WARD REPORT 2019

INTRODUCTION

This is the thirteenth annual One Nottingham Ward Report, and the second to provide data for the new wards of Nottingham, which were implemented following the local elections in May 2019.

The report includes contextual data on Demographics – including age, sex, ethnicity and deprivation, plus data for a number of indicators, covering the themes of Worklessness; Health; Crime and Liveability. The report will be updated with Educational and other Liveability data when available.

The report provides data at a Ward and Area Committee level.

Data have been provided by a number of Agencies and Partners, including: Department for Work and Pensions, Public Health and Nottinghamshire Police.

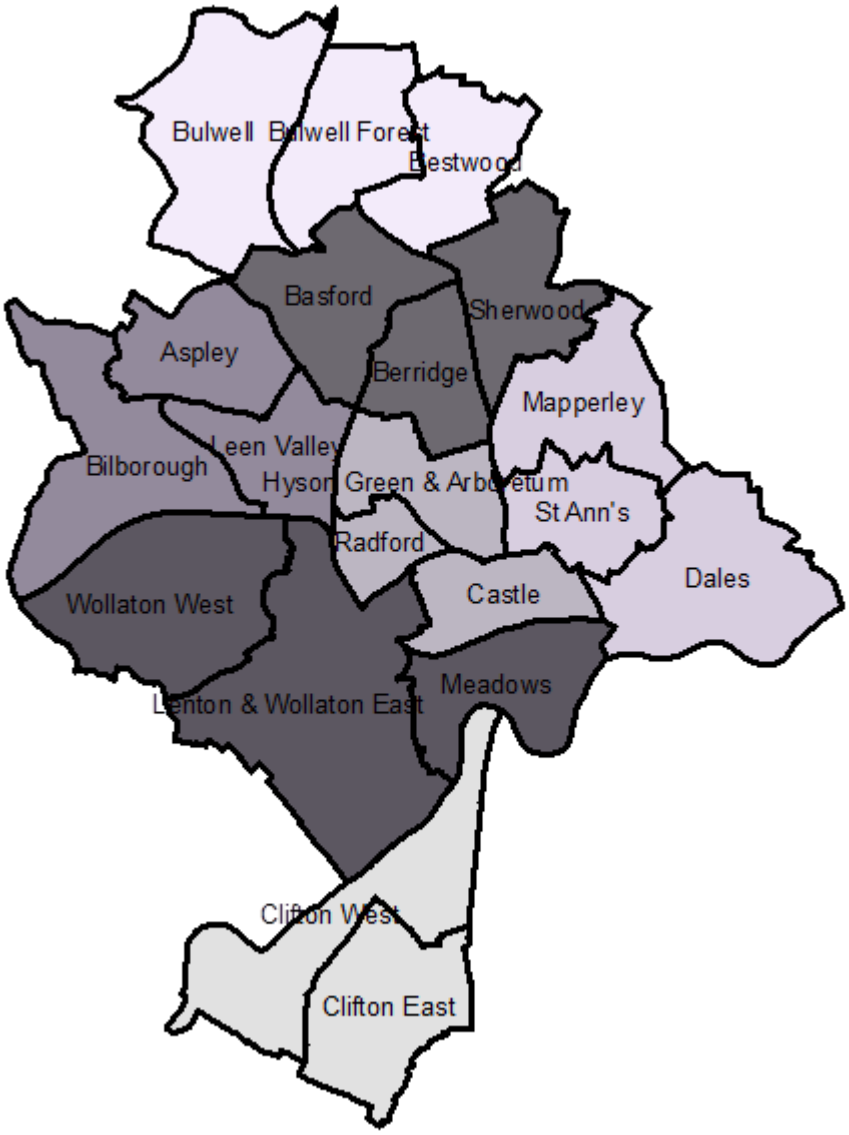

The contextual tables include data from the Office for National Statistics and the Department for Communities and Local Government and much is subject to Crown Copyright. Please quote the source when using the data.

Other data and analysis are available on the Nottingham Insight website (www.nottinghaminsight.org.uk), which also includes further contextual data from the 2011 Census, the 2019 Indices of Deprivation, plus Ward Reports from the past few years.

If you would like any further information about this report, please contact Nicola Kirk in the Policy and Research team in the City Council, on (0115) 876 3979, or by e-mail, at: nicola.kirk@nottinghamcity.gov.uk

The table and map below show which of the new City wards make up each Area Committee. Throughout the report, Area Committees are listed with their number for ease.

Area	Wards
1	Aspley; Bilborough; Leen Valley
2	Basford; Berridge; Sherwood
3	Bestwood; Bulwell; Bulwell Forest
4	Castle; Hyson Green and Arboretum; Radford
5	Clifton East; Clifton West
6	Dales; St Ann's; Mapperley
7	Lenton and Wollaton East; Meadows; Wollaton West

