WARD REPORT 2020

INTRODUCTION

This is the fourteenth annual One Nottingham Ward Report, and the third to provide data for the new wards of Nottingham which were implemented following the local elections in May 2019.

The report includes contextual data on Demographics – including age, sex, ethnicity and deprivation, plus data for a number of indicators, covering the themes of Worklessness; Education; Health; Crime and Liveability. There are no indicators from the Citizen's Survey this year as the survey did not take place in 2020.

The report provides data at a Ward and Area Committee level.

Data have been provided by a number of Agencies and Partners, including: Department for Work and Pensions; Public Health and Nottinghamshire Police.

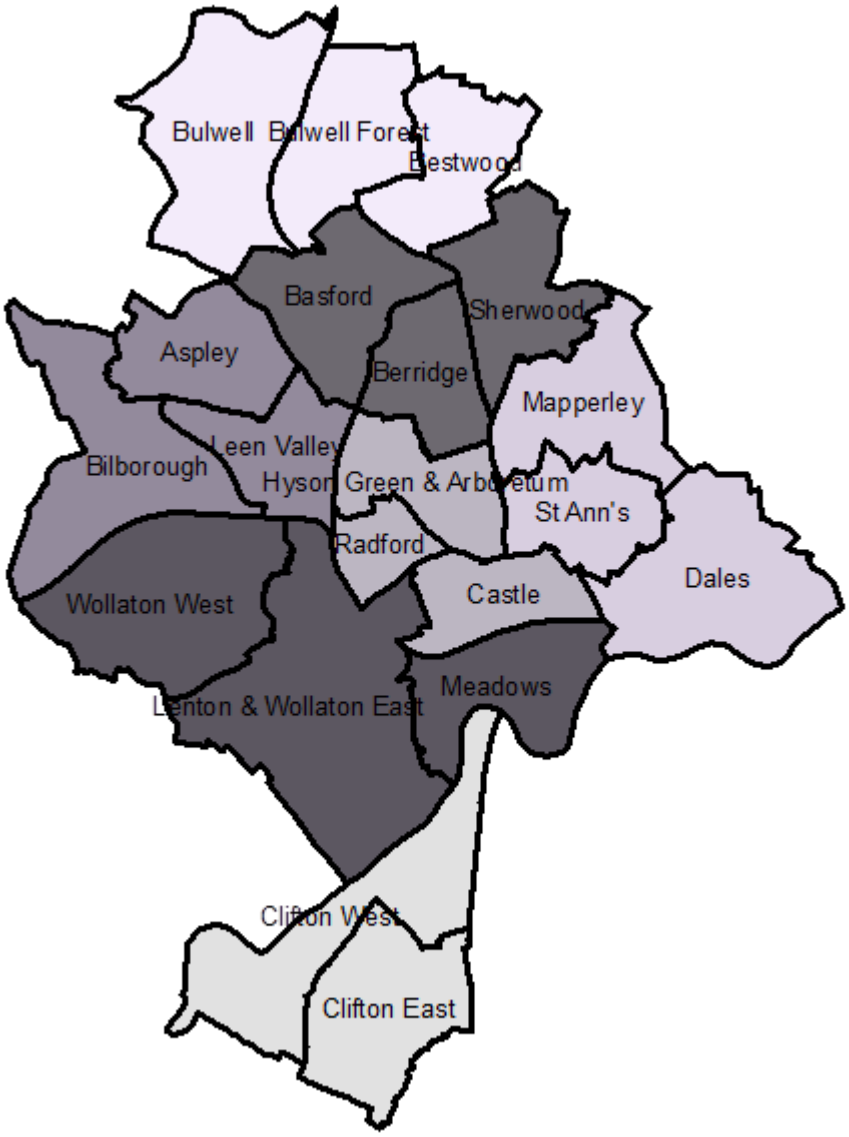

The contextual tables include data from the Office for National Statistics and the Department for Communities and Local Government, and much is subject to Crown Copyright. Please quote the source when using the data.

Other data and analysis are available on the Nottingham Insight website (www.nottinghaminsight.org.uk), which also includes further contextual data from the 2011 Census, the 2019 Indices of Deprivation, plus Ward Reports from the past few years.

If you would like any further information about this report, please contact Nicola Kirk in the Policy and Research team in the City Council, on (0115) 876 3979, or by e-mail, at: nicola.kirk@nottinghamcity.gov.uk

The table and map below show which of the new City wards make up each Area Committee.

