 100,000 population

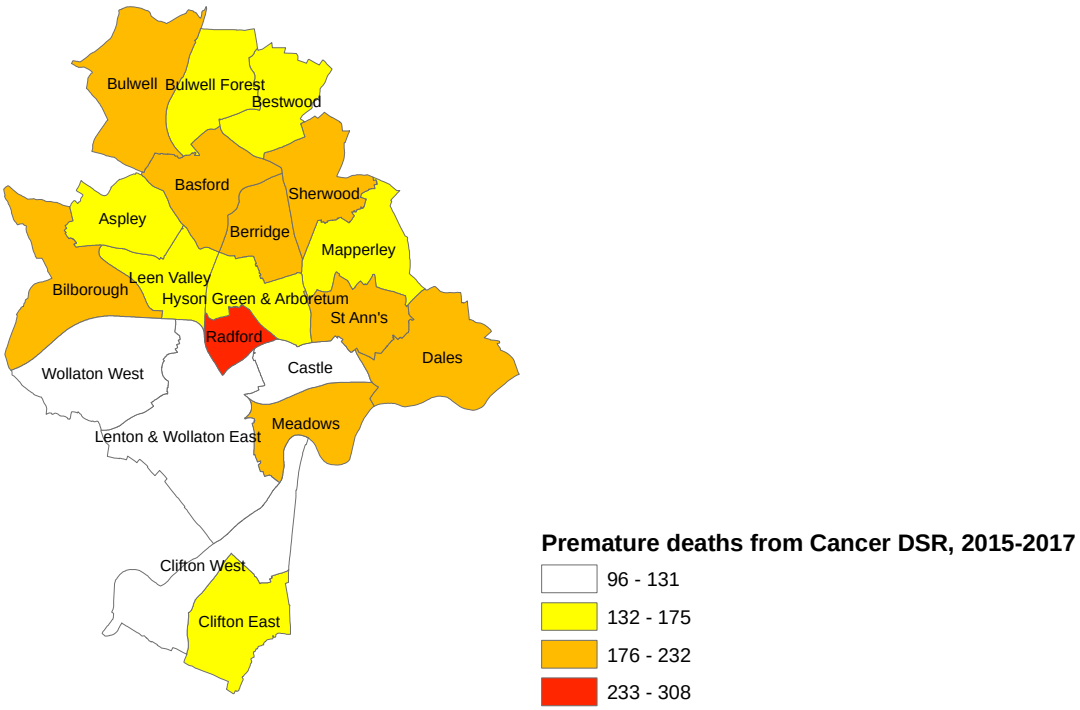

Directly Standardised Rate per 100,000 by Ward

		2015-2017			
Key	Ward	Directly Standardised Rate	LCL	UCL	No. of Events
1	Aspley	175	128	232	50
2	Basford	181	139	231	65
3	Berridge	195	140	263	46
4	Bestwood	170	129	221	58
5	Bilborough	190	149	238	76
6	Bulwell	232	186	286	88
7	Bulwell Forest	150	114	194	59
8	Castle	131	70	223	14
9	Clifton East	146	109	192	54
10	Clifton West	115	77	164	30
11	Dales	212	163	272	66
12	Hyson Green & Arboretum	153	104	217	35
13	Leen Valley	142	92	210	25
14	Lenton & Wollaton East	127	82	186	26

-	**Nottingham City**	**171**	**163**	**180**	**974**

Source: Nottingham City Public Health Team / Office for National Statistics

See over for caveats and definitions.

- **Definition:** Rates are Directly Standardised to the European Standard Population to allow for the differing age and sex structures in each area. In 2013, the European Standard Population which had been in use since 1975 was updated and thus rates published here are not comparable with those published previously.
- In addition, Ward Death Rates in the previous report were incorrect and should not be compared to those published here.
- The rates are based on three years of pooled data and are per 100,000 population.
- **Caveats:** Please note the upper confidence limit (UCL) and lower confidence limit (LCL) figures in the table, and indicated on the chart above by the error bars. These overlap for many of the wards meaning they are not significantly different to one another.
- The highest rate of premature deaths from Cancer is in Radford ward, at 308 per 100,000 population. The lowest rate is in Wollaton West, at 96 per 100,000.
- Due to the large confidence limits, many differences between wards are not statistically significant, but Wollaton West has a significantly lower rate than 9 other wards.