CLAIMANT COUNT

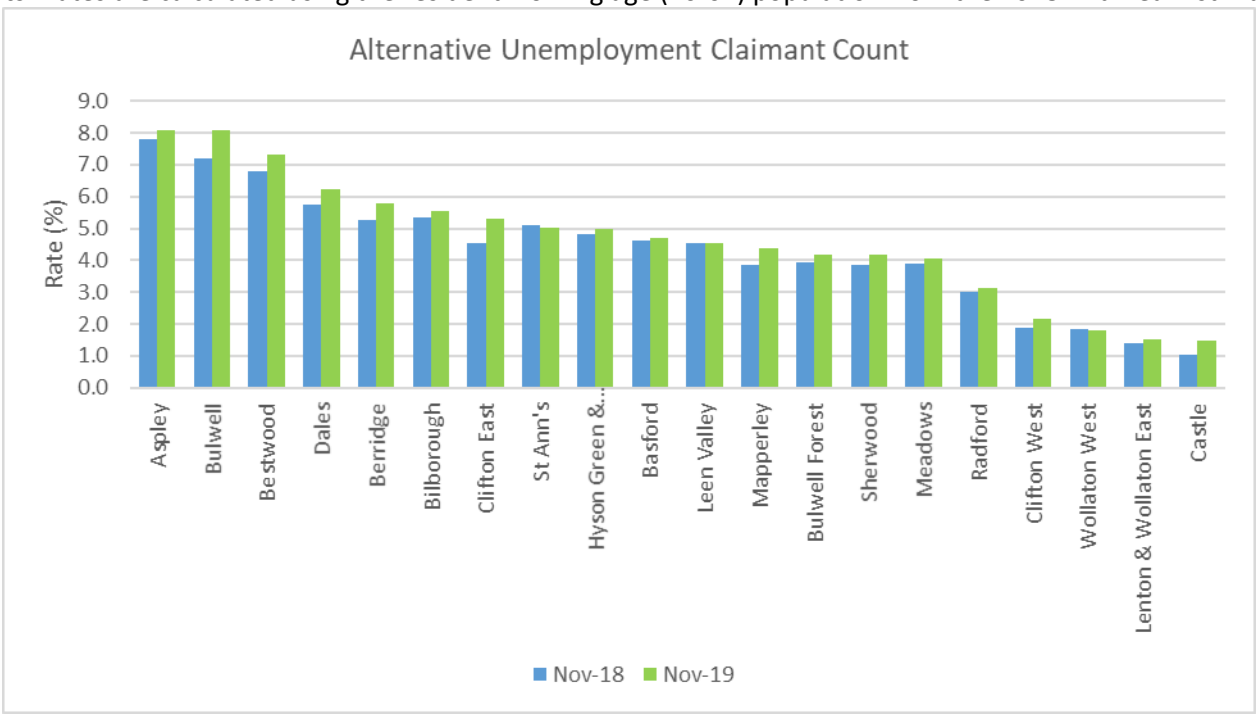

Number of people claiming Job Seekers Allowance or Universal Credit claimants looking for employment, and proportion of resident working age population

Alternative Claimant Count by Ward

	November 2018		November 2019		Change	
Ward	**Number**	**%**	**Number**	**%**	**Number**	**%**
Aspley	884	7.8	917	8.1	33	3.7
Basford	505	4.6	516	4.7	11	2.2
Berridge	620	5.3	681	5.8	61	9.8

- Please note: The Alternative Claimant Count measure of unemployment has been created to attempt to solve problems caused by the gradual roll out of Universal Credit – which has a wider definition of unemployment than under Job Seekers Allowance. The alternative claimant count therefore contains three groups of claimants: current JSA claimants; current UC claimants in the 'searching for work' category; and 'additional claimants' who would be classed as unemployed under UC but are not currently claiming UC.
- Unemployment increased by 645 across the City between Nov 2018 and 2019, with 17 wards seeing increases.
- The largest increase was in Bulwell ward – with 86 more claimants.
- Just two wards saw decreases, the largest of which was in St Ann's with 16 fewer claimants.
- Aspley and Bulwell wards have the highest unemployment rate at 8.1%, and Castle ward has the lowest, with 1.5% of the population aged 16-64 claiming - although rates in this ward are slightly skewed due to the large numbers of students.

OUT OF WORK BENEFITS

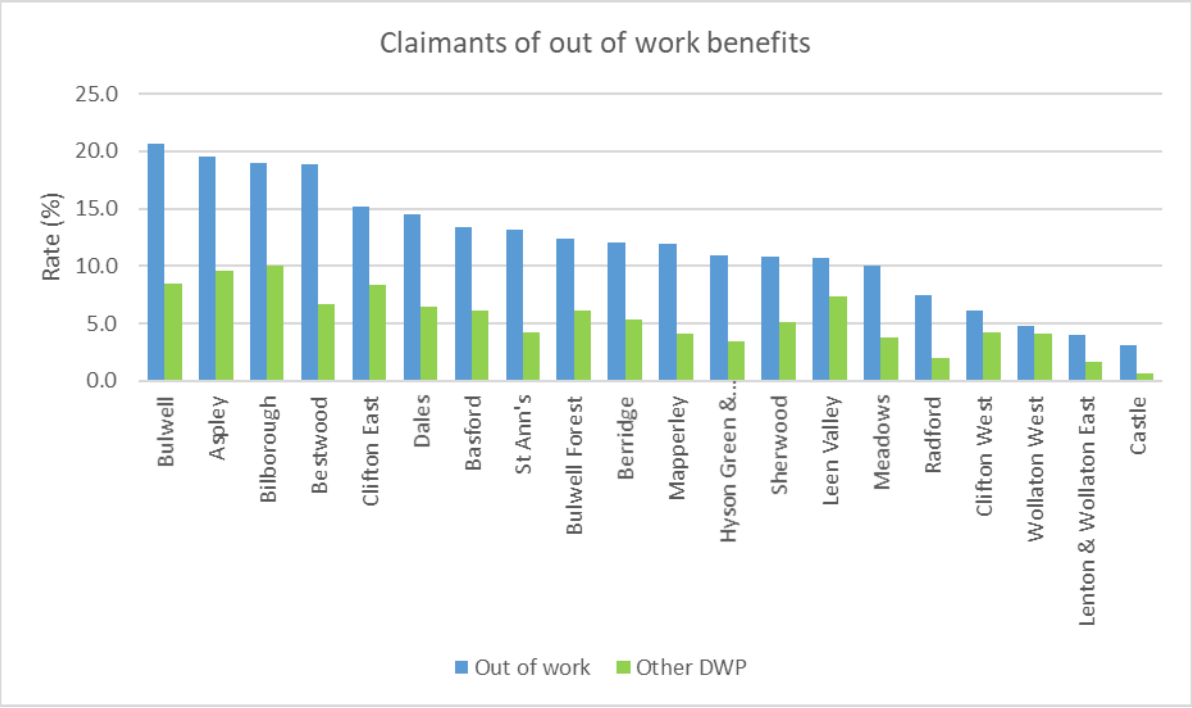

Number of people claiming out of work benefits and proportion of resident working age population

Out of work benefit claimants by Ward

		Out of work		Other DWP		Total	
Key	**Ward**	**Number**	**%**	**Number**	**%**	**Number**	**%**

- **Definition:** DWP have produced a new dataset which aggregates all DWP administered benefits and allows the total number of people claiming benefits in the City to be counted without any duplication of claimants who receive more than one DWP benefit. This replaces and improves upon the old working age client group dataset that was discontinued, as it was unable to integrate newer benefits such as Universal Credit and Personal Independence Payments.
- The highest rate of out of work benefit claimants is in Bulwell ward – where 29.2% of the population aged 16-64 claims one of the above benefits.
- The lowest rates are in Castle, with a claimant rate of just 3.7%.