Area
Aspley; Bilborough; Leen Valley
Basford; Berridge; Sherwood
Bestwood; Bulwell; Bulwell Forest
Castle; Hyson Green and Arboretum; Radford
Clifton East; Clifton West
Dales; St Ann's; Mapperley
Lenton and Wollaton East; Meadows; Wollaton West

CLAIMANT COUNT

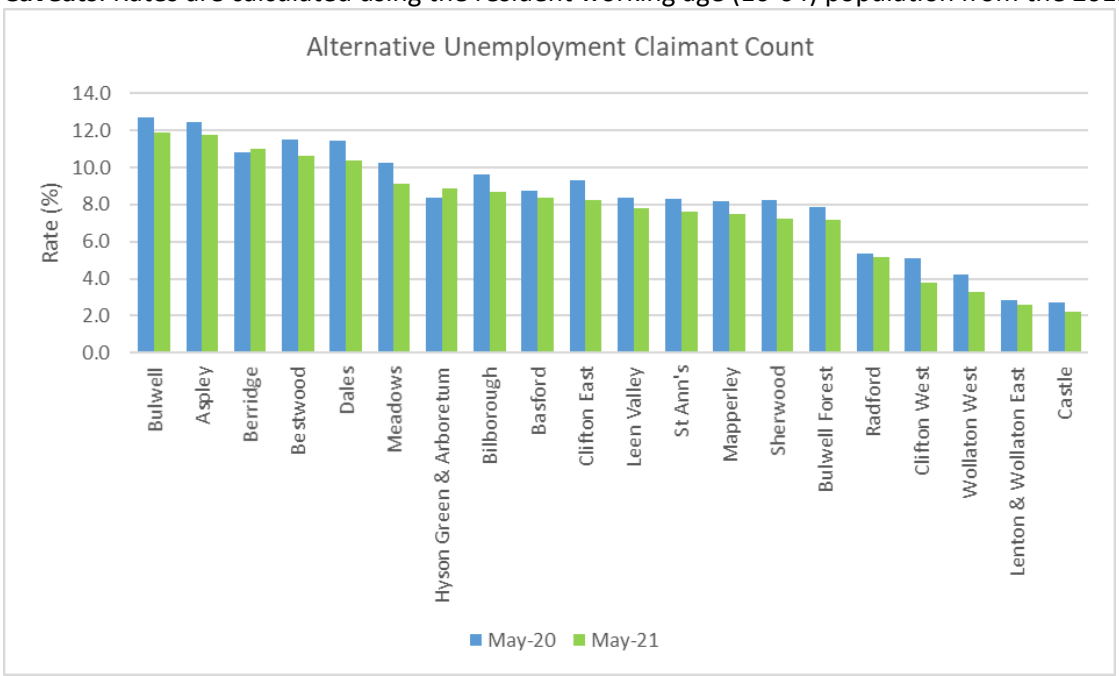

Number of people claiming Job Seekers Allowance or Universal Credit claimants looking for employment, and proportion of resident working age population

Alternative Claimant Count by Ward

	May 2020		May 2021		Change	
Ward	**Number**	**%**	**Number**	**%**	**Number**	**%**
Aspley	1464	12.5	1386	11.8	-78	-5.3
Basford	954	8.8	910	8.4	-44	-4.6
Berridge	1307	10.8	1327	11.0	20	1.5
Bestwood	1214	11.5	1120	10.6	-94	-7.7
Bilborough	964	9.6	869	8.7	-95	-9.9
Bulwell	1262	12.7	1181	11.9	-81	-6.4
Bulwell Forest	630	7.9	572	7.2	-58	-9.2
Castle	367	2.7	298	2.2	-69	-18.8
Clifton East	981	9.3	869	8.2	-112	-11.4
Clifton West	352	5.1	263	3.8	-89	-25.3
Dales	1270	11.4	1152	10.4	-118	-9.3

Nottingham	**18,700**	**8.1**	**17,405**	**7.5**	**-1295**	**-6.9**

Source: DWP Alternative claimant Count via StatXplore

- Please note: The Alternative Claimant Count measure of unemployment has been created to attempt to solve problems caused by the gradual roll out of Universal Credit – which has a wider definition of unemployment than under Job Seekers Allowance. The alternative claimant count therefore contains three groups of claimants: current JSA claimants; current UC claimants in the 'searching for work' category; and 'additional claimants' who would be classed as unemployed under UC but are not currently claiming UC.
- Unemployment decreased by 1295 across the City between May 2020 and May 2021, with 18 wards seeing decreases.
- The largest increase was in Dales ward – with 118 fewer claimants.
- Just two wards saw increases, the largest of which was in Hyson Green and Arboretum with 97 more claimants.
- Bulwell ward has the highest unemployment rate at 11.9%, and Castle ward has the lowest, with 2.2% of the population aged 16-64 claiming - although rates in this ward are slightly skewed due to the large numbers of students.