PREMATURE DEATHS FROM CIRCULATORY DISEASE

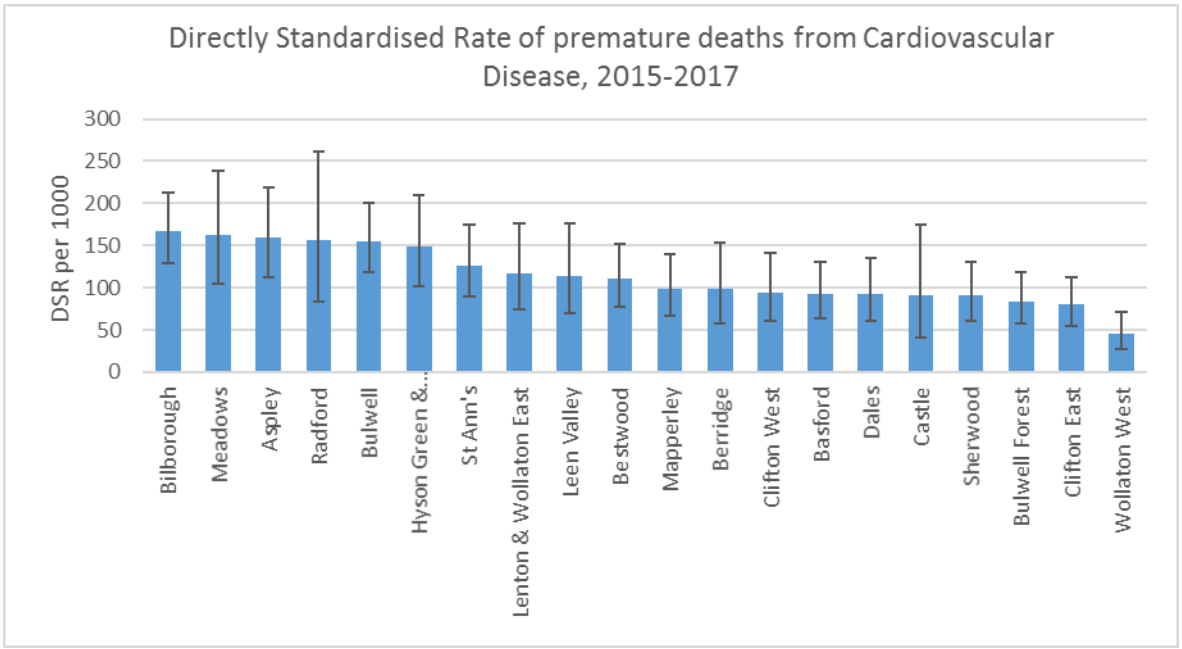

Directly Standardised Rate of Deaths of under-75 year olds from Circulatory Disease, per 100,000 population