INCAPACITY BENEFITS & EMPLOYMENT SUPPORT ALLOWANCE

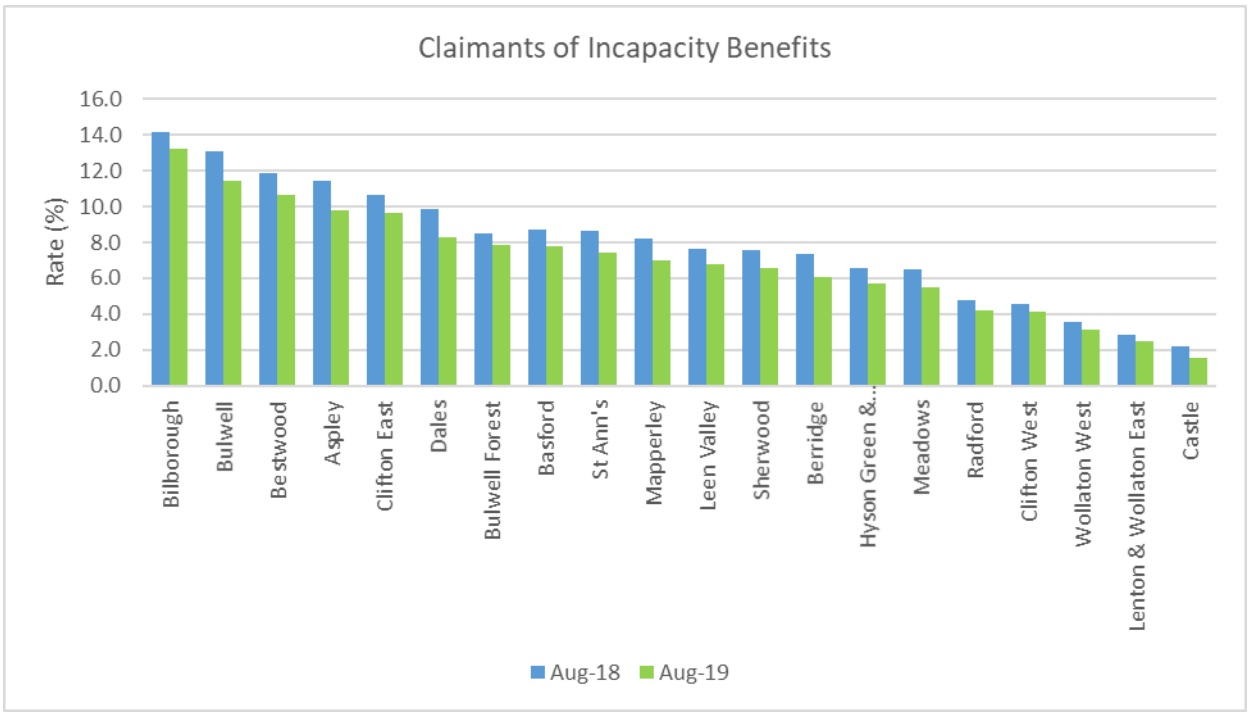

Number of people claiming Employment Support Allowance, Incapacity Benefit or Severe Disablement Allowance and proportion of resident working age population

IB, ESA and SDA Claimant Rate by Ward

		August 2018		August 2019		Change

Source: DWP Information Directorate (from StatXplore)

- **Definition:** Sickness Benefits are paid to people who are incapable of work, due to ill health or disability, and who meet certain contribution conditions. Employment Support Allowance (ESA) replaced new claims for Incapacity Benefit (IB) from October 2008 and the process of reassessing IB claimants began in April 2011. Data suggest that most claimants will transfer to ESA but some claimants will be found to be fit to work and will transfer to Universal Credit.
- Because of the changes in the Benefits System due to Universal Credit all wards saw falls in claimants in the last year, and the number across the City fell by over 2,200.
- The highest rate of claims is in Bilborough ward at 13.3% of the resident working age population and double the City average.
- The lowest rate remains in Castle (1.5%) and Lenton and Wollaton East (2.5%)