OUT OF WORK BENEFITS

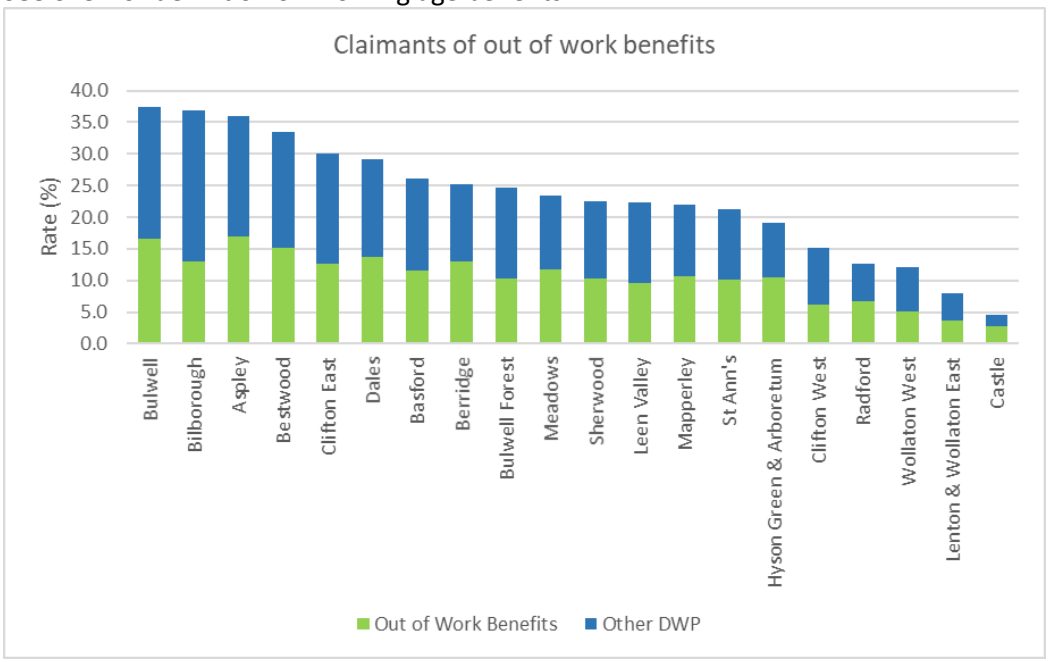

Number of people claiming out of work benefits and proportion of resident working age population

Out of work benefit claimants by Ward, November 2020

		All working age benefits		Out of work benefits		Other DWP benefits	
Key	**Ward**	**Number**	**%**	**Number**	**%**	**Number**	**%**

- **Definition:** DWP have produced a new dataset which aggregates all DWP administered benefits and allows the total number of people claiming benefits in the City to be counted without any duplication of claimants who receive more than one DWP benefit. This replaces and improves upon the old working age client group dataset which was discontinued as it was unable to integrate newer benefits such as Universal Credit and Personal Independence Payments.
- The highest rate of out of work benefit claimants is in Bulwell ward – where 16.6% of the population aged 16-64 are claimants.
- The lowest rate is in Castle, with a claimant rate of just 2.8%.

PREMATURE DEATHS FROM CANCER

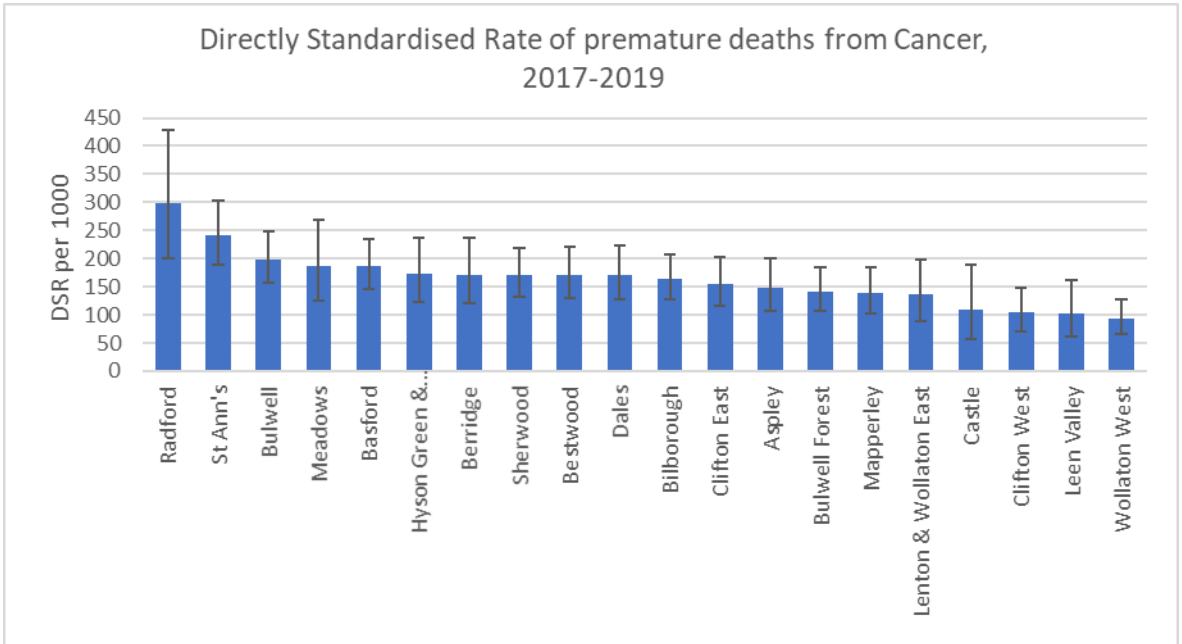

Directly Standardised Rate of Deaths of under-75-year olds from Cancer, per 100,000 population