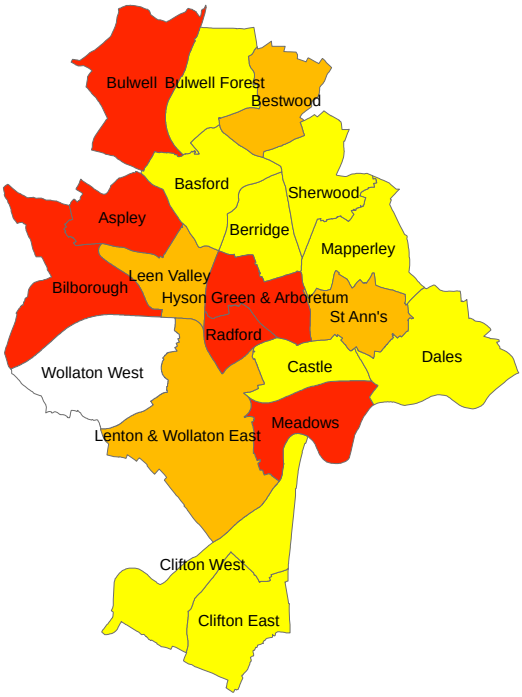

Directly Standardised Rate per 100,000 by Ward

		2015-2017

Source: Nottingham City Public Health Team / Office for National Statistics

- **Please note:** the y-axis on the graphs opposite do not start at 0. Please also note that the range on the maps above differs for Males and for Females.
- **Please note:** Some wards may have a higher rate than others but not be significantly different to England due to the large confidence intervals.
- For males and females, the highest life expectancy is in Wollaton West ward at 83.7 and 88.9 respectively.
- The lowest life expectancy at birth for males is in Bilborough and Hyson Green and Arboretum (both at 73.6) and for females it is in Bulwell (78.1).
- For males, the gap in life expectancy at birth between the highest and lowest is 10.1 years. For females this is slightly higher, at 10.8 years.