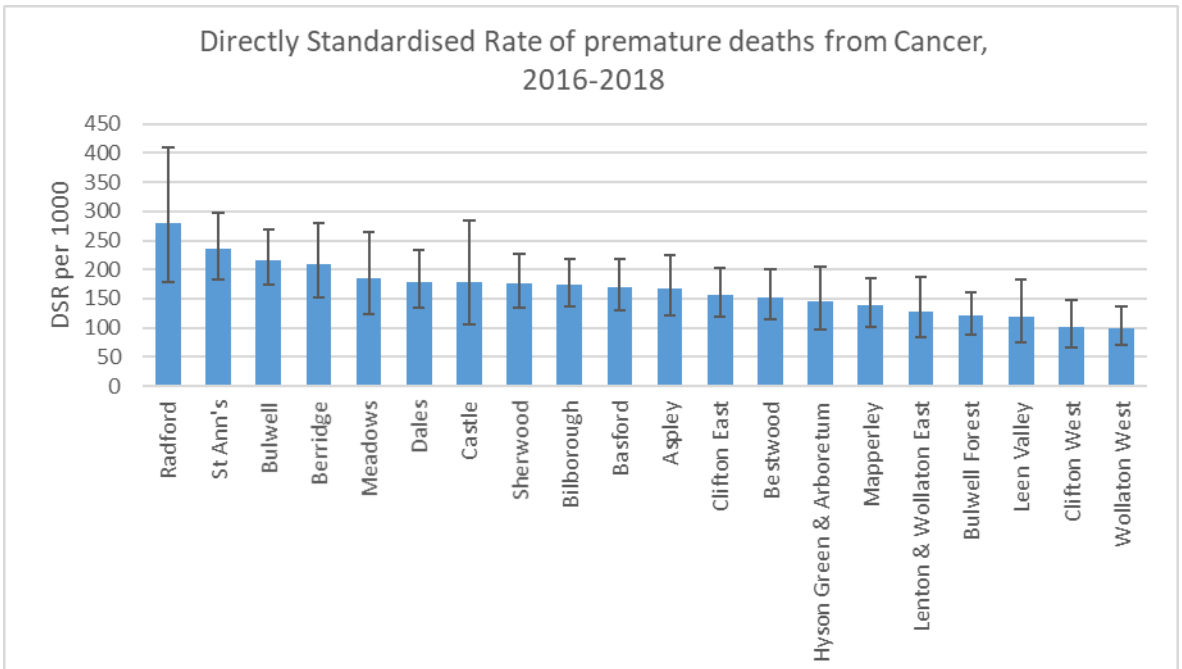

PREMATURE DEATHS FROM CANCER

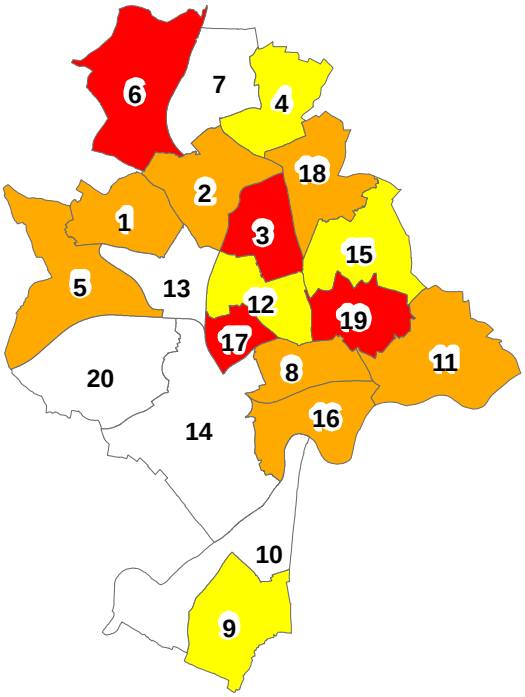

Directly Standardised Rate of Deaths of under-75 year olds from Cancer, per 100,000 population

Directly Standardised Rate per 100,000 by Ward

		2016-2018			
Key	Ward	Directly Standardised Rate	LCL	UCL	No. of Events

See over for caveats and definitions.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Premature Mortality from Cancer, 2016-18

- 100.0 - 128.0
- 128.1 - 156.0
- 156.1 - 185.0
- 185.1 - 279.0

- **Definition:** Rates are Directly Standardised to the European Standard Population to allow for the differing age and sex structures in each area. In 2013, the European Standard Population that had been in use since 1975 was updated and thus rates published here are not comparable with those published previously.
- The rates are based on three years of pooled data and are per 100,000 population.
- **Caveats:** Please note the upper confidence limit (UCL) and lower confidence limit (LCL) figures in the table, and indicated on the chart above by the error bars. These overlap for many of the wards meaning they are not significantly different to one another.
- The highest rate of premature deaths from Cancer is in Radford ward, at 279 per 100,000 population. The lowest rate is in Wollaton West, at 100 per 100,000.
- Due to the large confidence limits, many differences between wards are not statistically significant, but Wollaton West has a significantly lower rate than five other wards.

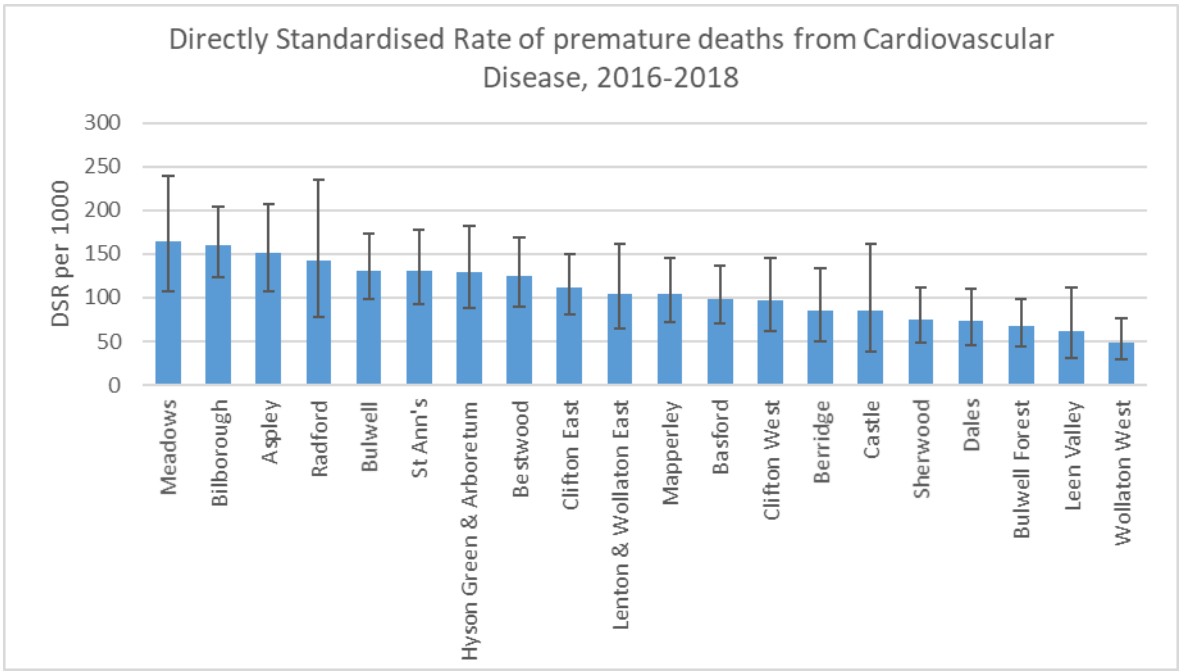

PREMATURE DEATHS FROM CIRCULATORY DISEASE

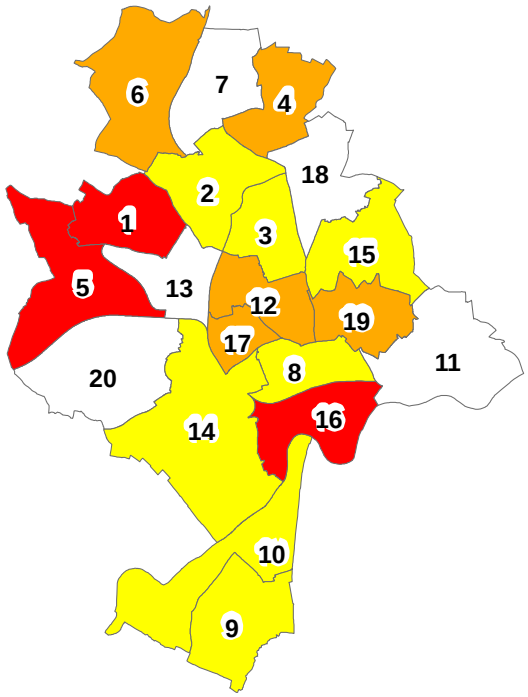

Directly Standardised Rate of Deaths of under-75 year olds from Circulatory Disease, per 100,000 population