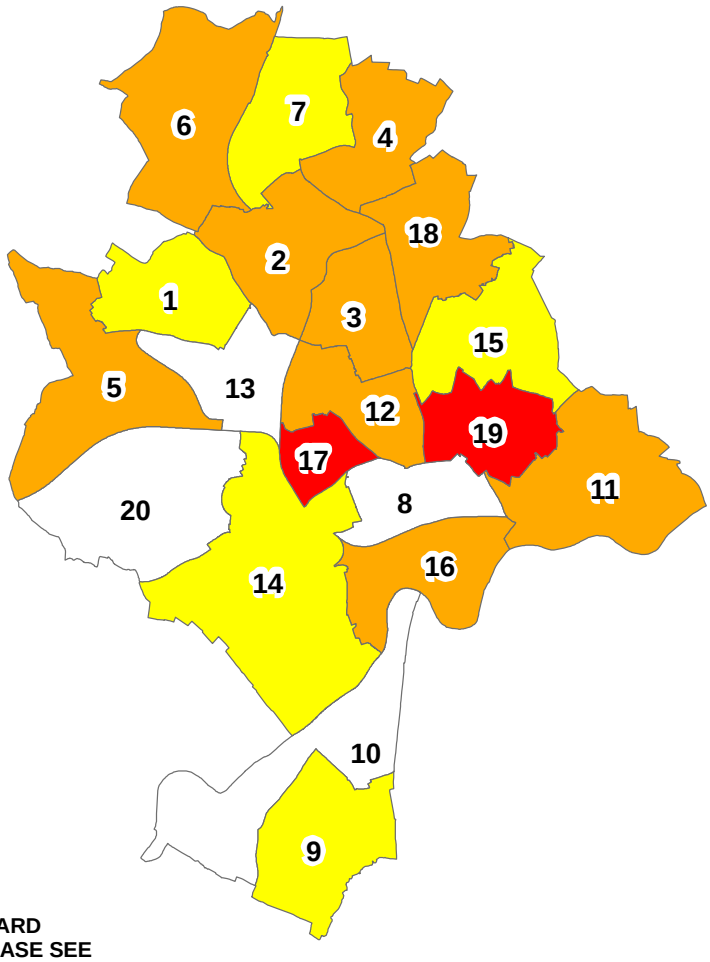

Directly Standardised Rate per 100,000 by Ward

		2017-2019			
Key	Ward	Directly Standardised Rate	LCL	UCL	No. of Events
1	Aspley	148.9	107.7	200.2	47
2	Basford	185.9	144.6	235.4	70
3	Berridge	171.6	120.7	236.1	40

See over for caveats and definitions.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

- **Definition:** Rates are Directly Standardised to the European Standard Population to allow for the differing age and sex structures in each area. In 2013, the European Standard Population which had been in use since 1975 was updated and thus rates published here are not comparable with those published previously.
- The rates are based on three years of pooled data and are per 100,000 population.
- **Caveats:** Please note the upper confidence limit (UCL) and lower confidence limit (LCL) figures in the table and indicated on the chart above by the error bars. These overlap for many of the wards meaning they are not significantly different to one another.
- The highest rate of premature deaths from Cancer is in Radford ward, at 299 per 100,000 population. The lowest rate is in Wollaton West, at 93 per 100,000.
- Due to the large confidence limits, many differences between wards are not statistically significant, but Wollaton West has a significantly lower rate than 7 other wards.

PREMATURE DEATHS FROM CIRCULATORY DISEASE

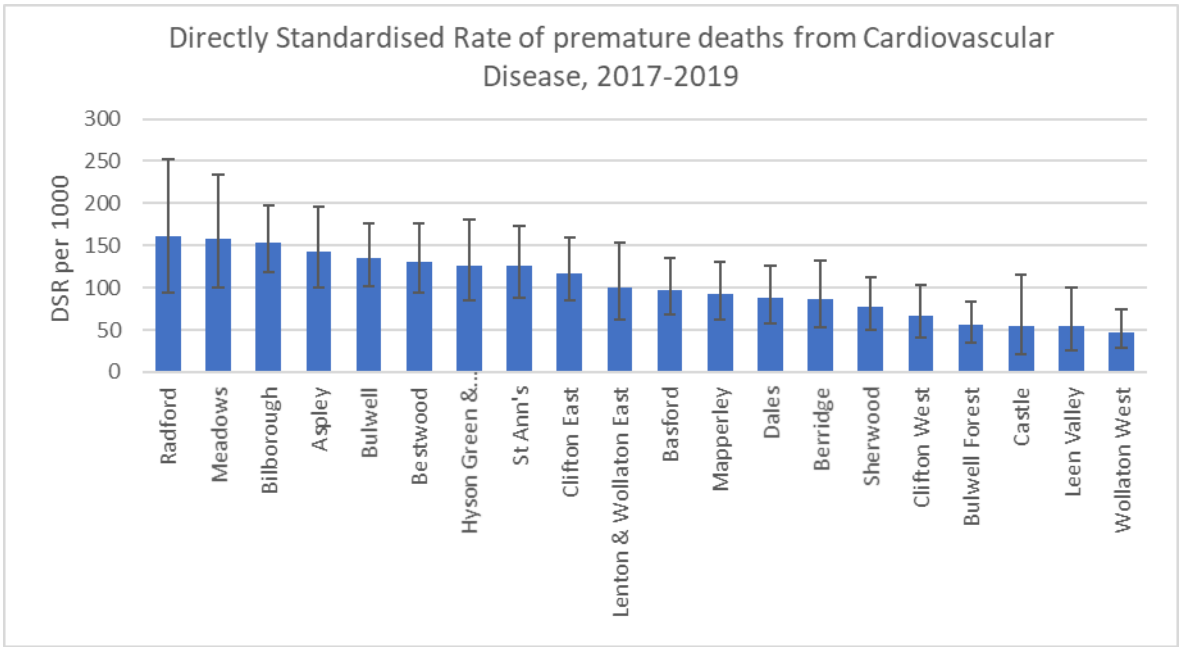

Directly Standardised Rate of Deaths of under-75-year olds from Circulatory Disease, per 100,000 population