DWELLING BURGLARY

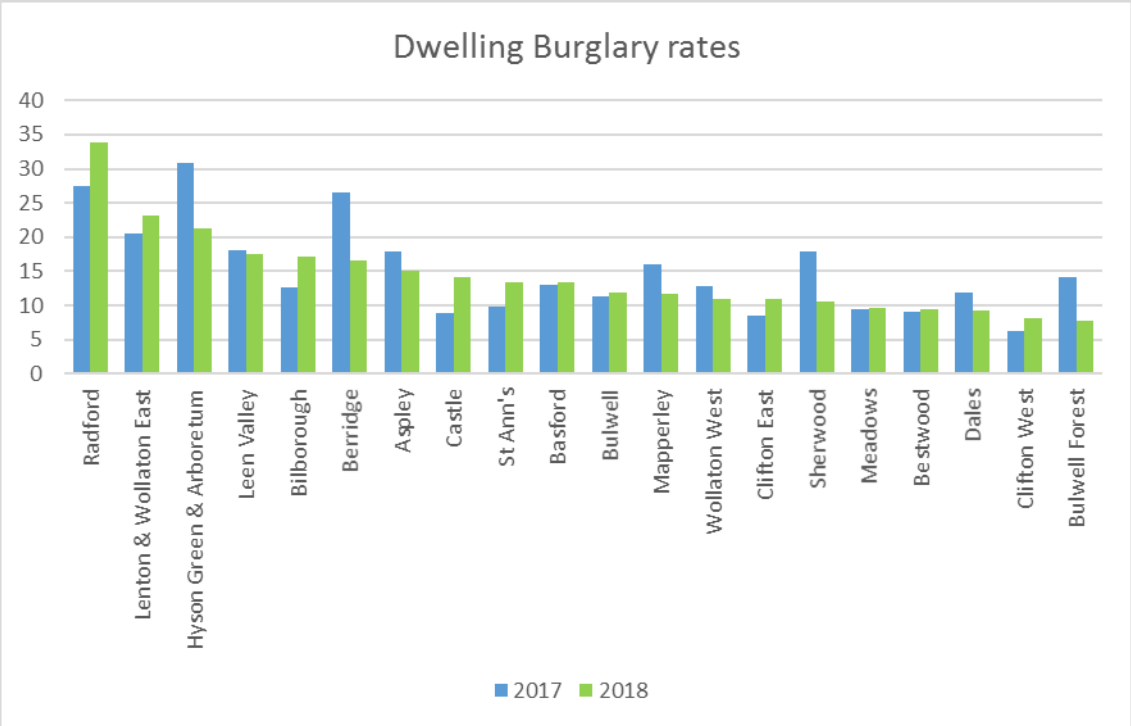

Recorded burglaries of a dwelling per 1,000 households

Dwelling Burglaries by Ward

- **Definition**: A person is guilty of a dwelling burglary (domestic burglary) if they enter any part of a dwelling (fit for habitation) as a trespasser and steal or attempt to steal anything in the building or attempt to inflict any grievous bodily harm on any person in the building (or intend to carry out any of these acts).
- **Please note:** From April 2017 incidents recorded previously as Burglary Dwellings became Burglary – Residential and included offences within the residential boundary such as in sheds, garages and outbuildings, which had previously been recorded as Burglary Other.
- The highest rate of dwelling burglary is in Radford, at 33.8 per 1,000 households.
- The lowest rate is in Bulwell Forest ward, with just 7.7 per 1,000 households.
- 11 wards saw an increase in the number of dwelling burglaries over the previous year, although there was an overall decrease of 145 incidents across the City.
- The largest increase was in Radford with 34 more incidents. The largest decrease was in Hyson Green & Arboretum ward – with 81 fewer burglaries.

- **Definition**: Violent crime covers a number of offences where physical or verbal assault has taken place on an individual (this includes threats of violence). Offence types range from harassment, to assault, to grievous bodily harm and murder, but the number of serious offences tend to be relatively small. Sexual Offences are also included in this category. Violent crime includes Domestic Violence, which is defined by the Home Office as any violence between current and former partners in an intimate relationship, wherever the violence occurs. **Please note:** The figures are based on location of the crime, not residence of the offender or victim.
- The highest rate of violent crime is in Castle ward, at 123 incidents per 1,000 population. Note that Castle ward contains much of the City Centre area.
- The lowest rate is in Wollaton West, at 11.8 per 1,000 population.
- All wards saw an increase in incidents between 2017 and 2018, with the largest seen in St Ann's ward – with 184 more incidents and Bulwell with 171 more incidents.

- **Definition:** Theft **from** a vehicle is where the intent is to steal from a vehicle rather than drive it away. Theft **of** a motor vehicle is committed if, without having the consent of the owner or other lawful authority, the perpetrator takes any vehicle for his own or another's use. This category includes other vehicles such as motorcycles and mopeds.
- **Please note:** Figures are for the location of the theft and not the residence of the offender or victim.
- The highest rates of vehicle crime are in Castle ward, with a rate of 26.4 per 1,000 population, and an increase of 144 incidents. The lowest rate is in Wollaton West, with 5.1 per 1,000.
- Across the City the number of vehicle crimes increased by 376 incidents between 2017 and 2018 and only seven wards experienced reductions in the number vehicle offences across the period. The largest of these was in Hyson Green and Arboretum with over 100 fewer incidents.

TRAFFIC CASUALTIES

- **Definition**: Figures are for the location where an accident involving someone being killed or seriously injured, took place, not the address of the person involved.
- **Please note:** Due to the small numbers involved, percentage changes can look very large and care should be taken in interpreting the data.
- The highest number of casualties during 2018 were in Castle ward– which encompasses the City Centre area. The lowest number was in Clifton West ward.
- The number of people killed or seriously injured in traffic accidents has remained relatively static across the City between 2017 and 2018 with the largest numerical decrease being in Sherwood ward - reducing by 6.