Directly Standardised Rate per 100,000 by Ward

		2016-2018			
Key	Ward	Directly Standardised Rate	LCL	UCL	No. of Events

Source: Nottingham City Public Health Team / Office for National Statistics

Life Expectancy at Birth, Males

- Under 75.0
- 75.1 - 80.0
- 80.1 - 85.0
- Over 85

Life Expectancy at Birth, Females

- Under 75.0
- 75.1 - 80.0
- 80.1 - 85.0
- Over 85

- **Please note:** the y-axis on the graphs opposite do not start at zero. Please also note that the range on the maps has been manually amended to show the same categories.
- **Please note:** Some wards may have a higher rate than others, but not be significantly different due to the large confidence intervals.
- For males and females, the highest life expectancy is in Castle ward at 84.7 and 88.9 respectively.
- The lowest life expectancy at birth for males is in Meadows at 72.2 and for females it is in Bulwell at 76.3.
- For males, the gap in life expectancy at birth between the highest and lowest is 12.5 years. For females, this is slightly higher, at 12.6 years.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

DWELLING BURGLARY

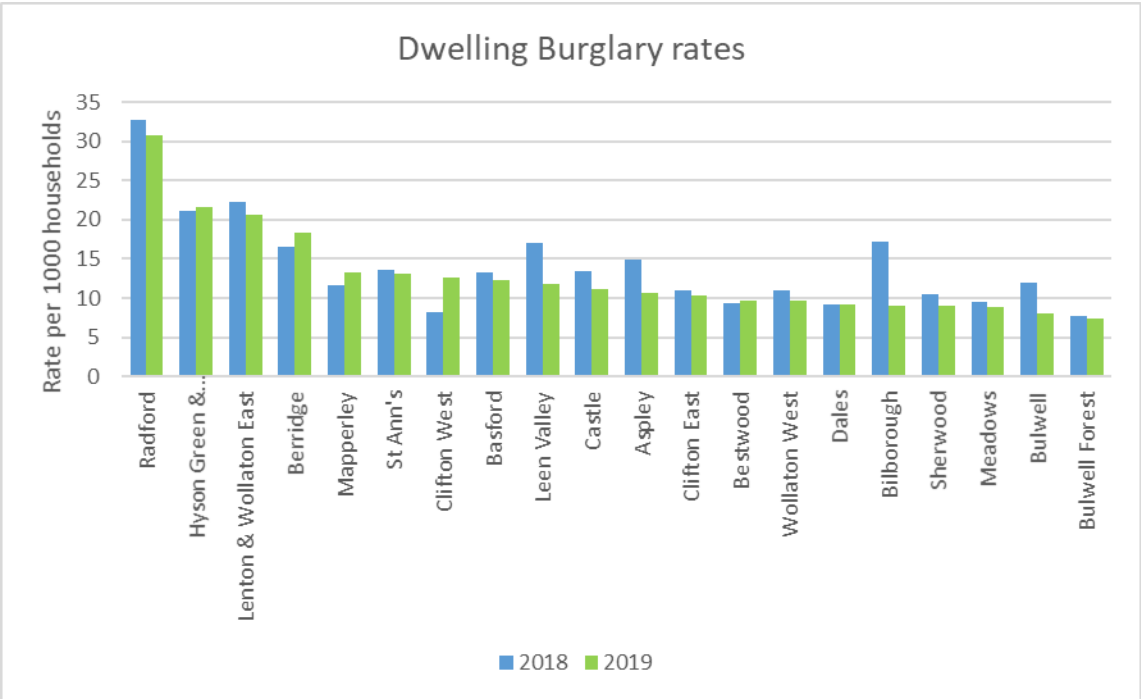

Recorded burglaries of a dwelling per 1,000 households

- **Definition**: A person is guilty of a dwelling burglary (domestic burglary) if they enter any part of a dwelling (fit for habitation) as a trespasser and steal or attempt to steal anything in the building or attempt to inflict any grievous bodily harm on any person in the building (or intend to carry out any of these acts).
- **Please note:** From April 2017 incidents recorded previously as Burglary Dwellings became Burglary – Residential and included offences within the residential boundary such as in sheds, garages and outbuildings, which had previously been recorded as Burglary Other.
- The highest rate of dwelling burglary is in Radford, at 30.8 per 1,000 households.
- The lowest rate is in Bulwell Forest ward, with just 7.4 per 1,000 households.
- Five wards saw an increase in the number of dwelling burglaries over the previous year, although there was an overall decrease of 161 incidents across the City.
- The largest increase was in Clifton West with 21 more incidents. The largest decrease was in Bilborough ward – with 60 fewer burglaries, a fall of almost half.

- **Definition**: Violent crime covers a number of offences where physical or verbal assault has taken place on an individual (this includes threats of violence). Offence types range from harassment, to assault, to grievous bodily harm and murder, but the number of serious offences tend to be relatively small. Sexual Offences are also included in this category. Violent crime includes Domestic Violence, which is defined by the Home Office as any violence between current and former partners in an intimate relationship, wherever the violence occurs.
- **Please note:** The figures are based on location of the crime, not residence of the offender or victim.
- The highest rate of violent crime is in Castle ward, at 113.7 incidents per 1,000 population. Note that Castle ward contains much of the City Centre area.
- The lowest rate is in Wollaton West, at 11.6 per 1,000 population.
- Thirteen wards saw an increase in incidents between 2018 and 2019, with the largest seen in Dales ward – with 106 more incidents.