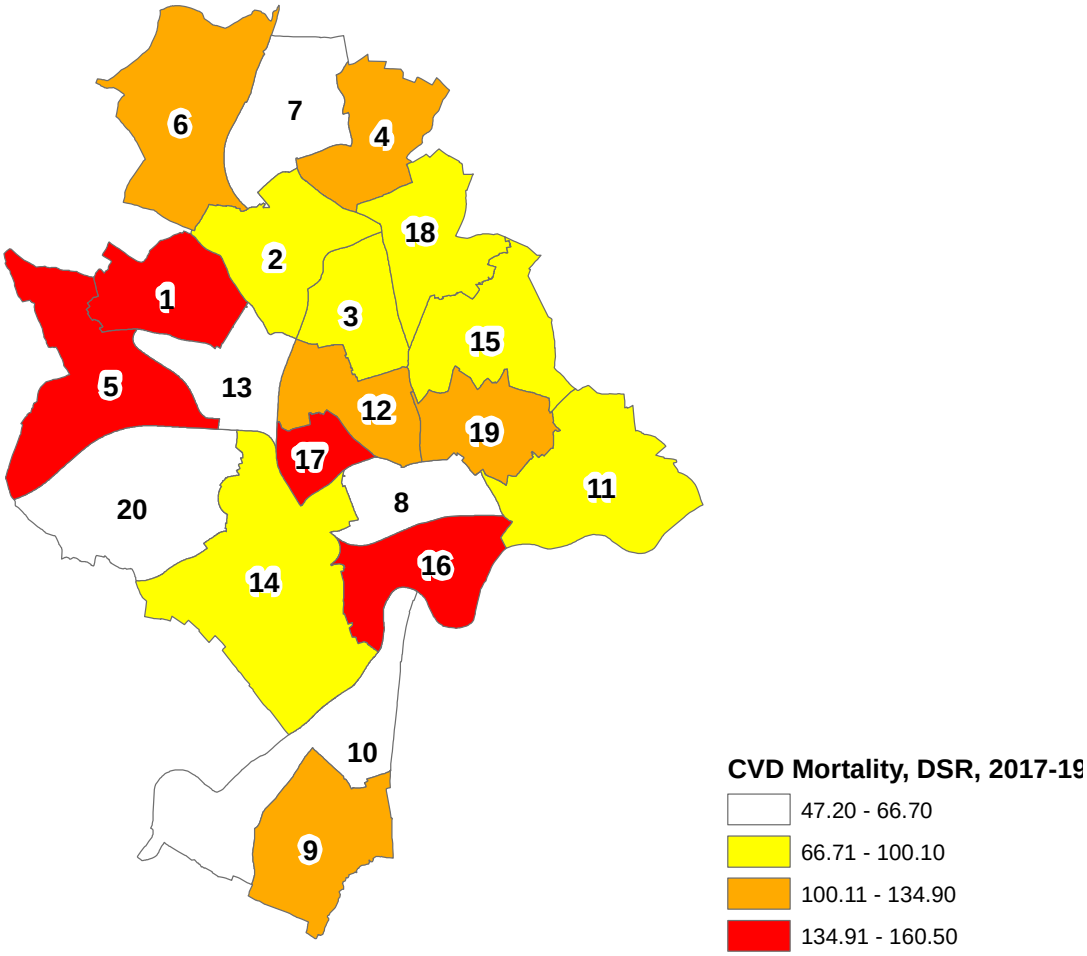

Directly Standardised Rate per 100,000 by Ward

		2017-2019			
Key	Ward	Directly Standardised Rate	LCL	UCL	No. of Events

- **Please note:** the y-axis on the graphs opposite do not start at 0. Please also note that the range on the maps has been manually amended to show the same categories.
- **Please note:** Some wards may have a higher rate than others but not be significantly different due to the large confidence intervals.
- For males, the highest life expectancy at birth is in Wollaton West ward at 82.3, and females it is Castle ward, at 87.0.
- The lowest life expectancy at birth for males and females is in Meadows ward at 72.5 and 77.2 respectively.
- For males, the gap in life expectancy at birth between the highest and lowest is 9.8 years. For females this is higher, at 15 years.

