Assessment against Local Criteria

1. Age: potentially pre-1840
2. Wollaton Estate Building incorporated into the grade II Listed Park Wall
3. Cottage-style outside the Park and potentially Georgian elements inside the Park

Reason for Designation

As a potential remnant of the Wollaton Estate possibly dating from the late Georgian period.

Description

Brick house built into Wollaton Park Wall - likely to be a park worker's cottage and might be of some age - it certainly predates the first edition 1875 OS map. Brick built and part-rendered. Some decorative features (door case and blind arcade) to the park side. Also good symmetry suggesting Georgian provenance. Timber framing and staircase evident inside and a late Georgian fireplace supporting a Georgian date.