VEHICLE CRIME

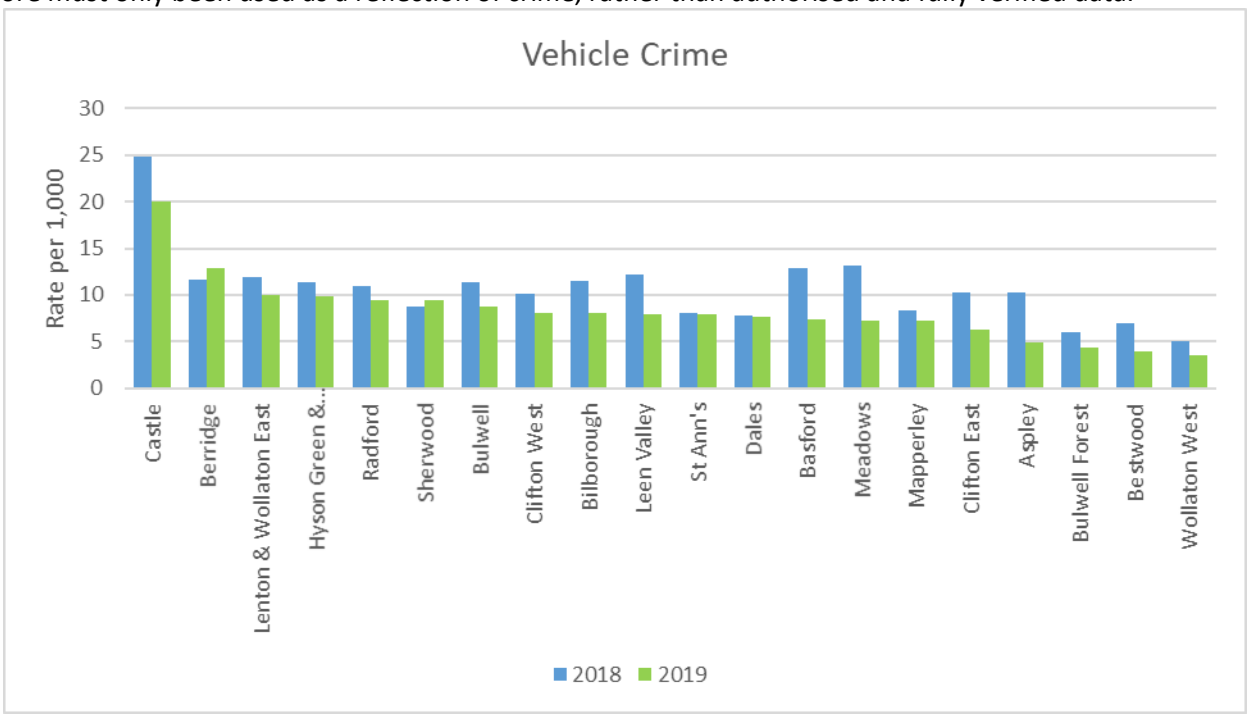

Recorded thefts of and thefts from a vehicle per 1,000 population

- **Definition:** Theft **from** a vehicle is where the intent is to steal from a vehicle rather than drive it away. Theft **of** a motor vehicle is committed if, without having the consent of the owner or other lawful authority, the perpetrator takes any vehicle for his own or another's use. This category includes other vehicles such as motorcycles and mopeds.
- **Please note:** Figures are for the location of the theft and not the residence of the offender or victim.
- The highest rates of vehicle crime are in Castle ward, with a rate of 20.1 per 1,000 population. The lowest rate is in Wollaton West, with 3.5 per 1,000.
- Across the City the number of vehicle crimes decreased by 754 incidents between 2018 and 2019 and only two wards experienced increases in the number vehicle offences across the period – Berridge (+19 incidents) and Sherwood (+10 incidents). The largest falls were in Aspley ward and Basford ward with 104 and 92 fewer incidents respectively.

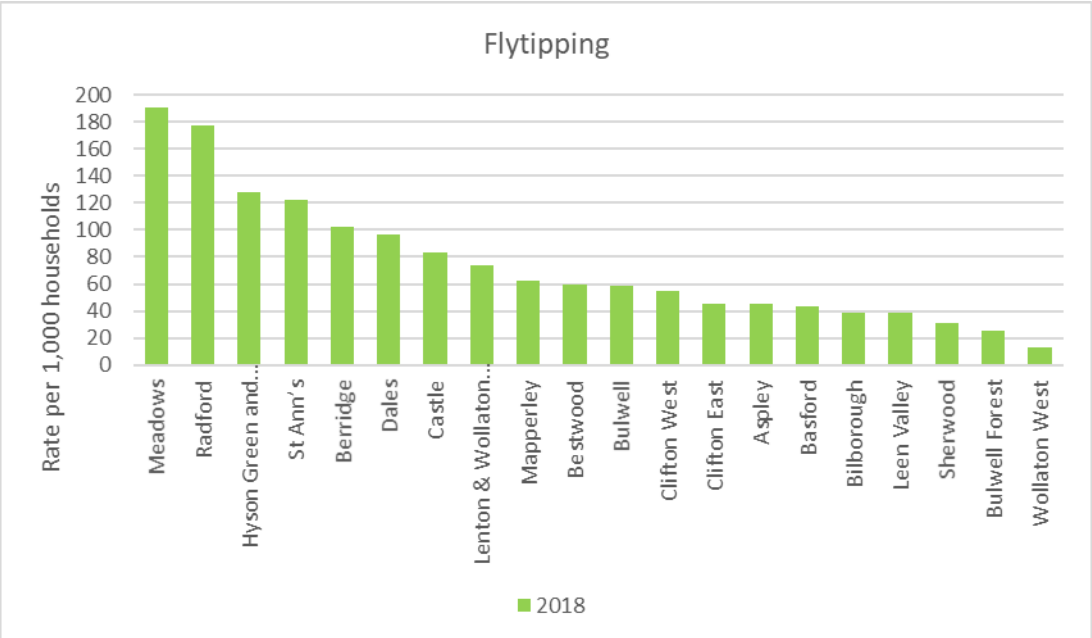

FLY TIPPING

Number of incidences of fly tipping reported per 1,000 households

Fly tipping by Ward

		2019

Area 7	1,519	83.2
Nottingham	**10,049**	**73.8**

Source: Nottingham City Council Street Scene

- The highest number of recorded fly tips was in Meadows ward, with 882. Meadows also had the highest rate at 190.3 per 1,000 households.
- The lowest rate of fly tips were seen in Bulwell Forest and Wollaton West, with 25.1 and 13.4 incidents per 1,000 households.