- **Definition**: Percentage of eligible pupils in schools maintained by the Local Education Authority achieving at least the expected standard in the Key Stage 1 Assessments who are resident within Nottingham City.
- **Please note:** Figures for wards are given for pupils resident in the City and attending City schools but may exclude a few pupils where their address could not be geo-coded.
- **Please note:** The categories on the maps above have been manually adjusted to enable comparisons between the three subjects.
- The highest rates of attainment in two of the three elements of Key Stage 1, reading and writing, are seen in Wollaton West with over 79.4% reaching the expected standard in reading and 75.8% in writing. The highest rate of attainment in maths are seen in Sherwood ward, with 80.8%.
- The lowest rates of attainment in reading, writing and maths are in Berridge, Lenton and Wollaton East, and Hyson Green and Arboretum.

- **Definition:** Percentage of eligible pupils in schools maintained by the Local Education Authority achieving at least the expected level in the Key Stage 2 tests and assessments who are resident within Nottingham City.
- **Please note:** Figures for wards are given for pupils resident in the City and attending City schools but may exclude a few pupils where their address could not be geo-coded.
- **Please note**: Key Stage 2 tests are sat by pupils in their final year of primary school when they are 11 years old.
- Sherwood ward saw the highest level of attainment in Reading, Writing and Maths at Key Stage 2 in 2019, with over three quarters of pupils achieving the expected level. Wollaton West had the highest level of attainment for Grammar, Punctuation and Spelling, at 91.8%.
- The lowest rate of attainment was in Castle ward, but this was based on very few children taking the assessments.

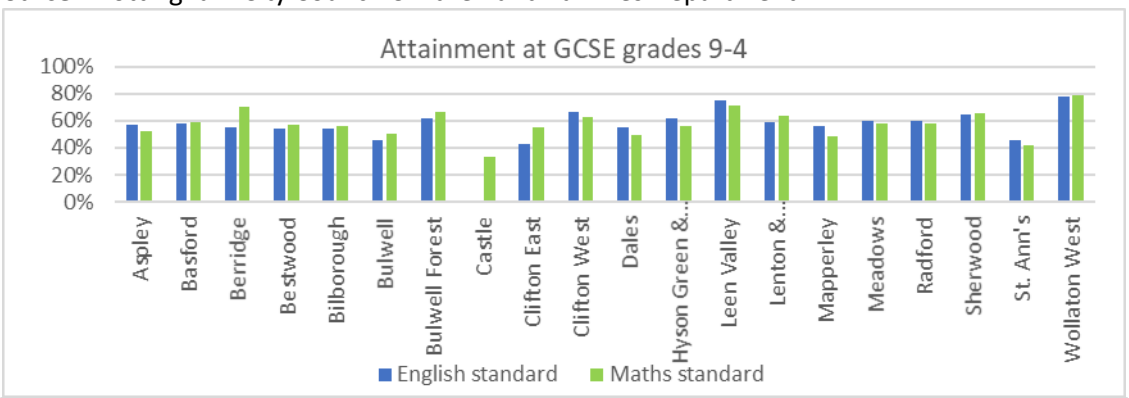

KEY STAGE 4: 5 GCSEs INCLUDING ENGLISH AND MATHS

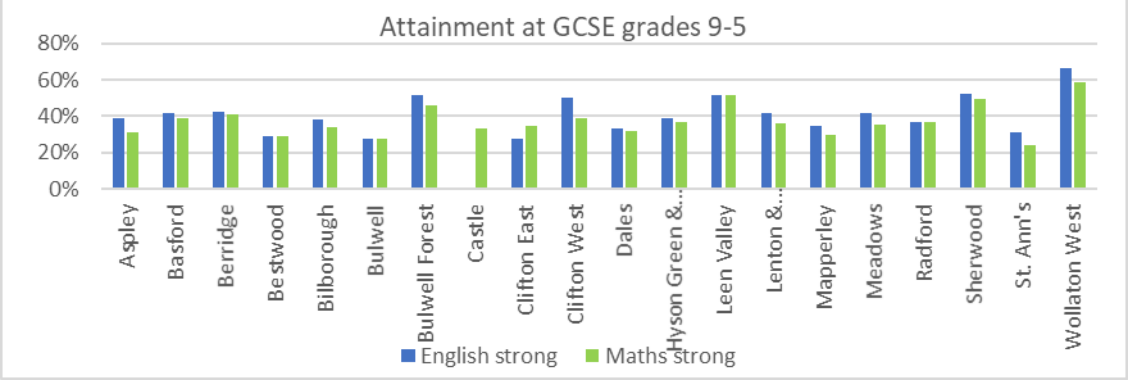

Percentage of pupils aged 16 achieving standard (grade 9-4) or strong (grade 9-5) GCSEs in English and Maths

English **Maths**

- **Definition:** The percentage of pupils who attained grade 9-4 or 9-5 in GCSE English and maths. The grading of English and Maths GCSEs was reformed in 2017 from A-F. The reformed grade 9-4 equates to an old grade C or above. **Please note:** Figures for wards are given for pupils resident in the City and attending City schools but may exclude a few pupils where their address could not be geo-coded. The Nottingham rate is for all pupils, including those who live outside of the City and those who could not be geo-coded to an area.
- The highest percentage of pupils attaining standard (9-4) and strong (9-5) passes in English is in Wollaton West ward with 77.9% and 66.2% of pupils respectively in 2019.
- The highest percentage of pupils attaining standard (9-4) and strong (9-5) passes in maths is also in Wollaton West ward with 79.3% and 58.6%
- The lowest rates are in Clifton East for English and St Ann's for maths.