SOCIAL SERVICES FOR OLDER PEOPLE

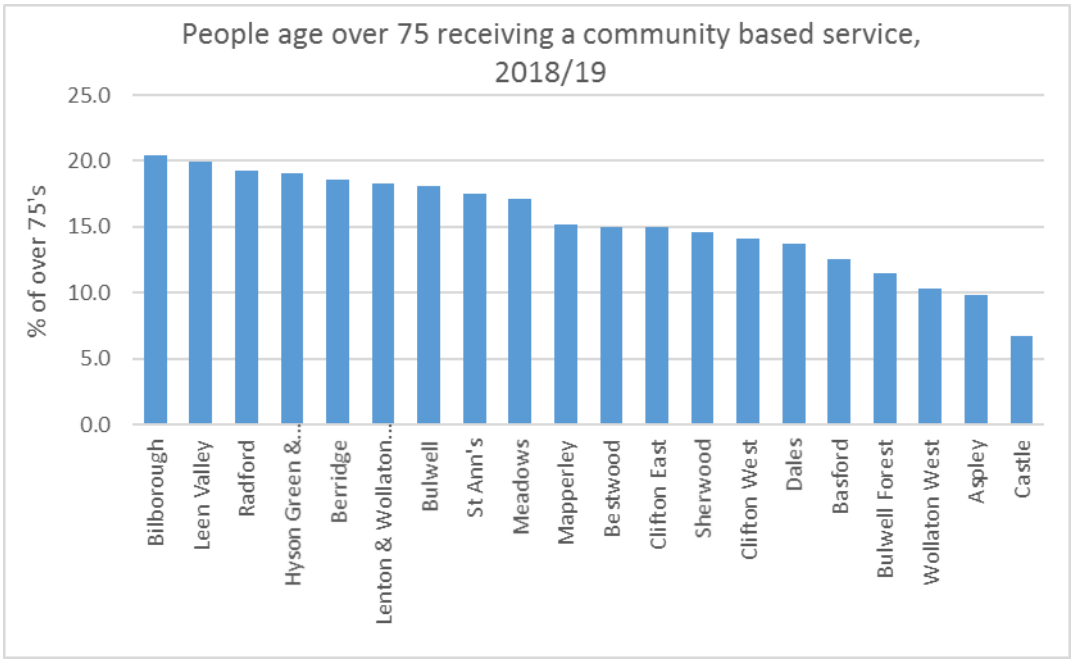

Number of people aged 75 and over who received a Community Based Social Service to enable them to live independently in their own home, plus rate per population aged 75 and over.

Social Services for Older People by Ward, 2018/19

Source: Nottingham City Council Children and Families

- **Definition**: People aged 75 and over who received any Community Based Social Service during the year April 2017-March 2018. The number does not include long term residential or nursing care, although short term care in a residential or nursing home does count as a Community Based Service.
- **Please note**: The location is the client's address at the end of the year. Some individuals may have moved address during this year and may no longer live at the address where the service was accessed.
- The highest rate of older people receiving a service is in Bilborough ward where 20.5% of over 75's received a service, although the total numbers in the ward are low.
- Bilborough also has the highest number of older people receiving a service – at 257. This is 35 people more than the second highest ward, Clifton East, despite Bilborough having a smaller number of over 75s.

Definitions and sources

Greater Nottingham is the Greater Nottingham Partnership area (Nottingham City, Broxtowe, Gedling and Rushcliffe Borough, and the Hucknall wards of Ashfield District).

Population: Office for National Statistics (ONS) Mid Year Estimates for 2006 (revised 2013) and 2016 (unrevised for wards (not yet released), and revised in 2018 for Local Authorities and higher). Greater Nottingham is the 2016 revised estimates for districts plus the 2016 unrevised ward level estimates for Hucknall.

Sex: From the Office for National Statistics (ONS) Mid Year Estimates, 2014

Some of the figures do not total correctly due to rounding.

Area 7	25	45	1	38	5	32	6

Indices of Deprivation 2015: (Department for Communities and Local Government) The Indices of Deprivation measure the different types of deprivation experienced by individuals living in an area. Scores and Ranks are published for Super Output Areas but not for wards. The ward ranks above have been estimated by taking an average of the population weighted SOA scores for each City ward. These are unofficial. The City Ranks are out of 20. The SOA column gives the number in the worst 10% of SOAs in England and the total SOAs in the area.

CONTEXTUAL TABLE 5 - Students and Households

Ward	Students (2011 Census)			Households		
				Total (2018)	Student (2018)	
	No.	% of total population	% of 16 to 64	No.	No.	%

Students: Source: 2011 Census. School children and full time students aged 18 and above. These figures are not comparable with figures previously published in ward reports, as they will include some students attending colleges and sixth forms as well as University students.

Households: Total households are estimates using Council Tax information, so are not comparable with figures published in previous Ward Reports. Student households are from November 2018 Council Tax exemption records with adjustments made to include an estimate of student "households" in halls of residence and purpose built student properties.