NEIGHBOURHOOD SATISFACTION

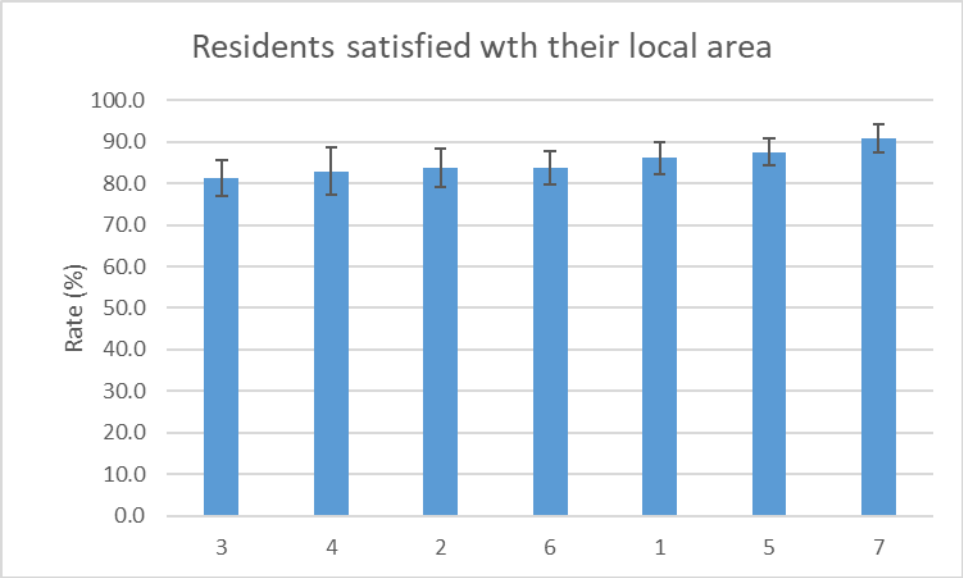

Proportion of residents who are satisfied with their local neighbourhood

Neighbourhood satisfaction by Area

Area	Total	% Satisfied	% Dissatisfied
Area 1	247	86.1	6.0
Area 2	296	83.7	7.3
Area 3	273	81.2	9.3
Area 4	366	82.9	9.4
Area 5	169	87.6	4.9
Area 6	342	83.7	6.2
Area 7	312	90.8	3.7
Nottingham	**2006**	**84.9**	**6.8**

Source: Nottingham Citizens Survey 2019

Caveats: Rates are based on survey data and as such are subject to error. Please note that confidence limits therefore apply to data (95% confidence limits approx. +/- 5%) – as shown by the error bars on the graph below.

- The highest levels of satisfaction are in Area 7 (Lenton and Wollaton East; Meadows and Wollaton West) where over 90% of respondents replied that they were either Very or Fairly Satisfied with their area as a place to live.
- The lowest level of satisfaction was in Area 3 (Bestwood, Bulwell and Bulwell Forest wards) where only 81.2% of people were Very or Fairly Satisfied.

ABILITY TO INFLUENCE DECISIONS

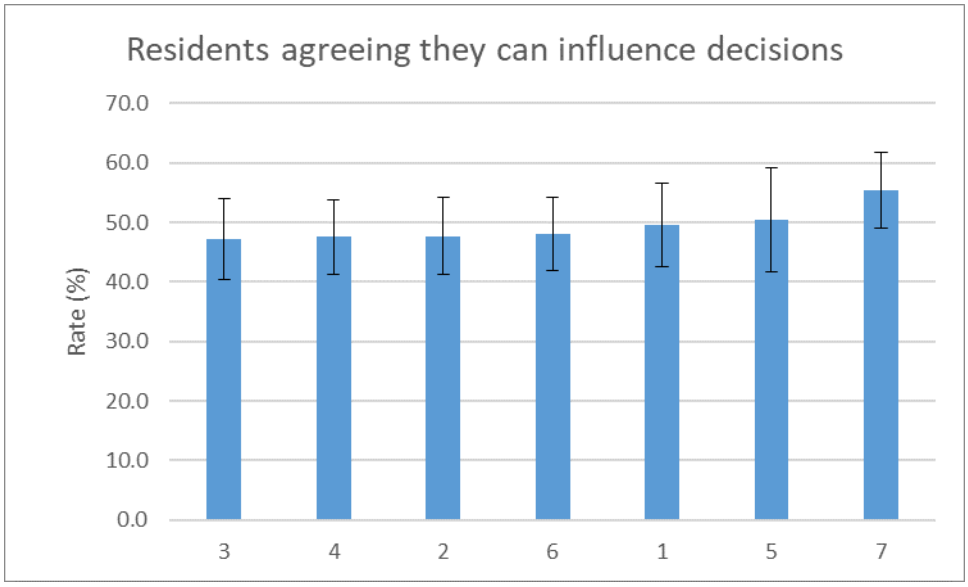

Proportion of residents who feel they are able to personally influence decisions relating to their neighbourhood

Agreement by Area

Area	Total	% Agree	% Disagree
Area 1	197	49.5	50.5
Area 2	229	47.6	52.4
Area 3	209	47.1	52.9
Area 4	241	47.5	52.5
Area 5	124	50.5	49.5
Area 6	249	48.1	51.9
Area 7	232	55.3	44.7
Nottingham	**1481**	**49.3**	**50.7**

Source: Nottingham Citizens Survey 2019

Caveats: Rates are based on survey data and as such are subject to error. Please note that confidence limits therefore apply to data (95% confidence limits up to +/- 8%) – as shown by the error bars on the graph below.

- In two Area Committee areas, at least 50% of the population agree that they can influence decisions which affect their local area. The highest is Area 7 (Lenton and Wollaton East; Meadows and Wollaton West) where 55.3% of the residents agree.
- The lowest rate is in Area 3 (Bestwood, Bulwell and Bulwell Forest wards) where 47.1% of people agree.