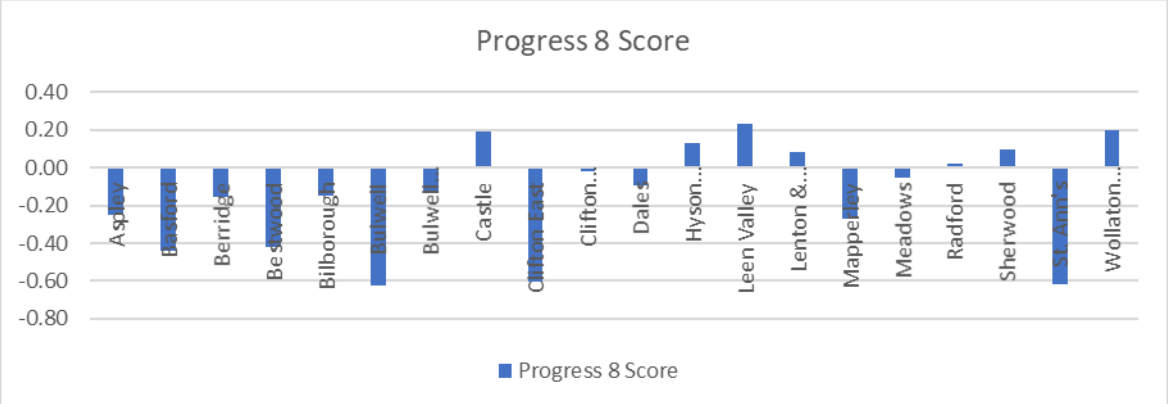

KEY STAGE 4: ATTAINMENT 8 AND PROGRESS 8 SCORES

Pupils resident in City	**-0.16**	**41.50**

Source: Nottingham City Council Children and Families Department

- **Attainment 8** measures the achievement of a pupil at Key Stage 4 across 8 qualifications including maths and English.
- **Progress 8** measures the progress a pupil makes from the end of primary school to the end of secondary school. It compares their achievement –their Attainment 8 score – with the average Attainment 8 score of all pupils nationally who had a similar starting point at the end of primary school. The greater the Progress 8 score, the greater the progress made. A score above zero means pupils made more progress, on average, than pupils across England who got similar results at the end of key stage 2 and vice versa.
- The highest attainment 8 score is in Wollaton West ward, at 51.38 in 2019. Every other ward had a score lower than 50, with the lowest being St Ann's ward at 36.09.
- The highest progress 8 score is in Wollaton West ward, at 0.20 in 2019 – one of seven positive scores, with the lowest progress 8 score being in Bulwell, at -0.63.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Dwelling Burglary Rate per 1000, 2020

- 4.09 - 6.42
- 6.43 - 8.81
- 8.82 - 12.15
- 12.16 - 21.74

- **Definition**: A person is guilty of a dwelling burglary (domestic burglary) if they enter any part of a dwelling (fit for habitation) as a trespasser and steal or attempt to steal anything in the building or attempt to inflict any grievous bodily harm on any person in the building (or intend to carry out any of these acts).
- **Please note:** From April 2017 incidents recorded previously as Burglary Dwellings became Burglary – Residential and included offences within the residential boundary such as in sheds, garages, and outbuildings, which had previously been recorded as Burglary Other.
- The highest rate of dwelling burglary is in Radford, at 21.7 per 1,000 households.
- The lowest rate is in Bulwell Forest ward, with just 4.1 per 1,000 households.
- Four wards saw an increase in the number of dwelling burglaries over the previous year, although there was an overall decrease of 294 incidents across the City.
- The largest increase was in Dales with 15 more incidents. The largest decrease was in Berridge ward – with 45 fewer burglaries, a fall of a third.

FOR KEY TO WARD NUMBERS, PLEASE SEE WARD TABLE OPPOSITE

Violent Crime, Rate per 1,000, 2020

- 12.0 - 22.2
- 22.3 - 29.5
- 29.6 - 46.6
- 46.7 - 94.4

- **Definition**: Violent crime covers a number of offences where physical or verbal assault has taken place on an individual (this includes threats of violence). Offence types range from harassment, to assault, to grievous bodily harm and murder, but the number of serious offences tend to be relatively small. Sexual Offences are also included in this category. Violent crime includes Domestic Violence, which is defined by the Home Office as any violence between current and former partners in an intimate relationship, wherever the violence occurs.
- **Please note:** The figures are based on location of the crime, not residence of the offender or victim.
- The highest rate of violent crime is in Castle ward, at 94.4 incidents per 1,000 population. Note that Castle ward contains much of the City Centre area.
- The lowest rate is in Wollaton West, at 12 per 1,000 population.
- 9 wards saw an increase in incidents between 2019 and 2020, with the largest seen in Berridge ward – with 63 more incidents.