NEIGHBOURHOOD COHESION

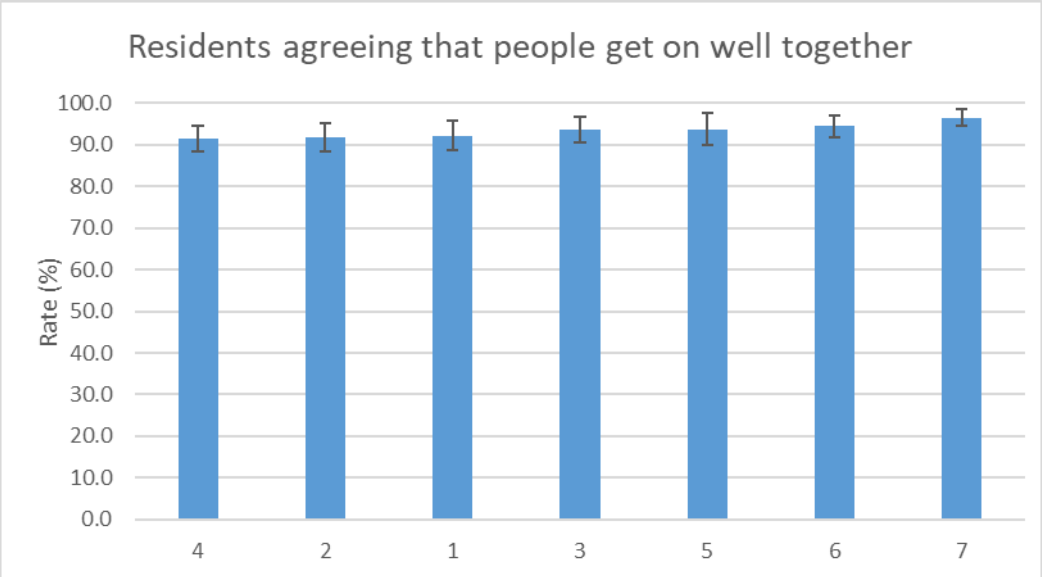

Proportion of residents who feel their neighbourhood is a place where people from different backgrounds get on well together

Agreement by Area

Area	Total	% Agree	% Disagree
Area 1	230	92.2	7.8
Area 2	270	91.7	8.3
Area 3	249	93.7	6.3
Area 4	323	91.5	8.5
Area 5	157	93.8	6.2
Area 6	319	94.4	5.6
Area 7	299	96.5	3.5
Nottingham	**1,847**	**93.4**	**6.6**

Source: Nottingham Citizens Survey 2019

Caveats: Rates are based on survey data and as such are subject to error. Please note that confidence limits therefore apply to data (95% confidence limits approx. +/- 4%) – as shown by the error bars on the graph below.

- Although all areas report high levels of agreement that people from different backgrounds get on well in their area, Area 7 (Lenton and Wollaton East; Meadows and Wollaton West) has the highest percentage of at 96.5%.
- The lowest proportion is in Area 4 (Castle; Hyson Green and Arboretum; and Radford) although the percentage of residents agreeing that people get on well is still high at 91.5%.

RESIDENTS WHO SMOKE

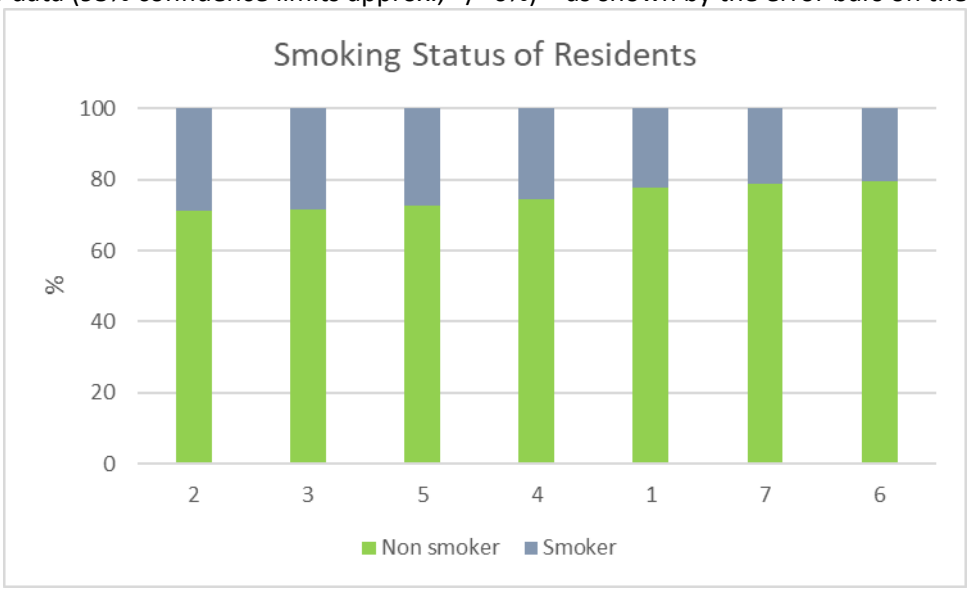

Proportion of residents who smoke tobacco and of residents who do not smoke

Prevalence of smoking by Area

Area	Total	I have never smoked	I used to smoke but I have given up now	I smoke but I don't smoke every day	I smoke every day
Area 1	246	57.8	19.9	4.9	17.5
Area 2	294	49.9	21.5	6.4	22.2
Area 3	273	51.4	20.3	3.3	25.0
Area 4	365	65.0	9.6	10.9	14.6
Area 5	168	57.0	15.7	2.9	24.3
Area 6	342	60.8	18.5	2.6	18.0
Area 7	311	65.8	12.9	7.0	14.3
Nottingham	**1999**	**58.8**	**16.6**	**5.8**	**18.8**

Source: Nottingham Citizens Survey 2019

Caveats: Rates are based on survey data and as such are subject to error. Please note that confidence limits therefore apply to data (95% confidence limits approx., +/- 6%) – as shown by the error bars on the graph below.

- Area 6 (Dales; St Ann's; and Mapperley) has the highest proportion of residents who are non-smokers than other Areas, at 79.3%.
- Area 2 (Basford; Berridge; and Sherwood) has the highest proportion of residents who are smokers, with 28.6% of residents smoking and 22.2% smoking very day.
- In three of the City's areas, more than 1 in 5 residents smoke daily.

Indices of Deprivation 2019: (Ministry of Housing, Communities and Local Government) The Indices of Deprivation measure the different types of deprivation experienced by individuals living in an area. Scores and Ranks are published for Super Output Areas but not for wards. The ward ranks above have been estimated by taking an average of the population weighted SOA scores for each City ward. These are unofficial. The City Ranks are out of 20. The SOA column gives the number in the worst 10% of SOAs in England and the total SOAs in the area.

CONTEXTUAL TABLE 5 - Students and Households

Students: Source: 2011 Census. Schoolchildren and full time students aged 18 and above. These figures are not comparable with figures previously published in ward reports, as they will include some students attending colleges and sixth forms as well as University students.

Households: Total households are estimates using Council Tax information, so are not comparable with figures published in previous Ward Reports. Student households are from November 2019 Council Tax exemption records with adjustments made to include an estimate of student "households" in halls of residence and purpose built student properties.

A household is defined as "a person living alone or people living at same address sharing a living or sitting room or sharing at least one meal per day". Because this relates to people, rather than buildings, vacant dwellings will not be included. The intention is that households in purpose-built student dwellings are excluded, but some may be included.