Source: Nottinghamshire Police

- **Definition:** Theft **from** a vehicle is where the intent is to steal from a vehicle rather than drive it away. Theft **of** a motor vehicle is committed if, without having the consent of the owner or other lawful authority, the perpetrator takes any vehicle for his own or another's use. This category includes other vehicles such as motorcycles and mopeds.
- **Please note:** Figures are for the location of the theft and not the residence of the offender or victim.
- The highest rates of vehicle crime (outside of the Castle/City Centre) are in the Leen Valley ward, with a rate of 7.1 per 1,000 population.
- The lowest rate is in Bulwell Forest with 3.7 incidents per 1,000 population.
- Across the City the number of vehicle crimes decreased by 738 incidents between 2019 and 2020.
- All but four wards experienced reductions in the number of vehicle offences in 2020 when compared to 2019.

SOCIAL SERVICES FOR OLDER PEOPLE

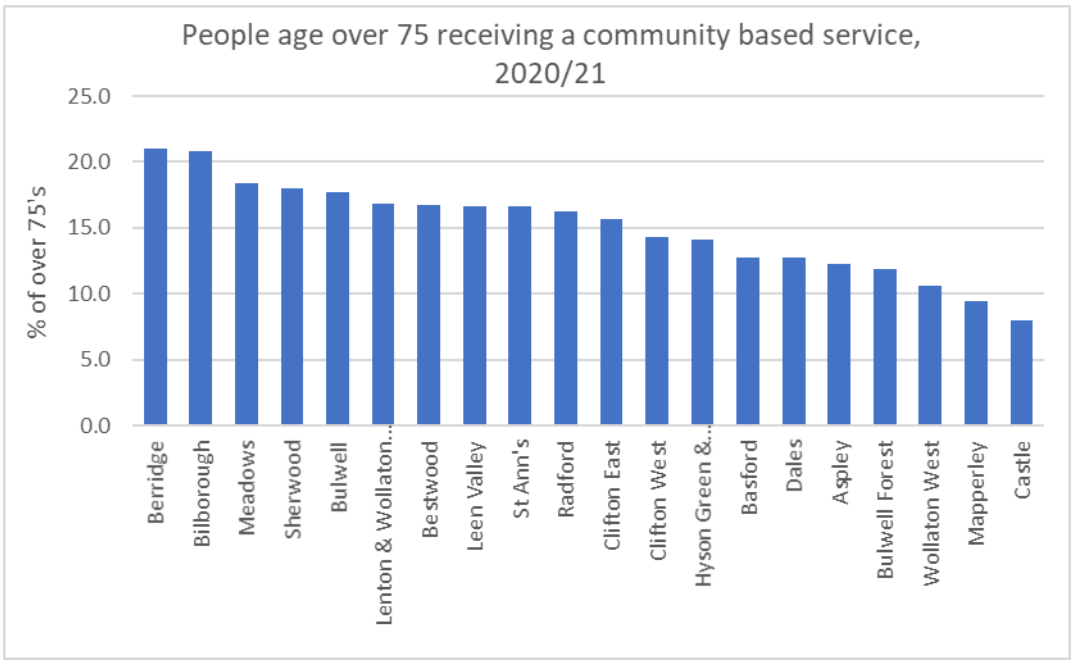

Number of people aged 75 and over who received a Community Based Social Service to enable them to live independently in their own home, plus rate per population aged 75 and over.

Social Services for Older People by Ward, 2020/21

Key	Ward	Number receiving a Social Service	Population 75+ (2019)	% receiving a Social Service

Source: Nottingham City Council Children and Families

- **Definition**: People aged 75 and over who received any Community Based Social Service during the year April 2020-March 2021. The number does not include long term residential or nursing care, although short term care in a residential or nursing home does count as a Community Based Service.
- **Please note**: The location is the client's address at the end of the year. Some individuals may have moved address during this year and may no longer live at the address where the service was accessed.
- The highest rate of older people receiving a service is in Berridge ward where 21.1% of over 75's received a service, although the total numbers in the ward are lower than several other wards.
- Bilborough has the highest number of older people receiving a service – at 269. This is 55 people more than the second highest ward, Clifton East, despite Bilborough having a slightly smaller number of over 75s.

Indices of Deprivation 2019: (Ministry of Housing, Communities and Local Government) The Indices of Deprivation measure the different types of deprivation experienced by individuals living in an area. Scores and Ranks are published for Super Output Areas but not for wards. The ward ranks above have been estimated by taking an average of the population weighted SOA scores for each City ward. These are unofficial. The City Ranks are out of 20. The SOA column gives the number in the worst 10% of SOAs in England and the total SOAs in the area.

Students: Source: 2011 Census. School children and full-time students aged 18 and above. These figures are not comparable with figures previously published in ward reports, as they will include some students attending colleges and sixth forms as well as University students.

Households: Total households are estimates using Council Tax information, so are not comparable with figures published in previous Ward Reports. Student households are from November 2019 Council Tax exemption records with adjustments made to include an estimate of student "households" in halls of residence and purpose-built student properties.

A household is defined as "a person living alone or people living at same address sharing a living or sitting room or sharing at least one meal per day". Because this relates to people, rather than buildings, vacant dwellings will not be included. The intention is that households in purpose-built student dwellings are excluded, but some may be included.
